

## 814 Erosion/Silt Fence Video Inspection

Permit # \_\_\_\_\_

Address: \_\_\_\_\_

### INTRODUCTION:

#### All 814 Video Inspections must begin with the Following:

- ☐ State your name, company, the date and time of the recording.
- ☐ Provide a close-up of address numbers (if available for accessory structures) or the inspection board.
- ☐ Inspection Board must contain address and permit number of the project.
- ☐ Provide close-up of Permit Card inside the inspection board.

### EROSION/ SILT FENCE:

#### Video must include:

- ☐ Walk the perimeter of the construction area.
- ☐ Provide overview of silt fence, showing the entire construction area has been fenced.
- ☐ Silt fence must be installed around disturbed construction area only, not the entire lot.
- ☐ Provide close-up of silt fence, showing the silt fence has been buried according to FDEP Silt and Erosion BMPs and LDC 6.01.05.
- ☐ Pull on several areas of the silt fence to show it has been backfilled properly.

#### Prior to Uploading:

- ☐ Follow File naming convention (Permit number).(Inspection Code).(Date). For example, PRSF2022000.814.6-29-22.
- ☐ Verify permit status is "Issued" or "Inspections Commenced"

I \_\_\_\_\_ (printed name of authorized submitter) as an authorized person to upload video inspection files in accordance with Collier County Virtual Inspection procedures. I have reviewed the video and have checked off all applicable boxes above prior to uploading to BOX, as required by Collier County requirements.

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

**Disclaimer:** Any video that does not follow the above procedure will be subject to a "Failed" inspection, including reinspection fees. Inspectors reserve the right to visit any site to verify the silt fence is in place and properly installed. Inspectors have the authority to convert a Recorded Inspection to an in-person inspection at their discretion. At no time may silt fencing be in the Right-of-Way or swales blocked.
