

## Water Rate Adjustment Effective January 1, 2024

Dear valued customer,

We are writing to inform you of an upcoming change in rates for the Collier County Water Sewer District. New rates for water, wastewater and irrigation quality water will be in effect for services as of January 1, 2024.

This adjustment in rates is a necessary step to ensure that we can continue delivering the high-quality water you've come to expect from us. The District has experienced a rise in operating and maintenance costs along with continued investment in capital repair and rehabilitation projects.

Rate increases of 9% percent for water, 9.5% percent for sewer and 9.5% for irrigation quality water will be reflected in the February 2024 bills. In the table on the next page, you will see the new monthly charges. The cost for an average residential customer, with a 3/4-inch meter and usage of 5,000 gallons of water, will be \$50.43 for water service, representing an increase of \$4.18 per month. Residential customers with a 3/4-inch meter and usage of 5,000 gallons will pay \$78.22 for sewer service, representing an increase of \$6.78 per month.

We appreciate your understanding and ongoing support as we work together to ensure a sustainable and reliable water supply for our community. If you have any questions regarding this rate adjustment, please do not hesitate to contact our customer service team at 239-252-2380. For more information and to review convenient billing options, visit [colliercountyfl.gov/utilitybilling](http://colliercountyfl.gov/utilitybilling).

We take pride in our commitment to providing safe, clean and reliable water services to the residents of Collier County. Thank you for being a valued customer and we look forward to continuing to serve you with the highest standards of excellence.

Sincerely,

*Customer Service*
