CEVR20230000814	VR	Open	01/29/2023	1549 Sandpiper St	1549 Sandpiper Street in Naples, consisting of Florida Oak trees, Sable Palms, Florida Pines, etc that were originally kept on the property for a reason when the condominium buildings were built, are now being removed for no apparent reason and without permits. These trees are being removed on weekends when there are no code enforcement agents available to determine why the trees are being removed or to catch them in the act of removing the trees. There was an owner who asked one of the men removing the trees the name of the company since the company logo on the truck had been removed and the workers had no logo on their shirts. The worker would not reply. Moments later, a board member threatened to the police if this owner interfered in the trees being cut down. I am able to provide pictures and video footage including the license plate of one of the worker's trucks.
