

Collier County Storm Surge Vulnerability and Shelter Map

NOTE: Not all shelters will be opened. If you cannot stay with family/friends or in a hotel/motel outside of the risk area, go to www.CollierEM.org for public shelter openings and other emergency information.

The "shaded area" on this map represents the worst-case hurricane storm surge model run for landfalling storms up to and including a Category 2 hurricane. If you live in this area, you need to have an evacuation plan and listen to the emergency officials for detailed instructions.

EVACUATION AREAS

When a storm threatens, evacuation areas will be defined by known landmarks, e.g., roads or communities. Please monitor your local media for up-to-date information. If you have the internet available, go to: <http://www.CollierEM.org>

Evacuation & Shelter Information

For hazardous weather conditions, people residing in low lying areas and in mobile home parks should consider seeking safe shelter when conditions warrant.

When an evacuation is ordered and you are in the affected area requiring transportation to a shelter, the Collier Area Transit (CAT) mass transportation service will pick up evacuees along their normal routes and stops.

When a disaster threatens, our Collier Information Center phone bank will be opened to answer your questions. Call 3-1-1 or 252-8444.

PET SHELTER: For pet shelter information call Collier's Domestic Animal Svs. @ 252-7387.
