#### Forecast FY 2023:

Personal services are forecasted slightly lower than the FY 2023 Adopted Budget due to vacancies, which is partially offset by the transfer of one (1) FTE from Capital Projects Management and one (1) from Admin. Technical & Contract Services.

Operating expenses are forecast higher than the adopted budget as a result of a continued need for temporary labor to account for vacancies and staffing needs as well as trade contract and supply requirements.

Capital increased due to truck purchases that rolled over from FY 2022.

#### Current FY 2024:

Personal Services are budgeted to be higher due to due to the aforementioned mid-year transfers of one (1) FTE from Capital Projects Management, one (1) from Admin. Technical & Contract Services, a general wage adjustment and implementation of a merit-based incentive program.

Operating expenses are budgeted lower due to decreases in minor operating equipment, fuel, and supplies.

Capital Outlay includes a replacement vehicle that is not part of the motor pool program.

In addition to the budget illustrated on this page, the Division budgets and manages a capital appropriation in the County-Wide Capital Improvement Fund (301) to provide roof replacements, HVAC replacements, general building and life safety upgrades, security improvements, painting, and restoration/renovation services.

#### Revenues:

Forecast revenue from special services performed on a reimbursement basis are higher than budget.

Total budgeted revenue includes \$355,000 from special services performed on a reimbursement basis.

## **Public Utilities Department**

# Facilities Management Division Admin, Technical & Contract Services (001/0001)

#### **Mission Statement**

To deliver high quality best value management, maintenance, security, energy management, and operational support to all agencies of Collier County Government.

## **Public Utilities Department**

# Facilities Management Division Admin, Technical & Contract Services (001/0001)

#### Forecast FY 2023:

Personal services are forecasted below the budgeted level due to vacancies.

Operating expense is forecasted below the adopted budget as a result of a 20% fill rate deficit in contracted security and new lower pest control contracted rates.

Forecast revenues are higher than budgeted revenues due to higher than anticipated interdepartmental revenues.

#### Current FY 2024:

Personal services budgeted higher due to a general wage adjustment and the implementation of a merit-based incentive program.

Operating expenses are budgeted slightly lower than the adopted FY 2023 budget.

#### Revenues:

Total budget revenues include \$35,000 for special services performed on a reimbursement basis.

Fiscal Year 2024 7 - 47 Public Utilities Department

### **Public Utilities Department**

# Facilities Management Division Capital Project Management (001/0001)

#### **Mission Statement**

To provide cost-effective project management and delivery services to all Collier County Government agencies. We aim to plan, develop, construct, and renovate the county's buildings and infrastructure while prioritizing the needs of our customers. Our commitment includes managing projects with an unwavering focus on safety.

| Program Summary                            | FY 2024   | FY 2024   | FY 2024  | FY 2024   |

Fiscal Year 2024 7 - 48 Public Utilities Department

### **Public Utilities Department**

# Facilities Management Division Capital Project Management (001/0001)

#### Forecast FY 2023:

Personal services are forecasted lower than FY 2023 adopted budget due to a mid-year transfer of one (1) FTE to Facilities Management (001/0001) and several extended vacancies.

Operating expenses are forecasted slightly lower than budget level due to only a partial fiscal year of forecasted temporary labor and minor operating equipment less than budgeted.

#### Current FY 2024:

Personal services are budgeted higher due to a general wage adjustment and implementation of a merit-based incentive program which is partially offset by the aforementioned mid-year transfer of one (1) FTE to Facilities Management (001/0001)

Operating Expenses are higher than the FY2023 Adopted Budget due to an increase in professional development and the IT allocation.

Fiscal Year 2024 7 - 49 Public Utilities Department

## **Public Utilities Department**

# Facilities Management Division Real Property Management (001/0001)

#### **Mission Statement**

To provide professional property acquisition and management services that exceed customer expectations through courteous, expeditious, and knowledgeable handling of real estate transactions.

| Program Summary   | FY 2024<br>Total FTE | FY 2024<br>Budget | FY 2024<br>Revenues | FY 2024<br>Net Cost |

#### Forecast FY 2023:

Personal services and operating expenses are forecast slightly below budget.

#### Current FY 2024:

Personal services are budgeted slightly higher due to a general wage adjustment and implementation of a merit-based incentive program which is partially offset by several retirements.

Operating expense in line with FY 2023 budget.

#### Revenues:

Revenue services are forecast less than budget. Reimbursements are received for work performed by Real Property staff for Public Utilities Department, Public Services Department, Administrative Services Department, and other client departments. Fewer billable hours due to employee vacancies as well as delays in customer approval of billings are reflected in the reduced revenue forecast.

FY 2024 Revenue is budgeted less than FY 2023 Adopted Budget but is in line with the last several years of actuals. Departmental reimbursements are expected from Public Utilities Department, Public Services Department, Administrative Services Department, and other client departments.

Fiscal Year 2024 7 - 51 Public Utilities Department

### **Public Utilities Department**

# Facilities Management Division GAC Land Trust Fund (605/1057)

#### **Mission Statement**

To efficiently and effectively market Golden Gate Estates lots currently owned by Collier County, and identify needs for services within the Golden Gate Estates area and to set priorities for the funding of necessary improvements and/or support equipment to provide these services.

### Forecast FY 2023:

Forecasted Remittances include \$352,000 to provide Collier County Emergency Medical Services Division funding for the purchase of an ambulance, stretcher, and cardiac monitor for EMS Station 74, located at the intersection of DeSoto Boulevard and Golden Gate Boulevard.

#### Current FY 2024:

Funding requests and sale opportunities will be brought before the Board of County Commissioners for approval. A small operating budget is provided for needed services with the balance of available funding budgeted in reserves.

#### Notes:

The Freedom Memorial is located at the Freedom Park, also known as the Gordon River Water Quality Park, located on the northeast side of Golden Gate Parkway and Goodlette Road. On February 10, 2015 via Agenda Item 10A, the Board of County Commissioners in FY15 approved matching private contributions of \$600,000 to finish the Freedom Memorial. The cost to complete the project was \$1.2M. Current activity includes small enhancements on a funds available basis.

#### Forecast FY 2023:

Contributions continue to be received and utilized for the ongoing addition of smaller commemorative enhancements.

#### Current FY 2024:

Budgeted expenditures provide for the ongoing addition of smaller commemorative enhancements.

#### Revenues:

Funding is provided by the carry forward of previous contributions with new contributions budgeted subsequent to receipt.

### **Transportation Management Services Department**

### **Trinity Scott**

The Transportation Management Services Department includes six divisions: Capital Project Planning, Impact Fees & Program Management; Fiscal & Grant Services; Operations & Performance Management; Public Transit & Neighborhood Enhancement; Road Maintenance; and Transportation Engineering & Construction Management. These divisions manage a diverse portfolio of essential countywide projects, that directly support the focus areas and objectives identified in the most recent Strategic Plan Update. These projects include bridge replacements, repair, and additions, traffic operations upgrades and signal hardening; right-of-way acquisitions; stormwater control structures and conveyance systems; beach renourishment projects, airport capital improvements, as well as bus stop installation and rehabilitation. In addition, the Division staff are responsible for operations and maintenance of a multitude of assets, including operating three airports; roadways and bridges; roadside ditches; sidewalks; bike paths; underground stormwater infrastructure, storm channels, culvert systems, and emergency storm pumps; landscape medians; street lighting; and fixed route and paratransit bus services. Funding sources for the programs include impact fees, gas tax, sales surtax, general funds, airport user fees, ad valorem taxes, transit fares, and grants. All Divisions have met the budget guidance outlined by the County Manager's office and the Board of County Commissioners.

The Department continues to recover from Hurricane lan as we move into permanent repairs. Staff is working closely with FEMA representatives to ensure the maximum possible reimbursement. Facility usage and traffic data has proven that the County remains in a growth pattern. The Department's strategic focus remains on preserving our infrastructure as we respond to this growth period where demand for new capital project execution is accelerated. Continuing prior years efforts, the Department will carry forward an aggressive stormwater capital program, continuation of construction of Vanderbilt Beach Road Extension, and the Transportation Investment Generating Economic Recovery (TIGER) Immokalee Mobility project and will continue preparation of several other major capital projects for construction such as Pine Ridge Road, Airport Road, Collier Boulevard and Oil Well Road. In addition, continuing a variety of bridge projects, intersection improvements, roadway enhancements, stormwater improvements, and ensuring timely completion of necessary maintenance. Staff diligently manages contractors and maintains tight fiscal controls, which have allowed the Department to achieve an enviable track record of successful project management. Maintenance operations scrutinizes asset management priorities utilizing the County's award-winning asset management team. The County's three airports continue to show a steady growth in revenues. Public Transit and Neighborhood Enhancement will begin design of a new maintenance facility to replace infrastructure that has met its useful life.

The Department continues to anticipate challenges such as supply chain delays, project cost inflation, and a stressed labor force by working with vendors to order long lead time items early in the project and mitigate project delays. In addition, staff continuously monitor costs to bid projects strategically. Department staff also leverage state and federal funds to ensure efficient use of the County's local funding sources, including shovel ready projects that may capitalize on federal discretionary opportunities and transportation authorization funds. Our ability to recruit, train, and retain key team members is a top priority in achieving the County's strategic goals. In FY 2024, the Department will continue to augment staffing with consultant/vendor assistance to ensure completion of the strategic objectives. The Department remains successful due to the hard-working and dedicated individuals that work tirelessly to provide exceptional service to the residents, business owners, and visitors of Collier County.

### **Transportation Management Services Department**

# Transportation Operations Construction & Maintenance Administration Office (101/1001)

#### Forecast FY 2023:

Personal services are forecast to increase over the FY 2023 adopted budget due to the transfer of two (2) FTEs, a Management Analyst I from Corporate Compliance and Continuous Improvement (001/0001) and Manager-Financial Operations from Coastal Zone (185/1102), as well as a retirement payout.

Operating expenses are forecast to be in line with the FY 2023 adopted budget.

### Current FY 2024:

Personal services decreased due to a transfer of four (4) FTEs, a Management Analyst I, a Management Analyst II, a Manager-Financial Operations, and a Public Information Coordinator II to the Asset Management, GIS Support and Performance Management Program (101/1001).

Operating expenses increased due to an increase in Property Insurance, Electricity, and Indirect Cost Reimbursement.

### **Transportation Management Services Department**

# Transportation Operations Asset Management, GIS Support and Performance Management (101/1001)

### **Mission Statement**

To deliver value to the community by providing relevant and timely information, GIS mapping, and asset management support for transportation, coastal zones, airports, and stormwater capital improvement and maintenance projects, technology solutions that enhance operational performance, and project management of department strategic initiatives.

## **Transportation Management Services Department**

# Transportation Operations Asset Management, GIS Support and Performance Management (101/1001)

#### Forecast FY 2023:

Personal services are forecast to increase in the FY 2023 adopted budget as a result of the general wage adjustment.

Operating expenses are forecast to be in line with the FY 2023 adopted budget.

### Current FY 2024:

Personal services increased due to a transfer of four (4) FTEs, Management Analyst I, a Management Analyst II, a Manager-Financial Operations, and a Public Information Coordinator II from the Construction & Maintenance Administration Office (101/1001), as well as a general wage adjustment and merit-based incentive program.

Operating expenses increased due to an increase in Minor Data Processing Equipment.

### **Transportation Management Services Department**

# Transportation Operations Transportation Development Review and Concurrency Mgt (101/1001)

### **Mission Statement**

To provide supervision, planning, engineering, and coordination within the Transportation Management Services Department, as well as with other departments/divisions to ensure the transportation planning activities are carried out in a timely, efficient, and economical manner, and in compliance with Florida Statutes, Chapters 163 and 339, and local ordinances through the review of development applications for the level of service, access management, site impact, and alternative transportation opportunities (i.e. walking, biking, car-pooling, etc.).

| Provide for the supervision and overall program planning of the Transportation Planning and Review Section consistent with County LDC requirement and applicable State Statutes (chapters 163 and 339). # Transportation Operations Transportation Development Review and Concurrency Mgt (101/1001)

### Forecast FY 2023:

Personal services are forecast to decrease over the FY 2023 adopted budget due to position vacancies of one (1) Planner III and one (1) Management Analyst I.

Operating expenses are forecast to decrease over the FY 2023 adopted budget due to a reduction in other contractual services.

### Current FY 2024:

Personal services increased due to a general wage adjustment and merit-based incentive program.

Operating expenses decreased due to a reduction in other contractual services.

### **Transportation Management Services Department**

# Transportation Operations Transportation Maintenance Road & Bridge (101/1001)

### **Mission Statement**

The Road Maintenance Division strives to maintain a safe and efficient county roadway system for the citizens and visitors of Collier County in support of Florida Statute Chapter 334.046; continually provide emergency response to all roadway/roadside hazards 24 hours per day, 7 days a week; provide continued road service and customer service that exceeds expectations.

#### Notes:

This budget carries the general operating costs for the division. Activities in the Unincorporated Areas of the county, such as lime rock road conversions, striping and marking, and bridge repairs are separate cost centers within the Road & Bridge Maintenance Fund (111) as well as components of the Transportation Capital Fund (310/3081) and Gas Tax Fund (313/3083).

### Forecast FY 2023:

Personal services are forecast to be slightly higher than the FY 2023 adopted budget as a result of the general wage adjustment.

Operating expenses are forecast to be in line with the FY 2023 adopted budget.

### Current FY 2024:

Personal services increased due to a general wage adjustment and merit-based incentive program and the addition of 17 expanded FTEs to create two additional crews to enhance the Swale Maintenance Program for \$1,194,200.

Operating expenses decreased due to reorganizing services to the proper funding source and expanded operating expenses to enhance the Swale Maintenance Program for \$ 49,900.

Capital Outlays include vehicles associated with the two crews that are part of the Swale maintenance program for \$478,700 for 2 Boom Mowers.

## **Transportation Management Services Department**

# Transportation Operations Transportation Road Maintenance (111/1011)

### Notes:

This budget provides for general maintenance of Unincorporated Area roadways including non-landscaped medians and right-of-way areas, lime rock pavement repairs, sidewalks, curbing, drainage infrastructure, installation of sod for erosion control, and minor bridge repairs.

### Forecast FY 2023:

Operating expenses are forecast to decrease over the FY 2023 adopted budget due to a reduction in lime rock pavement repairs.

### Current FY 2024:

Operating expenses increased due to reorganizing services to the proper funding source and an increase in contractual services.

## **Transportation Management Services Department**

# **Transportation Operations Traffic Operations Division (101/1001)**

### **Mission Statement**

To improve the safety and efficiency of county roadways and signal networks through sound engineering principles and effective maintenance.

| Program Summary  | FY 2024<br>Total FTE | FY 2024<br>Budget | FY 2024<br>Revenues | FY 2024<br>Net Cost |
|--|----------------------|-------------------|---------------------|---------------------|
| Sectional Administration/Overhead - RG   | 4.00                 | 1,381,500         | 110,900             | 1,270,600           |
| This section covers divisional management and administrative support staff. It also covers all overhead fixed costs for the division such as insurance, fleet maintenance, etc.  |                      |                   |                     |                     |
| Infrastructure Protection - IAM  | -                    | 5,000             | -                   | 5,000               |
| FS Chapter 556 requires Collier County to mark signal, streetlight, and fiber optic cable on County and State roadways within 48 hours of requests.  |                      |                   |                     |                     |
| Traffic Sign Maintenance - QP, IAM   | 6.00                 | 714,000           | 3,000               | 711,000             |
| This section installs and maintains the inventory of traffic signs and pavement markings throughout the county.  |                      |                   |                     |                     |
| Traffic Signal Maintenance - QP, IAM   | 9.00                 | 1,839,000         | 413,800             | 1,425,200           |
| This section maintains and repairs all traffic signals and flashing beacor within the county.  | ns                   |                   |                     |                     |
| Computerized Signal System Operation - QP, CD, IAM, RG   | 7.00                 | 960,200           | 79,500              | 880,700             |
| This section operates and maintains the computerized Traffic Signal System, coordinates construction projects with system requirements an re-times traffic signals.  | nd                   |                   |                     |                     |
| Streetlight Maintenance - QP, IAM  | 5.00                 | 1,498,400         | 386,900             | 1,111,500           |
| This section maintains, repairs and replaces, as needed, all arterial roadway lighting within the county.  |                      |                   |                     |                     |
| Traffic Engineering/Studies - QP, CD, IAM, RG  | 4.00                 | 741,800           | -                   | 741,800             |
| This section performs safety, operational, and signal studies. Prepares signing and pavement marking work orders. Reviews development permits and county roadway project construction plans. Collects data a compiles Annual Traffic Crash Reports and Quarterly Traffic County Reports. |                      |                   |                     |                     |
| Locates - IAM  | 4.00                 | 371,000           | 160,000             | 211,000             |
| This section marks infrastructure for signal, streetlight and fiber optic cables on both County and State Roadways within 48 hours of request directed under Florida Statute Chapter 556.  | as                   |                   |                     |                     |
| Current Level of Service Budget  | 39.00                | 7,510,900         | 1,154,100           | 6,356,800           |

### **Transportation Management Services Department**

# Transportation Operations Traffic Operations Division (101/1001)

### Forecast FY 2023:

Personal services are forecast to be in line with the FY 2023 adopted budget.

Operating expenses are forecast to increase over the FY 2023 adopted budget due to an increase in street lighting and signal repair and maintenance.

Capital outlay is forecast to decrease over the FY 2023 adopted budget as a result of a reduction in machinery.

### Current FY 2024:

Personal services increased due to a general wage adjustment and merit-based incentive program.

Operating expenses increased due to supplies needed to maintain traffic signals and signs.

### Revenues:

The majority of forecasted and budgeted revenues include contractually obligated reimbursements from the Florida Department of Transportation (FDOT) for the maintenance of state road streetlights and traffic signals.

### **Transportation Management Services Department**

# Transportation Operations Transportation Engineering Division (101/1001)

### **Mission Statement**

Assist in planning, roadway design, roadway permitting, roadway construction, and miscellaneous special projects to meet service levels established by the County Growth Management Plan and established by budget approval actions of the Board of County Commissioners. To provide supervision, engineering, and coordination to ensure Division roadway projects are designed and constructed in a timely, efficient, and economical manner.

| Program Summary  | FY 2024<br>Total FTE | FY 2024<br>Budget | FY 2024<br>Revenues | FY 2024<br>Net Cost |
|--|----------------------|-------------------|---------------------|---------------------|
| Divisional Administration/Overhead - RG  | 4.00                 | 785,800           | -                   | 785,800             |
| Funding for divisional administration and fixed divisional overhead.   |                      |                   |                     |                     |
| Traffic Engineering/In-House Design - QP, CD, IAM, RG  | 5.00                 | 759,700           | -                   | 759,700             |
| This section provides safety engineering analysis and enhancement of roadway and traffic safety through low cost in-house design project. Sta also provides design of sidewalks.   | ff                   |                   |                     |                     |
| Roadway/Bridge Design Project Management - QP, CD, IAM, RG   | 6.00                 | 922,100           | -                   | 922,100             |
| This section manages the consultant's design of highway and bridge projects, and provides oversight during construction and certification.   |                      |                   |                     |                     |
| Construction Engineering and Inspection (CEI) - QP, CD, IAM, RG  | 11.00                | 1,566,700         | -                   | 1,566,700           |
| The CEI section is responsible for construction inspection and management of roadway projects. Among the functions of this unit are project administration, scheduling, utilities, drainage, asphalt and earthwork inspections. Staff of this unit ensures that the work is done ir accordance with plans and specifications. With reduced workload, CEI being done with in-house staff at a considerable savings. |                      |                   |                     |                     |

#### Forecast FY 2023:

Personal services are forecast to decrease over the FY 2023 adopted budget due to position vacancies of (2) Project Manager III and one (1) Property Acquisition Specialist I position in the first six months of the fiscal year.

Operating expenses are forecast slightly less than the adopted FY 2023 budget due to savings related to not hiring a Key Staff position that was budgeted for.

### Current FY 2024:

Personal services increased due to a general wage adjustment and merit-based incentive program.

Operating expenses decreased due to not budgeting for a Key Staff position.

### **Transportation Management Services Department**

# **Transportation Operations Transportation (101/1001)**

#### Forecast FY 2023:

Transfers to Community Development Fund (113/1013) are for rental payments per the leased space of the East Horseshoe building.

The Transfer to Special Obligation Debt Service Fund (298/2022) is for payment of the debt service related to the Transportation building on South Horseshoe Drive.

Transfers to County Wide Capital Fund (301/3001) are for an upgrade to the County's video monitoring system.

### Current FY 2024:

Rental payments for leased space of the East Horseshoe building have been budgeted as interdepartmental payments in FY 2024.

The Transfer to Special Obligation Debt Service Fund (298/2022) is for payment of the debt service related to the Transportation building on South Horseshoe Drive. The last debt service payment will be made in FY 2029.

A modest reserve for contingencies is programmed for unexpected or additional costs that may arise during the fiscal year.

A salary reserve has been established at the fund level for estimated FY 2024 salary adjustments.

### Revenues:

The General Fund (001/0001) transfer is the primary funding source of the Transportation Fund (101/1001).

## **Transportation Management Services Department**

# Landscaping Landscape (111/1011)

### **Mission Statement**

To manage maintenance of landscaped medians and roadsides on selected County roadways to meet the standards adopted by the Board of County Commissioners. To provide supervision, coordination, manpower, and support equipment to maintain the highest possible level of services for landscape and irrigation project management.

## **Transportation Management Services Department**

# Landscaping Landscape (111/1011)

### Notes:

Only direct personnel expenses and associated operating and capital expenses will be shown in this section. The contractual maintenance costs associated with the current 121.9 landscaped lane miles are shown in the Landscaping Capital Fund (310/3081) section of the budget.

### Forecast FY 2023:

Personal services are forecast to be slightly higher than the FY 2023 adopted budget as a result of the general wage adjustment.

Operating expenses are forecast higher than the FY 2023 adopted budget due to an increase in other contractual services.

### Current FY 2024:

Personal services increased due to a general wage adjustment and merit-based incentive program.

Operating expenses increased due to increases in Motor Pool Capital and Fleet Management charges.

# Stormwater Operations Stormwater Engineering & Operations (103/1005)

### **Mission Statement**

To provide stormwater management facilities and services for drainage and flood protection for existing and future development, minimize the degradation of the quality of receiving water and surrounding natural areas, and protect the functions of natural groundwater aquifer recharge areas.

### Forecast FY 2023:

Personal services are forecast to increase over the FY 2023 adopted budget due to a retirement payout.

Operating expenses are forecast slightly lower than the FY 2023 adopted budget as a result of savings in licensing software.

### Current FY 2024:

Personal services increased due to a general wage adjustment and merit-based incentive program.

Operating expenses increased due to an increase in other contractual services for an additional contracted Inspector position.

## **Transportation Management Services Department**

# **Stormwater Operations Stormwater Maintenance (103/1005)**

### **Mission Statement**

To provide efficient and high-quality customer service in the appropriate operation and maintenance of the publicly maintained stormwater pumping and control facilities throughout Collier County.

### **Transportation Management Services Department**

# **Stormwater Operations Stormwater Maintenance (103/1005)**

### Forecast FY 2023:

Personal services expenses are forecast to decrease over the FY23 budget due to position vacancies for one (1) Equipment Operator and one (1) Crew Leader II.

Operating expenses are projected to be slightly over the FY23 budget as a result of an increase in contractual services.

Capital Outlay is for Mower Max equipment ordered in FY22 and received in FY23.

### Current FY 2024:

Personal services increased due to a general wage adjustment and merit-based incentive program.

Operating expenses increased due to an increase in other contractual services.

### Revenues:

\$62,500 from the South Florida Water Management District (Big Cypress Basin) has been budgeted in the Stormwater Operating Fund (103/1005).

# Stormwater Operations Stormwater Operations Fund (103/1005)

### Forecast FY 2023:

Transfers to the Community Development Fund (113/1013) are for rental payments by the leased space of the East Horseshoe building.

### Current FY 2024:

A modest reserve for contingencies is programmed for unexpected or additional costs that may arise during the fiscal year.

### Revenues:

The General Fund (001/0001) and Unincorporated Area MSTU Fund (111/1011) transfers are the primary funding source of the Stormwater Maintenance Fund (103/1005).

### **Transportation Management Services Department**

# Water Pollution Control Water Pollution Control Fund (114/1017)

### **Mission Statement**

To proactively plan, develop, and efficiently implement programs and projects that protect the safety, health, and welfare of the community and its environment with a focus on the protection of Collier County's drinking water supply from all sources of pollution. Protection of Collier County's groundwater, freshwater, surface water, and other non-tidal water resources is mandated by the Water Pollution Control Ordinance 89-20 (WPCO 89-20), the Growth Management Plan, related Board-approved contracts, agreements, and federal and state regulatory directives.

| Program Summary  | FY 2024<br>Total FTE | FY 2024<br>Budget | FY 2024<br>Revenues | FY 2024<br>Net Cost |
|--|----------------------|-------------------|---------------------|---------------------|
| Divisional Administration and Operations - QP, CD, IAM, RG   | 10.00                | 1,860,900         | 1,860,900           | -                   |
| Leads and manages Pollution Control program activities, provides administrative and technical support, ensures resources are available for program success, ensures compliance, security, and safety criteria are met, manages assets and contracts, approves and authorizes purchasi activities. Implements the wastewater treatment plant, sludge vehicle licensing, wellfield protection, biosolids land application, private lift station, and pollution complaint investigation programs. Implements the Pollution Control and Prevention public outreach/education program. Provides management for Collier County National Pollutant Discharge Elimination System and Municipal Separate Storm Sewer permit.  | ng                   |                   |                     |                     |

# Water Pollution Control Water Pollution Control Fund (114/1017)

#### Notes:

Ordinance 89-20 allows up to one-tenth of a mill of Ad-Valorem revenue to be levied towards a Water Pollution Control Fund. The proposed FY 2024 budget, in compliance with FY 2024 Budget Policy, remains millage neutral (0.2500 mil) and well below the 0.1 mil allowed by referendum.

### Forecast FY 2023:

Personal services are forecasted to be lower than the FY 2023 budget due to the vacant positions of Laboratory Supervisor and Environmental Specialist I.

Operating expenses are forecasted to be lower than the FY 2023 budget due to a decrease in other contractual services and equipment repairs.

Capital outlay is forecasted higher than the FY 2023 budget for the replacement of critical lab equipment.

#### Current FY 2024:

Personal services increased due to general wage adjustment and merit-based incentive program.

Operating expenses are budgeted higher for increased building repairs and maintenance to the laboratory for hurricane resiliency and are slightly offset by a decrease in fleet maintenance costs and IT allocation costs.

#### Revenues:

The taxable value for this countywide district function is \$138,668,175,558 an increase of 13.52% over last year. Based upon a millage neutral position, property tax revenue will total \$4,062,978 an increase of \$484,033 over the FY 2023 levy.

#### Forecast FY 2023:

Personal services are forecast lower than the FY 2023 adopted budget as a result of one (1) vacant FTE Environmental Specialist II.

Operating expenses are forecast to be higher than FY 2023 due to engineering costs related to consultant work.

#### Current FY 2024:

Personal services increased due to general wage adjustment and merit-based incentive program.

Operating expenses have increased due to engineering costs related to consultant work.

### **Transportation Management Services Department**

## Coastal Zone Management Natural Resources Grants (117/1802)

#### **Mission Statement**

The purpose of this section is to provide for the construction and maintenance of artificial reefs utilizing only private donations.

#### Notes:

On December 10, 2013, the Board accepted a Memorandum of Understanding with the Community Foundation of Collier County. The Community Foundation of Collier County donations may be used to aid the County in the construction and maintenance of artificial reefs.

#### Forecast FY 2023:

No donations are expected in FY 2023. Operating Expenses reflect an amount estimated for monitoring reefs previously constructed during FY 2016.

#### Current FY 2024:

Operating expenses may be utilized for monitoring and maintaining artificial reefs. Should revenues be received to efficiently build more structures, additional expenses may be incurred.

#### Revenues:

As revenues are received, which may include naming rights for reefs, they will accumulate within this fund to be used efficiently for future projects.

### Transportation Management Services Department

# Coastal Zone Management TDC Category A Beach Renourish/Pass Maint Admin-Fund (185/1102)

#### Notes:

TDC Beach Renourishment/Pass Maintenance Administration Fund (185/1102) provides for TDC beach renourishment and pass project administration, engineering, monitoring, and project management. Budgeted projects are summarized in Beach Renourishment/Pass Maintenance Capital Fund (195/1105).

#### Forecast FY 2023:

Personal services are forecast lower than the FY 2023 adopted budget due to a midyear transfer of the vacant Senior Project Manager position (185/1102) to the Construction & Maintenance Administration Office (101/1001). This position was subsequently reclassified to Manager-Financial Operations Support.

Operating expenses are forecast lower than FY 2023 due to savings in other contractual costs related to contract labor.

#### Current FY 2024:

Personal services decreased due to the above-mentioned transfer of vacant position Senior Project Manager position (185/1102) to Construction & Maintenance Administration Office (101/1001).

Operating expenses have decreased due to a shift in other contractual services to other TDC projects and computer software.

#### Revenues:

Funding for beach renourishment and pass/inlet program management is provided by Tourist Development Tax funds transferred from TDC Beach Renourishment/Pass Maintenance Fund (195/1105).

#### Forecast FY 2023:

Personal services are projected to be in line with the FY 2023 budget.

Operating expense is projected to be lower than the FY 2023 budget due to savings in fleet maintenance and travel.

#### Current FY 2024:

Personal services increased due to general wage adjustments and merit-based incentive program.

Operating expenses increased over prior year levels due to an increase in indirect costs and inter-department payment for services.

Indirect service charges reflect an increase as determined by the annual update of the County Central Services Cost Allocation Plan.

## **Transportation Management Services Department**

# Airport Operations Immokalee Regional Airport (495/4090)

#### **Mission Statement**

To operate, develop, and manage the Immokalee Regional Airport including economic development opportunities to diversify operating revenue streams.

### **Transportation Management Services Department**

# Airport Operations Immokalee Regional Airport (495/4090)

#### Forecast FY 2023:

Personal services are forecasted higher than the FY 2023 budget as a result of the general wage adjustment.

Aviation Fuel is forecast to exceed the FY 2023 budget due to an increase in fuel expenses as a result of additional activity at the airport and an increase in the price of fuel.

#### Current FY 2024:

Personal services increased due to general wage adjustments and merit-based incentive program.

Operating expenses increased over prior year levels due to an increase in property insurance.

Capital outlay includes the purchase of one (1) replacement bushhog, one (1) replacement lawnmower, and one (1) replacement utility trailer.

The Aviation Fuel budget reflects an increase in projected Jet A and AvGas volumes and an increase in the price of fuel.

#### Revenues:

The fuel sales revenue forecast reflects an increase compared to the FY 2023 budget as a result of increased aeronautical activity at the airport and rising fuel prices. Other revenue sources are primarily related to facility leases and reflect current agreements.

Fuel projections for FY 2024 increase, increasing operating revenue. Other revenue sources are primarily related to facility leases and assume current agreements will be ongoing with consistent monthly collections.

### **Transportation Management Services Department**

### Airport Operations Everglades Airport (495/4090)

#### Forecast FY 2023:

Personal services are forecasted higher than the FY 2023 budget as a result of the general wage adjustment.

Operating expenses are projected to be in line with the FY 2023 budget.

Aviation fuel (AvGas expense) forecast is lower due to inoperable airport fuel farm and hangar damages as a result of Hurricane lan.

#### Current FY 2024:

Personal services increased due to general wage adjustments and merit-based incentive programs.

Operating expenses increase over prior year levels due to an increase in property insurance.

Operating expense increase over the FY 2023 budget in Aviation Fuels reflects an expected increase in airport activity along with increasing fuel prices.

#### Revenues:

The revenue forecast reflects a decrease over the FY 2023 budget due to fuel farm and hangar damages caused by Hurricane lan.

Revenues are projected to show a slight increase for the FY 2024 budget as fuel sales are expected to increase due to increased activity.

### **Transportation Management Services Department**

# Airport Operations Marco Island Executive Airport (495/4090)

#### Forecast FY 2023:

Personal services are forecasted higher than the FY 2023 budget as a result of the general wage adjustment and staff overtime to accommodate increased customer volume.

Aviation Fuel is forecast to exceed the FY 2023 budget due to an increase in fuel expenses as a result of additional activity at the airport and an increase in the price of fuel.

#### Current FY 2024:

Personal services increased due to general wage adjustments and a merit-based incentive program along with two (2) expanded Customer Service positions. These positions are being converted from contract employees to FTEs.

Operating expenses increased over prior year levels due to an increase in insurance and utilities costs.

Capital expense increased due to three (3) expanded vehicles - two (2) utility vehicles and one (1) Foreign Debris Sweeper.

The aviation fuel budget reflects an increase in projected Jet A and AvGas due to an increase in fuel prices.

#### Revenues:

Projected forecast revenue reflects an increase over the FY 2023 budget due to increased fuel sales volume and increasing fuel prices.

Increased revenues are the result of a projected increase in fuel sales and associated transient aircraft fees in FY 2024 in addition to an airport land lease.

## Transportation Management Services Department

## Airport Operations Airport Fund (495/4090)

#### Notes:

All airports are listed on separate pages in this section of the budget book for proper presentation of their operations; however, shared costs such as Reserves, Carry Forward, and Transfers to the Airport Capital Fund (496/4091) are presented here at the fund level

#### Forecast FY 2023:

On February 13, 2018, the Board approved item 14.A.1. for the construction of a new terminal facility at the Marco Island Executive Airport. Approximately 80% of the funding for the new terminal will be reimbursed from the Florida Department of Transportation (FDOT), however, it will be in installments between FY19-FY21, subject to annual legislative appropriations. To cashflow this project, a temporary loan of \$4,500,000 from the Planning Services Fund (131/1014) was needed. The loan was required to provide the Airport Authority with sufficient budget to open the construction purchase order due to the timing of planned reimbursements from the FDOT for the project. As cash was transferred to Airport funds from Planning Services, interest accrued on the loan and is a required component of the repayment to Planning Services. A transfer of \$1,624,800 is budgeted for FY23 to Planning Services Fund (131/1014) for final repayment.

#### Current FY 2024:

The Airport Authority made the final repayment to the Planning Services Fund (131/1014) in FY 2023. A transfer to Airport Capital Fund (496/4091) is budgeted to fund FY 2024 capital projects and to establish a reserve for future grant match requirements.

### **Transportation Management Services Department**

# Public Transit and Neighborhood Enhancement (PTNE) PTNE Administration (001/0001)

#### **Mission Statement**

The Public Transit & Neighborhood Enhancement Division consists of Collier Area Transit (rideCAT), Collier Area Paratransit (CATConnet), and the Municipal Service Taxing Units (MSTU) Sections and is committed to providing services that enhance the quality of life of Collier County residents and visitors by providing mobility options that improve access to destinations, reduce roadway congestion and protect the environment by limiting the impact on carbon footprint.

#### Forecast FY 2023:

Personal services forecast is lower than budgeted due to staffing attrition of (1) FTE to the PTNE Division Director position.

#### Current FY 2024:

Personal services increased due to general wage adjustment and merit-based incentive program.

### Transportation Management Services Department

### Public Transit and Neighborhood Enhancement (PTNE) Collier Area Transit CAT Grant Fund (424/4031)

#### **Mission Statement**

To maintain separate accounts for Collier Area Transit nondiscretionary (formula) and discretionary grant programs provided by Federal and State sources to ensure subsidized capital transit projects and operations are tracked separately as required by grant regulations.

#### Notes:

Collier County BCC is a designated recipient of formula funds for the Bonita Springs - Naples Urbanized Area awarded by the Federal Transit Administration (FTA). Section 5307 funding is the largest funding source apportioned annually by ridership and population. A 20% match requirement for capital funding is fulfilled by a soft match through Transportation Development credits provided by the Florida Department of Transportation (FDOT) as authorized by Title 23 U.S.C. 120(j)(1).

Section 5307 supports both capital and operating activities. Eligible operating activities not counted towards the operating assistance cap include preventive maintenance of federal transit capital assets, which covers operational fleet costs, and an allowance of up to 20% to fund ADA Paratransit accessibility activities. In addition, Section 5307 allows grantees to utilize a portion of funds toward route operating assistance, which the County historically uses to subsidize fuel costs. All operating assistance is subject to a 50% cash match. Funding under the CARES and America Rescue Plan Act allocated to Section 5307 waived the 50% cash match. Section 5307 mandates grantees to utilize a minimum of 1% of funding toward transit enhancements (bus shelters, signage, etc.) and 1% toward security and safety activities.

Other annual formula funding includes the FDOT State Block Program used for eligible capital and operating costs to provide public transit service and pass-through of the FTA Section 5311 Rural Area Program used to fund operations in non-urbanized (rural) areas. Operating assistance is subject to a 50% cash match outside of funding under the Coronavirus Response and Relief Supplemental Appropriations Act which waived local match requirements.

Discretionary programs include the pass-through of the FTA Section 5339 Bus and Bus Faculties Program to provide capital funding to replace, rehabilitate, and purchase buses and related equipment and construct bus-related facilities (bus shelters).

Overall, capital funding primarily supports the rehabilitation and construction of bus shelters, bus stops, and passenger facilities as well as the major components of the transit system including but not limited to intelligent transportation systems (ITS), automatic vehicle location (AVL), electronic farebox and the associated warranties and software.

Forecast FY 2023:

This list represents active grant awards:

```

Grand Total \$27,670,700

#### Current FY 2024:

All grants are appropriated at the time the grant contract is executed which occurs outside of the annual budget cycle. Any required match is also appropriated at the time of award receipt for the entire grant cycle which customarily crosses more than one fiscal year.

#### Revenues:

Revenues anticipated to be received from grant fund sources during FY 2024 to subsidize operations are planned at the following levels.

\$1,156,400 FDOT State Block Grant Operations \$600,000 FTA Section 5307 Operations \$654,700 FTA Section 5307 Operating Assistance (Fuel) \$1,569,200 FTA Section 5307 Preventive Maintenance

Grand Total \$3,980,300

### **Transportation Management Services Department**

## Public Transit and Neighborhood Enhancement (PTNE) Collier Area Transit Local Funding (425-426 / 4032 & 4030)

#### **Mission Statement**

To provide safe, accessible, and courteous public transportation services including maintenance, operations, and program management to all customers within Collier County. The commitment to the provision of public transportation services includes compliance with Florida Statutes, Chapter 341 and United States Code 49, Subtitle III, Chapter 53.

| Program Summary  | FY 2024<br>Total FTE | FY 2024<br>Budget | FY 2024<br>Revenues | FY 2024<br>Net Cost |
|--|----------------------|-------------------|---------------------|---------------------|
| Full Cost for Fixed Route Public Transport - QP, CD, IAM, RG   | 4.00                 | 9,494,900         | 5,514,800           | 3,980,100           |
| Fixed Route system consists of 19 routes providing service to Greater Naples, Golden Gate City, Marco Island, Immokalee and portions of Golden Gate Estates, 7 days a week. The system also includes an Express Route transporting over 24,500 worker trips annually between Immokalee and Marco Island. Full cost is supported by all funding sources such as grant revenues, farebox collections and the general fur subsidy to operate and manage the Fixed Route public transportation system which provides service to the public seven days a week with AD accessible buses. |                      |                   |                     |                     |
| State Transportation Block Grant - QP, CD, IAM, RG   | -                    | -1,156,400        | -                   | -1,156,400          |
| This grant supports operating costs for those routes servicing the urban area of the County, including Routes 11, 12, 13, 14, 15, 16, 17, 20, 21, portions of route 24, 25, portions of route 27, and 29. This amount is no included for adopted budget purposes because grant dollars are uploaded into the accounting system through separate Board action via budget amendment. These funds will be used to offset the operating co of fixed route public transit services from the Florida Department of Transportation.   | t                    |                   |                     |                     |
| Federal Transportation Administration Sec. 5307 Grant - RG   | -                    | -2,223,700        | -                   | -2,223,700          |
| This amount is not included for adopted budget purposes because gran dollars are uploaded into the accounting system through separate Boar action via budget amendment. The Urbanized Area Formula Funding program is primarily awarded for transit capital. Preventive maintenanci is considered an eligible capital cost by the grantor to support the upker of federal assets (buses). Operating assistance requires a 50% local match and may be adjusted by prior year grant funds rolled forward.  | d<br>e               |                   |                     |                     |
| Federal Transit Administration Sec. 5311 Grant - RG  | -                    | -600,000          | -                   | -600,000            |
| This grant supports operating costs for those routes servicing the rural area of the County, including Routes 22, 23, 121 and portions of route 1 This amount is not included for adopted budget purposes because gran dollars are uploaded into the accounting system through separate Boar action via budget amendment. The Rural Area Formula Grant offsets operating costs of rural routes. Funding is passed through the Florida Department of Transportation and requires a 50% match.   | ıt                   |                   |                     |                     |

#### Notes:

The Collier Area Transit (CAT) bus system is funded annually through local General Fund dollars, passenger fares plus federal and state grants. Local dollars (including farebox revenues) fund approximately 50% of bus system operations based on a three-year average. Grant dollars are received during the fiscal year, approved separately by the Board, and uploaded into the accounting system via a budget amendment. These dollars are not included as part of the adopted budget. Grant dollars annually offset approximately 50% of system expenses. Numbers contained under the Forecast column include a combination of local and grant dollars and reflect appropriations in the accounting system. The county's budget and accounting system requires that the amended budget be forecast which allows for project roll. Project roll is the difference between the amended budget and actual expenses incurred at year-end. This process allows for grants to be spent during the period of availability which is customarily over one or more County fiscal years.

#### Forecast FY 2023:

The CAT local operating share of forecast at \$5,039,800 is comprised of personal services (\$556,900) and operating (\$5,061,100). The remaining balance of \$1,976,900 represents required match funding with the CAT Grant Match Fund (425/4032) that crosses more than one fiscal year and is inclusive of the transfer amount of \$1,976,900. The transfers represent amounts moved between the CAT family of funds (Match Funds 425/4032 and 426/4030) to appropriately track the local match requirements to grants that annually fund the transit system. The capital forecast (\$307,800) represents the amended budget for planned unit development (PUD) and includes a local contribution within the CAT Fund (426/4030) supporting bus shelters.

The forecast by project type is summarized below.

\$1,976,900 Required Match to Federal/State Grants

\$38,100 60083 Bus Shelters

\$39,100 60133 PUD Mercato

\$25,000 60181 PUD Hibiscus

\$30,000 60187 PUD Arrowhead Preserve

\$112,800 60247 PUD McMullen

\$65,000 60248 PUD Heavenly

\$23,900 60251 PUD East Central

\$5,561,900 61011 GF Subsidy and Other Rev

### **Transportation Management Services Department**

\$7.902.700 Total

#### Current FY 2024:

Total CAT bus system appropriations amount to \$9,494,900, an increase of \$609,000 over the prior year due to increased costs for third-party contractual services and fleet services. The anticipated grant revenues of \$3,980,300 is a \$309,300 increase from the prior year and are not represented within the FY 2024 budget request. The increase is due to increased funding requested to cover fleet and operating expenses. This leaves the amount of local funding requirement to offset program expenses at \$5,514,800 and includes a reserve of \$172,500. Local dollars represent the only component of the program for establishing the FY 2024 budget.

Personal Services reflect four (4) FTEs with a slight increase due to general wage adjustment and merit-based incentive programs.

The transit operating costs for FY 2024 are sized at 73,100 revenue hours at an average of \$59.69 per revenue hour or an increase of \$6.70 over the prior year. The administrative management cost, a separate component of the contract is sized at \$1,031,700 – an increase of \$39,500 – for a total of \$5,394,100. This brings the average third-party operating cost to \$73.79 from \$66.56 per revenue hour.

Total operating expense represents the following split between local and grant funding.

\$1,049,900 Other Operations and Personal Services \$654,700 Fleet Maintenance and Fuel \$3,637,700 Transit Operator \$172,500 Reserve

\$5,514,800 Total Local Share

\$654,700 Fleet Fuel \$1,569,200 Fleet Maintenance \$1,756,400 Transit Operator

\$3,980,300 Total Grant Share

Through notification of funding announcements and the State Transportation Improvement Program (STIP) – a preliminary amount of \$1,756,400 will be used to offset the transit operator contract cost through the FDOT State Block, and FTA Rural and Urbanized Area Grant Program. These grants customarily offset costs at a maximum of 50% as required by the grantor guidelines. Transit fleet operating and overhead costs (\$1,569,200) are eligible to be covered by FTA Section 5307 funding as well as a 50% share of fuel (\$654,700). Total offsets equate to \$3,980,300.

A reserve of \$827,200 has been established for FY 2024 of which \$654,700 is earmarked for local match requirements under the 5307 Operating Assistance toward fuel.

#### Revenues:

For FY 2024, the overall General Fund (001/0001) subsidy is \$5,882,400 for both transit systems. The split between CAT and TD is adjusted based on operational needs and available grant funding. The CAT General Fund Transfer is sized at \$3,517,000, a decrease of \$152,100 over the prior year due to available carryforward to assist in offsetting the local subsidy needs.

Fare Box Revenue is sized at the same level as prior years (\$961,000), with grant subsidies anticipated to cover any shortages.

Revenues also include a small portion of fleet charges (\$45,000) anticipated to be reimbursable per the terms of the transit operator contract for vehicle damages and towing to be consistent with historical activity.

# Public Transit and Neighborhood Enhancement (PTNE) Trans Disadvantaged Enterprise Local Funding (427 & 429 / 4033 & 4035)

#### **Mission Statement**

To provide safe and unconstrained delivery of Paratransit trips to persons who cannot use the fixed-route bus system due to the nature and/or extent of their disability. The commitment to the provision of public transportation services includes compliance with the United States Code 49, CFR Part 37 requiring service compliance with the Americans with Disabilities Act of 1990.

| Program Summary   | FY 2024<br>Total FTE | FY 2024<br>Budget | FY 2024<br>Revenues | FY 2024<br>Net Cost |
|---|----------------------|-------------------|---------------------|---------------------|
| Full Cost for Paratransit Services - RG   | 1.00                 | 6,090,400         | 4,559,500           | 1,530,900           |
| The paratransit system provides over 100,000 trips annually to the eligible residents and visitors throughout the County. The cost to the passenger is no greater than \$4.00 per trip, making it an affordable option. Full cost is supported by all funding sources including grant revenues, farebox collections and a General Fund transfer to provide management of operations for the door-to-door public transportation system providing transportation service to the elderly, handicapped and economically disadvantaged population. |                      |                   |                     |                     |
| Federal Transit Administration Sec. 5307 Grant - RG   | -                    | -786,700          | -                   | -786,700            |
| These grant funds support the provision of ADA complementary paratransit service. This amount is not included for adopted budget purposes because grant dollars are uploaded into the accounting syster through separate Board action via budget amendment. The Urbanized Area Formula Program allows for 20% of the annual apportionment to b used to offset costs to provide Americans with Disabilities Act complementary paratransit services. No cash match is required.   |                      |                   |                     |                     |
| Commission of Transportation Disadvantaged (CTD) Grant - RG   | -                    | -744,200          | -                   | -744,200            |
| These grant funds support the provision of outside of the area not serve by the fixed route system. This amount is not included for adopted budget purposes because grant dollars are uploaded into the accounting system through separate Board action via budget amendment. This Sta Trip & Equipment Program grant offsets costs to provide eligible TD trip and requires a 10% match.   | g<br>ate             |                   |                     |                     |

#### Notes:

The Transportation Disadvantage (TD) program is funded annually through local General Fund (001/0001) transfers, fares charged to clients, and grant programs awarded by federal and state agencies. Local dollars fund approximately 57% of the TD program. Grant dollars are received throughout the fiscal year, approved separately by the Board, and uploaded into the accounting system via a budget amendment. These dollars are not included as part of the adopted budget. Grant dollars annually offset approximately 43% of program expenses. Numbers contained under the Forecast column include a combination of local and required local match grant dollars to reflect appropriations in the accounting system. The county's budget and accounting system requires that the amended budget be forecast which allows for project roll. Project roll is the difference between the amended budget and actual expenses incurred at year-end. This process allows grants to be spent during the period of availability which is customarily over one or more County fiscal years.

#### Forecast FY 2023:

The local share forecast for Operating Expenses and Personal Services is sized at \$4,113,000. Transfers between TD Funds to the TD Grant Match Fund (429/4035) total \$900 to appropriately track required match amounts for operating and capital programs.

Fare Box revenue is projected at \$254,000. Miscellaneous revenues of \$40,000 represent vehicle repairs that are the responsibility of the transit operator vendor. The General Fund transfer is increased by \$78,900 due to an increase in demand which equates to an increase in operating costs.

#### Current FY 2024:

Total TD system appropriations amount to \$5,870,500 plus a reserve of \$219,900 for a total of \$6,090,400. This is an increase of \$450,900 over the prior year due to rising fleet costs and contractual increases for third-party operations. The overall reserve of \$302,600 was decreased by \$32,900.

The transit management and operating service costs for FY 2024 are sized on providing 105,000 trips at an average contracted rate of \$29.79 or \$1.38 more per trip over the prior year per the terms of the most recent amendment and negotiated contract rate. The

### **Transportation Management Services Department**

negotiated administration contract fee of \$1,024,500 for management over the TD system increased by \$37,100 over the prior year. The total transit operator cost is \$4,152,500 for FY 2024.

Grant revenues of \$1,530,900 are not represented within the FY 2024 budget request. This amount is a slight increase of \$124,500 from State and Federal grant program subsidies increasing. The net amount of local funding required to offset program expenses is \$4,559,500, an increase of \$326,400 attributable to establishing a larger reserve and increased costs as outlined above. Local dollars represent the only component of the program for establishing the FY 2024 budget.

Total operating expense represents the following split between local and grant funding:

\$686,800 Fleet Maintenance \$714,500 Fleet Fuel \$316,700 Other Operations and Personal Services \$2,621,600 Transit Operator \$219,900 Reserves

\$4,559,500 Total Local Share

\$1,530,900 Total Grant Share\*

\*Represents Transit Operator

#### Revenues:

The General Fund (001/0001) subsidy for TD during FY 2024 is sized at \$2,365,400 a \$152,200 increase over the prior year due to an increase in operating costs. A Fund Reserve of \$219,900 has been established. This is in addition to the required match (\$82,700) also part of the Fund Reserve.

Fare Box revenue is sized at \$254,000 and remains flat over the prior year.

The overall General Fund (001/0001) subsidy is \$5,882,400 for both transit systems. The split between CAT and TD is adjusted based on operational needs, available grant funding, and carryforward. This accounts for the unusual but common variances in the family of transit Funds.

## **Transportation Management Services Department**

# Public Transit and Neighborhood Enhancement (PTNE) Trans Disadvantaged Enterprise Grant Fund (428/4034)

#### **Mission Statement**

To maintain separate accounts for the Transportation Disadvantaged grant programs provided by Federal and State sources to ensure subsidized capital transit projects and operations are tracked separately as required by grant regulations.

### **Transportation Management Services Department**

# Public Transit and Neighborhood Enhancement (PTNE) Trans Disadvantaged Enterprise Grant Fund (428/4034)

#### Notes:

Transportation Disadvantaged subsidizes its operations primarily through the Florida's Commission of Transportation Disadvantaged (CTD) annual Trip and Equipment Program to insure the availability of efficient, cost-effective, and quality transportation services for transportation disadvantaged persons.

In addition, the Federal Transit Administration (FTA) Section 5307 is utilized up to the maximum 20% to fund ADA Paratransit accessibility. Services are in process of implementation to enhance on-demand service through same-day service options providing increased accessibility to riders from funding received through the Health and Human Services and Florida Development Disabilities Council.

Rolling stock (vehicles) supporting Collier TD are purchased with funding from the Florida Department of Transportation, a pass-through entity of FTA Section 5310 Grant Program. This program assists in meeting the needs of seniors and individuals with disabilities where public transit services are unavailable, insufficient or inappropriate.

#### Forecast FY 2023:

This list represents active grant awards:

\$717,600 33811 CTD Trip and Equipment Operations

\$717,600 Grand Total

The FTA Section 5310 program funding has no activity during FY 2023 to purchase vehicle due to the State's vendor contract being rebid due to pricing increases. The program is anticipated to resume during the State's upcoming fiscal year.

#### Current FY 2024:

Grants are appropriated through individual Board actions at the time funding is accepted through grant contract execution outside of the County's budget cycle. Any required match is also appropriated at the time of award receipt for the entire grant cycle which customarily crosses more than one fiscal year.

#### Revenues:

Revenues anticipated to be received from grant fund sources during FY 2024 to subsidize operations are planned at the following levels.

\$744,200 CTD Trip & Equipment Operations \$786,700 FTA Section 5307 ADA Operations

\$1,530,900 Grand Total

#### Notes:

The MPO annual budget, like other grant-funded budgets, is approved by the Board of County Commissioners through the budget amendment process rather than the annual budget process. The current year funding cycle of grants is administered in the Transportation Grant Funds 711/1841 and 712/1842.

#### Revenues:

MPO local funds are programmed at \$8,000 for lobbying or any other activities that cannot be funded with annual Federal and State revenues, such as the preparation of resolutions in support of or opposition to Federal and State legislation. Due to a strict interpretation of what constitutes lobbying, each member agency of the MPO has been asked to contribute \$1,000 per voting member for such activities. The BCC is requested to contribute \$5,000, while the City of Naples, City of Marco Island, and Everglades City are requested to contribute \$2,000, \$1,000, and \$0, respectively, as approved by the MPO Board on May 14, 2010.

The transfer from the MSTD General Fund (111/1011) of \$5,000 is subject to review by OMB before execution, only the amount spent, up to \$5,000 will be transferred. The transfer is budgeted in the MPO Operating Fund (128/1809).

## Transportation Management Services Department

## Improvement Districts and MSTU MSTU's Operations (111/1011)

#### Notes:

The MSTU Operations (111/1011) budget provides three regular positions and a contracted temporary position to manage several roadway beautification, roadway maintenance, drainage, and dredging Municipal Service Taxing Units/Districts. This Division is also responsible for responding to requests to establish new Municipal Service Taxing Units/Districts. The budget is set up to be primarily supported by reimbursements from the MSTUs under management with a portion of the budget being supported by the Unincorporated Area General Fund.

#### Forecast FY 2023:

Personal services decrease reflects the retirement and rehiring of two positions at lower salaries.

#### Current FY 2024:

Personal services decrease due to the aforementioned retirements and rehiring of two positions at lower salaries offset slightly by a general wage adjustment and merit-based incentive program.

#### Revenues:

Primary funding is provided through allocated cost reimbursements from the managed MSTUs including interdepartmental reimbursements from the Blue Sage and Cassena Road projects. The remaining cost to the Unincorporated Area General Fund (111/1011) supports unrecoverable MSTU management services provided to the general public.

## **Transportation Management Services Department**

# Improvement Districts and MSTU Victoria Park Drainage MSTU (134/1608)

#### **Mission Statement**

Operation and maintenance of pumping station for storm water removal from Victoria Park Unit #1.

### **Transportation Management Services Department**

## Improvement Districts and MSTU Victoria Park Drainage MSTU (134/1608)

#### Forecast FY 2023:

Operating expense includes the customary indirect cost charges, constitutional transfers, and pump maintenance expenses.

Transfers - Budgeted transfers include a \$13,000 transfer to the Stormwater Operating Fund (103/1005) for the partial reimbursement of pump repairs completed in FY 2021 and customary transfers to the Tax Collector and Property Appraiser.

#### Current FY 2024:

Operating Expenses are budgeted at \$25,300 and include the customary indirect cost charges, and pump maintenance expenses.

Transfers - Budgeted transfers include a \$4,600 transfer to Stormwater Operating Fund (103/1005) for the remaining balance of reimbursement for the pump repairs completed in FY 2021 and customary transfers to the Tax Collector and Property Appraiser.

#### Revenues:

Taxable value for this District in FY 2024 totals \$57,985,672 an increase of 12.42% from the prior year. Budget guidance specified that MSTUs without advisory board oversight would be limited to a rolled-back rate position unless staff presented a compelling reason for additional funds. MSTUs with advisory board oversight can consider tax rates ranging from tax neutral (rolled-back rate) to millage neutral depending upon program requirements and taxable values upon advisory board recommendation. This district is not represented by an advisory board. For FY 2024, the millage rate will remain at 0.3814. Previously, the millage rate was held artificially low to draw down fund balance. The millage rate has been as high as .5179 in 2005. Based on the proposed budget, the required ad valorem tax levy increases to \$22,100. This will allow the Victoria Park Drainage Fund (134/1608) to continue to reimburse Stormwater Fund (103/1005) for pump repairs of \$40,451.20 incurred in FY 2021 and accumulate reserves for future pump repairs or replacements.

#### Notes:

Funds were collected as special assessment bond proceeds within the Debt Service Fund (232/1636) and these funds are available for the benefit of this District and the Pine Ridge Industrial Park. Property owners within the districts paid their share of the assessments. Since many properties paid off their assessments early, the additional cash was used to pay off the Bonds early.

In FY 2009, there was approximately \$6 million available in the Debt Service Fund (232/1636) which could be used for capital improvements. Growth Management staff conducted neighborhood informational meetings and determined which roadway and drainage improvement projects could be done. Improvements to this Industrial Park as well as the Pine Ridge Industrial Park commenced during FY 2009 and are complete. Residual funding remaining was returned to the Special Assessment Bond Fund (232/1636).

# **Transportation Management Services Department**

# Improvement Districts and MSTU Naples Park Drainage MSTU&BU (139/1613)

#### Forecast FY 2023:

Only minor operating expenses are anticipated during FY 2023 for mowing and litter removal services, in addition to customary transfers to the Property Appraiser and Tax Collector.

## Current FY 2024:

The vast majority of fund appropriations budgeted are for contractual maintenance. Accumulated contractual maintenance dollars will be utilized for necessary drainage maintenance within the MSTU. Typical indirect charges and constitutional transfers total \$1,100. No reserves are budgeted.

## Revenues:

The taxable value is \$2,467,951,137, an 18.23% increase over the prior year. Budget guidance specified that MSTUs without advisory board oversight would be limited to a rolled-back rate position unless staff presented a compelling reason for additional funds. MSTUs with advisory board oversight can consider tax rates ranging from tax neutral (rolled-back rate) to millage neutral depending upon program requirements and taxable values upon advisory board recommendation. This budget is built around the millage neutral rate of 0.0041 generating a property tax levy of \$10,100 to provide funding for maintenance and necessary improvements of the Naples Park drainage system.

## Current FY 2024:

Operating Expenses, including a small indirect cost payment, total \$100,500, along with a reserve for capital of \$941,700. Fund balance rolling from one year to the next is driving this budget. The tax levy for this district was discontinued in FY 2009. Available special assessment bond proceeds will be used to fund the capital improvement budget, which is shown separately within the Pine Ridge Industrial Park Fund (132/1612) and Naples Production Park Fund (138/1612).

## Revenues:

Increase in carryforward is due to modest interest earnings.

# **Transportation Management Services Department**

# Improvement Districts and MSTU Pine Ridge Industrial Park MSTU&BU (142/1616)

## **Mission Statement**

The Pine Ridge Industrial Park Municipal Service Taxing and Benefit Unit was created and established to provide design, easement acquisition, and construction for roadway, water, sewer, and drainage improvements within the Unit.

## Current FY 2024:

A land capital allocation totaling \$2,094,500 intended to purchase the right-of-way necessary for the construction of a roadway between J & C Boulevard and Trade Center Way as well as temporary easements required for drainage maintenance is budgeted. Incidental expenses of \$1,000 include Indirect Cost Reimbursement and General Insurance.

# **Transportation Management Services Department**

# Improvement Districts and MSTU Vanderbilt Beach MSTU (143/1617)

## **Mission Statement**

The Vanderbilt Beach MSTU is created for (1) Providing curbing, watering facilities, plantings, and maintenance of the median strips and right-of-way edges of roadways within the MSTU; (2) Providing traffic calming improvements, street lighting, and sidewalks within the MSTU; (3) Beautification and maintenance of other public areas with the MSTU as determined by the Advisory Committee and (4) Providing for the Burial of Powerlines within the MSTU, including providing underground trenching and burial of utility lines from the street or transformer to a private residence and, as needed, arranging to locate the burial of such power lines alongside any existing utility easements as well as connecting service and/or disconnecting service to external portions of the residences required as part of converting overhead utility distribution facilities to underground service.

# **Transportation Management Services Department**

# Improvement Districts and MSTU Vanderbilt Beach MSTU (143/1617)

#### Notes:

Budget guidance specified that MSTUs without advisory board oversight would be limited to a rolled-back rate position unless staff presented a compelling reason for additional funds. MSTUs with advisory board oversight can consider tax rates ranging from tax neutral (rolled-back rate) to millage neutral depending upon program requirements and taxable values upon advisory board recommendation. This MSTU has advisory board oversight, and the advisory board has requested that the millage rate remain at the cap of .5000 per \$1,000 of taxable value pursuant to Ordinance 2001-43.

## Forecast FY 2023:

Expenditures can be characterized as routine median maintenance with a focus on implementing a long-term improvement plan for the Vanderbilt Beach MSTU boundaries. The focal point of this plan is the burying of power lines. The amount of work planned to be completed in FY 2023 is less than the budgeted level with the unspent portion of the budget carried forward into FY 2024.

#### Current FY 2024:

The expenditure plan contemplates continued expenses associated with burying power lines and other maintenance and improvement initiatives.

## Revenues:

Taxable value is \$ 3,512,537,975 an increase of 3.28% over last year. The rolled-back rate for this district is 0.4629 per \$1,000 of taxable value. Ordinance 01-43 places a cap on the millage rate at 0.5000 per \$1,000 of taxable value. Consistent with the advisory board's recommendation, this budget is sized around the maximum millage rate which will generate \$1,756,300 in property tax revenue.

# **Transportation Management Services Department**

# Improvement Districts and MSTU Sabal Palm Road Extension MSTU&BU (151/1619)

## **Mission Statement**

The Sabal Palm Road Extension Municipal Service Taxing and Benefit Unit (MSTU&BU) was created and established initially to provide a preliminary engineering study for the design, construction, and financing of roadway improvements within the Unit and to provide for the maintenance of the existing Sabal Palm Road Extension. Due to the State's purchase of over 70% of the land within this district, efforts to obtain permits for roadway construction are suspended. The major objective now is to maintain the roadway so that it is accessible for those within the MSTU.

# **Transportation Management Services Department**

# Improvement Districts and MSTU Sabal Palm Road Extension MSTU&BU (151/1619)

#### Notes:

Budget guidance specified that MSTUs without advisory board oversight would be limited to a rolled-back rate position unless staff presented a compelling reason for additional funds. MSTUs with advisory board oversight can consider tax rates ranging from tax neutral (rolled-back rate) to millage neutral depending upon program requirements and taxable values upon advisory board recommendation. The last tax levy was in FY 2017. Since then available fund balance has been carried forward and utilized to address maintenance issues. On an annual basis, funding needs are evaluated to determine if a tax levy should be reinstated. A modest tax levy will be required by FY 2024 to allow for the accrual of revenue to continue ongoing necessary road maintenance.

## Forecast FY 2023:

Expenditures on maintenance typically occur every other year with FY 2023 being a planned year.

## Current FY 2024:

The pattern for maintenance spending is \$30,000 - \$36,000 every other year.

## Revenues:

Ordinance 86-72 established this MSTU. The taxable value is \$168,843,217, an increase of 49.38% over last year. The plan to transfer road maintenance responsibility to the State Department of Forestry has largely been abandoned and a modest tax levy will be required to continue to fund expenses shortly.

# **Transportation Management Services Department**

# Improvement Districts and MSTU Lely Golf Estates Beautification MSTU (152/1620)

## **Mission Statement**

The MSTU was created to beautify and maintain the medians of the roadways and certain other public areas within the Lely Golf Estates Beautification Municipal Service Taxing Unit as determined by the Advisory Committee. The major objective is to refurbish and maintain the completed landscape, irrigation, and lighting improvements.

# **Transportation Management Services Department**

# Improvement Districts and MSTU Lely Golf Estates Beautification MSTU (152/1620)

#### Notes:

Budget guidance specified that MSTUs without advisory board oversight would be limited to a rolled-back rate position unless staff presented a compelling reason for additional funds. MSTUs with advisory board oversight can consider tax rates ranging from tax neutral (rolled-back rate) to millage neutral depending upon program requirements and taxable values upon advisory board recommendation. This MSTU has advisory board oversight, and the advisory board has requested that the millage rate remain at the cap of 2.0 per \$1,000 of taxable value pursuant to Ordinance 2001-024.

## Forecast FY 2023:

The majority of operating expenses cover contractual landscape maintenance and landscape supplies.

## Current FY 2024:

Operating expenses include a landscape services contract and related appropriations to maintain the landscape system along with a \$168,950 improvement allowance and a \$150,000 hurricane reserve.

#### Revenues:

The taxable value is \$203,796,660, an increase of 12.98% over last year. The rolled-back rate for this district totals 1.7722 per \$1,000 of taxable value. Ordinance 2001-024 places a cap on the millage rate at 2.0000 per \$1,000 of taxable value. Consistent with the advisory board's recommendation, this budget is sized around the maximum millage rate which will generate \$407,600 in property tax revenue.

# **Transportation Management Services Department**

# Improvement Districts and MSTU Golden Gate Beautification MSTU (153/1621)

## **Mission Statement**

The Golden Gate MSTU was created to provide general landscaping within the road wight-of-way such as curbing, irrigation, plantings, decorative lighting, and maintenance for the portions of Golden Gate Parkway, Santa Barbara Boulevard, County Road 951, Green Boulevard, Tropicana Boulevard, Sunshine Boulevard, Hunter Boulevard, Coronado Parkeway, and Lucerne Road that are located within the boundaries of the Golden Gate Beautification MSTU.

# **Transportation Management Services Department**

# Improvement Districts and MSTU Golden Gate Beautification MSTU (153/1621)

#### Notes:

Budget guidance specified that MSTUs without advisory board oversight would be limited to a rolled-back rate position unless staff presented a compelling reason for additional funds. MSTUs with advisory board oversight can consider tax rates ranging from tax neutral (rolled-back rate) to millage neutral depending upon program requirements and taxable values upon advisory board recommendation. This MSTU has advisory board oversight, and the advisory board has requested that the millage rate remain at the cap of 0.5 per \$1,000 of taxable value pursuant to Ordinance 96-51.

## Forecast FY 2023:

Forecast expenditures include regular median landscape maintenance as well as electricity, irrigation, lighting, utilities, and supplies.

## Current FY 2024:

Operating expenses are typical for this MSTU and include engineering design services and landscape fees. Other operating expenses include fertilizer, chemicals, mulch, and supplies. Capital outlay allowance for future improvements and renovations is \$1,956,300.

#### Revenues:

Taxable value is \$1,351,201,209 an increase of 11.66% over last year. The rolled-back rate for this district totals 0.4502 per \$1,000 of taxable value. Ordinance 96-51 places a cap on the millage rate at 0.5000 per \$1,000 of taxable value. Consistent with the advisory board's recommendation, this budget is sized around the maximum millage rate which will generate \$675,600 in property tax revenue.

# Improvement Districts and MSTU Hawksridge Pumping System MSTU (154/1622)

#### Forecast FY 2023:

Pump replacements were made during FY 2016 and FY 2017, therefore ongoing maintenance and operational costs of the pumping station comprise the majority of forecasted expenses.

## Current FY 2024:

Appropriations include dollars to maintain and repair pump station equipment. Incidental expenses include indirect costs and the customary Property Appraiser and Tax Collector transfers.

#### Revenues:

Taxable value for this District totals \$102,783,410 an increase of 14.97% over the prior year. Budget guidance specified that MSTUs without advisory board oversight would be limited to a rolled-back rate position unless staff presented a compelling reason for additional funds. MSTUs with advisory board oversight can consider tax rates ranging from tax neutral (rolled-back rate) to millage neutral depending upon program requirements and taxable values upon advisory board recommendation. There is no advisory board for this MSTU. Due to the increasing costs to operate, maintain, and repair pumping equipment, this budget is built around the millage neutral rate of .0318 generating a property tax levy of \$3,300.

# **Transportation Management Services Department**

# **Improvement Districts and MSTU Radio Road Beautification MSTU (158/1625)**

## **Mission Statement**

The Radio Road MSTU provides for beautification, including curbing, hardscape, irrigation and watering facilities, plantings, and maintenance of Devonshire Boulevard and the entrance to the Rich King Memorial Greenway.

# **Transportation Management Services Department**

# Improvement Districts and MSTU Radio Road Beautification MSTU (158/1625)

#### Notes:

Budget guidance specified that MSTUs without advisory board oversight would be limited to a rolled-back rate position unless staff presented a compelling reason for additional funds. MSTUs with advisory board oversight can consider tax rates ranging from tax neutral (rolled-back rate) to millage neutral depending upon program requirements and taxable values upon advisory board recommendation. This MSTU has advisory board oversight and has a millage capped at 0.5 per \$1,000 of taxable value pursuant to Ordinance 96-84. The millage rate suspension will be continued for FY 2024 as sufficient carryforward is available to support the budget.

## Forecast FY 2023:

Forecast expenditures are typical for this MSTU and include landscape expenses and customary overhead charges. Unexpended capital outlay allowance will carry forward into FY 2024.

## Current FY 2024:

Appropriated operating expenses provide for routine landscape maintenance and related services of \$129,900.

#### Revenues:

The taxable value is \$1,958,171,593 an increase of 11.76% over last year. Ordinance 96-84 places a cap on the millage rate at 0.0000 per \$1,000 of taxable value. Taxes were last levied in FY 2019. No tax levy is proposed for FY 2024.

# **Transportation Management Services Department**

# Improvement Districts and MSTU Forest Lakes Roadway & Drainage MSTU (159/1626)

## **Mission Statement**

The Forest Lakes Roadway and Drainage Municipal Service Taxing Unit (MSTU) was created to provide roadway, install and maintain improved roadway lighting, traffic control signage and devices, installation of sidewalks and related amenities, beautification and maintenance areas within the MSTU, the construction roadways, roadway improvements and roadway related drainage and roadway restoration within the area of the Unit as determined by the Advisory Committee, including but not limited to, maintenance of any improvements.

# Improvement Districts and MSTU Forest Lakes Roadway & Drainage MSTU (159/1626)

#### Notes:

From FY 08 through FY21 there were two tax levies - one for operating (Fund 159/1626) and one for debt service (Fund 259/2014). Together the levies totaled \$4.000 per \$1,000 of taxable value - the amount authorized within the enabling ordinance 91-107 as amended by Ordinance 2005-20. The Bond was fully paid in December 2020 freeing up the 2.6219 tax millage required to fund debt service. Consistent with the Forest Lakes MSTU Advisory Committee's recommendation, this budget levies a total of 4.0000 mills or \$4.00 per \$1,000 of taxable value to support ongoing maintenance requirements and pay-go capital improvements.

## Forecast FY 2023:

Forecast expenditures are in line with the budget as amended for prior year contracts that rolled forward.

## Current FY 2024:

Operating expense includes funds for contractual engineering, maintenance, and MSTU overhead costs. A capital improvement reserve of \$2,514,600 is provided.

#### Revenues:

The taxable value for the MSTU is \$294,456,887 an increase of 14.07% relative to last year. The rolled-back rate for this MSTU is 3.5076 per \$1,000 of taxable value. Ordinance 1991-107 as amended by Ordinance 2005-20 authorizes a millage of 4.0000 per \$1,000 of taxable value. The Forest Lakes MSTU Advisory Committee has recommended that the full authorized millage of 4.0000 be levied to support ongoing maintenance requirements and pay-go capital improvements budgeted in Fund (159/1626). This budget levies 4.0000 mills which will generate \$1,177,800 in property tax revenue.

# Improvement Districts and MSTU Rock Road MSTU (165/1632)

#### Notes:

The Rock Road Improvement MSTU was created pursuant to Ordinance 2006-56. Budget guidance specified that MSTUs without advisory board oversight would be limited to a rolled-back rate position unless staff presented a compelling reason for additional funds. MSTUs with advisory board oversight can consider tax rates ranging from tax neutral (rolled-back rate) to millage neutral depending upon program requirements and taxable values upon advisory board recommendation. This MSTU had advisory board oversight from 2011 to 2017 and has a millage capped at 3.0 per \$1,000 of taxable value pursuant to Ordinance 2006-56.

The Board on March 10, 2015 (item 11B) approved an internal loan from the Unincorporated Area General Fund (111/1011) to this MSTU in an amount up to \$285,000 under repayment terms not to exceed fifteen (15) years for purposes of improving the roadway following County standards. The actual advance totaling \$260,000 will be repaid interest-free for ten (10) years. Improvements were made in FY 2015 totaling \$187,000. The difference between the advance and actual improvement costs resulted in a \$123,500 actual fund balance at year ending September 30, 2015. The advance was received as revenue in FY 2015 and the first payment to Fund (111/1011) totaling \$51,200 was made in FY 2016 and a second payment of \$80,000 was made in FY 2017. Scheduled repayments of \$15,000 per year were made in FY 2018, FY 2019, and FY 2020. The loan balance of \$83,800 was repaid in FY 2021.

## Forecast FY 2023:

Forecast expenses provide for roadway maintenance and the repayment of funds advanced from Fund (111/1011).

#### Current FY 2024:

The budget provides funding for planned roadway maintenance, a modest reserve, and transfers for the cost of tax collection and MSTU project management.

## Revenues:

Taxable value is \$85,517,869, an increase of 149.27% relative to last year. This budget is built around the rolled-back rate for this district is 0.8109 per \$1,000 of taxable value. The tax revenue comes to \$24,300. Ordinance 2006-56 places a cap on the millage rate at 3.0000 per \$1,000 of taxable value. The adopted millage rate is 0.2847 which is 64.89% change from rolled back rate.

# **Transportation Management Services Department**

# Improvement Districts and MSTU Vanderbilt Waterway MSTU (168/1635)

## **Mission Statement**

Provide short-term dredging of Water Turkey Bay as well and long-term maintenance of the boater channel for the benefit of property owners located on Vanderbilt Lagoon.

# **Transportation Management Services Department**

# Improvement Districts and MSTU Vanderbilt Waterway MSTU (168/1635)

## Notes:

Funding for design, permitting and execution of the Waterways Dredging Project was provided through a combination of pay-go funding provided through the MSTU ad valorem tax levy and interfund loans from Fund (111/1011) and Fund (001/0001). Full repayment to Fund (111/1011) and Fund (001/0001) was completed in FY 2022.

## Current FY 2024:

The FY 2024 budget provides for planned and contingent operational costs, tax collection costs and a capital reserve.

#### Revenues:

Taxable value is \$ 1,659,814,377 an increase of 5.39% over last year. The rolled back rate for this district is 0.2719 per \$1,000 of taxable value. Ordinance 18-64 places a cap on the millage rate at 0.5000 per \$1,000 of taxable value. The advisory committee recommends a millage neutral rate of 0.3000 which will generate \$497,900 in property taxes.

# **Transportation Management Services Department**

# Improvement Districts and MSTU Street Lighting Districts MSTU (760/1601)

## **Mission Statement**

To provide streetlights to residential and commercial areas that do not meet the requirements for arterial-level roadway lighting. Installation, maintenance, and operation costs for the streetlights will be paid for through the County Board-approved taxing district.

# Improvement Districts and MSTU Street Lighting Districts MSTU (760/1601)

#### Notes:

Overall department expenditures are forecast below budget with the vast majority of expenses connected with the cost of electricity. The number of streetlights within the district is steadily increasing, however, new and replacement lights are more energy efficient than in the past, leading to fairly stable electricity costs. The millage rate for this district increased substantially in FY 2015 to cover the increased cost of electricity and repay Fund (101/1001), which subsidized the cost of electricity in FY 2013 at \$86,147 and FY 2014 at \$83,738. A transfer to Fund (101/1001) was made in FY 2015, FY 2016 and FY 2017. Full repayment of the Fund (101/1001) advance was completed in FY 2017. Electricity accounts for over 94% of forecast expenditures.

## Forecast FY 2023:

Operating Expense is forecast below the FY 2023 budget due to savings in electricity from LED conversions.

## Current FY 2024:

The FY 2024 budget includes \$849,500 for electricity, \$100,000 for street lighting maintenance and new lighting installation, general insurance of \$4,000, indirect costs of \$5,100, as well as customary transfers to the Property Appraiser and Tax Collector. The purchase of electricity comprises the vast majority of programmed expenses. To avoid the need for future advances such as those required in FY 2013 and 2014, and protect against any electrical rate increases, a general capital reserve is programmed.

## Revenues:

Taxable value for this district totals \$8,861,210,680 which represents a 13.66% increase from last year's value. The millage neutral rate is 0.1025 per \$1,000 of taxable value and this rate will raise \$908,300 in property taxes. The Fund's cash position at the beginning of FY 2021 (9/30/20) totaled \$508,800. Cash on 9/30/2021, the beginning of FY 2022, totaled \$595,400, and the budgeted fund balance on 9/30/22 is estimated at \$683,700. The cash position for this Fund will be monitored continually, but it is expected that the rolled-back rate can be levied assuming taxable value continues to increase.

# **Transportation Management Services Department**

# Improvement Districts and MSTU 42nd Ave SE MSTU (761/1637)

## **Mission Statement**

The 42nd Avenue SE MSTU was created to collect reimbursements of expenditures made in repairing 42nd Avenue SE to meet standards that would allow for fire and emergency vehicles to traverse and provide services to benefiting property owners.

# Transportation Management Services Department

# Improvement Districts and MSTU 42nd Ave SE MSTU (761/1637)

#### Notes:

Ordinance 2021-47 created the 42nd Avenue SE Municipal Service Taxing Unit to collect reimbursements of expenditures made in repairing 42nd Avenue SE to place it in a condition that fire and emergency vehicles can traverse and provide services to the property owners directly benefiting. Millage rates are not to exceed 1.0 mils of ad valorem taxes for the first two years (FY23 and FY24) and no more than 5.0 mils of ad valorem taxes per year thereafter. Emergency repairs of \$72,231 were completed in 2021.

## Forecast FY 2023:

A loan of \$73,000 was provided from the Road Assessment Fund (341/3080) to pay for the emergency repairs. Operating expense is forecast to reflect payment for emergency repairs.

## Current FY 2024:

The budget includes a loan payment of \$1,800 to the Road Assessment Fund (341/3080).

## Revenues:

The taxable value for this district is \$3,031,005 an increase of 29.97% from the prior fiscal year. Ordinance 2021-47 places a cap on the millage rate at 5.000 per \$1,000 of taxable value. The BCC voted to hold the millage rate at 1.0000 for the first two years which will generate approximately \$3,000 in property taxes.

# **Transportation Management Services Department**

# Improvement Districts and MSTU Palm River MSTU (1638)

## **Mission Statement**

The Palm River MSTU was created to install sidewalks in the Palm River Estate community.

## **Recap of Recent Debt Issues:**

On September 11, 2018, agenda item 11.A., the Board authorized up to a \$70 million Tourist Development Tax Revenue Bond to finance the development, acquisition, construction and equipping of the Amateur Sports Complex. On October 9, 2018 the Tourist Development tax revenue bond was issued for \$62,965,000. Debt appropriations are budgeted in Fund 270/2017.

On March 12, 2019. agenda item 9.A., the Board authorized up to a \$85 million Collier County Water-Sewer District Revenue Bonds in order to finance the acquisition, construction, and equipping of various utility capital improvements within the northeast area of Collier County. On April 2, 2019 the revenue bond was issued for \$76,185,000. Debt appropriations are budgeted in Fund 410/4010.

On July 9, 2019, agenda item 11.C., the Board authorized a term loan up to \$29 million to purchase the Golden Gate Golf Course. On July 18, 2019, the note was issued for \$28,060,000. Debt appropriations are budgeted in Fund 246/2013.

On September 22, 2020, agenda item 11.B., the Board authorized up to \$92 million in Special Revenue Bonds. Special Obligation Revenue Bond, Series 2020A in the amount of \$75.1 million was to finance the acquisition, construction and equipping Parks and Stormwater capital improvements and refinance variable commercial paper which was used to purchase the Sports Complex property. The Taxable Special Obligation Revenue Bonds, Series 2020B in the amount of \$24,075,000 funded the purchase certain real property. Debt appropriations are budgeted in Fund 298/2022.

On June 8, 2021, agenda item 11.G., the Board approved up to a \$10 million commercial paper loan to finance various capital improvements within the Pelican Bay MSTU&BU. The debt service payments will be funded from the legally available non-ad valorem revenue of the Pelican Bay Funds under a covenant to legally and appropriate. Debt appropriations are budgeted in Fund 299/2023.

On June 22, 2021, agenda item 11.D., the Board authorized up to a \$145 million Collier County Water-Sewer District Revenue Bonds in order to finance the acquisition, construction, and equipping of various utility capital improvements within the northeast area of Collier County and Golden Gate City; and to help fund the Government Operations Business Park. On July 27, 2021 the revenue bond was issued for \$128,900,000. Debt appropriations are budgeted in Fund 410/4010.

General Governmental Bond Refundings - starting in Fiscal Year 2010:

On June 22, 2010, the Board approved the issuance of the Collier County Special Obligation Revenue Bonds, Series 2010 in order to refinance all twelve (12) of the County's outstanding Commercial Paper Loans. Assuming that the balance due on December 2012 would be rolled into a new commercial paper loan and the variable interest plus administrative fee rate is 5%, the refunding generated a net present value savings of 6.34%, or \$3,796,567. The refinancing allowed the County to take advantage of historically low fixed interest rates, eliminated variable interest rate exposure and the \$47 million lump sum loan payment due in December 2012. The Commercial Paper program served the County well over the years with the previous letter of credit provider.

Based on the Debt Service Reserve Requirement within the Bond documents and the dramatic deterioration of the bond insurer's credit ratings, the County was obligated to allocate certain moneys to fund the parity Reserve Account by March 31, 2009. On March 24, 2009, agenda item 16.F.7 and again on September 29, 2009, agenda item 16.F.5, the Board of County Commissioners approved to allocate undesignated fund balances of the Collier County Water/Sewer District Capital and Solid Waste Landfill Closure accounts in the total amount of \$19,570,800. These moneys were placed into Sales Tax Bond Reserve Fund 217/2009 to satisfy the funding up of the parity Reserve Account. On March 12, 2013, agenda item 11.B. the Board approved the repayment of the loans from the County Water/Sewer District and from the Solid Waste funds.

On October 26, 2010, the Board approved the refunding of the Capital Improvement Revenue Bonds, Series 2002. The refunding generated a net present value savings of 5.41%, or \$1,362,315 over the remaining bond life (11 years). The refunding also released approximately \$3.8 million of cash from existing debt service reserves currently restricted pursuant to the bond covenants. The new refunding Bonds known as Special Obligation Refunding Revenue Bonds, Series 2010B, were issued without any reserve or reserve insurance policy and are budgeted in fund 298/2022. These refunding bonds are secured through a general covenant to budget and appropriate of legally available non ad valorem revenues.

On January 25, 2011, the Board approved the prepayment of the Naples Park Area Stormwater Improvement Assessment Bond, Series 1997. The prepayment generated an interest savings \$6,556.

On April 12, 2011, the Board approved the prepayment of the Conservation Collier Limited General Obligations Bond, Series 2008. The prepayment generated an interest savings \$131,725.

Fiscal Year 2024 9 - 2 Debt Service

## **Debt Service**

On October 25, 2011, the Board approved the partial refunding of the Capital Improvement Revenue Bonds, Series 2003 and Series 2005. The partial refunding generated a net present value savings of 5.05%, or \$4,846,269. The refunding also released approximately \$5.3 million of cash from existing debt service reserves currently restricted pursuant to the bond covenants.

The new Special Obligation Refunding Revenue Bonds, Series 2011, were issued without any reserve or reserve insurance policy and are budgeted in fund 298, and were issued under a general covenant to budget and appropriate using all legally available non ad valorem revenues.

On March 12, 2013, the Board approved to refund all remaining outstanding Capital Improvement Revenue Bonds, Series 2003 and Series 2005. The partial refunding generated a net present value savings of 2.96%, or \$2,064,642. The refunding also released the balance of cash (approximately \$10.4 million) from existing debt service reserves currently restricted pursuant to the bond covenants. The new Special Obligation Refunding Revenue Bonds, Series 2013, were issued without any reserve or reserve insurance policy, and are budgeted in fund 298/2022, and were issued under a general covenant to budget and appropriate using all legally available non ad valorem revenues.

The Special Obligation Refunding Revenue Bonds, Series 2010B, Series 2011, and Series 2013, eliminated onerous debt service surety requirements, allowing the release of all borrowed utility and solid waste enterprise funds.

On January 24, 2012, the Board approved the prepayment of the 2007 State Infrastructure Bank Loan. The prepayment generated an interest savings \$59,983.

On April 10, 2012, the Board approved the partial refunding of the Gas Tax Refunding Revenue Bonds, Series 2003. The partial refunding generated a net present value savings of 9.21%, or \$3,811,782. The refunding also will release approximately \$2.8 million of cash in June 2013 from existing debt service reserves currently restricted pursuant to the bond covenants. The new Gas Tax Refunding Revenue Bonds, Series 2012, were issued without any reserve or reserve insurance policy.

On May 13, 2014, the Board approved the partial refunding of the Gas Tax Refunding Revenue Bonds, Series 2005. The partial refunding generated a net present value savings of 11.38%, or \$9,731,581. The new Gas Tax Refunding Revenue Bonds, Series 2014, were issued without any reserve or reserve insurance policy.

On June 28, 2016, the Board approved the prepayment of the 2012 Radio Road MSTU Project Limited General Obligation Note. The prepayment generated an interest savings of \$29,891.

On December 12, 2017, the Board approved the partial refunding of the County's Special Obligation Revenue Bonds, Series 2010. The refunding generated a net present value savings of 6.72%, or \$2,764,838 over the remaining bond life (17 years). The new refunding Note known as Special Obligation Refunding Revenue Note, Series 2017 are budgeted in fund 298/2022. These refunding bonds are secured through a general covenant to budget and appropriate of legally available non ad valorem revenues.

On March 8, 2022, the Board approved the refunding of the Special Obligation Refunding Revenue Bonds, Series 2011 and Series 2013. The partial refunding generated a combined net present value savings of 11.56%, or \$12,256,428. The new refunding Notes known as Special Obligation Refunding Revenue Note, Series 2022A and Series 2022B are budgeted in fund 298/2022. These refunding notes are secured through a general covenant to budget and appropriate of legally available non ad valorem revenues.

## **Enterprise Bond Refundings:**

On January 10, 2023, the Board authorized Collier County Water and Sewer District (District) to issue a Series 2023 Taxable Water and Sewer Refunding Revenue Bond (Bank Term Loan) in the par amount of \$49,945,000. This taxable bond was issued for the purpose of refunding all of the District's outstanding County Water and Sewer Refunding Revenue Bonds, Series 2016. The final maturity of the Series 2023 Taxable Water and Sewer Refunding Revenue Bond is July 1, 2036, with an interest rate of 4.15%. The taxable refunding achieved a net present value savings of 3.24% on the refunded bonds, an aggregate debt service savings of \$1,869,097 and an economic gain of \$1,583,910. The Series 2023 Taxable Water and Sewer Refunding Revenue Bond was issued as a direct placement financing, secured with a lien on parity with all outstanding senior lien Collier County Water and Sewer Revenue Bonds. On July 1, 2026, the Series 2023 Bond is scheduled to be exchanged for a Series 2026 tax exempt bond paying fixed interest at 3.39%. The refunding, assuming an exchange to a taxexempt Series 2026 Bond, will achieve a net present value savings of 7.31% on the refunded debt and an aggregate debt service savings of \$4,395,527.

<sup>\*\*</sup> Debt Service Reserve Fund Requirement eliminated through debt restructuring and all loaned funds from Public Utilities returned.

# **Debt Service Summary**

The Debt Service Section details budgets for the payment of principal and interest on borrowed funds. Funds are borrowed through issuance of general obligation or revenue bonds, commercial paper or bank loans. General obligation bonds are secured by property taxes and can be issued only following a referendum, while revenue bonds pledged a limited revenue source such as sales or gas taxes to repayment and special obligation bonds pledge a basket of legally available non ad valorem revenues. The budget for each debt service fund details the type of debt, the principal outstanding, and the revenue source that is pledged to retire the debt.

## Summary of FY 2024 Budgeted Principal and Interest Payments by Fund

| Fund Title  | Fund#    | <u>Principal</u> | <u>Interest</u> | Arbitrage<br>Services | Fiscal<br>Agent<br>Fee | <u>Total</u> |
|---|----------|------------------|-----------------|-----------------------|------------------------|--------------|
| Series 2012 and 2014 Gas Tax Revenue Bond   | 212/2005 | 12,965,000       | 705,600         | 7,000                 | 10,000                 | 13,687,600   |
| Taxable Special Obligation Bonds, Series 2019                                       | 246/2013 | 2,255,000        | 678,200         | 3,500                 | 500                    | 2,937,200    |
| Tourist Development Tax Revenue Bond, Series 2018                                   | 270/2017 | 1,195,000        | 2,524,400       | 3,500                 | 10,000                 | 3,732,900    |
| Special Obligation Bonds, Series 2010/2017, 2011/2022A, 2013/2022B, 2020A and 2020B | 298/2022 | 14,326,000       | 6,221,100       | 20,000                | 20,000                 | 20,587,100   |
| Commercial Paper Loans  | 299/2023 | 100,000          | 546,500         | 7,000                 | 1,500                  | 655,000      |
| Sub-Total General Governmental Debt   |          | 30,841,000       | 10,675,800      | 41,000                | 42,000                 | 41,599,800   |
| County Water /Sewer District Debt   | 410/4010 | 13,973,000       | 11,206,800      | 20,000                | 40,000                 | 25,239,800   |
| Total   |          | \$44,814,000     | \$21,882,600    | \$61,000              | \$82,000               | \$66,839,600 |

All required principal and interest payments have been made in a timely manner on these bonds.

The County maintains an excellent investment quality credit rating from all three major rating agencies. The following are ratings for select revenue bond debt investments.

## **Current Bond Rating by Rating Agency**

| Debt Instrument                  | Moody's | Standard & Poor's | <u>Fitch</u> |
|----------------------------------|---------|-------------------|--------------|
| Issuer Rating                    | Aaa     | AAA               | AAA          |
| Special Obligation Bonds         | Aaa     | AAA               | -            |
| Tourist Development Tax Bonds    | Aa3     | -                 | AA+          |
| County Water-Sewer Revenue Bonds | Aaa     | -                 | AAA          |

A Moody's Investors Service rating of Aaa is highest rating and is indicative of a high-quality investment grade instrument with minimal credit risk, an Aa rating suggests a high-quality investment grade instrument subject to very low credit risk and an A rating is indicative of an upper-medium grade instrument subject to low credit risk. Moody's uses intermediate modifiers of 1 (higher) to 3 (lower) within the Aa and A ranges.

An obligation rated AAA has the highest rating assigned by Standard and Poor's Global Ratings. The obligor's capacity to meet its financial commitments on the obligation is extremely strong. An obligation rated A is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligato's capacity to meet its financial commitments on the obligation is still strong. Standard and Poor's Global Ratings also uses intermediate +/-modifiers for each category to indicate relative standing within the major rating categories.

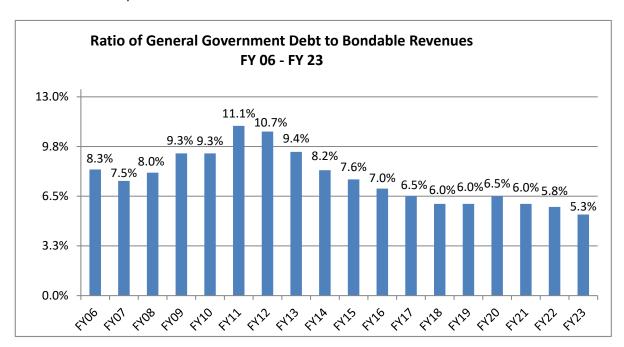

A rating of AAA by Fitch Ratings denotes the lowest expectation of default risk. A rating of AA denotes the expectations of very low default risk and indicates very strong capacity for payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events. Fitch also uses intermediate +/- modifiers for each AA category.

Fiscal Year 2024 9 - 5 Debt Service

Issuing strategic short-term and/or long-term debt is an important part of the County's capital improvement program under the basic premise that future residents should pay for improvements that they will enjoy and not just current residents. Further, lowering interest rates provide an opportunity to capitalize on the County's exemplary credit rating.

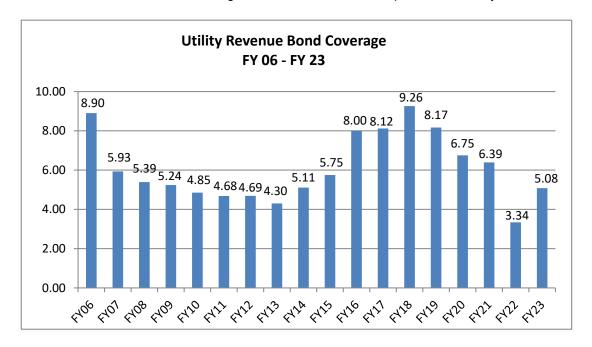

The County is positioned to add new strategic debt to the portfolio after embarking upon an aggressive debt restructuring program in the summer of 2010 and to date, over \$531 million in general governmental debt has been refinanced. As a result, the cost of borrowing has been reduced by \$3,071,500 annually with these recurring savings applied toward high priority "pay as you go" operating and capital programs. Annual principal and interest payments servicing outstanding general governmental debt totals \$41.6 million plus \$25.2 million in enterprise debt and the total represents 3.4% of the County's net adopted FY 2024 budget.

Florida Statutes place no limitations on the application of revenues to debt service by local taxing authorities, but prudent fiscal management dictates a self-imposed level of restraint. The following policy regarding the issuance of debt was adopted in the Growth Management Plan. Collier County will not exceed a maximum ratio of total general government debt service to bondable revenues from current sources of 13%. Current bondable revenues are ad valorem taxes, communications services tax revenue, gas taxes, revenue sharing, impact fees, sales tax, tourist taxes, court facility fees, and charges for services in parks and recreation and community development. The ratio of total general government debt service to bondable revenues from current sources is 5.3% (unaudited for FY23). The FY 11 percent of 11.1% was expected and the reason for the increase from FY 10 to FY 11 is the substantial drop in revenues, specifically ad valorem revenues due to tax base erosion resulting from the economic recession. Future consideration of any debt issuance is a policy decision of the Board in accordance with the County's Debt Management Policy. The trend in this ratio is depicted below.

Fiscal Year 2024 9 - 6 Debt Service

The enterprise funds operate under revenue bonding ratios set by the financial markets and are, therefore, excluded from this debt policy. The utility revenue bonds require coverage (net revenue consisting of user fees, special assessments, and system development charges divided by total debt service requirements) of 1.25. The bond coverage is 5.08 which is an increase over last year resulting from of a combination of a decrease in annual debt service and a mark-to-market adjustment increasing investment income. As demonstrated below, the actual coverage well exceeds the ratio required in the utility bond covenants.

Many, but not all, capital projects are funded on a cash basis. This is recognized in the Growth Management Plan policy regarding general obligation debt: Certain large scale projects of significant county-wide impact and cost would, if funded by current ad valorem taxes in the year of construction, result in an unacceptable millage rate. These projects could be proposed for general obligation bonding. The electorate could be asked through referendum to approve the borrowing of funds for the projects and the levy of ad valorem taxes to pay the resulting debt service. Any capital projects financed by borrowing money shall have a repayment period limited to the useful life of the asset.

## **Bond Refinancing**

The County's Finance Committee, consisting of key County financial management and legal staff, the County's Financial Advisor, and the County Bond Counsel explore the possibility of savings to be generated through refinancing existing bond issues. Depending on market conditions, bond refunding/refinancing may be recommended by the Finance Committee. In general, the net present value savings generated by any proposed refinancing shall be a minimum of 5%. As a general rule, savings generated by refinancing shall be utilized to reduce future debt service payments. Five (5) percent savings is considered a benchmark, but any advance refunding that produces a smaller net present value savings may be considered on a case-by-case basis.

Fiscal Year 2024 9 - 12 Debt Service

# Collier County, Florida DRAFT – Notes to the Financial Statements September 30, 2023

#### **NOTE 7 – LONG-TERM DEBT – CONTINUED**

#### **CURRENT YEAR FINANCING ACTIVITIES**

On January 17, 2023, the Collier County Water and Sewer District (District) issued the Series 2023 Taxable Water and Sewer Refunding Revenue Bond (Bank Term Loan) in the par amount of \$49,945,000. This taxable bond was issued for the purpose of refunding all of the District's outstanding County Water and Sewer Refunding Revenue Bonds, Series 2016. The final maturity of the Series 2023 Taxable Water and Sewer Refunding Revenue Bond is July 1, 2036, with an interest rate of 4.15%. The taxable refunding achieved a net present value savings of 3.24% on the refunded bonds, an aggregate debt service savings of \$1,869,097 and an economic gain of \$1,583,910. The Series 2023 Taxable Water and Sewer Refunding Revenue Bond was issued as a direct placement financing, secured with a lien on parity with all outstanding senior lien Collier County Water and Sewer Revenue Bonds. On July 1, 2026, the Series 2023 Bond is scheduled to be exchanged for a Series 2026 tax exempt bond paying fixed interest at 3.39%. The refunding, assuming an exchange to a tax-exempt Series 2026 Bond, will achieve a net present value savings of 7.31% on the refunded debt and an aggregate debt service savings of \$4,395,527. The refunded Series 2016 Collier County Water and Sewer Refunding Revenue Bonds have a redemption date of July 1, 2026.

On October 6, 2022, Collier County issued a \$1,500,000 commercial paper loan through the Florida Local Government Finance Commission's Pooled Commercial Paper Program. The loan was issued for purposes of sidewalk improvements in the Pelican Bay Services Municipal Services Taxing and Benefit Unit. The loan bears monthly variable interest and is collateralized by all legally available non-ad valorem revenues as defined in the loan agreement.

#### RESTRICTIVE COVENANTS

According to County resolutions authorizing the issuance of the Series 2020A and 2020B Taxable Special Obligation Refunding Revenue Bonds and Series 2017, 2019 and 2022A and 2022B Special Obligation Refunding Revenue Notes (Bank Term Loans), the County has covenanted, subject to certain restrictions and limitations, to appropriate in its annual budget, by amendment if necessary, from non-ad valorem revenues amounts sufficient to pay principal and interest on the combined Special Obligation Bonds and Notes. The total non-ad valorem revenue collections pledged to payment of the Special Obligation Bonds and Notes for the fiscal year ended September 30, 2023 was \$162,869,951.

According to County resolutions authorizing the issuance of the Series 2014 Gas Tax Refunding Revenue Bond (Bank Term Loan), the issue is payable from and secured by a lien on gas tax revenues. Total pledged gas tax collections for the fiscal year ended September 30, 2023, were \$25,188,636.

According to County resolutions authorizing the issuance of the Series 2018 Tourist Development Tax Revenue Bonds, the issue is payable from and secured by a lien on tourist development tax revenues. Total tourist development tax revenues for the fiscal year ended September 30, 2023, were \$44,107,953.

The covenants of the loan agreement authorizing the Florida Local Government Finance Commission pooled commercial paper loans include appropriation in the annual budget, by amendment if necessary, of amounts of non-ad valorem revenues or other legally available funds sufficient to satisfy the loan repayments.

Fiscal Year 2024 9 - 13 Debt Service

The County Water and Sewer District (District) has pledged future water and sewer customer revenues, net of certain operating expenses, to repay \$272,520,000 in Series 2018, 2019, 2021 and 2023 senior lien revenue bonds and direct placement loans. Proceeds from the bonds were used for the refinancing of bonds issued for purposes of rehabilitation or expansion of the District's water and sewer systems as well as the refinancing of bonds issued for purposes of rehabilitation or expansion of the District's water and sewer systems. Principal and interest are payable through July 1, 2046, solely from the net revenues and certain other fees and charges derived from operation of the County's Water and Sewer District. The pledge of net revenues by the District from the operation of the system does not constitute a lien upon the system or any other property of the County. The resolutions authorizing the revenue bonds include an obligation for the District to fix, establish and maintain such rates and collect such fees so as to provide in each year net revenues, as defined in the bond resolutions, which together with system development fees (impact fees) and special assessment proceeds (if applicable) received shall be at least 125% of the annual debt service requirements for the bonds; provided, however, that net revenues in each fiscal year shall be adequate to pay at least 100% of the annual debt service on the bonds. Fiscal year 2023 pledged revenues, net of operating expenses (excluding depreciation and amortization), were \$83,652,362, and \$101,239,179 when system development fees were included. Principal and interest paid on the bonds during fiscal year 2023 totaled \$16,460,530, providing coverage of 508% and 615%, respectively. In addition, bond covenants require a renewal and replacement amount equal to \$300,000 in the District funds. The District was in compliance with these covenants for the year ended September 30, 2023.

In addition, the District has a note outstanding in the amount of \$34,435,000 with Synovus Financial Corporation. This note is collateralized by a lien on pledged revenues consisting of net revenues from the operations of the County Water and Sewer System and system development fees. The lien is subordinate in all respects to the liens placed upon pledged revenues established by bonded indebtedness. The District's note was in compliance with these covenants for the year ended September 30, 2023.

#### **Debt Service**

## General Governmental Debt Taxable Special Obligation Revenue Note, Series 2019 (246/2013)

#### Notes:

On July 9, 2019, agenda item 11.C., the Board authorized up to a \$29 million for the purchase of the 165.08 acres Golden Gate Golf Course. Debt service will be paid from Park Impact Fees for as long as the property is used for active or passive recreation purposes. Should any portion of the property be re-purposed for non-recreation uses, then the use of Park Impact Fees to pay debt service will be recalculated. On July 18, 2019 the note was issued for \$28,060,000.

Purpose: Purchase Golden Gate Golf Course.

Principal Outstanding as of September 30, 2023: \$25,880,000

Final Maturity: October 1, 2029

Interest Rate: 2.749%

Revenue Pledged: Covenant to budget and appropriate non-ad valorem revenues

#### Revenues:

The Park's portion of this property is approximately 112 acres which is 67.84% of the total land purchased (165.08 acres). The affordable housing portion is 23.36 acres which is 14.15% of the total land purchases and will be paid by Surtax Fund (318/3018) pending approval.

The balance of the property (29.72 acres) is for the State's nursing home and property for Road & Bridge for right of way for Collier Blvd. This portion of the debt will be paid by the General Fund until the land is dedicated for the listed purposes. In the future, funding sources will come from the road impact fees (331/3090 - 339/3095) or gas taxes (313/3083) for the row. The State's nursing home debt will be paid by the General Fund since land is to be donated to the State.

#### Notes:

Purpose: Forest Lakes Roadway Capital Improvements. Principal Outstanding as of September 30, 2022: \$0

Final Maturity: January 1, 2022 Bond Retired: December 2020 Interest Rate: 3.75% - 4.25%

Revenue Pledged: Ad Valorem Taxes

Forest Lakes MSTU Limited General Obligation Bonds approved by district referendum in November 2006, totaling up to \$6,250,000, were sold in October 2007. Net proceeds booked to the project fund (159/1626) totaled \$6,100,000. The final debt service payment in FY 2022 will total \$551,500.

Utilizing the reserve in FY 2021, the remaining balance on the bond was pre-paid in December 2020. Residual reserves available after pre-payment of the final debt service payment will be returned to the operating fund (159/1626). There will be no FY 2022 or future debt service tax levy for this bond.

#### **Debt Service**

## General Governmental Debt Tourist Development Tax Revenue Bond, Series 2018 (270/2017)

#### **Mission Statement**

To provide funding and accounting for reserves, sinking funds and the repayment of debt in accordance with the bond/loan documents.

#### Capital Improvement Program (CIP)

Collier County's Capital Improvement Program (CIP) includes growth necessitated projects scheduled in the five-year Capital Improvement Element (CIE) of the County's Growth Management plan as well as non-CIE capital improvements not found in the CIE. The CIP reflects all capital improvements that have been included in the current year's adopted budget. CIP projects encompasses a wide range of projects, reflecting the diversity of services provided by the County, including county roads, parks, museum improvements, public safety and general government facilities, library facilities and materials, landfill improvements, stormwater management improvements, airport facilities, management support systems and water and sewer utility infrastructure required by the community.

#### Capital Improvement Element (CIE)

In 1985 and 1986 the Florida Legislature significantly strengthened the requirements for county and city comprehensive plans. One of the new provisions of the Local Government Comprehensive Planning and Land Development Regulation Act is the requirement that the local government comprehensive plans must contain a Capital Improvement Element (CIE). The CIE is a planning document that identifies public facilities that will be required during the next five or more years. The CIE is the foundation of Collier County's annual Capital Improvement Program.

#### **Capital Improvement Program (CIP) Development**

On an annual basis, Collier County prepares and adopts a five-year CIE consistent with the requirements of the Growth Management Plan. Utilizing the CIE framework, operating departments of the County Manager's agency and Constitutional Officers identify project needs and together with the appropriate Engineering Divisions and Facilities Management Division develop proposed project budgets. The proposed project budgets are submitted to the Office of Management and Budget (OMB). OMB reviews the proposed projects, groups them by funding source, determines the amount of funding available, reviews projects for consistency with the CIE, assembles the proposed CIP, and presents it to a capital project review committee for prioritization.

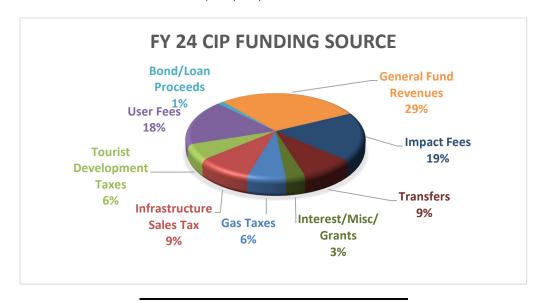

After being prioritized by the review committee the proposed CIP is presented to the Board of Collier County Commissioners in a workshop format. During the workshop the Board reviews the CIP and makes decisions as to the need, timing, and funding of projects. The Office of Management and Budget changes the CIP in accordance with the Board's direction and presents the annual CIP for adoption during the public budget hearings in September.

Funds budgeted for a specific project remain allocated until the project is completed. Additionally, project budgets are reviewed annually and, if needed, funding may be adjusted.

#### The FY 24 Capital Improvement Program (CIP)

Revenue: The Capital Improvement Program budget includes a variety of revenues that are used both for the direct funding of projects and as a source of debt service to retire bonds. Road construction is funded by a combination of gas taxes, local option infrastructure sales tax, impact fees, General Fund revenues, grants, interest and carry forward. Stormwater management projects are funded with General Fund revenues, grants, bond proceeds, interest and carry forward. Water and sewer utility projects are funded by system development fees/impact fees, user fees, bond proceeds, interest and carry forward. Solid Waste landfill projects are funded by landfill user fees, interest and carry forward. Growth related projects in parks, EMS, library, fire, correction, law enforcement and general governmental facility projects are funded by impact fees, interest and carry forward and for specific projects (EMS stations and Forensic Evidence building) by the local option infrastructure sales tax.

The FY 24 CIP includes total revenues of \$740,005,400 as shown below.

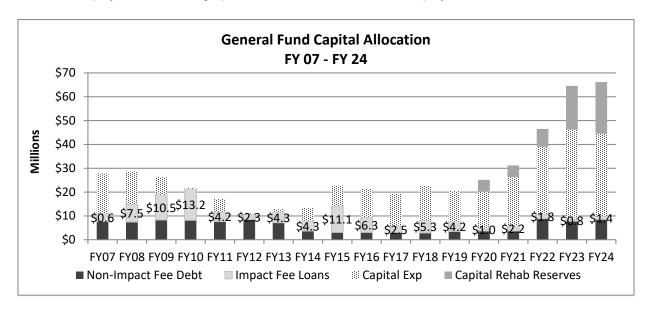

| FY 24 CIP REVEN           | IUE           |
|---------------------------|---------------|
| Gas Taxes                 | \$ 20,503,100 |
| Infrastructure Sales Tax  | 30.313.400    |
| Tourist Development Taxes | 19,596,400    |
| User Fees                 | 56,401,200    |
| Bond/Loan Proceeds        | 4,004,000     |
| General Fund Revenues     | 94,314,400    |
| Impact Fees               | 59,868,000    |
| Transfers                 | 28,697,400    |
| Interest/Misc./Grants     | 10,478,100    |
| Total                     | 324,176,000   |
| Carry forward             | 422,846,900   |
| Revenue Reserve           | (7,017,500)   |
| Net Revenue               | \$740,005,400 |

#### 1/3 mill Equivalent General Fund Capital Allocation

The County dedicates a portion of its General Fund revenue to the construction of capital projects and for the repayment of debt, an equivalent of 1/3 of a mill, however in FY 24, the equivalency amount was increased to 0.4771 of a mill. Major renovations and repairs of government buildings and facilities, libraries, parks, EMS, domestic animal services, airport, and museum improvements are projects that typically receive funding from the General Fund from the 1/3 of a mill allocation. (Transportation and Stormwater capital projects also receive General Fund support outside of the 1/3 of a mill equivalent allocation.)

Since FY 07, Impact fees collections have dropped by more than 50%. Early in 2000, many growth-related projects have been constructed from impact fee revenues, most have been financed. During the Great Recession which started in FY 2007, the impact fee revenue stream was not adequate to meet impact fee debt service obligations. Until impact fee collections rebound a portion of the General Fund Capital allocation was being used to cover any impact fee debt service shortfall. This arrangement is considered an internal loan between the Impact Fee Funds and the General Fund. To date, the General Fund has loaned the impact fee funds \$104,595,574.

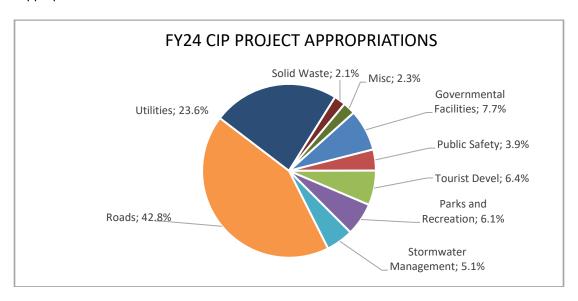

Below is a graph of general fund capital funding that has been allocated to paying non-impact fee debt, loans to the impact fee funds for unfunded projects and cash shortfall to pay their debt payments, capital maintenance projects and funding-up a reserve for future rehabilitation projects.

Continued construction of new plant, equipment and facilities certainly brings into focus ongoing long-term maintenance and replacement of the county's substantial infrastructure investment. Collier County leadership remains committed to protecting its substantial infrastructure investment; targeting new strategic capital investment; and structuring the organization to always maintain customary unique services and programs enjoyed by County residents and visitors.

Generally, the County is positioned smartly to account for, manage and replace Agency wide infrastructure. Regular recurring resources are devoted annually to this important initiative and the management system designed to track and rate Agency assets is continually evolving so that the best real time information is available for decision makers to allocate competing resources in a strategic manner during the budget process. Transitioning designated red assets to green more quickly than with the standard "pay as you go" approach will be evaluated through various financing strategies where appropriate based upon compliance with the "Debt Management Policy". In addition, substantial resources have and will continue to be set aside in reserves dedicated to the replacement of future assets constructed. Keeping in mind the County's financial philosophy of regular and consistent debt amortization, maintaining an excellent investment quality credit rating, setting appropriate reserve levels, and maintaining adequate cash balances provides the ongoing financial infrastructure to preserve our substantial infrastructure investment.

**Appropriations:** FY 24 Capital Improvement Program appropriations include \$262,047,500 in planned project expenditures, reserves of \$367,367,000, debt service funding of \$48,074,000, transfers of \$28,841,000; impact fee studies and operational costs support of \$425,000. The allocation of FY 24 CIP project appropriations is shown below.

| FY 24 CIP APPROPRIATION            | S  |               |
|------------------------------------|----|---------------|
| Governmental Facilities            | \$ | 20,210,000    |
| Public Safety                      |    | 10,265,000    |
| <b>Tourist Development Council</b> |    | 16,898,400    |
| Parks & Recreation                 |    | 15,989,100    |
| Stormwater Management.             |    | 13,298,500    |
| Roads                              |    | 112,116,600   |
| Utilities                          |    | 61,639,000    |
| Solid Waste                        |    | 5,615,500     |
| Misc.*                             |    | 6,015,400     |
| Project Total                      |    | 262,047,500   |
| Reserves/Debt/Misc.                |    | 444,706,100   |
| Total Appropriations               |    | \$706,753,600 |

<sup>\*</sup>Misc. includes Library books \$1,000,000, Museum Capital Program \$200,000, Pelican Bay – Clam Pass Restoration \$189,100, Pelican Bay – Capital Improvement Program \$3,826,300, and Airport 800,000.

<sup>\*</sup> The 5-cent Local Option Fuel Tax is earmarked towards the payment of debt service, Bridge Repairs and Improvements (project 66066) and intersection improvements (project 60016).

## The Five-Year Capital Improvement Program (CIP) & Capital Improvement Element (CIE) of the Collier County Growth Management Plan

Revenue: The five-year CIE utilizes several revenue sources to fund the County's future facility needs. Water and sewer utility projects are funded by future bond/loan proceeds, impact fees, user fees, interest and funds carried forward. Road construction is funded through a combination of future bond/loan proceeds, local and state gas taxes, local option infrastructure sales tax, impact fees, developer contribution agreements, grants, transfers from the General Fund/ Unincorporated Area General Fund, interest, and funds carried forward. EMS, Library, Park, Law Enforcement, Correctional, and General Governmental facilities projects are funded through impact fees, interest, funds carried forward and loans from the General Fund and for specific projects (EMS stations & ambulances and Sheriff's Forensic Evidence building) local option infrastructure sales tax. Certain general government and public safety capital expenditures typically funded through transfers from ad valorem taxes (General Fund or the Unincorporated Area General Fund) are Library, Parks, major replacement and repair projects and Stormwater Management improvements, which are not eligible to be funded by impact fees. Stormwater anticipates additional funding from bond proceeds. Solid waste landfill projects are funded by landfill tipping fees, interest and funds carried forward. The five-year CIE revenue sources listed below represent the funding for the FY 24 - FY 28 CIP/CIE.

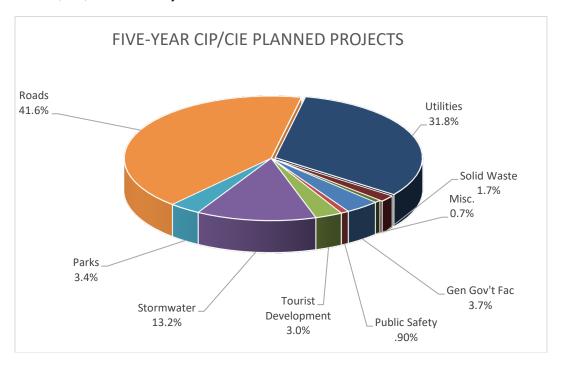

#### **FIVE-YEAR CIP/CIE PLANNED REVENUE**

(In Thousands)

| Gas Taxes                                  | \$ 110,503  |
|--|-------------|

<sup>\*</sup> The 5-cent Local Option Fuel Tax is earmarked towards the payment of debt service, Bridge Repairs and Improvements (project 66066) and intersection improvements (project 60016).

**Planned Project Expenditures:** Across the five-year CIP/CIE planning period, project expenditures are expected as summarized below.

| FIVE-YEAR CIP/CIE PLANNED PROJECTS BY YEAR |                    |  |  |
|--|--------------------|--|--|
| FY 2024                                    | \$ 262,047,500     |  |  |
| FY 2025                                    | 367,215,300        |  |  |
| FY 2026                                    | 379,599,800        |  |  |
| FY 2027                                    | 360,336,800        |  |  |
| FY 2028                                    | <u>267,922,000</u> |  |  |
| Project Total                              | \$1,637,122,000    |  |  |

#### **Operational Impact of the CIP/CIE**

Although the Capital Improvement Program is prepared separate from the operating budget, the two have a direct relationship. Operating budget appropriations lapse at the end of the fiscal year, however, capital appropriations not spent or encumbered are carryover from the previous fiscal year into the current fiscal year until the project is finished and capitalized.

Capital improvement projects, including those that involve development of new facilities or new and expanded infrastructure, will generate future operating and maintenance expense in the future plus a weighty requirement to replace the asset at the end of the asset useful life. Operating savings may also be realized. For example, while construction of a new EMS station will result in additional costs for staffing and operations, repaving a street may result in reduced need for maintenance. Those costs or savings are not included in the capital budget estimates, but rather are incorporated in the operating budget. Most of the time, these operating costs may impact the budget prior to the completion of the facility. An important element of the CIP process is consideration of any future increases in operating costs, which will result from capital activity, so that estimates of those costs can be incorporated in the appropriate long term financial plans for the affected funds.

The following is a brief recap of all the facilities planned or under construction.

Tourist Development (TDC) Projects (Funds 183/100, 195/1105, 370/3007, 758/1108):

The majority of projects are beach sand renourishment, dredging and maintenance of park beach assets.

• Project 50156 – Amateur Sports Complex and Events Center is a facility funded by a \$65 million bond (Oct 2018) to be paid back from Tourist Development Taxes. This project is broken down into 4 phases with numerous buildings, fields, parking, and other amenities. The General Fund (001/0001) will support the day-to-day operations of the complex whereas Tourist Development taxes will fund the promotion, marketing, and management of the Complex from Fund (758/1109). The FY 2024 operating budget is approximately \$6.4 million which include a total of 6 FTE's that support the operations of the complex.

County-Wide Governmental Facilities Projects (Fund 181/1056, 301/3001, 390/3034 & 318/3018): The majority of these projects are repairs, maintenance, and replacements of existing buildings and assets.

Parks and Recreation Projects (Funds 303/3061,305/3060,306/3062,308/3063,345/3070,346/3071& 318/3018):

The majority of these projects are repairs, maintenance, and replacement of existing Park infrastructure. These types of projects are funded with General Fund (001/0001 & 111/1011) dollars. The 2020 Bond proceeds are funding Sun-N-Fun infrastructure and various pool repairs at other parks.

Project 80039 – Big Corkscrew Island Regional Park is a new park. Phase 1 of the park is completed and
is open to the public while Phase 2 is under construction in the eastern part of the county. The source of
funding for construction is Park's impact fees and \$40 million from the infrastructure sales tax. The FY
2024 net operating budget is supported by the general fund is approximately \$2.7 million which includes
a total of 26 FTE's that support the operation of the facility.

Stormwater Projects (Funds 325/3050 & 327/3052):

The majority of these projects are repairs, maintenance, and replacement of existing stormwater infrastructure. Capital Projects are funded with both General Funds (001/0001 & 111/1011) as well as grants from South Florida Water Management District and bond proceeds. Operating costs will not change. The FY 2024 net operating budget are part of the Transportation Management Services Department within Fund 103/1005 and is approximately \$9.6 million which includes a total of 25 FTE's that support storm water operation. The operating budget is funded with both the General Fund (001/0001) and the Unincorporated General Fund (111/1011).

- Project 60139 Naples Park Area Stormwater Improvements. This is multiyear improvement project is being developed in coordination with the Public Utilities Department to include stormwater management, water, and wastewater improvements within the Naples Park neighborhood. This joint effort will reduce construction costs by capitalizing on economy of scale and avoiding multiple disturbances in the neighborhood.
- Project 60234 Palm River Stormwater Improvement. This is multiyear improvement project is being
  developed in coordination with the Public Utilities Department to include stormwater management, water,
  and wastewater improvements within the Palm River community. This joint effort will reduce construction.
  costs by capitalizing on economy of scale and avoiding multiple disturbances in the neighborhood.
- Project 60102 Gordon River Stormwater Improvements. The Gordon River watershed consists of approximately 4,432 acres and is bounded by the Crossings to the north, the Conservancy of Southwest Florida to the south, Airport Pulling Rd to the east, and US 41 to the west. Various areas throughout the Gordon River Extension (GRE) basin experience high water inundation conditions during heavy rainfall events. These areas include the Country Club of Naples, Forest Lakes, Pine Ridge Industrial Park, Poinciana Village, Golden Gate Parkway, and the properties west of GF Rd, north of Golden Gate Parkway, and south of Pine Ridge Rd. The intent of these projects is to reduce the potential flooding scenarios throughout the basin. These projects include the Golden Gate Parkway AMIL Gate Weir 32 Replacement, Goodlette-Frank Supplemental Outfall, Freedom Park Stormwater Pump Station, Freedom Park Bypass Ditch & Spreader Swale, Goodlette-Frank Ditch Improvements.

Solana/Burning Tree Box Culvert Extension, Maintenance Access Road/ Seawall, and the Forest Lakes Rock Weir Replacement.

#### **Transportation Projects**

(Funds 112/1012, 310/3081, 313/3083, 331-339/3090 - 3095, 341/3080, & 318/3018):

The majority of these projects are repairs, maintenance, and widening of existing Transportation infrastructure.

#### Public Safety -

(Funds EMS (350/3030 & 318/3018), Fire (372/3035), Law Enforcement (385/3033 & 318/3018), and Correction (381/3032)

- EMS Capital projects. In the Infrastructure sales tax referendum, \$6 million was allocated for the construction of 3 EMS substations. As bids are received, additional funding is being sought from the Infrastructure Sales Tax. The FY 2024 operating budget for EMS is captured in Fund (490/4050) and is supported by the general fund and user fees is approximately \$51.9 million which includes a total of 228 FTE's that support the operation of the division.
  - Project 55211 Heritage Bay EMS substation is budgeted and will be in the procurement phase for design.
  - Project 55212 Estates (Desoto & Golden Gate) EMS substation is budgeted, and design has been completed.
  - Project 55213 Old US41 EMS station is in the 5-year plan and as currently in the procurement phase for construction.
- In the Law Enforcement Capital program, the construction of two substations is planned. The North Naples substation is in a flood zone therefore needs to be relocated to higher ground. The Everglades substation is currently in rental property and the Sheriff desires to relocate to a permanent location. Capital funding for the North Naples substation will most likely come from the General Fund since it's a replacement of an existing building and the Everglade substation will be funded with impact fees. The operating costs should not change since both sites already have personnel and operating costs. In the infrastructure sales tax referendum \$33 million was allocated to the Sheriff for a new Forensic/Evidence facility. The current Forensic building is in a flood zone and needs to be relocated. Also, the Sheriff has several storage sites throughout the County and would like to have a building where all the evidence can be stored. This new building will be built at the Government Operations Business Park.
- There are no new capital projects within the next 5-years for Fire (Fd 372/3035) or Corrections (Fd 381/3032).

#### Miscellaneous Capital Projects

Library (Fund 355/3031), Growth Management Capital (Fund 309/3025), Museum (Fund 314/3026), Pelican Bay (Funds 320,322/3040,3041), and Airport (Fund 496-499/4091-4094):

- The Growth Management capital budget includes funding for building repairs and funding for a future expansion or new building to house office staff. These projects are funded with user fees and loan proceeds. Building repairs will not affect current operating expenses which are on various pages within the Growth Management Department.
- The Museum capital program is for maintenance, refurbishment, and replacement of various assets. These projects are funded with General Fund (001/0001) and Tourist Development tax. Operating budgets will remain unchanged. The FY 2024 operating budget for Museums are captured in Fund (198/1107) and is approximately \$2.8 million which includes a total of 16 FTE's that support the operation of the division.
- Pelican Bay capital program is for the maintenance of Clam Pass and for various infrastructure maintenance and improvements. These capital projects are funded with special assessments. Operating costs should remain unchanged. The FY 2024 operating budget for Pelican Bay are part of the office of

the County Manager's section and is approximately \$5.8 million which includes a total of 27 FTE's that support the operation of the division.

- Project 50211 Pelican Bay Operations Building. Replacement of the current building that has
  reached the end of its service life, the project plan is to replace the existing building and facilities for
  maximal efficiency purposes. The project will include the design and construction of new chemical
  and soil storage buildings, pole barn for housing large and tall equipment, fueling facility, and nursery.
  The site will be improved after demolition and prior to construction to address the water management
  issues as required by FEMA.
- The Airport capital program is for repair, maintenance, and monitoring of various assets. Capital funding is from user fees and General Fund (001/0001). Operating costs should remain unchanged. The FY 2024 operating budget for the Airport is in Fund (495/4090) and is approximately \$9.1 million which includes a total of 17 FTE's that support the operation of the facility.
- There are no new capital projects within the next 5-years for the library.

Utility Capital (Water and Wastewater) (Funds 411-419/ 4011-4019):

The majority of these projects are repairs, maintenance, and replacement of existing water and wastewater infrastructure. The Utilities Division has been proactive in developing and constructing infrastructure in eastern part of Collier County where it's very rural and undeveloped. Operating costs will not change and are funded by user fees. The FY 2024 operating budget for utility operations are in Fund (408/4008) and is approximately \$155.1 million which includes a total of 485.05 FTE's that support operations. Several developers have approached the County and the Utility inquiring about water and sewer services. In April 2019, the Utility Division issued a \$76.2 million bond and in July 2021, a \$128.9 million bond to finance the "below ground" infrastructure. Construction of the transmission mains and master pumping stations are noted in Project 70194 – Northeastern Utilities Facilities.

- In the 5-year capital plan, Project 70194 construction of a new 4 MGD Northeast Wastewater Reclamation Facility (NEWRF) will be funded with a bond and paid back over time with wastewater system development fees/impact fees. Future operating expenses will increase once this plant is on-line.
- In the 5-year capital plan, Project 70194 construction of a new 5 MGD Northeast Regional Water Treatment Plant (NERWTP) will be funded with a bond and paid back over time with water system development fees/impact fees.

Solid Waste Capital (Fund 474/4074):

The majority of these projects are repairs, maintenance, and replacement of existing infrastructure. Operating costs will not change. The FY 2024 operating budget for Solid Waste operations are in Fund (470/4070) and 473/4073 and is approximately \$64.3 million which includes a total of 47 FTE's that support operations.

- Project 70169 East Naples Recycling Drop Off Center is a future facility. Initial funding is for land purchase and design.
- Project 70232 Immokalee Household Hazardous Waste Center is a future facility.
- Project 59007 The Resource Recovery Park is over 300 acres of undeveloped land located north and northeast of the landfill. The land will be dedicated to future Solid Waste facilities.

### **Capital Budget Presentation**

The capital improvement section of the budget book is organized into three sections. The first section is the 5-year capital plan. The second section is comprised of schedules that summarize the FY 24 CIP by Fund and Department/Division. The third section is a short description of each the FY 24 capital projects.

### Section II: 5-Year CIP/CIE FY 24 - FY 28

### **Capital Improvement Program**

#### Notes

Due to the rise of maintenance expenses, the capital program has been put on hold and funding has been reallocated to the maintenance of current landscaped medians.

#### Forecast FY 2023

The FY 2023 budget continues to reflect the transfer of maintenance function from the Unincorporated General Fund (111/1011) to the Landscape Capital Fund (112/1012) which occurred in FY2021 for the maintenance of 121.9 miles of beautified segments.

#### Current FY 2024

The FY 2024 carryforward supports a transfer to the Growth Mgmt Capital Fund (310/3081) of \$5,139,600.

### **Capital Improvement Program**

### **Court Maintenance Fee Fund (181/1056)**

#### **Mission Statement**

On July 28, 2009, the Board amended Ordinance 04-43 (with Ordinance 09-41) by increasing the surcharge imposed for non-criminal traffic infractions set forth in Chapter 318, Florida Statutes, and those offenses enumerated in the Section 318.17, Florida Statutes, from \$15 to \$30 per Section 318.18(13), Florida Statutes. This revenue was specifically created to fund State Court Facilities.

#### Notes

Funds collected pursuant to Ordinance 2004-43 amended by Ordinance 2009-41 shall be expended as provided by the Board in consultation with the Chief Judge.

#### Forecast FY 2023

On July 15, 2021, Chief Judge McHugh approve a \$1,550,000 request to upgrade the fire alarm and sprinkler system inside the Courthouse and to also replace the heating, ventilation and air conditioning system.

# Capital Improvement Program TDC Category A Beach Park Facilities Cap - Fund (183/1100)

### **Mission Statement**

To account for capital projects funded by Tourist Development Tax (TDT) for Category A - Beach Park Facilities projects.

#### Notes

In December 2005, the Board authorized the segregation of funds collected for park beach facilities from funds collected for beach renourishment/pass maintenance activities. The fact that dollars dedicated to park beach facilities were co-mingled with beach renourishment funds proved problematic in identifying compliance with beach renourishment reserve guidelines and in identifying funds available for park beach facilities. As a result, the Park Beaches Fund (183/1100) was established allowing staff to budget and financially account for revenues and expenditures devoted to park beach projects. The TDC Beach Capital Fund (195/1105) became solely used to account for beach renourishment/pass maintenance projects and related activities and reserves.

On April 23, 2013, the Board authorized amendments to the Tourist Tax Ordinance revising the distribution of Tourist Taxes to Category A Beach projects. The overall distribution to beach parks and beach renourishment was reduced from 50% to 41.29% of TDC revenue. Within Category A, the distribution to park beach facilities was reduced from 16.67% to 4.48% and the distribution to beach renourishment was increased from 33.33% to 36.82%. On July 11, 2017, the Board approved increasing the Tourist Development Tax from 4% to 5% and distribution adjustments among Tourist Tax supported funds. The revenue-neutral allocation to Beach Park Facilities represents approximately 3.58% of the Tourist Tax revenue budget.

In FY2021, an advance (loan) of \$7.3 million was transferred to the Sports Complex Fund (370/3007) to support Paradise Coast Sports Complex phase 2 improvements.

In FY2024, a partial repayment of the advance in the amount of \$250,000 is scheduled from the Sports Complex Fund (370/3007).

### **Capital Improvement Program**

### TDC Category A Beach Renourish/Pass Maint Cap - Fund (195/1105)

### **Mission Statement**

To account for capital projects funded by Tourist Development Tax (TDT) for Beach Renourishment / Pass Maintenance projects.

### Capital Improvement Program

#### Notes

In December 2005, the Board authorized the segregation of funds collected for park beach facilities from funds collected for beach renourishment/pass maintenance activities. The fact that dollars dedicated to park beach facilities were co-mingled with beach renourishment funds proved problematic in identifying compliance with beach renourishment reserve guidelines and in identifying funds available for park beach facilities. As a result, the Park Beaches Fund (183/1100) was established allowing staff to budget and account for revenues and expenditures devoted to park beach projects. The TDC Beach Renourishment Capital Fund (195/1105) became solely used to account for beach renourishment/pass maintenance projects and related activities and reserves.

On April 23, 2013, under a 4 percent TDT levy the Board authorized amendments to the Tourist Tax Ordinance revising the distribution of Tourist Taxes to TDC Category "A" Beach projects. The overall distribution to beach parks and beach renourishment was reduced from 50% to 41.29% of TDC revenue. Within Category "A", the distribution to park beach facilities was reduced from 16.67% to 4.48% and the distribution to beach renourishment/Pass Maintenance was increased from 33.33% to 36.82%.

In FY 2018 a reserve for potential reimbursement to the Florida Department of Emergency Management (FDEM) was established at \$7,000,000. In a letter dated February 5, 2018, FDEM communicated the settlement of the remaining reimbursement issue. According to that letter, there is no payment due from the County, instead, out of an outstanding County reimbursement request of \$7,700,000 FDEM has agreed to pay \$3,700,000 with the County conceding \$4,000,000 of the requested amount. The settlement allows the segregated reimbursement reserve to be eliminated and the funds moved to general capital reserves.

On July 11, 2017, the Board approved increasing the Tourist Development Tax from 4% to 5% and distribution adjustments among Tourist Tax supported funds. Relative to overall Tourist Development Taxes, the beach renourishment allocation represents 38.98% of the tax revenue budget.

#### Forecast FY 2023

Forecast expenditures reflect FY 2023 project budgets and ongoing projects established in prior years.

#### Current FY 2024

Construction projects programmed for FY 2024 are shown in the table provided.

#### Revenues

The principal source of revenue to support beach renourishment and inlet management is Tourist Development Taxes. Beach renourishment and inlet management funding is authorized by the Florida Statute from the first three pennies of TDT. Relative to the three pennies, Beach Renourishment Fund (195/1105) receives 64.96% of available TDC tax revenue and the Beach Park Facilities Fund (183/1100) receives 5.96% for a total of 70.92% of available TDT monies going to beaches. Estimated TDT allocation to Beach Renourishment Fund (195/1105) is anticipated to be \$13,438,900, approximately 5% above the prior year budget.

# Capital Improvement Program County Wide Capital Projects Fund (301/3001)

### **Mission Statement**

To provide General Fund funding for various capital projects under the various Constitutional Officers.

### **Capital Improvement Program**

### Florida Boating Improvement Fund (303/3061)

#### **Mission Statement**

Accounts for boater related capital projects. There are two fees imposed on motorized boaters; one is a state imposed fee and the other is a county imposed registration fee. Monies are spent in accordance with Section 328.72(15) and 328.66(1), Florida Statutes; to maintaining waterways as well as building and repairing public boat ramps and docks, removing derelict vessels, and maintaining waterway markers.

### **Capital Improvement Program**

#### Notes

Prior to FY 2017, the boater improvement/vessel registration fees were accounted for in the Parks and Recreation Capital Projects Fund (306/3062).

Per Florida Statutes section 328.72(15), the portion of the state vessel registration fees returned to county governments are for the sole purposes of providing, maintaining, or operating:

Recreational channel marking and other uniform waterway markers,

Public boat ramps, lifts, and hoists,

Marine railways,

Boat piers, docks, mooring buoys, and other public launching facilities; and

Removing derelict vessels, debris that specifically impede boat access, not including the dredging of channels, and vessels and floating structures deemed a hazard to public safety and health for failure to comply with s.327.53 F.S.

Per Florida Statutes section 328.66(1), the local optional vessel registration fee proceeds are expended for the patrol, regulation, and maintenance of the lakes, rivers, and waters and for the other boating-related activities.

# Capital Improvement Program ATV Settlement Capital Fund (305/3060)

#### **Mission Statement**

Collier County and the South Florida Water Management District entered into a Settlement Agreement wherein the District paid Collier County \$3 million to dispose of litigation arising out of a 2003 Agreement between the parties in which the District was to convey 640 acres to Collier County for recreational ATV use.

#### Notes

On June 9, 2011, the County received \$3 million from the South Florida Water Management District.

On December 10, 2013, agenda item 11.G., the Board approved segregating the remaining settlement moneys into its own fund (305) so interest earnings may accumulate and be held for ATV riding purposes.

On April 24, 2018, agenda item 11.C., the Board approved the allocation of \$20,000 annual for a Tickets to Ride program for Collier County citizens so they may recreate at ATV facilities.

On January 26, 2021, agenda item 16.D.8, the Board approve all unspent interest earnings to help offset the annual \$100 off-road vehicle riding permit fee assessed by the Big Cypress National Preserve by 50% for Collier County residents.

## **Capital Improvement Program**

### Parks & Recreation Capital Projects (306/3062)

#### **Mission Statement**

Accounts for non-growth capital projects managed by the Parks & Recreation Division. The principal funding sources are operating transfers from the General Fund (001/0001) and Unincorporated General Fund MSTD (111/1011).

### Capital Improvement Program

#### Notes

On September 22, 2020, agenda item 11.B., the Board authorized the issuance of a Special Obligation Revenue Bond, Series 2020A to finance park improvements in the amount of \$20,000,000. Proceeds were received in October 2020.

The 2020A Special Obligation Revenue Bonds were issued to finance acquisition, construction and equipping of various capital improvements including but not limited to the following aquatic and other park related improvements listed below and as the same may be amended and/or supplemented from time to time.

\* Various capital improvements at Sun & Fun (Proj 80421) Golden Gate (Proj 80275 & 80405) and Immokalee (Proj 80429) aquatic facilities including but not limited to, those related to pool restoration, electrical, decking, ADA improvements, activity and competitive pool improvements, bathhouse, slide tower, pump house, splash pads, flow rider & other improvements.

\*Capital improvements at Caxambas Reg Pk (Proj 80423) including, but not limited to, those related to piers, stationary docks, floating docks, and boardwalks.

\*Various capital improvements at Goodland and Port of the Islands Marinas including, but not limited to, assessment and renovation of dock and reparation and replacement of seawalls. (Proj 80423). Please see Bond book for more detail descriptions.

## **Capital Improvement Program**

### **Transportation Capital Fund (310/3081)**

#### **Mission Statement**

This fund accounts for General Fund (001/0001, 111/1011) transfers used for the operation and maintenance of improvements to the roads as well as ancillary facilities such as sidewalks, bike paths, streetlights, landscaping and other facilities incidental to the proper movement of traffic along roads and streets and transportation related grant matches.

Forecast FY 2023

A \$2,756,900 transfer was budgeted to the Transportation Match Fund (712/1842) to support grant programs.

## **Capital Improvement Program**

### Road Construction - Gas Tax Fund (313/3083)

#### **Mission Statement**

Accounts for various Gas Tax funds utilized in the road capital construction and maintenance program. The principal revenue source is gas tax revenue from the Local Option 5 and 6 cent Gas Tax, Ninth Cent Gas Tax and the Constitutional Gas Tax. The County Seventh Cent Gas Tax is deposited directly into the Gas Tax Debt Service Fund (212/2005).

#### Notes

The 5-cent Local Option Fuel Tax is earmarked towards the payment of debt service, Bridge Repairs and Improvements (Proj 66066) and Intersection Improvements (various projects).

#### History:

- \*The Ninth Cent fuel tax (1-penny) was established via Ordinance 1980-50. On July 12, 2022, the Board adopted Ordinance 2022-32 extending the expiration date to December 2055.
- \*The 6-cent fuel tax was established via Ordinance 1989-27. Ordinance 1999-40 provided a provision to allocate a portion of these fuel taxes with the Cities. On July 12, 2022, the Board adopted Ordinance 2022-31 extending the expiration date to December 2055.
- \*The 5-cent fuel tax was established via Ordinance 1993-48 and included a provision to allocate a portion of these fuel taxes with the Cities. On July 12, 2022, the Board adopted Ordinance 2022-30 extending the expiration date to December 2055.

#### Revenues

The FY24 revenue budget continues to stay consistent with FY23 funding levels.

# Capital Improvement Program Museum Capital Projects Fund (314/3026)

#### **Mission Statement**

To provide General Fund (001/0001) and Tourist Development Tax (TDT) funding for various capital projects for the Museum.

## **Capital Improvement Program**

### Infrastructure Sales Tax (1 Penny) Capital (318/3018)

#### **Mission Statement**

County Manger's Capital.

The Infrastructure one-cent sales surtax was passed by voters to enhance safety, mobility, and hurricane preparedness in Collier County and its cities by constructing, repairing, and maintaining roads, bridges, signals, sidewalks, parks, evacuation shelters, governmental and emergency services facilities; acquire land and support construction for workforce housing and career and technical training, veteran's nursing home and expand mental health facilities. The collection of the one-cent sales surtax started on January 1, 2019 and sunset on December 31st of any year in the event that the total aggregate (includes cities) distributions of the surtax proceeds equal or exceed \$490,000,000 or on December 31, 2025. Exhibit A of Ordinance 2018-21 (approved by the BCC on April 24, 2018) provides a list of eligible projects.

### **Capital Improvement Program**

#### Notes

The Infrastructure Sales Tax Fund (318/3018) is displayed on 3 different pages, under Transportation Management Services Department Capital, Public Utilities Department Capital, and Office of the County Manager Capital.

#### Current FY 2024

Exhibit A of Ordinance 2018-21 provides a listing of eligible projects. All projects must be presented to the Sales Tax Committee for validation before going to the Board of Commissioners for project and budget approval. The various projects budgeted will be displayed in either the Public Utilities Capital or Transportation Management Services Capital sections of the budget book.

The County Manager's Capital section of the budget book will display Reserves.

#### Revenues

\$ 60,787,027 - in FY 2019, the penny sales tax went into effect on January 1, 2019, and the tax was collected over 9 months (January - September 2019).

\$ 81,735,267 - FY 2020 Collections. Revenue shortfalls occurred during the COVID-19 pandemic shutdown in March - May 2020.

\$ 99.588.370 - FY 2021 Collections.

\$120,375,618 - FY 2022 Collections

\$124,563,002 - FY 2023 Collections

\$487,049,284 - Total BCC Collections thru FY 2023.

\$ 50,247,597 - Total Cities' Collections thru FY 2023.

\$537,296,881 - Total BCC & Cities Collections thru FY 2023

The FY 2023 Adopted Budget of \$108,653,900 was based on the State's (August 24, 2022) FY 2022 Local Government Financial Information Handbook estimated infrastructure sales tax revenue for Collier County. Sometime after August 24th, the State updated its estimate to \$121,253,500.

The FY 2023 Forecasted amount of \$121,253,500 is based on the State's current estimate for FY 2023.

The FY 2024 Adopted Budget of \$30,313,400 is based on 3 months using the State's estimate for FY 2023. Ordinance 2018-21 has a cap of \$490,000,000. This cap will be reached before December 31, 2023. In late summer or early fall, the BCC will approve an Ordinance to rescind the tax. The merchants will stop collecting the tax on January 1, 2024.

### **Capital Improvement Program**

### Infrastructure Sales Tax (1 Penny) Capital (318/3018)

#### **Mission Statement**

#### **Public Utilities' Department Capital**

The Infrastructure one-cent sales surtax was passed by voters to enhance safety, mobility, and hurricane preparedness in Collier County and its cities by constructing, repairing, and maintaining roads, bridges, signals, sidewalks, parks, evacuation shelters, governmental and emergency services facilities; acquire land and support construction for workforce housing and career and technical training, veteran's nursing home and expand mental health facilities. The collection of the one-cent sales surtax started on January 1, 2019 and sunset on December 31st of any year in the event that the total aggregate (includes cities) distributions of the surtax proceeds equal or exceed \$490,000,000 or on December 31, 2025. Ordinance 2018-21, Exhibit A of Ordinance 2018-21 (approved by the BCC on April 24, 2018) provides a list of eligible projects.

#### Notes

Exhibit A of Ordinance 2018-21 provides a listing of eligible projects. Once projects are validated by the Sales Tax Committee, they will be budgeted via budget amendment within this fund. The Infrastructure Sales Tax Fund (318/3018) is displayed on 3 different pages, under Transportation Management Services Department Capital, Public Utilities Department (PUD) Capital and Office of the County Manager Capital.

#### Forecast FY 2023

The Facilities Management Division as well as the PUD Engineering Division are the project managers for the projects listed above. These projects have been validated by the Infrastructure Sales Tax Committee and the Board has approved the projects and authorized the various budget amendments.

Exhibit A of Ordinance 2018-21 includes \$139 million in Facilities & Capital Replacement related projects and the Sales Tax Committee validated \$130.6 million in projects. The Forensic & Evidence Building - \$33 million was validated by the Committee, however, only \$5 million is in the budget. Construction is expected next year. The Project titled Government Operations Business Park is the Sheriff's Forensic & Evidence Building. The balance of projects to be validated and budgeted are as follows: \$43,906.04 - HVAC, Roofing & Capital Equipment replace at Sheriffs and County facilities. \$7,947,021.00 - Hurricane Resilience

Exhibit A of Ordinance 2018-21 also includes \$90 million in Community Priorities related projects. The Workforce Housing Land Trust project for \$20 million has been budgeted and as properties are identified, they will be brought to the Committee to be validated. The balance of projects to be validated and budgeted are as follows: \$15 million - Career and Technical Training Center

### **Capital Improvement Program**

### Infrastructure Sales Tax (1 Penny) Capital (318/3018)

#### **Mission Statement**

**Transportation Management Service's Capital** 

The Infrastructure one-cent sales surtax was passed by voters to enhance safety, mobility, and hurricane preparedness in Collier County and its cities by constructing, repairing, and maintaining roads, bridges, signals, sidewalks, parks, evacuation shelters, governmental and emergency services facilities; acquire land and support construction for workforce housing and career and technical training, veteran's nursing home and expand mental health facilities. The collection of the one-cent sales surtax started on January 1, 2019 and sunset on December 31st of any year in the event that the total aggregate (includes cities) distributions of the surtax proceeds equal or exceed \$490,000,000 or on December 31, 2025. Ordinance 2018-21, Exhibit A of Ordinance 2018-21 (approved by the BCC on April 24, 2018) provides a list of eligible projects.

### **Capital Improvement Program**

#### Notes

Exhibit A of Ordinance 2018-21 provides a listing of eligible projects. Once projects are validated by the Sales Tax Committee, they will be budgeted via budget amendment within this fund. The Infrastructure Sales Tax Fund (318/3018) is displayed on 3 different pages, under Transportation Management Services Department Capital, Public Utilities Department Capital, and Office of the County Manager Capital.

#### Forecast FY 2023

Exhibit A of Ordinance 2018-21 includes \$191 million in Transportation related projects, the Sales Tax Committee validated \$191 million in projects and the Board has approved several budget amendments at this time for \$50.5 million. These projects have other established funding (impact fees and/or gas taxes) which is being spent first on right-of-way, planning, engineering, and/or permitting. Construction contracts are expected in future years. When these contracts go before the Board, a budget will be established.

### Current FY 2024

Exhibit A of Ordinance 2018-21 provides a listing of eligible projects. All the Transportation projects have been validated by the Sales Tax Committee and once other funding has been depleted and or construction contracts are awarded, the projects will be budgeted via budget amendment after Board approval within this fund.

Fiscal Year 2024 10 - 60 Capital Improvement Program

# Capital Improvement Program Clam Bay Restoration Fund (320/3040)

#### **Mission Statement**

On December 11, 2012, the Board reinstated the ongoing management responsibilities of Clam Pass to the Pelican Bay Services District. Pelican Bay Services Division MSTU&BU utilizes annual assessment revenue collected for restoration and improvements to the Clam Bay Ecosystem.

### Capital Improvement Program

#### Forecast FY 2023

This capital fund primarily appropriates dollars for restoration and improvements to the Clam Bay Ecosystem. The basis of accounting on the expense side of the equation provides that forecast capital dollars always match the amended budget for any year; the exception is reserves. The difference between forecast or amended budget dollars and those dollars actually spent, roll forward into the next fiscal year. This practice occurs until the project is closed out and dollars are re-appropriated. A project budget may also be amended prior to closure, re-directing current project dollars that may not be needed to either reserves or other ongoing projects. The primary active project is restoration of Clam Bay.

#### Current FY 2024

Budgeted funds will be added to the Clam Bay restoration project. Continued engineering reports on the water quality and health of Clam Bay will also be funded from this account as well tide gauge maintenance.

#### Revenues

Funding for part of the restoration and improvement of the Clam Bay Eco-system comes from special assessment revenue based upon equivalent residential units within the District. For FY 2024, the equivalent residential unit (ERU) assessment within the capital fund (320/3040) has decreased from \$26.52 to \$25.50 which raises \$195,300. Total ERUs remained at 7,659.90 in FY2024.

## **Capital Improvement Program**

### Pelican Bay Hardscape & Landscape Improvements (322/3041)

#### **Mission Statement**

Pelican Bay Services Division MSTU&BU utilizes annual assessment revenue for restoration and improvements to Pelican Bay hardscape such as sidewalks, beach renourishment, irrigation, signage and other capital amenity projects.

### Capital Improvement Program

#### Notes

On 7/9/2019, the Board adopted Resolution 2019-140 (agenda item 11B) which authorized a capital contribution from the County of \$500,000 a year for 10 years to replace and transfer the responsibility of the maintenance of sidewalks and certain drainage outfalls in perpetuity to the Pelican Bay Services Division. In FY 2024, the fifth of ten capital contributions has been budgeted. The Board also authorized a contribution by Collier County of \$20,000 per year in perpetuity to be utilized for maintenance or enhancements to make the sidewalks compliant with ADA standards and to reduce liability.

#### Funding Future Capital Projects:

At the 12/9/2020 PBSD Board Meeting, the board recommended participating in the Florida Local Government Finance Program for up to \$8 million to be used for replacement of sidewalks, renovations to lake banks and drainage pipelines, and other infrastructure improvement projects within Pelican Bay. The Board may convert a portion of the borrowed funds to a longer-term, fixed-interest loan once the projects are completed.

At the 2/10/21 PBSD Board Meeting the board voted to endorse the Executive Summary prepared by OMB authorizing the County to borrow an amount not exceeding \$10 million under the Florida Local Government Finance Commission's Pooled Commercial Paper Loan Program for the construction of various capital improvements within the Pelican Bay MSTBU.

On 6/8/21, the Board approved a resolution authorizing the County's borrowing an amount not exceeding \$10,000,000 under the Florida Local Government Finance Commission's Pooled Commercial Paper Loan Program for the purpose of constructing various capital improvements within the Pelican Bay MSTBU. This loan will be repaid from Pelican Bay MSTUBU annual assessment revenue and certain amounts provided to Pelican Bay under the asset swap agreement discussed in the notes above.

#### Forecast FY 2023

This capital fund primarily appropriates dollars for restoration and improvements to the Pelican Bay hardscape, irrigation, and other capital amenity projects. Any difference between the forecasted and the actual dollars spent, roll forward into the next fiscal year. This practice occurs until the project is closed out and dollars are re-appropriated. A project budget may also be amended prior to closure re-directing current project dollars that may not be needed to either reserves or other ongoing projects.

#### Current FY 2024

Capital funds totaling \$3,826,300 will be allocated among the various capital initiatives including lake bank enhancements, traffic sign renovation, hardscape upgrades, streetlight improvements, beach re-nourishment, and Phase 2 of the sidewalk replacement project. Phase 2 construction began in FY 2022 and is anticipated to be completed end of the year 2024.

#### Revenues

Special assessment revenue per equivalent residential unit (ERU) increased from \$206.63 to \$228.60 This equates to assessment revenue totaling \$1,751,100. Total ERUs remain at 7,659.90 in FY24.

# Capital Improvement Program Pelican Bay Commercial Paper Fund (323/3042)

#### **Mission Statement**

To provide accounting for commercial paper proceeds for various improvements within Pelican Bay.

#### Notes

On June 8, 2021, agenda item 11.G, the Board approved a resolution authorizing borrowing up to \$10,000,000 to finance various capital improvements within Pelican Bay MSTU&BU. The loan is secured by the County's covenant to budget and appropriate legally available non ad-valorem revenue, but will be repaid specifically from Pelican Bay MSTU&BU annual assessment revenue and certain amounts provided to the Pelican Bay MSTU&BU under an asset swap contribution resolution between the County and the Pelican Pay Services Division.

#### Forecast FY 2023

In FY 2023, the second draw of \$1,500,000 took place for Phase II of the Sidewalk Project.

#### Current FY 2024

In FY 2024, commercial paper draws may occur to fund Phase II of the Sidewalk project or other capital projects such as the Operations Building.

### **Capital Improvement Program**

### Stormwater Management Capital (325/3050)

#### **Mission Statement**

Design, permit and construct capital improvement projects better managing and protecting the County's water resources. Projects improve flood control decreasing the probability of property damage from flooding, improve water quality and protect existing natural systems. The capital improvement program promotes and improves the quality of life in Collier County by managing and improving discharge to our estuaries and Outstanding Florida Waters. Provide supervision, engineering and coordination such that the projects are designed and constructed in a timely, efficient, and economical manner.

#### Notes

On July 12, 2022, agenda item 11G, the Board approved up to a \$30 million commercial paper loan to finance the construction of Vanderbilt Beach Road Extension. The debt services payments will be funded from Gas Taxes Capital Projects Fund (313/3083).

### **Capital Improvement Program**

#### Notes

The current active project involves emergency repairs to Blue Sage Drive. Original emergency repairs were done in FY 18 with follow on repairs being done in FY 20. The FY 20 repairs were approximately \$25,200.

#### Forecast FY 2023

The forecast reflects the available Blue Sage repair budget of \$27,900 as well as budgeted ad valorem tax revenue.

#### Current FY 2024

Current year budget includes an operating budget of \$37,400 for the Blue Sage project.

#### Revenues

The current budget is the fourth year of the Blue Sage Drive ad valorem tax. Ordinance 2019-19 established the Blue Sage Municipal Service Taxing Unit to repay the Road Assessments Fund (341/3080) for road repair expenditures. The first year of the assessment was FY 21. Taxable value is \$5,707,668 an increase of 4.04%. The rolled-back rate for this district is 2.8835. This budget is sized around the maximum millage rate of 3.0000 per \$1,000 and is expected to raise \$17,123 in property taxes. The prepayment of repair costs is expected to take four to five years or more depending on taxable values and the need for additional repairs.

### **Capital Improvement Program**

### Regional Pk Impact Fee-Incorp Area (345/3070)

#### **Mission Statement**

Collier County's Regional Park Impact Fee was originally adopted in December 1988, to assist the County to pay for growth related regional parks land, buildings and capital equipment. The Ordinance was repealed and replaced with the "Community & Regional Parks Impact Fee - Unincorporated Area" in May 1999. The Incorporated Areas are not assessed a Community Park Impact Fee, only the Regional Park Impact Fee. This fund is being maintained to segregate the Incorporated impact fee collections and to track how they are spent. Impact fees are assessed and collected on residential new building construction permits.

### **Capital Improvement Program**

### Community & Regional Pk Impact Fee (346/3071)

#### **Mission Statement**

Collier County's "Community Park Impact Fee" and "Regional Parks Impact Fee" Ordinances were repealed and replaced with the "Community & Regional Parks Impact Fee - Unincorporated Area" in May 1999, to continue to assist the County to pay for growth related parks facilities. Impact fees are assessed and collected on residential new building construction permits.

#### Notes

The Infrastructure one-cent sales surtax was passed by the voters in November 2018. The Big Corkscrew Park was included in the project list with an allocation of \$40 million going towards the construction of the park. The \$40 million budget can be viewed on the Infrastructure Sales Tax Fund (318/3018) page.

# Capital Improvement Program EMS Impact Fee Fund (350/3030)

#### **Mission Statement**

Collier County's Emergency Medical Services (EMS) Impact Fee was originally adopted in August 1991, to assist the County in providing adequate growth related EMS facilities and vehicles. Impact fees are assessed and collected on new building construction permits.

### **Capital Improvement Program**

#### Notes

The next 3 EMS Stations will be built with the use of the Infrastructure one-cent sales surtax which was passed by voters in November 2018. Six million dollars was allocated to EMS for three resilient facilities to be located on Desoto Blvd (Golden Gate Estates), Immokalee & Collier Blvd, (Heritage Bay) and Old US41. The budget for each station will be captured in the Infrastructure Sales Tax Fund (318/3018). The projects will be managed by Facilities Management - Public Utilities Department.

#### Current FY 2024

Since 2007, the EMS Impact Fee fund "borrowed" money from the General Fund (001/0001) and County-Wide Capital Fund (301/3001) for the ambulance purchase or construction of substations as well as receiving assistance in paying it's debt service payments for a helicopter, Emergency Operations Center, ambulances, and property on Old US 41.

As of Sept 2023, the balance of amounts owed will be \$0 to the General Fund (001/0001) and \$7,081,500 to the County-Wide Capital Fund (301/3001).

In FY 2024, the Advance/Repayment to the County-Wide Capital Fund (301/3001) in the amount of \$128,100 will reduce the debt to \$6,953,400.

## **Capital Improvement Program**

### Library Impact Fee Fund (355/3031)

#### **Mission Statement**

Collier County's Library System Impact Fee was originally adopted in December 1988, to assist the County in providing adequate growth related library construction. Impact Fees are assessed and collected on residential new building construction permits.

#### Forecast FY 2023

Since 2007, the Library Impact Fee Fund "borrowed" money from the County-Wide Capital Fund (301/3001) for additional funding for the construction of the South Regional Library and Golden Gate Library Expansion as well as receiving assistance in paying it's debt service payments for the North and South Regional Libraries and the Golden Gate Expansion. As of the start of FY 23, the total amount owed is \$9,446,900 to the County-Wide Capital Fund (301/3001).

The Advance/Repayment to the County-Wide Capital Fund (301/3001) in the amount of \$500,000, will reduce the amount owed to the County-Wide Capital Fund (301/3001) to \$8,946,900.

#### Current FY 2024

The Advance/Repayment to the County-Wide Capital Fund (301/3001) in the amount of \$450,000, will reduce the amount owed to the County-Wide Capital Fund (301/3001) to \$8,496,900.

# Capital Improvement Program Sports & Events Complex Capital (370/3007)

#### **Mission Statement**

To provide accounting for bond and loan proceeds for the Sports & Special Events Complex.

#### Forecast FY 2023

Since 2009, the Correctional Facilities Impact Fee fund "borrowed" money from the County-Wide Capital Fund (301/3001) to assist in paying its debt service payments for the Naples Jail constructed in 2003. To date, the total amount owed is \$8,179,500 to the County-Wide Capital Fund (301/3001).

In FY23, the Advance/Repayment to the County-Wide Capital Fund (301/3001) for \$700,000, will reduce the amount owed to the County-wide Capital Fund (301/3001) to \$7,479,500.

#### Current FY 2024

in FY24, the Advance/Repayment to the County-Wide Capital Fund (301/3001) for \$400,000, will reduce the amount owed to the County-wide Capital Fund (301/3001) to \$7,079,500.

### **Capital Improvement Program**

#### Law Enforcement Impact Fee (385/3033)

#### **Mission Statement**

The Law Enforcement Impact Fee was originally adopted in June 2005. Impact fees are collected on new building construction in the unincorporated areas of Collier County to pay for growth related law enforcement facilities and capital equipment.

#### Notes

The Infrastructure one-cent sales surtax was passed by the voters in November 2018. The Forensic Evidence Building was included in the project list with an allocation of \$33 million for construction and outfitting. This project's budget is captured in the Infrastructure Sales Tax Fund (318/3018). The project will be managed by Facilities Management - Public Utilities Department.

### **Capital Improvement Program**

#### **General Governmental Buildings Impact Fee (390/3034)**

#### **Mission Statement**

Collier County's General Government Building Impact Fee was originally adopted in March 2004. Impact fees are collected on new building construction to pay for growth related general government facilities.

### **Capital Improvement Program**

#### Water/Sewer District Motor Pool Capital Recovery Fund (409/4009)

#### **Mission Statement**

Provide cost-effective life cycle replacement of Water and Wastewater Motor Pool vehicles and heavy equipment through a centralized capital recovery system. User Divisions are assessed an annual replacement charge based on the cost and estimated life of the equipment. The Motor Pool capital recovery program for other enterprise entities is located within the 400 series of fund numbers: Solid Waste Motor Pool Fund (472/4072), EMS Motor Pool Fund (491/4051); and the General Governmental Motor Pool Fund (523/5023).

#### Capital Improvement Program

#### Notes

The Motor Pool Capital Recovery program was restarted in FY 2016. All vehicle purchases for the County Water/Sewer District Operations Fund (408/4008) have been transferred into the Motor Pool Capital Fund (409/4009) to add clarity and improve accountability over these important operational assets.

#### Forecast FY 2023

Miscellaneous Revenue in the amount of \$74,600 is from several auctions held in 2023, where old vehicles were auctioned and proceeds retained to fund replacement vehicles.

#### Current FY 2024

The capital outlay budget is for replacement vehicles. Fleet Management, in cooperation with the Public Utilities Department, decided on which vehicles should be replaced in FY 2024.

An administrative charge is calculated based on the number of vehicles in each motor pool capital fund to offset the operating cost in the General Governmental Motor Pool Fund (523/5023) to administer the program. The total amount of administrative charge is calculated at \$32,500 and will be transferred accordingly; interest earnings will be used to offset the administrative charge.

The Reserve level is set at 200% of the annual motor pool capital recovery billing which will establish a level of program flexibility. This will allow for unexpected price fluctuations, replacement schedule adjustments, and other program changes.

#### Revenues

The Motor Pool Capital Recovery billings (revenue) in the amount of \$2,536,400 represent motor pool capital recovery charges assessed to the water and wastewater enterprise fund for the purchase of (future) replacement vehicles and heavy equipment.

# Capital Improvement Program Airport Capital Fund (496/4091)

#### **Mission Statement**

This fund accounts for the Airport's capital projects which are not grant funded.

### **Capital Improvement Program**

#### Notes

Non-grant-funded capital projects will be tracked within Fund (496/4091). Grant-related projects and their required local match components are programmed within Funds (498/4093) and (499/4094), respectively.

#### Current FY 2024

The \$861,200 transfer from the Airport Operations Fund (495/4090) is budgeted to fund FY24 capital projects and added to reserve for future capital and grant match requirements.

# Capital Improvement Program Airport Grants (498-499 / 4093-4094)

#### **Mission Statement**

To account for the funds received from federal and state grants supporting capital projects at each airport location.

#### Notes

Upon receipt, new grant programs are brought before the Board of County Commissioners for approval and acceptance. At that time, budgets are added to the financial accounting and grant management system.

# Capital Improvement Program Airport Grants (498-499 / 4093-4094)

#### **Mission Statement**

To account for the funds received from federal and state grants supporting capital projects at each airport location.

#### Notes

Upon receipt, new grant programs are brought before the Board of County Commissioners for approval and acceptance. At that time, budgets are added to the financial accounting and grant management system.

### **Capital Improvement Program**

### **County Water System Development Capital Fund (411/4011)**

#### **Mission Statement**

To account for the funds received from water impact fees / system development fees.

#### Notes

On December 12, 2017, the Board of County Commissioners (Board) adopted Resolution No. 2017-243 creating the Cassena Road Potable Water MSBU to assess and collect assessments for the construction of potable water facilities. Included in this Resolution was a provision for an internal loan from Fund (111/1011) to facilitate timely completion and minimize costs. The initial year of the five (5) year assessment was FY 2019. FY 2023 is the final year of the assessment.

### **Capital Improvement Program**

#### County Water/Sewer Capital Funded by Revenue Bonds (419/4019)

#### **Mission Statement**

The following water and wastewater capital projects are funded by bond proceeds.

#### Current FY 2024

Capital outlay includes the following projects:

\$ 486,200 Reserve for Capital Outlay EMS

\$1,500,000 Reserve for Future Capital Replacements - Helicopter

A helicopter replacement reserve has been established and will be funded \$500,000 per year.

#### Revenues

On January 10, 2023, the Board approved an agreement with the GAC Land Trust to purchase an ambulance (\$342,000) plus equipment (\$10,000) for the new EMS station 74 to be built on DeSoto Blvd. The ambulance purchase is being accounted for in the EMS Motor Pool Capital Recovery Fund (491/4051).

### **Capital Improvement Program**

#### **Solid Waste Motor Pool Capital Recovery Fund (472/4072)**

#### Mission Statement

Provide cost-effective life cycle replacement of Solid Waste Motor Pool vehicles and heavy equipment through a centralized capital recovery system. User Divisions are assessed an annual replacement charge based on the cost and estimated life of the equipment. The Motor Pool capital recovery program for other enterprise entities are located within the 400 series of fund numbers; Water/Sewer Motor Pool fund (490/4009); EMS Motor Pool fund (491/4050); and the General Governmental Motor Pool replacement program is in fund (523/5023).

#### Capital Improvement Program

#### Notes

The Motor Pool Capital Recovery program was restarted in FY 2016. All vehicle purchases for the Solid Waste Funds (470/4070 & 473/4073) have been transferred into the Motor Pool Capital Fund (472/4072) to add clarity and improve accountability over these important operational assets.

#### Forecast FY 2023

Miscellaneous Revenue in the amount of \$19,000 is from several auctions held in 2023, where old vehicles were auctioned and proceeds retained to fund replacement vehicles.

#### Current FY 2024

The capital outlay budget is for replacement vehicles. Fleet Management, in cooperation with the Solid Waste Division, decided on which vehicles should be replaced in FY 2024.

An administrative charge is calculated based on the number of vehicles in each motor pool capital fund to offset the operating cost in the General Governmental Motor Pool Fund (523/5023) to administer the program. The total amount of administrative charge is calculated at \$5,200 and will be transferred accordingly; interest earnings will be used to offset the administrative charge.

The Reserve level is set at 200% of the annual motor pool capital recovery billing which will establish a level of program flexibility. This will allow for unexpected price fluctuations, replacement schedule adjustments, and other program changes.

#### Revenues

The Motor Pool Capital Recovery billings (revenue) in the amount of \$281,200 represent motor pool capital recovery charges assessed to the solid waste enterprise fund for the purchase of (future) replacement vehicles and heavy equipment.

# Capital Improvement Program Solid Waste Capital Improvements (474/4074)

#### **Mission Statement**

Solid waste capital projects are funded by user fees and support the infrastructure required to maintain the County's integrated solid waste management system, including maximizing landfill airspace, and are designed to meet the current and future needs for Collier County waste disposal and recycling.

#### Forecast FY 2023

Hurricane Ian debris removal efforts are being funded through a \$42 million project in the Solid Waste Capital Fund (474/4074). The Federal Emergency Management Agency (FEMA) has already provided an expedited reimbursement of \$23.2 million. The \$18.8 million balance of the project is funded with Solid Waste reserves from Funds (470/4070, 471/4071, 473/4073, and 474/4074, and from \$5,000,000 borrowed from another Solid Waste project in Fund (474/4074). Additional reimbursements from FEMA, insurance, and interlocal agreements are expected to be recognized and used to restore deferred projects and reserves when received over the next two (2) - five (5) years. The final value of reimbursements is unknown and will be less than 100%. The total costs of \$42 million are required to be submitted to FEMA with required detailed documentation and evidence, and upon FEMA / Florida Division of Emergency Management audits, actual claimed expenses must be found to be eligible for reimbursement.

#### Current FY 2024

A transfer of \$4,000,000 from Fund (470/4070) has been budgeted to fund the Immokalee Transfer Station redevelopment project, the Resource Recovery Business Park development project, and other smaller capital improvement and maintenance projects. A Transfer of \$300,000 from Fund (473/4073) has been budgeted for the Driveway Improvement project. A transfer from the Solid Waste Landfill Closure Fund (471/4071) has been budgeted for \$1,500,000. This budget was established to set up the mechanism to transfer over cash from Fund (471/4071) in case a storm makes landfall in Collier County. The \$1,500,000 was placed into a Reserve for Disaster Relief.

# Capital Improvement Program EMS Motor Pool Capital Recovery Fund (491/4051)

#### Mission Statement

Provide cost-effective life cycle replacement of Emergency Medical Services Motor Pool vehicles and ambulances through a centralized capital recovery system. User Divisions are assessed an annual replacement charge based on the cost and estimated life of the equipment. The Motor Pool capital recovery program for other enterprise entities are located within the 400 series of fund numbers: Water/Sewer Motor Pool Fund (409/4009), Solid Waste Motor Pool Fund (472/4072); and General Governmental Motor Pool Fund (523/5023).

#### Capital Improvement Program

#### Notes

All vehicle purchases for the Emergency Medical Services Fund (490/4050) have been transferred into this Motor Pool Capital Fund (491/4051) to add clarity and improve accountability over these important operational assets. The motor pool capital recovery program was restarted in FY 2016, however, for EMS it was not implemented until FY 2017.

#### Forecast FY 2023

Miscellaneous Revenue in the amount of \$15,000 is from several auctions held in 2023, where old vehicles were auctioned and proceeds retained to fund replacement vehicles.

#### Current FY 2024

The capital outlay budget is for the replacement of vehicles and ambulances. Fleet Management, in cooperation with the Emergency Medical Services Division, decided on which vehicles should be replaced in FY 2024.

An administrative charge is calculated based on the number of vehicles in each motor pool capital fund to offset the operating cost in the General Governmental Motor Pool Fund (523/5023) to administer the program. The total amount of administrative charge is calculated at \$8,300 and will be transferred accordingly; interest earnings offset the administrative charge.

The Reserve level is set at 200% of the annual motor pool capital recovery billing which will establish a level of program flexibility. This will allow for unexpected price fluctuations, replacement schedule adjustments, and other program changes.

#### Revenues

The Motor Pool Capital Recovery billings (revenue) of \$1,617,300 represent motor pool capital recovery charges assessed to Emergency Medical Services for the purchase of (future) replacement vehicles and ambulances.

On January 10, 2023, the Board approved an agreement with the GAC Land Trust to purchase an ambulance (\$342,000) plus equipment (\$10,000) for the new EMS station 74 to be built on DeSoto Blvd. The \$10,000 is being accounted for in the EMS Capital Fund (455/4055).

# Capital Improvement Program EMS Motor Pool Capital Recovery Fund (491/4051)

#### **Mission Statement**

This fund accounts for EMS capital purchases approved by the Board of County Commissioners.

#### Current FY 2024

The EMS Fund (491/4051) was shared by Fleet, to run the Motor Pool Capital Recovery program and by EMS for their capital program.

The EMS capital program will be relocated to EMS Capital Fund (455/4055).

### **Capital Improvement Program**

#### **Motor Pool Capital Recovery Fund (523/5023)**

#### **Mission Statement**

Provide cost-effective life cycle replacement of general governmental Motor Pool vehicles and heavy equipment through a centralized capital recovery system. The Motor Pool capital recovery program for enterprise entities are located within the 400 series of fund numbers: Water/Sewer Motor Pool Fund (409/4009), Solid Waste Motor Pool Fund (472/4072), and EMS Motor Pool Fund (491/4051).

#### Notes

The Motor Pool Capital Recovery Program was restarted in FY 2016 for all the Governmental funds except for the Road and Bridge (Fund 101/1001) which joined the program in FY 2017. Excluded from the program are vehicles in MSTU's, CRA's, Pelican Bay, Tourism Funds (including the Museum), Conservation Collier, grants, Airport, Fire Districts, and Constitutional Officers. User Divisions are assessed an annual replacement charge based upon the cost and estimated life of the equipment.

#### Forecast FY 2023

Miscellaneous Revenue in the amount of \$300,800 is from several auctions held in 2023, where old vehicles were auctioned and proceeds retained to fund replacement vehicles.

#### Current FY 2024

One FTE is providing support for the Motor Pool Capital Recovery Program which includes accounting in four motor pool funds and to track approximately 936 vehicles in the program. To support the operating costs to administer this program, an administrative charge is assessed based on the number of vehicles in each of the four funds and will be paid from interest earnings.

The capital outlay budget is for replacement vehicles. Fleet Management, in cooperation with the various Divisions decided on which vehicles should be replaced in FY 2024.

The Reserve levels is set at 200% of the annual motor pool billings. The Reserves provide a level of program flexibility and to allow for unexpected price fluctuations, repayment schedule adjustments and other program changes.

#### Revenues

The Motor Pool Capital Recovery Billings (revenue) of \$4,622,500 represent motor pool capital recovery charges assessed to the governmental funds for the purchase of (future) replacement vehicles and heavy equipment as determined by Fleet.

To help fund the Operating cost to administer the Motor Pool Capital Recovery program, the other Motor Pool Funds (409/4009, 472/4072, 491/4051) are transferring in the following amounts:

\$32,500 from the Water/Sewer Motor Pool Fund (409/4009)

\$ 5,200 from the Solid Water Motor Pool Fund (472/4072)

\$8,300 from the EMS Motor Pool Fund (491/4051)

# **Capital Improvement Program Transportation Grants (711-712 / 1841-1842)**

#### **Mission Statement**

To account for the funds received from federal and state grants within the Growth Management Department supporting transportation, stormwater, coastal zone management as well as MPO planning.

#### Notes

Upon receipt, new grant programs are brought before the Board of County Commissioners for approval and acceptance. At that time, budgets are added to the financial accounting and grant management system.

# **Capital Improvement Program Transportation Grants (711-712 / 1841-1842)**

FY 2023

FY 2024

FY 2024

FY 2024

FY 2024

#### **Mission Statement**

To account for the funds received from federal and state grants within the Growth Management Department supporting transportation, stormwater, coastal zone management as well as MPO planning.

# Notes

Upon receipt, new grant programs are brought before the Board of County Commissioners for approval and acceptance. At that time, budgets are added to the financial accounting and grant management system.

# Capital Improvement Program TDC Capital Projects Fund (758/1108)

# **Mission Statement**

To manage TDT supported capital projects including the portion of the 5th penny of Tourist Development Tax earmarked for Sports & Special Events Complex capital improvements and debt service.

# **Capital Improvement Program**

### Notes

On July 11, 2017 the Board approved increasing the Tourist Development Tax (TDT) from 4% to 5% as well as distribution adjustments among Tourist Tax supported funds. The County's Sports & Special Events Complex is funded by a portion (71.4%) of the added 5th percent. Proceeds from Collier County Tourist Development Tax Revenue Bonds, Series 2018 were used to construct the facility.

### Forecast FY 2023

An annual TDT tax distribution to this fund supports debt service for the Paradise Coast Sports & Events Complex Bond shown as a transfer to Fund (270/2017). Additionally, the forecast includes a transfer of \$3,382,500 to Fund (370/3007) supporting a portion of Sports and Events Complex Phase 2 construction.

## Current FY 2024

A transfer of \$2,698,200 to Fund (370/3007) for construction funding for the Paradise Coast Sports and Events Complex is provided in addition to a transfer to Tourist Development Tax Revenue Bond Fund (270/2017).

### Revenues

This fund is supported by an allocation of 71.4% of the 5th penny of the Tourist Development Tax. The TDT budget amount is \$4,923,200 which is approximately 5% higher than the prior year.

# Capital Improvement Program Immokalee CRA Capital Fund (786/1026)

# **Mission Statement**

To account for the Immokalee CRA Capital Projects and Programs to ensure compliance with 163.387(7) Florida Statutes by appropriating funds to specific projects pursuant to the approved community redevelopment plan for the Immokalee Redevelopment Area (Immokalee CRA).

# **Capital Improvement Program**

### Notes

The Immokalee CRA Capital Fund has been established to properly account for capital projects and distinct programs undertaken by the CRA.

## Forecast FY 2023

The forecast budget includes funding for the following projects:

- 50243 Stormwater Infrastructure Improvements \$278,000
- 50244 South Immokalee Sidewalk Project \$414,300
- 50245 Parks and Recreation Partnership \$140,000
- 50246 Neighborhood Revitalization \$383,600
- 50247 Mobility \$50,000
- 50248 Main Street Corridor Project \$835,100
- 50250 First Street Corridor \$250,000
- 50252 Commercial Grant Programs \$100,000
- 50269 Lighting \$100,000

## Current FY 2024

The budget includes funding for the following projects:

- 50244 South Immokalee Sidewalk Project \$110,000
- 50245 Parks and Recreation Partnership \$50,000
- 50246 Neighborhood Revitalization \$113,900
- 50248 Main Street Corridor Project \$250,000
- 50269 Lighting \$25,000

### Revenues

Funding is provided by a transfer from Immokalee CRA operating Fund (186/1025), projected to be \$542,700.

# **Capital Improvement Program**Bayshore CRA Capital Projects (787/1021)

# **Mission Statement**

To account for the Bayshore CRA Capital Projects and Programs to ensure compliance with 163.387(7) Florida Statutes by appropriating funds to specific projects pursuant to the approved community redevelopment plan for the Bayshore Gateway Triangle Community Redevelopment Area (Bayshore CRA).

# **Capital Improvement Program**

### Notes

The Bayshore CRA Capital Fund has been established to properly account for capital projects and distinct programs undertaken by the CRA.

### Forecast FY 2023

The forecast budget includes funding for the following projects:

- 50197 BSCRA Residential Property Grants \$196,400
- 50198 BSCRA Commercial Property Grants \$319,000
- 50203 Stormwater Program \$2,504,700
- 50204 Linwood Ave Beautification/Streetscape \$800,000
- 50206 Ackerman Property Acquisition & Planning \$635,900
- 50207 Bayshore Parking Lot \$64,600
- 50208 17 Acre Site \$2,947,700
- 50254 Comm \$125,000
- 50255 Public Art Program \$200,000
- 50256 Community Safety \$135,900
- 50258 General Road Improvements \$500,000
- 50259 Multi-Modal \$150,000
- 50261 Housing \$295,200
- 50262 North Bayshore Enhancements \$1,049,500
- 50263 Complete Street Program \$100,000
- 50270 Development Incentives \$850,000
- 50271 Neighborhood \$321,100

The land sale revenue of the CRA-owned property located at the corner of Thomasson Drive and Bayshore Drive will be deposited to Fund (787/1021) and is budgeted at \$2.5 million. This sale will likely be completed by the end of FY23, but could also happen in early FY24. Fines associated with the February 11, 2022, Settlement Agreement totaling \$39,500 were received and deposited in Fund (787/1021), Project 50261 – Housing.

### Current FY 2024

The budget includes funding for the following projects:

- 50203 Stormwater Program \$961,200
- 50208 17 Acre Site \$1,000,000
- 50258 General Road Improvements \$509,700
- 50270 Development Incentives \$200,000

## Revenues

Funding is provided by a transfer from Bayshore CRA Operating Fund (187/1020), projected to be \$2,647,500.

| 50001     | GovMax Software   | 120,000            |
|           | The Office of Management and Budget (OMB) uses a budget software program developed by Sarasota County called GovMax. Our annual contract with Sarasota County is about \$58,000 per year for hosting fees and for hardware maintenance. Additional funding has been set aside to pay for any kind of fixes that are needed to our customized reports, to repair any of our customization to the system, or for discretionary support which is billed on an hourly rate. Examples of discretionary support items are preparing the database for the new year, importing the initial spreadsheets, new custom reports, and time required to research issues, etc. |                    |
| 50139     | Customer Experience Mgt Software  | 75,000             |
|           | Purchase software to track and better understand our customer's experience with the use of surveys. This data will allow us to make adjustments as well as major strategic changes to improve the customer experience.  |                    |
| 50156     | Sports & Special Events Complex   | 4,620,300          |
|           | The sports & events complex is a new facility which started in FY 18 with the purchase of approximately 60 acres. In FY 19, bond financing was secured in the amount of \$65.4 million for the construction of the Sports & Special Events Complex.   |                    |
| 51036     | Corporate Improvement Software  | 90,000             |
|           | A task management software product configurable, preferably web-based command center utilizing a hierarchical task list, role-based workflow, and real-time dashboards to control numerous manual processes, and includes task dependencies, certifications, and email notifications to ensure that each task is on track and deadlines are established, communicated, and achieved.  |                    |
| 91108     | X-fers/Reserves - Fund (758/1108)   | 6,789,900          |
|           | A portion of the 5th penny Tourist Development Tax is budgeted in this fund. The adopted budget in this project represents funding allocated to Reserves and Transfers to the Tax Collector and Debt Service Fund (270/2017) (for the Sports & Special Events Complex).   |                    |
| 93018     | X-fers/Reserves - Fund (318/3018)   | 210,735,700        |
|           | The annual sales surtax is budgeted in Reserves as well as any unappropriated funding from the previous year. Project budgets will be established after they are validated by the Sales Tax Committee and approved by the Board.  |                    |
|           | Total County Manager's Capital  | 222,430,900        |

|           | Planned projects will include but not limited to the following County Buildings: Drivers License Building, Immokalee Airport Sheriff's Office, East Naples Community Park, and Marco Island Library. These replaced/ repaired County facility roofs will protect all County assets from any rainfall and destructive hurricanes. Method: Competitive repair and construction bid process. End State: Improve County-wide employee and citizen safety in all County buildings and protect all County assets. |                    |
| 52162     | A/C, Heating, & Ventilation Repairs   | 975,000            |
|           | Major maintenance, repair, or replacement of air conditioning, heating, and ventilation equipment to all Governmental buildings. Enterprise Facilities (Water/Sewer District, Solid Waste, Community Development, etc) or Facilities supported by something 'other than the General Fund' (TDC, Courts, etc.) shall provide funding for all repairs, replacements, or maintenance of the equipment.   |                    |
|           | Planned projects will include but not limited to the following County Buildings: Library, EMS stations sand other governmental buildings. Method: Competitive repair and construction bid process. End State: Improve the quality of life for all County-wide employees and citizens in all County buildings and to protect all County visitors from heat and high humidity.  |                    |
| 52163     | Fire Alarms/Life Safety   | 500,000            |
|           | General maintenance, repair, or replacement of various County Facility life safety systems. If the building is occupied by an Enterprise Facilities (Water/Sewer District, Solid Waste, Community Development, etc) or Facilities supported by something 'other than the General Fund' (TDC, Courts, etc) shall provide the necessary funding.  |                    |
|           | Planned projects that will be conducted in government centers, libraries, public services facilities, and other Collier County facilities. Method: Competitive repair and construction bid process. End State: Improve County-wide employee and citizen safety in all County buildings and protect all County assets.   |                    |
| 52169     | ADA Compliance  | 100,000            |
|           | Replacement, repair, engineering, and design of general building Americans with Disabilities Act (ADA) repairs for various County Facilities, which includes but is not limited to the following: parking lot improvements, ADA ramps, ADA door operators, and building improvements.   |                    |
|           | Planned projects will be conducted in government centers, libraries, public services facilities, and other Collier County facilities. Method: Competitive repair and construction bid process. End State: Improve County-wide employee and citizen safety in all County buildings and protect all County assets.  |                    |

| Collier County Government Fiscal Year 2024 thru 2028 Capital Improvement Program - Project Descriptions by CIP Category |  | ory                |
|---|--|--------------------|
| Project #   | Project Title / Description  | FY 2024<br>Adopted |
|   | Facilities Management Capital  |                    |
| 52525   | General Building Repairs   | 750,000            |
|   | General maintenance, repair, refurbishment, or renovations to all Governmental buildings which includes but is not limited to the following: structural repairs to buildings, building automation standardization, project support, and landscaping improvements. Enterprise Facilities (Water/Sewer District, Solid Waste, Community Development, etc) or Facilities supported by something 'other than the General Fund' (TDC, Courts, etc) shall provide funding.   |                    |
|   | Planned projects will be conducted in government centers, public services facilities, and other Collier County facilities. End State: Improve County-wide employee and citizen safety in all County buildings and protect all County assets.   |                    |
| 93001   | X-fers/Reserves - Fund (301/3001)  | 39,766,700         |
|   | The Interfund Transfers and Reserves for the County-Wide Capital Projects Fund 301 are for the following items:  \$ 915,500 Transfer to Fund 114 Pollution Control Funding for space and lab equipment is being transferred back to Pollution Control Fund 114 and will be held in a Capital Reserve \$ 1,383,900 Transfer to fund 390 - General Governmental Facilities Impact Fees. General Government Facilities Impact Fee Fund 390 requires a loan from the 1/3 of a mill equivalent General Fund capital allocation money sitting in the County-Wide Capital Improvement Fund 301. Annual impact fee revenue collections are not sufficient to pay next year's debt service payments.                    |                    |
| 93034   | X-fers/Reserves - Fund (390/3034)  | 7,528,800          |
|   | The Interfund Transfers and Reserves for the General Governmental Facilities Impact Fee Fund 390 are for the following items:  \$1,756,000 Series 2010/2017 Bond debt service payment for the additional funding for the Emergency . Services Center (ESC), Courthouse Annex & Fleet Facility (growth portion)-Transfer to 298.  \$2,275,500 Series 2011/2022A Bond debt service payment for Fleet, Annex, Parking Garage, and ESC . Transfer to 298.  \$767,900 Series 2013/2022B Bond debt service payment for Fleet, Annex, Parking Garage, and ESC . Transfer to 298.  \$2,196,100 Reserve for Debt Service on the Series 2011/2022A Bond \$610,200 Reserve for Debt Service on the Series 2013/2022B Bond |                    |
|   | The Series 2022A and the 2022B Bonds debt service payments (transfer to fund 298) have principal and interest payments due on October 1. The Reserve for Debt Service insures that there is sufficient cash on October 1 to make the required debt service payment.  |                    |

| Project # | Project Title / Description  | FY 2024<br>Adopted |
|-----------|--|--------------------|
|           | Parks & Recreation Capital   | -                  |
| 80039     | Big Corkscrew Island Pk  | 8,868,800          |
|           | Big Corkscrew Island Regional Park (BCIRP) is being designed and constructed on over 220 acres of property east of the Fairgrounds on Immokalee Road and north of Oil Well road. BCIRP is being executed in 2 Phases, Phase 1 and Phase 2.   |                    |
|           | Phase 1 is 87% complete and the County has opened the 2 softball and 4-soccer fields, pavilions, north and south concession stands, basketball, pickleball, and tennis sports courts and event field to the public. The community center and maintenance buildings will be turned over to the County in May 2022 and the Aquatic Center and pools will be completed in June 2022.  |                    |
|           | The BCIRP Phase 2 includes four baseball fields, fitness center, lake feature/kayak launch, concessions stand, dog park, picnic pavilions, frisbee golf, landscape features, access road, Public Utilities Department (PUD) utilities/wells and Stormwater canal improvements. Phase 2 will be executed into several phases/components due to permit and design constraints. The construction of the first components of Phase 2 including the Oil Well access roads, the PUD utility corridor and associated wells will begin July/August 2023; and the remaining phases completed by 2025. |                    |
| 80201     | SFWMD Settlement   | 13,100             |
|           | The South Florida Water Management District (SFWMD) settlement of \$3 million are to be used for ATV recreational riding. Interest earnings are used on the following two programs:  On April 24, 2018, agenda item 11.C., the Board approved the allocation of \$20,000 annually for a Tickets to Ride program for Collier County citizens so they may recreate at ATV facilities.  On January 26, 2021 (agenda item 16.D.8.) the Board will provide a 50% reimbursement to any Collier County resident who purchases a Big Cypress National Preserve annual ATV riding permit.             |                    |

| Project # | Project Title / Description  | FY 2024<br>Adopted |
|-----------|--|--------------------|
|           | Parks & Recreation Capital   |                    |
| 93007     | X-fers/Reserves - Fund (370/3007)  | 500,000            |
| 93060     | X-fers/Reserves - Fund (305/3060)  | 3,008,000          |
|           | The \$3 million settlement from South Florida Water Management District (SFWMD) is budgeted in Reserves for a future ATV Park.   |                    |
| 93061     | X-fers/Reserves - Fund (303/3061)  | 115,000            |
|           | The Interfund Transfers and Reserves for the Florida Boating Capital Improvement Fund (303/3061) is for the Transfer to Tax Collector (for the collection of boater vessel registration fees).   |                    |
|           | Per Florida Statutes section 328.72(15), the portion of the state vessel registration fees returned to county governments is for the sole purposes of providing, maintaining, or operating:  *Recreational channel marking and other uniform waterway markers,  *Public boat ramps, lifts, and hoists,  *Marine railways,  *Boat piers, docks, mooring buoys, and other public launching facilities; and  *Removing derelict vessels, debris that specifically impede boat access, not including the dredging of channels, and vessels and floating structures deemed a hazard to public safety and health for failure to comply with s. 327.53. |                    |
|           | Per Florida Statutes section 328.66(1), the vessel registration-optional fee proceeds are expended for the patrol, regulation, and maintenance of the lakes, rivers, and waters and other boating-related activities.  |                    |
| 93062     | X-fers/Reserves - Fund (306/3062)  | 144,300            |
|           | Parks and Recreation Capital Improvement Fund (306/3062) Reserves may be used for future capital projects to repair, replace, maintain or construct Park infrastructure and capital assets.  |                    |
| 93063     | X-fers/Reserves - Fund (308/3063)  | 8,195,500          |
|           | Parks was allocated \$20 million from the Special Obligation Revenue Bond, Series 2020A. As projects are awarded design/construction contracts, they are budgeted. The remaining funding is sitting in Reserves. The Bond proceeds are being used to repair and maintain the aquatic and other park related improvements.  |                    |
| 93070     | X-fers/Reserves - Fund (345/3070)  | 1,614,400          |
|           | Regional park impact fees collected from the incorporated cities are recorded in fund (345/3070). The adopted budget represents reserves for contingencies and future capital projects as well as a transfer to 298 of \$300,000 to assist in the debt service payment for the Series 2022A and 2022B Bonds for the North Collier Regional Park and Sun N Fun.   |                    |
| 93071     | X-fers/Reserves - Fund (346/3071)  | 8,960,900          |
|           | The Interfund Transfers and Reserves for the Unincorporated Community and Regional Parks Impact Fee Fund (346/3071) are for the following items: \$2,918,900 Series 2019 Note debt service payment for the Golden Gate Golf Course - Transfer to Fund (246/2013).  |                    |
|           | \$2,585,500 Series 2011/2022A and 2013/2022B Bond debt service payment for the North Collier . Regional Park - Transfer to 298. \$2,716,600 Reserve for Debt Service for the Series 2011/2022A Bond \$ 56,100 Reserve for Debt Service for the Series 2013/2022B Bond \$2,609,500 Reserve for Debt Service for the Series 2019 Note  |                    |
|           | The debt service payment for the North Collier Regional Park and the Golden Gate Golf Course have principal and interest payments due on October 1. These Reserves for Debt Service ensure that the Park Impact Fee fund has sufficient cash on October 1 to make the required debt service payment.   |                    |
|           | Total Parks & Recreation Capital   | 40,969,800         |

| Project # | Project Title / Description   | FY 2024<br>Adopted |
|-----------|---|--------------------|
|           | Pelican Bay Capital   |                    |
| 50066     | Pelican Bay Hardscape Upgrades Improvements to hardscape elements including landscaping and irrigation in medians and sides of  | 100,000            |
|           | roadways.   |                    |
| 50103     | Pelican Bay Traffic Sign Renovation   | 150,000            |
|           | Replacement and maintenance of approximately 500 existing decorative traffic signs.   |                    |
| 50126     | Beach Renourishment Initiative  | 400,000            |
|           | Funding for future beach renourishment projects in partnership with Coastal Zone Management.  |                    |
| 50211     | Pelican Bay Ops. Buildings  | 1,826,300          |
|           | Since 1974, the former Pelican Bay Independent District, now Pelican Bay Services Division, has performed the duties of its maintenance operation out of the utility site located on Watergate Way inside the Pelican Bay community. As the operation and responsibilities have expanded over the past 40 years, and the building has reached the end of its service life, the Unit plans to replace the existing building and facilities for maximal efficiency purposes. In addition to replacement of the existing office and maintenance garage, the project will include the design and construction of new chemical and soil storage buildings, pole barn for housing large and tall equipment, fueling facility, and nursery. The site will be improved after demolition and prior to construction to address the water management issues as required by FEMA.                               |                    |
| 50212     | Sidewalk Replacement  | 1,200,000          |
|           | The Pelican Bay community has approximately 15 miles of sidewalks that connect the residential, commercial and recreational areas. These sidewalks provide pedestrian passage and exercise routes for residents and guests who enjoy walking, running, casual biking and other activities. The sidewalk system was constructed approximately forty years ago to outdated standards. The sidewalks are typically 5 feet or less width, which does not accommodate comfortable use and passing distance for various users. The asphalt surface has needed frequent maintenance from cracking, settling, upheaval and tree root invasion. The uneven surfaces are a safety concern and the frequent maintenance is costly. Pelican Bay will replace approximately 15 miles of existing sidewalks at increased widths with new materials. The replacement of the sidewalks will be completed in phases. |                    |
| 50272     | Streetlight Improvements  | 150,000            |
|           | Funding for future streetlights replacement poles and fixtures  |                    |
| 51100     | Clam Bay Restoration  | 189,100            |
|           | Biological, tidal and hydrological, and water quality monitoring of the Clam Bay system. Includes mangrove monitoring, recreational facilities monitoring, hand-dug channel monitoring, water level monitoring, exotic and nuisance vegetation monitoring and maintenance, coastal scrub and cabbage palm monitoring, protected species monitoring, tide gauges station maintenance, and an annual management report.   |                    |
| 93040     | X-fers/Reserves - Fund (320/3040)   | 14,600             |
|           | Interfund Transfers, Transfers to Constitutional Officers and Reserve for Future Capital Projects are recorded in this project.   |                    |
| 93041     | X-fers/Reserves - Fund (322/3041)   | 265,000            |
|           | Interfund Transfers, Transfers to Constitutional Officers and Reserve for Future Capital Projects are recorded in this project.   |                    |
|           | Total Pelican Bay Capital   | 4,295,000          |

| Project # | Project Title / Description  | FY 2024<br>Adopted |
|-----------|--|--------------------|
|           | Sheriff Office Capital   |                    |
| 31381     | Operating Project (381/3032)   | 60,000             |
|           | Operating category funding for the Correctional Facilities Impact Fee Fund (381/3032) is required for expenses not specifically part of a capital project. A typical expenditure of this type is an impact fee studies.  |                    |
| 50292     | Sheriff Elevator Repair  | 400,000            |
|           | Replacement, repair, engineering, and design of elevator improvements for various Collier County Sheriff's Office Facilities. Method: Competitive repair and construction bid process. End State: Improve County-wide employee and citizen safety in all County buildings and protect all County assets.                           |                    |
| 50298     | CCSO Rifle Range Roof Repair   | 45,000             |
|           | Replacement, repair, engineering, and design of roof repairs to Collier County Sheriff's Office Gun Range. Method: Competitive repair and construction bid process. End State: Improve County-wide employee and citizen safety in all County buildings and protect all County assets.  |                    |
| 50302     | CCSO New Gun Range Fac   | 500,000            |
|           | Replacement, repair, engineering, and design of general building repairs to Collier County Sheriff's Office Gun Range. Method: Competitive repair and construction bid process. End State: Improve County-wide employee and citizen safety in all County buildings and protect all County assets.                                  |                    |
| 50303     | Jail & Related Exterior/Building Envelope Repairs  | 920,000            |
|           | Exterior/Building envelop and related capital maintenance to maintain the integrity of the Jail and related CCSO facility's. Method: Competitive repair and construction bid process. End State: Improve County-wide building envelope of County facilities.   |                    |
| 50304     | SO Jail Windows  | 500,000            |
|           | Replacement, repair, engineering, and design of windows improvements for Collier County Jail Main Campus. Method: Competitive repair and construction bid process. End State: Improve County-wide employee and citizen safety in all County buildings and protect all County assets.   |                    |
| 51031     | Jail HVAC System Redesign & Replacement  | 500,000            |
|           | During FY12-FY15, major repairs and/or replacement to the of the (old) Jail's Heating/Ventilation/Air Conditioning system were made. This excluded some areas of the 2nd floor of the old Jail building which are now administrative offices.  |                    |
| 53001     | SO Substation #1 N Naples  | 400,000            |
|           | The Sheriff would like to replace District 1 Substation located off of Vanderbilt Rd (west of US41) to a more centralized location. The current station does not have enough work space for officers and has inadequate parking.   |                    |
| 53010     | Sheriff Law Enforcement Capital Improvements   | 500,000            |
|           | Replacement, repair, engineering, and design of general building repairs for various Collier County Sheriff's Office facilities, which includes but is not limited to the following: Structural repairs, Heating, Ventilation, Air Conditioning (HVAC) system study, HVAC replacements, roof replacements, plumbing upgrades, Etc. |                    |
| 53172     | Building J Renovation/Repair   | 500,000            |
|           | Replacement, repair, engineering, and design of general building repairs for Collier County Sheriff Office (CCSO) correctional facilities, which includes but is not limited to the following: structural repairs to plumbing chases, generator engineering study/design, etc.   |                    |

| Project # | Project Title / Description   | FY 2024<br>Adopted |
|-----------|---|--------------------|
|           | Solid Waste Capital   |                    |
| 59001     | Driveway Turn-Around Program  | 250,000            |
|           | Purpose: Reinforce and widen residential driveways where hammerhead construction is not feasible. These reinforced driveways will allow solid waste franchise trucks to turn around in a safe manner. The reinforced driveways are also used by ambulances, fire trucks, and school buses. Method: Competitive construction bid process. End State: Improve public safety by providing turn-around capabilities on public roads for solid waste collection vehicles so that the vehicles do not have to back out of dead-end streets.   |                    |
| 59007     | Resource Recovery Business Park   | 300,000            |
|           | Purpose: Provide for critical functions such as staging sites for storm debris recovery operations, construction and demolition materials recycling, yard waste recycling, bio-solids processing, Leachate management, special materials recycling, and a materials recovery facility in a centrally located facility north of the Collier County Landfill. The project envisions a public/private mix of investment and operations to meet the goal of providing emerging and proven technology at best value. The facility is located immediately north of the existing Collier County Landfill. Method: Competitive construction bid for initial site construction services. End State: A comprehensive resource recovery business park that will service the solid waste management operations, provide public/private partnership opportunities, and extend the life of the landfill by reducing the solid waste stream being land filled. |                    |
| 59008     | Infrastructure Maintenance  | 500,000            |
|           | Purpose: Perform regular preventative maintenance for solid waste facilities to include inspections of roofs, gates, garage doors, fences, HVAC (heating, ventilation, air conditioning) systems, site, fire sprinklers, cameras, and card access. Planned FY20 projects included preventative maintenance and repairs of the previously listed assets. Method: Fixed term services contracts and/or competitive construction bids. End State: Enhanced and fully compliant Division facilities.  |                    |
| 59012     | Landfill Optimization   | 400,000            |
|           | Purpose: Maximize existing facilities and assets through expansion of the Collier County Landfill in compliance with the Integrated Solid Waste Management Strategy and the Solid Waste Sub-Element (Policy 2.4). The program includes engaging the services of qualified engineering consultants to develop options, assessment and feasibility studies for increasing landfill disposal capacity through southern, eastern or western expansion at the existing Collier County Landfill property and/or surrounding properties; provide funding to purchase property, mitigation credits and mitigation property to optimize landfill capabilities. Method: Fixed-term contracts will be used for studies and design as well as mitigation purchases. End State: Extend the life of the Collier County Landfill by maximizing the use of the existing landfill site providing disposal capacity for the citizens of Collier County.           |                    |
| 59013     | Physical/Cyber Security   | 100,000            |
|           | Purpose: Multi-year program to provide both physical and virtual protection of assets that are imbedded in critical compliance-driven operations, including physical access points such as gates, fences, card access and recording devices, as well as cyber threats such as network intrusion and cyber hacking that could directly impact operations. Evaluate and prioritize mitigation to resolve risk and exposure to maintain compliance with Department of Homeland Security requirements. Planned FY23 projects include but no limited to upgraded and coordinated cameras, communication and monitoring ability at the recycling drop-off centers and the landfill. Method: Internal resources and fixed-term contracts. End State: Compliant and secure infrastructure.  |                    |
| 70107     | Landfill Faclities Projects   | 50,000             |
|           | Purpose: Optimize the operating efficiency and increase the safety of the facility by completing projects relating to rehabilitation, replacement, and optimizations of HVAC systems, roofs, security systems, and other vertical assets existing at the landfill facilities. Also implement a program to enhance the utilization and life cycle expectancy of the landfill facilities by maintaining facilities in satisfactory operating condition by providing systematic inspection, detection, and correction of incipient failures either before they occur or before they develop into major defects. Method: Fixed term services contracts and/or competitive construction bids. End State: Enhanced and fully compliant landfill facilities that will ensure safety for employees, and extend the life cycle of the facility and its vertical assets.  |                    |

**Collier County Government** 

safety for employees, and extend the life cycle of the facility and its vertical assets.

|           | Solid Waste Capital   |                    |
| 70219     | Landfill Leachate Deep Injection Well   | 650,000            |
|           | Purpose: To construct a Deep Injection Well (DIW) for long term disposal of leachate. Due to the large volume of leachate generated by the landfill, and potential impact from tropical storms, an improved disposal system is needed. The construction of a DIW will provide long term disposal capacity for the landfill leachate system and provide disposal capacity for various projects development in the Government Operations Business Park. Method: Fixed-term contracts and competitive construction bids. End State: A fully compliant landfill program that will meet all rules, regulations, and future disposal demands as well as community expectations.   |                    |
| 70232     | Immokalee Facility Upgrade HHW  | 3,315,500          |
|           | Purpose: Upgrade the facilities at the Immokalee Transfer Station that are the responsibility of the county to better serve and create a safer environment for the landfill customers. Projects may include 1) Design and permit of Household Hazardous Waste (HHW) collection facilities to provide safe, convenient and environmentally responsible options for area residents and qualified small businesses desiring to properly dispose of flammable liquids, aerosols, pool chemicals, cleaning chemicals, used oil, mercury-containing devices, propane tanks, medical sharps, pharmaceuticals, fluorescent bulbs, batteries, electronics, used paints, pesticides and fungicides to comply with Title 29 of the Code of Federal Regulations, part 1910 Hazardous Materials and Florida Administrative Code Chapter 69A-69 Florida Fire Prevention Code. The recovered household hazardous waste diverts hazardous materials from the landfill which have potential for release into the environment). 2) Assess the need for a new scalehouse and scales to accommodate the growth including evaluation of exiting scale for repurposing or replacement. 3) Establish a hurricane debris recovery area. 4) General site upgrades include fencing, lighting, and security cameras. FY23 planned projects include design, permitting and bid preparation to achieve the conceptual site plan currently under development. Method: Fixed-term services contracts and/or competitive construction bids. End State: Improved county facilities that will better serve the residential and commercial customers that utilize the transfer station while diverting recyclables and hazardous waste material from the landfill. |                    |
| 94074     | X-fers/Reserves/Interest - Fd (474/4074)  | 1,500,000          |
|           | Reserve for Contingencies and Reserves for Future Capital Projects are recorded in this project as well as a Transfer from the Solid Waste Landfill Closure & Debris Mission Reserve Fund (471/4071) in the amount of \$8 million. This Transfer will only be made if a catastrophic event happens.   |                    |

**Total Solid Waste Capital** 

7,065,500

Fiscal Year 2024 10 - 154 CIP Summary Reports

|   | Collier County Government   |                    |  |  |
|---|---|--------------------|--|--|
| Fiscal Year 2024 thru 2028 Capital Improvement Program - Project Descriptions by CIP Category |   |                    |  |  |
| Project #   | Project Title / Description   | FY 2024<br>Adopted |  |  |
|   | Stormwater Capital  |                    |  |  |
| 51144   | Stormwater Master Plan Update   | 98,500             |  |  |
|   | This project includes funding for long range strategic planning for future program progression, capital improvement project identification and prioritization, specific basin issue evaluation and funding appropriation analysis. Individual Project Feasibility Studies will be funded from this Project and guided by the project ranking criteria established in the Planning process.            |                    |  |  |
| 60121   | NPDES MS4 Program   | 50,000             |  |  |
|   | Funding within this project covers continued development of and compliance with the federally mandated National Pollutant Discharge Elimination System (NPDES) permitting program for the County operated Municipal Separate Storm Sewer System (MS4).  |                    |  |  |
| 60139   | Naples Park Area Improvements   | 7,500,000          |  |  |
|   | In coordination with the Public Utilities Division, this project includes water main and sanitary sewer collection system replacements, as well as roadside stormwater management system improvements. Roadside stormwater improvements are occurring in conjunction with utility replacement work on all east-west streets in the Naples Park Subdivision. This is a multiyear, multi-phase project. |                    |  |  |
| 60224   | Lely Golf Estates   | 1,275,000          |  |  |
|   | This is a multiyear improvement project being developed in coordination with the Public Utilities Department to include stormwater management, water and wastewater improvements within the Lely neighborhood community. This joint effort will reduce construction costs by capitalizing on economy of scales and avoiding multiple disturbances in the neighborhood.                                |                    |  |  |
| 60234   | Palm River Stormwater Improvements  | 2,500,000          |  |  |
|   | This is a multi-year improvement project being developed in coordination with the Public Utilities Department to include stormwater management, water and wastewater improvements within the Palm River community. This joint effort will reduce construction costs by capitalizing on economy of scale and avoiding multiple disturbances in the neighborhood.                                       |                    |  |  |
| 93052   | X-fers/Reserves - Fund (327/3052)   | 20,857,500         |  |  |
|   | Stormwater Capital was allocated \$60 million from the Special Obligation Revenue Bond, Series 2020A. As projects are awarded design/construction contracts, they are budgeted. The remaining funding is sitting in Reserves. The Bond proceeds are being used to repair and maintain the stormwater capital improvements.  |                    |  |  |
|   | Total Stormwater Capital  | 32,281,000         |  |  |

|           | Tourist Development Council - Beaches  |                    |
| 80171     | Beach Tilling  | 30,000             |
|           | Required by permit prior to turtle nesting season to lower beach density to aid in turtle nesting.   |                    |
| 80288     | Wiggins Pass Dredge  | 25,000             |
|           | Monitoring of recent 2022 dredge performance as required by FDEP permit.   |                    |
| 80366     | Coastal Resiliency   | 500,000            |
|           | Technical support as needed for USACE's Coastal Storm Risk Management plan (CSRM).   |                    |
| 88032     | Clam Pass Dredge Pelican Bay   | 250,000            |
|           | Monitoring of 2022 dredging of Clam Pass.  |                    |
| 90020     | TDC Administration   | 75,000             |
|           | This item provides a funding allowance for unanticipated projects or initiatives.  |                    |
| 90033     | Near Shore Hard Bottom Monitoring  | 230,000            |
|           | Monitoring of biological systems on nearshore hard bottom which is subject to potential impacts from beach renourishment projects. Required as part of permitting.   |                    |
| 90065     | Local Gov't Funding Request  | 25,000             |
|           | Preparation of Local Government Funding Request grant participation for beach renourishment and inlet maintenance projects.  |                    |
| 90066     | Vanderbilt Beach Renourishment   | 3,800,000          |
|           | Truck haul (~75,000 CY's) beach renourishment of Vanderbilt Beach from R-22 (Blue Bill Ave) to R-30.5 (just south of Vanderbilt Beach Road). Anticipated to be segment fill at problem areas, not the entire length.   |                    |
| 90067     | Park Shore Bch Renourishment   | 3,800,000          |
|           | To perform maintenance re-nourishment of approximately 50,000 CY's (cubic yards) for Park Shore Beach.   |                    |
| 90069     | Clam Pass Beach Maintenance  | 100,000            |
|           | To perform maintenance re-nourishment of approximately 25,000 CY's (cubic yards) for Clam Pass Beach.  |                    |
| 90077     | Beach Emergency Response   | 300,000            |
|           | This project is for urgent/emergency response for unforeseen natural or manmade events such as red tide, mass seaweed blooms, fish kills, or other such occasions where immediate remedial action is necessary to mitigate the negative effects of the occurrence.   |                    |
| 90096     | Naples Pier Repair and Maintenance   | 200,000            |
|           | The activity description for this project includes labor and material for the upkeep and safety of the pier. The pier is a public access beach facility as a tourist attractor and destination. The pier structure has a shoreline erosion control and beach preservation effect. Additionally, the public safety through the continued maintenance of the pier is of paramount importance. Repair and maintenance areas include responsibility and public safety of pier structure, wooden deck, restrooms and storage facilities as well as water and electrical systems related to the pier's use as a fishing, tourist and beach preservation structure. |                    |
| 90297     | Shore Bird Monitoring  | 25,000             |
|           | Monitoring of migratory and nesting activities of protected and endangered shorebird species subject to potential impacts from beach renourishment projects. Required as part of permitting.   |                    |
| 90527     | Naples Beach Cleaning  | 197,000            |
|           | Beach Cleaning Contract with City of Naples.   |                    |
| 90533     | County Beach Cleaning  | 601,100            |
|           | This is an ongoing project for Collier County and Marco Island beach cleaning. This project maintains the beaches and equipment that is necessary for these operations.  |                    |
|           |  |                    |

|           | Building renovations to optimize space utilization and safety.   |                    |
| 60016     | Intersection Enhancements  | 3,420,000          |
|           | Projects to improve safety & increase capacity at various locations on the County highway system through minor turn lane construction and drainage improvements.   |                    |
| 60037     | Asset Management   | 600,000            |
|           | Provides funding for Growth Management's ongoing efforts to build and maintain an asset management system that is focused on optimizing the life cycle of Growth Management Department's (GMD) infrastructure assets.  |                    |
| 60077     | Road Refurbishing  | 800,000            |
|           | Refurbishing of highway stripping, pavement, marking & raised pavement markers for county wide safety of the motoring public. May also include minor repairs of roadside swales, drainage, catch basins, culverts, underground drain pipes and ancillary drainage systems.   |                    |
| 60085     | Traffic Info System Review   | 250,000            |
|           | These fees are collected and used to review the traffic data, number of trips, and a need for turn lanes from each development as they come in for approval. This information keeps us up to date with additional trips added to each road segment based on traffic flow. This in turn helps with the Annual Update and Inventory Report (AUIR) and determining where we should be adding capacity to our road system. |                    |
| 60090     | Traffic Signal Timing  | 500,000            |
|           | To augment the Traffic Operations Signal Timing staff, conduct counts, capacity analysis, controller timing adjustment, field reviews, and investigate and respond to citizen's requests.  |                    |
| 60109     | Enhanced Planning Consultant Services  | 500,000            |
|           | Provide Transportation Planning consulting services for a wide variety of transportation projects throughout the County.   |                    |
| 60118     | County Pathways Non-Pay in Lieu  | 350,000            |
|           | Sidewalk maintenance and repair not covered under the payment in lieu program. Cost associated with additional temporary construction engineering inspections (CEI) staff on Local Agency Program (LAP) sidewalk projects.   |                    |
| 60130     | Wall Barrier Replacement   | 500,000            |
|           | Replacement of county-maintained noise and barrier walls. This project will replace walls at various locations. Currently, two wall segments are in need of replacement to maintain their functionality and structural integrity: one on Livingston Rd from Radio Rd to Golden Gate Pkwy, and another on Vanderbilt Dr from Goodlette-Frank Rd to Airport-Pulling Rd.  |                    |

| Project # | Project Title / Description  | FY 2024<br>Adopted |
|           | <u>Transportation Capital</u>  |                    |
| 60131     | Road Resurfacing   | 10,000,000         |
|           | Road Resurfacing: Each year the condition of the county's roads is assessed and a priority system is used to determine which roads have the greatest need for re-surfacing. Overlay work generally involves the milling and removal of some of the existing asphalt. A fresh layer of asphalt is then applied to the roadway, which will also receive new lane markings. The road segments selected are based on an indepth ranking system that accounts for wear and deterioration. |                    |
| 60144     | Oil Well Rd, Everglades to Oil Well Grade  | 4,900,000          |
|           | The Oil Well Road (Everglades to Oil Well Grade) project will widen the roadway from 2 lanes to 6 lanes for a distance of 3.38 miles. Lanes will be 12' wide and the project will also include 4' bike lanes and a 10' multi-use path in each direction. A bridge replacement will be required over the Faka Union Canal.  |                    |
| 60163     | Traffic Calming/Studies  | 300,000            |
|           | Traffic studies required to identify specific level of service (LOS) deficiencies and traffic calming.   |                    |
| 60172     | Traffic Signals  | 1,050,000          |
|           | Transportation traffic signal and roadway lighting improvements, includes upgrades to Traffic Management Center and traffic count equipment. Overseen by the Traffic Operations.   |                    |
| 60197     | Road Maintenance Facility  | 1,239,000          |
|           | Funds reserved for construction of road maintenance facility in the north end of town.   |                    |
| 60198     | Veterans Memorial Road PH II   | 6,500,000          |
|           | Building 4-lanes divided urban arterial roadway from the new high school to Old US41, includes railroad crossing, sidewalks, on-street bike lanes and a signal at Old US41.  |                    |
| 60199     | Vanderbilt, US41 to Goodlette Frank Rd   | 16,063,000         |
|           | Widening Vanderbilt Beach Road from four lanes to six lanes (mostly within the median), includes stormwater drainage improvements.   |                    |
| 60201     | Pine Ridge Rd, Livingston to I-75  | 5,000,000          |
|           | Improvements to the intersection of Pine Ridge Rd and Livingston Rd (Partial Continuous Flow Intersection, CFI, utilizing offset left turn lanes for the north and southbound approaches on Livingston). as well as intersection improvements at Pine Ridge Rd. and Whipperwill Lane, and Pine Ridge Road at the I-75 interchange.   |                    |
| 60220     | Blue Sage Drive  | 38,500             |
|           | Funding for Blue Sage Drive Emergency Repairs  |                    |
| 60226     | 16th Ave (13th St SW to 23rd St SW)  | 1,406,000          |
|           | The project consists of widening the existing traffic lanes to 11' and adding 5' bike lanes on 16th Avenue SW, providing 5'paved shoulders on the approaches at the side street intersections, incidental drainage improvements and school but stops at each intersection (both sides). This project will enhance connectivity between 23rd Street SW south of White Boulevard to 13th Street SW south of Golden Gate Boulevard.   |                    |
| 60227     | Corkscrew Rd (Lee Cnty Line) Shoulders   | 479,000            |
|           | Shoulder widening safety improvements with Lee County. A 50 % cost share is planned with Lee County for their half of the project.   |                    |
| 60229     | Wilson Blvd, GG Blvd to Immokalee  | 9,718,400          |
|           | Widening Wilson Blvd from 2 lanes to 4 lanes urban section, including improvements to the intersections of Wilson Blvd and Golden Gate Blvd and Wilson Blvd and Immokalee Rd.  |                    |
| 60231     | Oil Well Rd Shoulder Improvements  | 750,000            |
|           | The project consists of widening the converting the existing 10' traffic lanes to 12' lanes and adding 5' paved shoulders on both sides of Oil Well Road – Segment II, east of the Oil Well Rd./Camp Keais Rd. intersection., with incidental drainage improvements. This project will enhance safety on this road.  |                    |
| 60249     | Vanderbilt Bch Rd, 16th to Everglades  | 9,783,000          |
|           | To construct only two lanes (one in each direction) from 16th Street NE to Everglades.   |                    |

|           | Reserve for contingencies and future capital projects are recorded in this project for the Road Impact Fee Fund (339/3095).   |                    |
|           | Total Transportation Capital  | 121,170,400        |

Fiscal Year 2024 10 - 161 CIP Summary Reports

#### Fiscal Year 2024 thru 2028 Capital Improvement Program - Project Descriptions by CIP Category

# Project # Project Title / Description FY 2024 Adopted

#### Water / Sewer District Capital

#### 50105 Integrated Asset Management

300,000

Purpose: Sustain the Enterprise-wide Integrated Asset Management Program within the County to more cost-effectively manage assets. The system integrates the Cityworks software application with existing Agency wide systems of GIS (geographic information system), SAP (County's accounting program), SCADA (supervisory control and data acquisition) and many interdivisional processes including procurement and finance spanning five full scale implementation projects. Technical Support will continue into FY23. Method: Utilize fixed-term contracts. End State: A tangible GIS-based asset and work management system to guide predictive and preventative maintenance and consistent sustainable work practices that occur in a systematic manner, at less cost, and with less operational impact versus catastrophic failure.

#### 70010 Meter Renewal and Replacement

200.000

Purpose: This multi-year program consists of replacing water meters that have reached the end of their useful life. There are over 76,000 meters in the system that record water usage, and are thus the source of revenue for the utility. Scheduled replacement will be modified as needed to remain consistent with the results of the meter audit. This project also replaces meters that have been identified during the meter audit program as being non-compliant. Method: Fixed term contracts for purchases and meter replacement installation completed by staff. End State: Remain in compliance with Florida Administrative Code 62-555, Ordinance 2013-44, and sustain an accurate measurement of customer water usage for accurate billing.

#### 70014 Real Property/Infrastructure Audit

105,000

Purpose: Ensure that all Collier County Water-Sewer District assets are located within County Utility Easements. Where this is not the case, the County does not have the legal right to construct projects or perform maintenance required to remain in compliance and to serve the District's customers. Method: Coordinate with appropriate divisions to verify asset locations in existing geographical information system (GIS) layers. Coordinate with Real Property Management to locate easement interest documents, upload into the document management system (DMS), and plot locations in GIS. Compare easement interests with asset locations on GIS to determine if additional easements are required. End State: Confirm all assets reside within appropriate easements and obtain additional easements where needed.

#### 70019 Cross Connections Program

50,000

Purpose: To maintain compliance with Rule 62-555 of the Florida Administrative Code and the Collier County Cross Connection Control Ordinance 2008-32. The rule requires all community water systems to establish and implement a routine cross-connection control program to detect and control cross-connections and prevent backflow of contaminants into the public water supply. Method: Procure the devices through existing contracts and provide installation through a bid process or by staff as determined by the operating department. End State: Fully compliant and protected water supply system.

#### 70023 Fire Hydrant Replacement

25,000

Purpose: This on-going program replaces fire hydrants that have reached the end of their useful life. There are approximately 10,000 fire hydrants in the distribution system; existing hydrants are planned to be replaced each year beyond those replaced with water main rehabilitation projects. The areas targeted for replacement will be primarily based on input from the Fire Districts and areas of concern identified during annual flushing exercises. Method: Utilize existing underground services contracts. End State: Replace hydrants to ensure compliance with fire protection codes and ordinances, and provide a point to flush the water distribution system when necessary to comply with state and federal water quality standards.

#### 70031 Utilities Master Plan

200,000

Purpose: Utilize consultants to assist with updates to the Utilities Master Plan, including coordination with the rate study program, and the annual capital improvement program (CIP) update aimed at responsible system growth, maintenance and preservation. Method: Utilization of request for proposal (RFP) and existing fixed term contracts; retain a qualified consultant to prepare and update master plans, rate study collaboration and CIP validation. End State: The Master Plans, CIP and rate study will remain concurrent with the latest population trends concurrent with Growth Management Department Comprehensive Planning guidance and the needs of all Public Utilities Operating Divisions.

#### Fiscal Year 2024 thru 2028 Capital Improvement Program - Project Descriptions by CIP Category

# Project # Project Title / Description FY 2024 Adopted

#### Water / Sewer District Capital

#### 70060 NCWRF SCADA Support Op

350,000

Purpose: This is a multi-year program to restore and rehabilitate the Supervisory Control and Data Acquisition (SCADA) systems for the North County Water Reclamation Facility (NCWRF) through a Technical Support Program (TSP) to eliminate obsolescence of existing programmable logic controllers (PLCs) and various instrumentation used to constantly monitor and control the treatment process. This program also implements heightened security measures on stand-alone SCADA systems to prevent accidental or malicious loss through cyber threats such as network intrusion and hacking that could directly impact operations. This program will also provide network hardening through use of fiber installation to remote SCADA locations. This program will increase reliability, sustainability, and operational efficiency. Method: Fixed-term contracts and competitive bids. End State: Maintain compliance and reliability throughout the NCWRF SCADA system.

#### 70061 SCWRF SCADA Support Op

350,000

Purpose: This is a multi-year program to restore and rehabilitate the Supervisory Control and Data Acquisition (SCADA) systems for the South County Water Reclamation Facility (SCWRF) through a Technical Support Program (TSP) to eliminate obsolescence of existing programmable logic controllers (PLCs) and various instrumentation used to constantly monitor and control the treatment process. This program also implements heightened security measures on stand-alone SCADA systems to prevent accidental or malicious loss through cyber threats such as network intrusion and hacking that could directly impact operations. This program will also provide network hardening through use of fiber installation to remote SCADA locations. This program will increase reliability, sustainability, and operational efficiency. Method: Fixed-term contracts and competitive bids. End State: Maintain compliance and reliability throughout the SCWRF SCADA system.

#### 70062 IQ Systems SCADA TSP Ops

300,000

Purpose: This is a multiple year program to restore and rehabilitate and support enhanced telemetry communications and Supervisory Control and Data Acquisition (SCADA) systems through a Technical Support Program (TSP) to eliminate obsolescence of existing programmable logic controllers (PLCs), communication networks and protocol limitations and various pieces of instrumentation used to monitor and control the process. This program also implements heightened security measures on stand-alone SCADA systems to prevent accidental or malicious loss through cyber threats such as network intrusion and hacking that could directly impact operations. This program will also provide network hardening through use of fiber installation to remote SCADA locations. Method: Fixed-term contracts and competitive bids. End State: Maintain compliance and reliability throughout the IQ SCADA system.

#### 70069 Wellfield / Plant Power System

3.000.000

Purpose: This multi-year phased project consists of improvement/replacement aging power system equipment and power lines within the wellfields (Tamiami, North Reserve Osmosis & South Reverse Osmosis) and two Regional Water Treatment Plants (WTPs). Planned projects in FY23 focus on electrical reliability improvements at the South County Regional Water Treatment Plant, electrical reliability improvements at the North County Regional Water Treatment Plant, and generator replacements in the Tamiami wellfield. Method: Utilize existing fixed-term contracts for design and construction. End State: Continue to provide reliability and maintain compliance to meet demand throughout the water system.

#### 70084 Wellfield SCADA Support - Operating

250,000

Purpose: Rehabilitate the Supervisory Control and Data Acquisition systems (SCADA) for the remote water sites including water distribution sites, water quality locations, and wellfields that supply raw water to the north and south treatment plants through a multi-year technical support program to increase reliability and operational efficiency. This program is needed to eliminate obsolescence of existing programmable logic controllers (PLCs) and various instrumentation used to constantly monitor and control the process and communicate with the regional water treatment plants. This program also implements heightened security measures on stand-alone SCADA systems to prevent accidental or malicious loss through cyber threats such as network intrusion and hacking that could directly impact operations. This program will also provide network hardening through use of fiber installation to remote SCADA locations. There are 105 well sites with 77 PLCs and communication networks throughout the wellfield as well as water distribution and quality monitoring sites throughout the water distribution system. This program will upgrade communication methods to more consistent and reliable standards. Method: Through fixed-term contracts and competitive bids. End State: Maintain compliance and reliability throughout the wellfield SCADA system.

#### Fiscal Year 2024 thru 2028 Capital Improvement Program - Project Descriptions by CIP Category

# Project # Project Title / Description FY 2024 Adopted

#### Water / Sewer District Capital

#### 70085 Wellfield/Raw W Booster TSP - Ops

4,500,000

Purpose: Provide annual technical support program (TSP) funding for repairs and modifications needed to meet demand and to remain in compliance. Projects include ongoing restoration and rehab to maintain water (W) production capabilities at 102 individual production wells (reconditioning of wells, well pump replacement, casing and tubing replacement, metering, electrical and mechanical rehab); within the 41 miles of raw water piping system (valve and main rehab, air release valve installation)); and at both raw water booster pump stations (pump and control rehab, building maintenance). Projects for FY23 include reconditioning of existing wells, design to relocate the existing raw water main on Wilson Boulevard due to the roadway widening improvement project, improvements to existing wells/infrastructure in the North Reverse Osmosis (RO) wellfield and various process improvements. Method: Fixed-term contracts and competitive bids. End State: Meet demand and remain in compliance, maintain production capabilities and reliability.

#### 70102 SCRWTP SCADA Support - Ops

300,000

Purpose: Restore and rehabilitate the Supervisory Control and Data Acquisition (SCADA) systems for the South County Regional Water Treatment Plant (SCRWTP) through a multi-year technical support program. This program is needed to eliminate obsolescence of existing programmable logic controllers (PLCs) and various instrumentation used to constantly monitor and control the many processes and communicate throughout the water treatment plant. This program also implements heightened security measures on stand-alone SCADA systems to prevent accidental or malicious loss through cyber threats such as network intrusion and hacking that could directly impact operations. This program will increase reliable, sustainability, and operational efficiency. Method: Through fixed-term contracts and competitive bids. End State: Maintain compliance and reliable operations.

#### 70104 Water Plant Compliance Assurance Proj

1,200,000

Purpose: This Compliance Assurance Project (CAP) provides needed process improvements at both the South and North County Regional Water Treatment Plant (SCRWTP & NCRWTP) to remain in compliance with local, state or federal regulations. Method: Utilize fixed-term contracts or request for proposal (RFP) for design and study services for the various projects. Bid for construction in conformance with County Purchasing Policy. End State: Maintain compliance and meeting demand throughout the water system.

#### 70113 Facility Infrastructure Maintenance

15,000

Purpose: Operational and preventative maintenance program which performs regular preventative maintenance and minor repairs on water facilities including inspections and assessments of roofs, gates, overhead doors, cranes, fences, HVAC (heating ventilation, air conditioning) site, and landscaping. This will enhance the utilization and life expectancy of the water facilities by maintaining structures in satisfactory operating condition by providing systematic inspections and preventative maintenance to avoid failures and disruption of services. Method: Fixed term services contracts and/or competitive construction bids. End State: An enhanced and fully compliant water department that will extend the life expectancy of the facility and its vertical assets.

#### 70117 Wastewater Remote Sites TSP

80,000

Purpose: A technical support program (TSP) to optimize the operating efficiency and ensure the safety of Public Utilities Department (PUD) Wastewater structures by completing projects related to the rehabilitation, replacement, and optimizations of HVAC (heating, ventilation, air conditioning) Systems, roofs, electrical and fire systems, and other vertical assets existing in the Collections, Irrigation Quality and Master Pump Station Facilities (IQ/MPS). Implement a program to enhance the utilization and life expectancy of the IQ/MPS by maintaining facilities in satisfactory operating condition by providing systematic inspections and preventative maintenance to avoid failures and disruption of services. Planned FY23 projects include but not limited to Shirley Street equipment storage, parking, security, and roof improvements. Method: Fixed term services contracts and/or competitive construction bids. End State: An enhanced and fully compliant IQ/MPS that will ensure safety for employees and extend the life cycle of the facility and its vertical assets.

#### Fiscal Year 2024 thru 2028 Capital Improvement Program - Project Descriptions by CIP Category

# Project # Project Title / Description FY 2024 Adopted

#### Water / Sewer District Capital

#### 70118 Infrastructure TSP Water Plants

500,000

Purpose: A technical support program (TSP) to optimize the operating efficiency and increase the safety of the Water Plants by completing maintenance projects related to rehabilitation, replacements, and optimizations of HVAC (heating, ventilation, air conditioning) systems, roofs, lighting systems, electrical and fire systems, and other vertical assets existing at the South and North County Regional Water Treatment Plant (SCRWTP & NCRWTP). This will enhance the utilization and life cycle expectancy of the SCRWTP and NCRWTP. Planned FY23 projects include but not limited to new roof for the Reverse Osmosis (RO) building, new windows, power wash and painting of the Sludge building, and repair of Lime Plant Degas Tower structure at the SCRWTP. Method: Fixed term services contracts and/or competitive construction bids. End State: An enhanced and fully compliant SCRWTP and NCRWTP that will ensure safety for employees, and extend the life cycle of the Plants and its vertical assets.

#### 70120 Naples Park Basin Optimization

10,300,000

Purpose: A multi-year program (FY 2017-28) that provides replacement of water distribution asbestoscement (AC) pipe and wastewater clay pipe in Naples Park that has reached the end of its useful life. The program installs fire hydrants, water mains and other appurtenances that improve fire protection and water quality in coordination with stormwater replacements (funded out of Stormwater Capital Funds 325 & 328). Replacement rate is approximately 2 to 4 miles per year depending on budget availability. FY23 funds includes the design and construction of the next selected avenues. Method: Utilize request for proposal (RFP) for design and competitive bidding for installation. End State: Sustain compliance and meet demand with reliability through continued proactive maintenance as well as concurrent replacement of the water distribution and stormwater system assets.

#### 70121 Utility Billing Customer Serv Software

20,000

Purpose: Purchase a new billing and customer service software system for water/sewer/IQ (irrigation quality) base and usage charges, pretreatment monthly and application fees, miscellaneous billing for meter tapping, miscellaneous billing for damage to Collier County Water/Sewer District (CCWSD) assets, capital special assessment for water/sewer and miscellaneous billing for financed impact fees. This software system will replace the legacy Harris ICIS water/sewer billing system, the SAP (Collier's accounting system) miscellaneous billing system, and the current capital module within the legacy Special Assessment System. Method: Through request for proposal (RFP) and competitive procurement and fixed term contracts. End State: Comprehensive integrated GIS (geographic information system) based billing system across all product lines.

#### 70131 Large Meters Renewal & Replacement

200,000

Purpose: Remove and replace 20 large meters as part of a multi-year program to replace water meters that have reached the end of their useful life. There are approximately 600 large meters in the system that record water usage, and are thus the source of revenue for the utility. All meters three inch and larger are tested and calibrated annually with replacements scheduled on a rotating basis. In general, this project replaces large water meters that have reached the end of their useful life, and meters that have been identified during the meter audit program as being non-compliant. Method: Fixed term contracts for purchases and replacements with a portion of installation by staff. End State: Remain in compliance with Florida Administrative Code 62-555, Ordinance 201-73, and sustain an accurate measurement of customer water usage for accurate billing.

#### 70136 Water Plant Capital Projects

1,600,000

Purpose: Provide funding for capital improvements involving safety related projects, repairs, replacements, and modifications needed to meet demand and to remain in compliance at the Regional Water Treatment Plant (WTP's). These facilities have been producing over 10 billion gallons of treated water annually. The major pieces of equipment needed to be kept operational are cartridge filters, transfer/blend pumps, high service pumps, treatment skids (Reverse Osmosis & Nano), degasification towers, odor control trains, ground storage tanks (GST), generator sets, lime reactors, media filters, sludge thickener and belt press. This is a multi-year program that addresses ongoing prioritized needs. Method: Fixed-term contracts for design services and competitive bids for construction. End State: Meet demand, maintain reliability, ensure safety of plant staff, and remain in compliance.

#### 70141 MPS 305 Basin Program

500,000

Purpose: This multi-year program restores, rehabilitates and replaces the aging wastewater collections system within the Glades, Lakewood, Gateway Triangle, Flamingo Estates and the Naples Industrial Park to maintain compliance and meet operational needs. Funding provides for the rehabilitation of approximately 4 pump stations per year. Method: Fixed-term contracts and competitive bids. End State: Maintain compliance and meet demand throughout Basin 305.

Fiscal Year 2024 10 - 165 CIP Summary Reports

#### Fiscal Year 2024 thru 2028 Capital Improvement Program - Project Descriptions by CIP Category

# Project # Project Title / Description FY 2024 Adopted

#### Water / Sewer District Capital

#### 70144 FM Transmission Systems TSP-Ops

100,000

Purpose: This is a multi-year program that restores, rehabilitates or replaces aging wastewater force mains (FM) within the Collier County Water-Sewer District network consisting of 409 miles of pipe and more than 1,200 air release valves through a Technical Support Program (TSP) to maintain compliance and meet operational needs. Wastewater air-release valves are being rehabilitated to reduce the potential for sanitary sewer overflows (SSOs), to eliminate confined space access issues, to decrease maintenance costs and to provide a safe working environment for wastewater collections maintenance staff. The renewal of piping and air release valves are on a prioritized basis. Method: Fixed-term contracts and competitive bids. End State: Maintain compliance and meet operational demands throughout the force main system.

#### 70145 Wastewater Pump Stations TSP-Ops

50.000

Purpose: Restore and/or rehabilitate wastewater pump stations and community pump stations within the installed-base of more than 800 locations. This is a multi-year Technical Support Program (TSP) that includes the renewal of multiple pump stations each year, including mechanical, electrical, and structural components such as pumps, motors, pipes, valves, wet wells, odor control, electrical controls, containment, structures, lighting, and fencing. Method: Fixed-term contracts and competitive bids. End State: Maintain compliance and meet operational demands of wastewater pump stations.

#### 70148 Water Reclamation Facilities TSP-Ops

1,000,000

Purpose: This is a multi-year Technical Support Program (TSP) to provide repairs and modifications needed to meet demand and remain in compliance at the North and South County Water Reclamation Facilities (NCWRF and SCWRF). These facilities treat approximately 6 billion gallons of wastewater per year. The various treatment processes Modified Ludzack-Ettinger (MLE) and Orbal produce high quality Irrigation Quality (IQ) water. The major pieces of equipment that need to be kept operational include the pretreatment structure with bar screens, grit removal mechanisms and influent channels, MLE aeration basins, orbal oxidation ditches, clarifiers, effluent filters, and disinfection chambers. There are also mechanical screens and grit chambers, odor control units, blowers, pumps, valves, flow meters, chemical analyzers, chemical storage/distribution systems, IQ water storage ponds, sludge belt presses, and sludge holding tanks. Project provides for repair, rehabilitation and/or replacement of assets near the end of their useful lives. Method: Budget amendments to discrete projects, fixed-term contracts, and competitive bids. End State: Maintain compliance, meet demand, achieve energy efficiencies, and maintain sustainability.

#### 70149 NCWRF New Headworks

4,094,200

Purpose: Replace the existing headworks at the North County Water Reclamation Facility (NCWRF) that is approximately 30 years old and beginning to fail structurally. The project includes the installation of structures, screens, grit removal equipment, flow splitting chambers, electrical controls and a new electrical service, as well as interim flow handling during construction. Method: Active design-build contract solicitation. End State: Sustained compliance and the ability to meet demand with reliability through replacement of critical wastewater treatment components.

#### 70166 IQ Water System TSP-Ops

300,000

Purpose: This is a multi-year Technical Support Program (TSP) to restore, rehabilitate and maintain infrastructure of the Irrigation Quality (IQ) water system needed to meet customer demand, and contractual and regulatory compliance, including the rehabilitation of IQ pump stations, isolation valves, and air release valves, as well as meters, pumps, and motors. This program allows operations to accurately measure water sold, ensuring accurate revenue generation; delivers water to the customer per contractual agreements; and allows for system isolation for regulatory compliance. As the reclaimed water system is more than 20 years old, these projects are necessary to maintain the distribution system in working condition. FY23 projects include but are not limited to: flow meter and valve replacement, point of delivery equipment installations, and pump replacement. Method: Fixed-term contracts and competitive bids. End State: Remain in contractual and regulatory compliance, meet customer demand, and improve system efficiency.

#### 70173 Orange Tree Compliance

100,000

Purpose: A multi-year Technical Support Program (TSP) that provides repair of aging utility system assets that have failed throughout the former Orangetree Utility service area. Method: Utilize existing fixed-term underground contracts or competitive bidding for installation and fixed-term engineering services contracts for design. End State: Sustain compliance and meet demand with reliability through continued proactive maintenance and replacement of the potable water and wastewater system assets.

| Project # | Project Title / Description   | FY 2024<br>Adopted |
|-----------|---|--------------------|
|           | Water / Sewer District Capital  |                    |
| 70202     | Collier County Utility Standards  | 20,000             |
|           | Purpose: Utilize design consultants to provide independent peer review of specific Collier County Water-Sewer District infrastructure detail drawings based on input and feedback from County staff and advisory committees. The Board of County Commissioners annually approves the Utility Standards Manual update. Method: Meet with the Utilities Discussion Group and Public Utilities Operating Divisions to update the Utility Standards Manual. End State: That the Utility Standards Manual, as the Public Utilities principal technical guidance document, ensures that all utility-related construction meets county standards, that consistency is maintained, and that the utility continues to stay compliant with all state and federal regulations.   |                    |
| 70207     | MPS 301 Rehab, SCWRF  | 750,000            |
|           | Purpose: Rehabilitate 30+ year old Master Pump Station (MPS) 301 including mechanical, electrical, and structural components such as pumps, motors, generator, controls, pipes, wet wells, odor control, containment, structures, lighting, and fencing to maintain compliance and meet operational needs. Method: Fixed-term contracts and competitive bids. End State: Sustain compliance and meet demand with reliability through continued proactive maintenance.   |                    |
| 70222     | Golden Gate City Compliance   | 1,290,000          |
|           | Purpose: This is a multi-year compliance assurance program (CAP) that restores, rehabilitates and replaces aging underground pipelines within the newly acquired Golden Gate City Utility service area to maintain compliance and to meet operational needs. Program goals include the minimization of infiltration and inflow of storm and ground water into the wastewater collections system by restoring or replacing manholes and lining or replacing underground pipes and service laterals, wastewater treatment plant repair and rehabilitation, installing fire hydrants, water mains and other appurtenances that improve fire protection and water quality. FY 20 includes transmission system design to enable future water distribution system expansion. Method: Fixed-term contracts, Request for Professional Services and competitive bids. End State: Maintain compliance and meet operational demands. |                    |
| 70240     | Collections Operating TSP   | 3,894,800          |
|           | Purpose: This is a multi-year Technical Support Program (TSP) to provide repairs and modifications needed to meet demand and remain in compliance in the wastewater collection system. Project provides for repair, rehabilitation and/or replacement of assets near the end of their useful lives. Projects includes, but are not limited to, pump station repairs or rehabs, gravity main or force main repairs and/or replacements, and valve replacements. Method: Budget amendments to discrete projects, fixed-term contracts, and competitive bids. End State: Maintain compliance, meet demand, achieve energy efficiencies, and maintain sustainability.   |                    |
| 70257     | Palm River  | 10,500,000         |
|           | Purpose: A multi-year program (FY2021-31) that provides replacement of water distribution asbestoscement (AC) pipe in Palm River that has reached the end of its useful life. The program installs fire hydrants, water mains and other appurtenances that improve fire protection and water quality. Method: Utilize request for proposal (RPS) for design services and competitive bidding for construction. End State: Sustain compliance and meet demand with reliability through continued proactive maintenance and replacement of the water distribution system assets.  |                    |
| 70272     | Air Release Valve Replace   | 1,150,000          |
|           | Purpose: Replace and bring above ground approximately 75 air release valves (ARVs) per year. Existing below-ground ARVs are more prone to failure creating sanitary sewer overflows, and well as being a safely issue working in confined spaces. Method: Fixed term contracts for design and construction. End State: Maintain compliance and provide reliable services.   |                    |
| 70278     | NCWRF Switchgear #1 Replace   | 6,000,000          |
|           | Purpose: Design and replace electrical service #1 switchgear at North County Water Reclamation Facility (NCWRF). This switchgear is at the end of its useful life and needs to be replaced. Method: Request for Professional Services for design and competitive bids for construction. End State: Maintain compliance and reliability through proactive replacement of aging electrical infrastructure.  |                    |

#### Fiscal Year 2024 thru 2028 Capital Improvement Program - Project Descriptions by CIP Category

# Project # Project Title / Description FY 2024 Adopted

#### Water / Sewer District Capital

#### 70285 Airport Rd Cast Iron Water Main Rep

500,000

Purpose: This project is part of a multiyear program that addresses the abandonment of aging cast iron water main in the County's distribution system. This project consists of the removal and replacement of aging cast iron water mains along Airport Road between Vanderbilt Beach Road and Pine Ridge Road. Method: Fixed term contracts for design services and competitive bids for construction. End State: Provides improvement to the water quality, meets demand and increases water reliability.

#### 70286 PCCP Replacement (Ph1-Carica PS to Airport)

300,000

Purpose: This project consists of the replacement of the existing Pre-stressed Concrete Cylinder Pipe (PCCP) transmission water main that travels from the South County Regional Water Treatment Plant to the Carica Pump Station. Method: Utilize request for professional services

#### 70287 NCRWTP Facility Plan/Improv

1,000,000

Purpose: Provide funding for capital improvements to prepare plant facility plan, upgrade existing facilities, review and recommend treatment processes and if needed, provide reliability expansion improvements at the North County Regional Water Treatment Plant (NCRWTP). The NCRWTP is a nano filtration treatment and reverse osmosis treatement plant. These facilities have been producing approximately 5 billion gallons of treated water annually. Since this plant started operation in the 1990's, new treatment technologies have been utilized at other water treatment plants in the surrounding areas. These new technologies need to be reviewed to determine if any of the new treatment technologies should be incorporated into this plant. The major pieces of equipment/systems include are nano filtration membranes, reverse osmosis membranes, deep injection wells, transfer/blend pumps, high service pumps, degasification towers, odor control trains, ground storage tanks (GST), generator sets, clearwell, piping, electrical systems, and SCADA systems. This is a multi-year construction program that will ensure the NCRWTP keeps operating at the highest levels for the next 40 years. Method: Utilize Request for Proposal (RPS) for pre-design & design services, and for Construction Manager at Risk services (CMAR). End State: Meet demand, maintain reliability, ensure safety of plant staff, and remain in compliance.

#### 71009 Security Upgrades

150,000

Purpose: Multi-year program to provide both physical and virtual protection of assets of our critical infrastructure that are imbedded in critical compliance-driven operations, including physical access points such as gates, fences, card access and recording devices, as well as cyber threats such as network intrusion and cyber hacking that could directly impact operations. Evaluate and prioritize mitigation to resolve risk and exposure to maintain compliance with Department of Homeland Security requirements for public water supply systems and sustainability of existing levels of service. Planned FY22 projects include but not limited to a new guard house at North County Regional Water Treatment Plant (NCRWTP), and the replacement of perimeter fencing at the South and North County Regional Water Treatment Plants (SCRWTP and NCRWTP). Method: Internal resources and fixed-term contracts. End State: Compliant and secure infrastructure.

#### 71055 NCRWTP SCADA Support Ops

150,000

Purpose: Restore and rehabilitate the supervisory control and data acquisition (SCADA) systems for the North County Regional Water Treatment Plant (NCRWTP) through a multi-year technical support program. This program eliminates obsolescence of existing programmable logic controllers (PLCs), and various instrumentation used to monitor and control plant processes and communicate throughout the plant. Includes the modernization of existing instrumentation to utilize standard protocols in support of asset management initiatives, as well as enhancing communication networks and related hardware. This program also implements heightened security measures on stand-alone SCADA systems to prevent accidental or malicious loss through cyber threats such as network intrusion and hacking that could directly impact operations. This program will also provide network hardening through use of fiber installation to remote SCADA locations. Primary focus of the instrumentation and communications enhancements will be on critical treatment processes. Method: Through fixed-term contracts and competitive bids. End State: Maintain compliance and reliable operation of the treatment process.

#### 71056 SCADA Compliance - Water

100,000

Purpose: Multi-year program to acquire, manage and maintain software applications, licenses and support agreements for Supervisory Control and Data Acquisition (SCADA) systems used throughout the Water Division. This program will also include research and development projects to continue to develop the SCADA system and ensure reliability as technology changes. Method: Utilize fixed-term contracts and competitive bids. End State: All critical control systems are maintained, compliant and secure to facilitate continued production of quality products.

#### Fiscal Year 2024 thru 2028 Capital Improvement Program - Project Descriptions by CIP Category

# Project # Project Title / Description FY 2024 Adopted

#### **Water / Sewer District Capital**

#### 71057 Membrane Treatment TSP

1,400,000

Purpose: A technical support program (TSP) to increase the efficiency and the recovery rate of the Water Treatment Plant Reverse Osmosis (RO) and Nanofiltration (Nano) treatment units, replace membranes that are beyond their useful life, and maintain existing piping components. The project includes a coordinated design of membrane filters that are optimized with piping and pump redesign as needed to remain in regulatory compliance and improve the recovery rate of the treatment process. Method: Utilize existing fixed-term contracts for design, plant staff for membrane replacement, and contract out construction through competitive procurements. End State: Optimized RO and Nano treatment processes that achieve energy efficiencies and stay within water quality compliance parameters.

#### 71058 General Legal Services

200.000

Purpose: Obtain expert legal counsel for water, wastewater, and reuse issues. Provide appropriate legal representation for various complex or specialized water and wastewater related matters to stay in compliance. Method: Issue work orders under a competitive agreement for legal services for complex or specialized legal tasks. End State: Provide appropriate legal representation for various complex or specialized water and wastewater related matters to stay in compliance.

#### 71065 SCRWTP TSP Operating

600,000

Purpose: Provide annual technical support program (TSP) funding for safety related projects, repairs and modifications needed to meet demand and to remain in compliance at the South County Regional Water Treatment Plant (SCRWTP). This facility has been producing approximately 5 billion gallons of treated water annually. The major pieces of equipment needed to be kept operational are: 8 cartridge filters, 5 transfer/blend pumps, 10 high service pumps, 10 treatment skids, 8 degasification towers, 4 odor control trains, 6 generator sets, 3 lime reactors, 6 media filters, sludge thickener and belt press. Projects planned for FY23 include, but are not limited to, replacing air piping. This is a multi-year program that addresses ongoing prioritized needs. Method: Fixed-term contracts for design and competitive bids. End State: Meet demand, maintain reliability, ensure safety of plant staff, and remain in compliance.

#### 71066 NCRWTP TSP Operating

1,000,000

Purpose: Provide annual technical support program (TSP) funding for safety related projects, repairs and modifications needed to meet demand and to remain in compliance at the North County Regional Water Treatment Plant (NCRWTP). This facility has been producing approximately 4 billion gallons of treated water annually. The major pieces of equipment needed to be kept operational are: 8 cartridge filters, 6 transfer pumps, 6 high service pumps, 10 treatment skids, 3 concentrate wet well pumps, 4 degasification and odor control trains, and 4 generator sets. Projects in FY23 include, but are not limited to, raw water line replacement in the Nanofiltration Skids Building, and liquid fluoride conversion. Method: Fixed-term contracts for design and competitive bids. End State: Meet demand, maintain reliability, ensure safety of plant staff, and remain in compliance.

#### 71067 Distribution Repump Station TSP

100,000

Purpose: This is a multi-year program that addresses prioritized needs. It provides annual technical support program (TSP) funding for repairs and modifications to the secondary water distribution stations to meet demand and to remain in compliance. These stations include the following booster stations and storage tanks: Carica, Manatee, Isles of Capri, Raw Water Booster Pump Station (RWBPS), and Goodland. FY23 projects include completing electrical improvements at Carica Pump Station. Method: Fixed-term contracts for design services and competitive bids for construction. End State: Meet demand, remain in compliance and maintain reliability and safety.

#### 72013 Facility Infrastructure Maintenance - WW

200,000

Purpose: To optimize the operating efficiency and ensure the safety of the Wastewater (WW) Plants by completing maintenance service projects (MSP) related to the rehabilitation, replacements, and optimizations of HVAC (heating, ventilation, air conditioning) Systems, roofs, electrical and fire systems and other vertical assets existing at the South and North County Water Reclamation Facilities (SCWRF and NCWRF), Orangetree and Golden Gate Wastewater Facility. This will enhance the utilization and life expectancy of the SCWRF and NCWRF by maintaining the Plants in satisfactory operating condition by providing systematic inspections and preventative maintenance to avoid failures and disruption of services. Planned FY23 projects include annual inspections and preventive maintenance of Wastewater Plant assets including HVAC systems, roofs, overhead doors, hurricane shutters, and cranes. Method: Fixed term services contracts and/or competitive construction bids. End State: An enhanced and fully compliant SCWRF and NCWRF that will ensure safety for employees and extend the life cycle of the Plants and its vertical assets.

#### Fiscal Year 2024 thru 2028 Capital Improvement Program - Project Descriptions by CIP Category

#### Project # Project Title / Description FY 2024 Adopted

#### **Water / Sewer District Capital**

#### 72505 Wastewater Security Systems

250,000

Purpose: This is a multi-year program to provide both physical and virtual assessments of assets of our critical infrastructure that are imbedded in critical compliance-driven operations, including physical access points such as gates, fences, card access and recording devices, as well as cyber threats such as network intrusion and cyber hacking that could directly impact operations. Evaluate and prioritize mitigation to resolve risk and exposure to maintain compliance with Department of Homeland Security requirements and sustainability of existing levels of service. Planned FY22 projects include but not limited to the installation of gates, replacement and addition of cameras, and perimeter fencing at both the South and North County Water Reclamation Facilities (SCWRF and NCWRF). Method: Internal resources and through fixed-term contracts. End State: Compliant and secure infrastructure.

#### 72541 SCADA Compliance - WW

100.000

Purpose: This is a multi-year program to acquire, manage and maintain software applications, licenses and support agreements for Supervisory Control and Data Acquisition (SCADA) systems used throughout the Wastewater (WW) Department. This program will also include research and development projects to continue to develop the SCADA system and ensure reliability as technology changes. Method: Utilize fixed-term contracts and competitive bids. End State: All critical control systems are maintained, compliant and secure to facilitate continued production of quality products.

#### 73922 WW Collections SCADA/Telemetry

160,000

Purpose: This is a multi-year program to restore and rehabilitate the Supervisory Control and Data Acquisition (SCADA) systems for the Collections System through a Technical Support Program (TSP) to ensure compliance and provide operational control. SCADA upgrades are being implemented to control variable frequency drives (VFDs) within the wastewater (WW) collection system. The program includes repair and replacement of SCADA equipment including transmitter control units (TCUs) and antennas at more than 800 pump stations, and storm-hardening of the central SCADA systems at the Wastewater Collections office on Shirley Street, and providing a resilient mission critical system that maintains compliance of the entire county's wastewater infrastructure. This program also implements heightened security measures on stand-alone SCADA systems to prevent accidental or malicious loss through cyber threats such as network intrusion and hacking that could directly impact operations. This program will also provide network hardening through use of fiber installation to remote SCADA locations. Method: Fixed-term contracts and competitive bids. End State: Maintain compliance and reliability throughout the Collections SCADA system.

#### 75017 Hydraulic Modeling

150,000

Purpose: Provide hydraulic evaluation and analysis of all water, wastewater and irrigation quality water infrastructure. Hydraulic models are used to verify availability for Planned Unit Developments, concurrency, and master planning. Models are also used by operations to predict pressures, flow rates, and water quality under varying conditions. These data points are essential for determining the appropriate emergency response in the event of pipe breakage. Flows can be modeled and redirected with minimum disruption to the community. Method: Fixed-term contracts. End State: Maintained compliance and operations through this current year execution of a multi-year program.

#### 75018 Financial Services

60,000

Purpose: Utilize outside consultants to prepare feasibility reports, perform rate studies, asset valuations, and acquisitions. Method: Utilize a financial consultant to perform these required studies. The external consultants are utilized in situations where an independent perspective is required or specialized financial analysis is needed. End State: Provide independent financial assessments to aid in business decision-making.

#### 75019 GM Comprehensive Plan

500,000

Purpose: Utilize consultants to assist in addressing growth management (GM) changes to key documents and data used to prepare the following: the Utilities portion of the Annual Update and Inventory Report (AUIR), updates to the Growth Management Plan (GMP), Evaluation and Appraisal Report (EAR) of the Growth Management Plan, and updates to the Land Development Code (LDC) to ensure sustained compliance within the Collier County Water-Sewer District. Method: Engage consultants to provide professional services. End State: The AUIR, Evaluation and Appraisal Report of the Growth Management Plan, and updates to the Land Development Code and Growth Management Plan will be forwarded to Growth Management Division's Comprehensive Planning Section for coordination of the approval process through the Board of County Commissioners.

Fiscal Year 2024 10 - 171 CIP Summary Reports

## **General Fund (0001) / (001)**

Fund Type: General Fund

Description: The General Fund (0001/001) is the largest operating fund of the County. It is used to account for all

countywide general government activities and is supported principally by ad valorem taxes. The Constitutional Officer Funds, which are sub-funds of the General Fund, include the Clerk of Courts (0011/011), Sheriff (0040/040), Property Appraiser (0060/060), Tax Collector (0070/070), and Supervisor of Elections (0080/080).

Prior to the accounting system upgrade in FY 2023, this was Fund number 001.

## Affordable Housing Water/Sewer Impact Fee Deferral Program (0002) / (002)

Fund Type: General Fund

Description: The Affordable Housing Impact Fee Deferrals for Water and Sewer Program was adopted by the Board on July

26, 2005 in Ordinance 2005-40. The program provides funding to reimburse the water and sewer impact fee funds for impact fees waived in support of affordable housing initiatives. Prior to the accounting system

upgrade in FY 2023, this was Fund number 002.

## Emergency Relief Fund (0003) / (003)

Fund Type: General Fund

Description: To lessen the financial impact on operating budgets from the various departments that contribute to a disaster

response, the BCC approved an emergency measures account to be established and funded to cover the gap in response cost that may not meet the established damage minimums for FEMA reimbursement. Prior to the

accounting system upgrade in FY 2023, this was Fund number 003.

## Stormwater Operations (1005) / (103)

Fund Type: Special Revenue

Description:

In FY19, Stormwater operations were centralized into Fund (1005/103) and capital in Fund (3050/325). In FY 19, the Board desired to fund-up the Stormwater operations and capital to the maximum allowed under Resolution 2010-137, an amount not to exceed the equivalent of 0.15 mills. The Stormwater Division is responsible for the management of facilities and services for drainage and flood protection for existing and future development, minimize the degradation of quality of receiving water and surrounding natural areas, and protect the functions of natural groundwater aquifer recharge areas. The principal funding source is a subsidy from the General Fund (0001/001) and the Unincorporated General Fund (1011/111). Prior to the accounting system upgrade in FY 2023, this was Fund number 103.

Fiscal Year 2024 11 - 17 Summary Reports

### Grant Program Support (1806) / (123)

Fund Type: Special Revenue

Description: This fund is used to provide assistance to elderly Collier County residents through excess revenues from the

Senior Choice federal and state grant program as well as any local funds needed to support unfunded or underfunded mandates. On November 10, 2020, agenda item 11.A, the Board approved to reimburse EMS (\$13,464,802.10) and the Sheriff (\$31 million) for public health and safety payrolls thru December 30,2020 from the CARES Act CRF (Coronavirus Relief Funds). These reimbursements recovered using this methodology were transferred from the General Fund (0001/001) and the Board approved 'Collier CARES' program beyond the December 31, 2020 funding deadline. Prior to the accounting system upgrade in FY 2023, this was Fund

number 123.

Fiscal Year 2024 11 - 19 Summary Reports

## **Golden Gate Community Center (1605) / (130)**

Fund Type: Special Revenue

Description: MSTU created to fund initial construction and on-going operations of a community center building within

Golden Gate City. Primary funding is provided by ad valorem taxes generated from property owners within the MSTU and a transfer from the Unincorporated General Fund (1011/111). (Ord. 75-04) Prior to the accounting

system upgrade in FY 2023, this was Fund number 130.

Fiscal Year 2024 11 - 24 Summary Reports

### Ochopee Fire Control District (1040) / (146)

Fund Type: Special Revenue

Description: The fire district is a Municipal Service Taxing Unit (MSTU) that provides services to the residents of Ochopee

and is supported by ad valorem taxes. Ad valorem revenues collected are paid to Greater Naples Fire and Rescue District until all legislative action is complete and Ochopee Fire Control District is incorporated into the Greater Naples Fire and Rescue District. Prior to the accounting system upgrade in FY 2023, this was Fund

number 146.

#### **Court Maintenance Fund (1056) / (181)**

Fund Type: Special Revenue

Description: This fund accounts for the revenue specifically created to fund State Court Facilities. On July 28, 2009, the

Board amended Ordinance 04-43 (with Ordinance 09-41) by increasing the surcharge imposed for non-criminal traffic infractions set forth in Chapter 318, Florida Statutes, and those offenses enumerated in Section 318.17, Florida Statutes, from \$15 to \$30 per Section 318.18(13), Florida Statutes. Prior to the accounting system

upgrade in FY 2023, this was Fund number 181.

Fiscal Year 2024 11 - 41 Summary Reports

### **Tourism Promotion (1101) / (184)**

Fund Type: Special Revenue

Description: This fund accounts for the portion of tourist development tax dollars that fund marketing and promotion

activities. The tourist tax is levied against short-term (6 month or less) rentals that include hotel, motel rooms, condominiums and houses, campgrounds and other lodgings. Prior to the accounting system upgrade in FY

2023, this was Fund number 184.

#### 800 MHz Intergovernmental Radio Communication Program (1060) / (188)

Fund Type: Special Revenue

Description: Provides funding for operating and maintenance costs of the 800 MHz radio system. Revenue is generated

from a \$12.50 surcharge on moving traffic violations. A transfer from the General Fund is required to fully fund the operational costs for the 800 MHz radio system. Prior to the accounting system upgrade in FY 2023, this

was Fund number 188.

#### Gas Tax Revenue Bonds Refund, Series 2003/2012 & 2005/2014 (2005) / (212)

Fund Type: **Debt Service** 

Description:

The Gas Tax Revenue Bonds, Series 2012 refunded the 2003 Road Improvement Refunding Revenue Bonds. Gas Tax Revenue Bonds, Series 2014 partially refunded the 2005 Gas Tax Revenue Bonds. Both the Series 2003 and Series 2005 Bonds provided funding for acquisition, construction, and reconstruction of roads and bridges and other transportation improvements. Revenues pledged include the 5-cent, 6-cent, 7th cent and 9th cent Gas Taxes with final maturity in June 2025. The County Seventh Cent Gas Tax is deposited directly into the Gas Tax Debt Service Fund (2005/212) and the remaining funding is a transfer from the Gas Tax Construction Fund (3083/313). Prior to the accounting system upgrade in FY 2023, this was Fund number 212.

### Commercial Paper Loan (2023) / (299)

Fund Type: **Debt Service** 

Description: Represents variable rate debt service for Pelican Bay and Transportation Management services. Loan proceeds

were provided for capital improvements in Pelican Bay Commercial Paper fund (3042/323) and Transportation Debt Financing Capital Fund (3084/330). The primary revenue sources are transfers from Gas Tax Fund (3083/313) and Pelican Bay Capital Fund (3041/322). Prior to the accounting system upgrade in FY 2023, this

was Fund number 299.

#### Boater Improvement (3061) / (303)

Fund Type: Capital Projects

Description: This fund accounts for fees collected through annual boaters' registrations (Section 328.72(15) and 328.66(1),

Florida Statutes). There are two fees imposed; one is a state imposed fee and the other is a county imposed registration fee. Monies are used for maintaining waterways, as well as building and repairing public boat ramps and docks, removing derelict vessels, and maintaining waterway markers. Prior to the accounting system

upgrade in FY 2023, this was Fund number 303.

#### **ATV Settlement (3060) / (305)**

Fund Type: Capital Projects

Description: Accounts for settlement moneys received June 20, 2011. Collier County and the South Florida Water

Management District entered into a Settlement Agreement wherein the SFWMD paid Collier County \$3 million to dispose of litigation arising out of a 2003 Agreement between the parties in which the District was to convey 640 acres to Collier County for recreational ATV use. On December 10, 2013, agenda item 11.G., the Board approved segregating the remaining settlement moneys into its own fund (3060/305) so interest earnings may accumulate and be held for ATV riding purposes. Prior to the accounting system upgrade in FY 2023, this was

Fund number 305.

#### Park CIP Bond (3063) / (308)

Fund Type: Capital Projects

Description: To segregate and accurately account for bond proceeds and related interest earnings. In September 2020, the

Board of County Commissioners issued Special Obligation Revenue Bonds, Series 2020A, to finance stormwater capital improvements (\$60 million) and aquatic and other park related improvements (\$20 million) and to refinance commercial paper (\$10 million). This fund was created to track the \$20 million related to Parks capital improvements. Prior to the accounting system upgrade in FY 2023, this was Fund number 308.

#### **Growth Management Transportation Capital (3081) / (310)**

Fund Type: Capital Projects

Description: This fund accounts for the operation and maintenance of improvements to the roads as well as ancillary

facilities such as sidewalks, bikepaths, streetlights, landscaping and other facilities incidental to the proper movement of traffic along roads and streets and transportation related grant matches. The principal funding source is a subsidy from the General Fund (0001/001) and the Unincorporated General Fund (1011/111). Prior

to the accounting system upgrade in FY 2023, this was Fund number 310.

#### Stormwater Operations (3043) / (324)

Fund Type: Capital Projects

Description: This fund accounted for personnel involved in Stormwater capital projects, including but not limited to, right-

of-way, permitting, engineering and project management. In FY18, Stormwater Operations was relocated to the Unincorporated General Fund (1011/111). In FY19, Stormwater operations were centralized into the Stormwater Fund (1005/103). The Board desired to fund-up the Stormwater operations to the maximum allowed under Ordinance 2010-137, an amount not to exceed the equivalent of 0.15 mills. Prior to the

accounting system upgrade in FY 2023, this was Fund number 324.

#### **Stormwater CIP Bond (3052) / (327)**

Fund Type: Capital Projects

Description: To segregate and accurately account for bond proceeds and related interest earnings. In September 2020, the

Board of County Commissioners issued Special Obligation Revenue Bonds, Series 2020A, to finance stormwater capital improvements (\$60 million) and aquatic and other park related improvements (\$20 million) and to refinance commercial paper (\$10 million). This fund was created to track the \$60 million related to Stormwater capital improvements. Prior to the accounting system upgrade in FY 2023, this was Fund number 327.

#### Road Impact Fee - District 6, Golden Gate Estates (3094) / (338)

Fund Type: Capital Projects

Description:

Collier County's Transportation Impact Fee was originally adopted in January 1985, to assist the County in providing adequate transportation facilities for expected growth. Impact fees are collected on new building construction by districts and are segregated into individual funds. Impact fees are expended on projects in the impact fee district or within an adjoining district in which they were collected. Prior to the accounting system upgrade in FY 2023, this was Fund number 338.

#### Road Assessments - Receivable (3080) / (341)

Fund Type: Capital Projects

Description: This fund was established for the purpose of financing projects to be accomplished by the assessment method.

Projects accomplished by this method have been funded through loans with payback from assessments. The residual funding remaining serves as a revolving loan pool to fund small-scale assessment projects. Prior to the

accounting system upgrade in FY 2023, this was Fund number 341.

### Regional Park Impact Fee - Incorporated Areas (3070) / (345)

Fund Type: Capital Projects

Description:

Collier County's Regional Park Impact Fee was originally adopted in December 1988, to assist the County to pay for growth-related regional parks land and facilities. Impact fees are assessed and collected on residential new building construction permits. Today, this fund only holds the cities impact fee deposits. The unincorporated area's regional impact fees are deposited into fund 346. Prior to the accounting system upgrade in FY 2023, this was Fund number 345.

#### **General Government Building Impact Fee (3034) / (390)**

Fund Type: Capital Projects

Description: Collier County's General Government Building Impact Fee was originally adopted in March 2004. Impact fees

are collected on new building construction to pay for growth-related general government facilities. Prior to the

accounting system upgrade in FY 2023, this was Fund number 390.

#### Water/Sewer Motor Pool Capital & Spec Assessment (4009) / (409)

Fund Type: Enterprise

Description: Starting in FY 16, this fund accounts for cost-effective life cycle replacement of Water/Sewer Motor Pool

vehicles and heavy equipment through a centralized capital recovery system. Prior to the accounting system

upgrade in FY 2023, this was Fund number 409.

#### County Water/Sewer District Debt Service (4010) / (410)

Fund Type: Enterprise

Description: Represents debt service of the Collier County Water and Sewer District. The primary revenues are transfers

from the district's operating fund (4008/408) and system development fee/impact fee capital funds (4011/411)

and (4013/413). Prior to the accounting system upgrade in FY 2023, this was Fund number 410.

#### County Sewer User Fees Capital (4014) / (414)

Fund Type: Enterprise

Description: This fund accounts for major sewer capital projects that are not supported by system development charges.

These may include rehabilitation projects or large system expansions. The principal funding sources are user fees, carryforward and loan proceeds. Prior to the accounting system upgrade in FY 2023, this was Fund

number 414.

#### County Water Sewer Bond Proceeds (4015) / (415)

Fund Type: Enterprise

Description: To segregate and accurately account for bond proceeds and related interest earnings. In April 2019, the County

Water-Sewer District issued Revenue Bonds, Series 2019, to finance the acquisition, construction and equipping of various utility capital improvements within the northeast area of Collier County in the amount of \$76.2

million. Prior to the accounting system upgrade in FY 2023, this was Fund number 415.

#### Mandatory Trash Collection (4073) / (473)

Fund Type: Enterprise

Description: Provides for the administration of the Mandatory Garbage Collection Ordinance. There is curbside collection of

household waste, yard waste, and recyclables throughout the County. The largest revenue source is mandatory collection fees generated from households receiving the collection service. This fee is now included on the annual tax bills. Prior to the accounting system upgrade in FY 2023, this was Fund number 473.

#### Solid Waste Capital Projects (4074) / (474)

Fund Type: Enterprise

Description: Comprehensive Solid Waste Capital Projects program was initiated in FY 04. Capital projects include; facilities

improvements, collection/ recycling facility upgrades and landfill cell restoration. Primary revenue source is a transfer from Solid Waste Disposal (4070/470), which accounts for landfill fees, transfer station fees, and carry

forward revenue. Prior to the accounting system upgrade in FY 2023, this was Fund number 474.

### **Emergency Medical Services Motor Pool & Other Capital Fund (4051) / (491)**

Fund Type: Enterprise

Description: This fund was originally created to monitor grants received by EMS and special projects funded by the General

Fund (0001/001). Starting in FY16, this fund will transition into providing cost-effective life cycle replacement of EMS Motor Pool vehicles and ambulances through a centralized capital recovery system. Prior to the

accounting system upgrade in FY 2023, this was Fund number 491.

#### **Crime Prevention Trust Fund (1070) / (603)**

Fund Type: Special Revenue

Description: Pursuant to Florida Statute 775.083, court costs shall be assessed and collected in each instance a defendant

pleads nolo contendere to, or is convicted of, or adjudicated delinquent for, a felony, a misdemeanor, or a criminal traffic offense under state law, or a violation of any municipal or county ordinance if the violation constitutes a misdemeanor under state law. The court costs imposed is \$50 for a felony and \$20 for any other offense. The county, in consultation with the sheriff, must expend such funds for crime prevention programs in the county, including safe neighborhood programs under ss. 163.501-163.523 F.S. Prior to the accounting

system upgrade in FY 2023, this was Fund number 603.

### Domestic Violence Trust Fund (1072) / (609)

Fund Type: Special Revenue

Description: Pursuant to Florida Statute 938.08, In addition to any sanction imposed for a violation of s. 784.011, s. 784.021,

s. 784.03, s. 784.041, s. 784.045, s. 784.048, s. 784.07, s. 784.08, s. 784.081, s. 784.082, s. 784.083, s. 784.085, s. 794.011, or for any offense of domestic violence described in s. 741.28, the court shall impose a surcharge. Payment of the surcharge shall be a condition of probation, community control, or any other court-ordered supervision. A portion of the surcharge shall be deposited into this trust fund and must be used only to defray the costs of incarcerating persons sentenced under s. 741.283 and provide additional training to law enforcement personnel in combating domestic violence. Prior to the accounting system upgrade in FY 2023,

this was Fund number 609.

Fiscal Year 2024 11 - 107 Summary Reports

### Housing Grants (1835) / (705)

Fund Type: Special Revenue

Description: To provide community services through grant awards designed to: meet the community needs by facilitating

the creation of affordable housing opportunities, the improvement of communities and the sustainability of neighborhoods. These goals and objectives will be met by working collaboratively with non-profit groups, governmental agencies and public/private coalitions to coordinate activities and effectively leverage the resources available to the entire county. Prior to the accounting system upgrade in FY 2023, this was Fund

number 705.

### **Deepwater Horizon Oil Spill Settlement (1847) / (757)**

Fund Type: Special Revenue

Description: In accordance with Section 377.43 Florida Statutes, the Deepwater Horizon Oil Spill Settlement money shall be

deposited into a separate fund and may be spent on scientific research into the impact of the oil spill on fisheries and coastal wildlife and vegetation along any of the states shoreline; restoration of coastal areas damaged by the oil spill; economic incentives; and initiative to expand and diversify the economy of the Collier

County. Prior to the accounting system upgrade in FY 2023, this was Fund number 757.

#### 42nd Ave SE MSTU (1637) / (761)

Fund Type: Special Revenue

Description: Ordinance 2021-47 created the 42nd Avenue SE Municipal Service Taxing Unit for the purpose of collecting

reimbursements of expenditures made in repairing 42nd Avenue SE to place it in a condition that fire and emergency vehicles can traverse and provide services to the property owners directly benefiting. Millage rates are not to exceed 1.0 mils of ad valorem taxes for the first two years (FY23 and FY24) and no more than 5.0 mils of ad valorem taxes per year thereafter. Emergency repairs in the amount of \$72,231 were completed in 2021.

Prior to the accounting system upgrade in FY 2023, this was Fund number 761.

Fiscal Year 2024 11 - 120 Summary Reports

## **Appendix to the Collier County Adopted Budget**

The following pages comprise the appendix to the Collier County Adopted Budget for the Fiscal Year 2023-2024. The appendix consists of the following components:

Glossary of Commonly Used Terms Page 2

Glossary of Commonly Used Acronyms Page 7

Statistical Data\* Page 10

\*The Collier County Annual Comprehensive Financial Report (ACFR) is prepared each year by the Clerk of Courts Financial Office, independent of the County Office of Management and Budget. The ACFR for Fiscal Year 2022-2023 cannot be considered final until it is presented to the Board of County Commissioners; this is not expected to take place until March 2024. As such, the statistical data from the ACFR for the Fiscal Year 2021-2022 has been included.

Fiscal Year 2024 Appendix

#### Glossary of Commonly Used Terms

**2007 State of Florida Property Tax Limiting Legislation:** Refers to the June 2007 Legislation enacted by the Florida Legislature which requires local governments to reduce ad valorem taxes to below the level of taxes levied in fiscal year 2006-2007 based upon certain formulas proffered by the legislation.

**2008 State of Florida Property Tax Limiting Legislation:** This one-time legislation required the Roll-Back Millage Rate to include the impact of Amendment 1.

#### -A-

**Accrual Basis:** The recording of the financial effects on a government of transactions and other events and circumstances that have cash consequences for the government in the periods in which those transactions, events or circumstances occur, rather than only in the periods in which cash is received or paid by the government.

**Adopted Budget:** The budget as approved by the Board of County Commissioners after two public hearings prior to the beginning of each new fiscal year.

**Ad Valorem Tax:** A tax based on the value of real or tangible personal property.

**Agency:** A major governmental branch. The County Manager and Constitutional Officers serve as agency heads.

Aggregate Millage Rate: A "theoretical" millage rate based on the total County taxable value required to raise all County levied taxes, including dependent districts and Municipal Service Taxing Districts (MSTDs), but not including voter approved debt issues.

Amendment 1 (State-wide voter referendum on January 29, 2008): Provided an extra \$25,000 Homestead Exemption; a \$25,000 exemption on tangible personal property; and, provided for transportability of "Save-Our-Homes" legislation which limits increases in taxable value to 3% annually.

**Appropriation:** An authorization by the Board of County Commissioners to spend public funds for a specific purpose.

**Appropriation Unit:** A major category of expenditures such as personal services, operating expenses, capital outlay, transfers, contributions, and reserves.

**Article V:** The portion of the Florida Constitution that covers funding for the judicial system.

Arbitrage: In government finance, the most common occurrence of arbitrage involves the investment of the proceeds from the sale of tax-exempt securities in a taxable money market instrument that yields a higher rate, resulting in interest revenue in excess of interest costs. If bond proceeds are not expended in accordance with spend down requirements the excess interest earnings (arbitrage) must be rebated to the Internal Revenue Service.

**Arbitrage Services**: Services provided by the County's Arbitrage consultant designed to monitor the expenditure of capital bond proceeds in a timely manner to determine whether there were excess interest earnings in accordance with Internal Revenue Service regulations.

**Assessed Valuation:** The value placed on a given property by the Property Appraiser. State law requires that the assessed value be equal to the market value of the property.

**Audit:** The examination or inspection of various books of accounts by an auditor followed by physical checking of inventory.

-B-

**Balanced Budget:** A budget in which revenues equal expenditures.

**Board of County Commissioners (BCC):** The legislative body of county government, which in Collier County consists of five Commissioners elected by district.

**Bond:** A certificate of debt issued by a government or corporation guaranteeing payment of the original investment plus interest by a specified future date.

**Budget:** A summary of planned revenues and expenditures for a given period of time. The County is required to prepare and adopt a budget each fiscal year.

# Collier County Government Fiscal Year 2024 Adopted Budget

**Budget Highlights:** Explanations of changes or major issues affecting the budget.

**Budget Amendment:** A change to the fiscal year adopted budget, which may increase or decrease a fund total. A budget may be amended during the fiscal year by the governing body and/or management, in accordance with procedures specified by law and/or administrative rules and regulations.

-C-

**Capital Improvement:** The new construction of, or improvements to existing buildings, roads, or other long-lived facilities.

Capital Improvement Element (CIE): The section of the state mandated Growth Management Plan which includes a plan for the construction of various public facilities needed to maintain a given service level for the expected population of the County over the next five years.

**Capital Lease**: Contractual agreements which are termed "leases", but which in substance amount to purchase contracts for equipment and machinery.

**Capital Outlay:** Appropriation unit that includes all expenditures for equipment, vehicles, machinery, etc. that has a cost of \$5,000 or greater.

**Capitalization**: The process of converting capital fixed assets from expenses to assets.

**Carry Forward:** (Fund Balance) Unspent money at the end of a fiscal year available for use in the next fiscal year to fund expenditures or reserves.

**Commercial Paper**: A competitive short-term loanfinancing alternative issued at a variable interest rate. Commercial paper generally offers low cost borrowing, flexible terms and repayment schedules, and a more simplified application process than other instruments used to finance capital and other governmental projects.

Community Redevelopment Agency (CRA) Bank Loan: Specialized competitive bank financing benefiting the County's Bayshore/ Gateway CRA with loan proceeds used for private land acquisition purposes within the District.

**Constitutional Officers:** Independently elected county officials mandated by the Florida Constitution. These include the Property Appraiser, Tax Collector,

Supervisor of Elections, Sheriff, and Clerk of the Court.

**Contingency Reserve:** Money set aside for emergencies or other unforeseen, unbudgeted expenditures.

**Contract Agencies:** Independent organizations, primarily social service agencies, which have a contract with the County to provide services to County residents in return for receiving some funding from the County.

**Contributions:** A grant provided by the County to another government or non-profit agency which provides services to Collier County residents.

**Current Service:** An existing program or service. The current service budget is the amount necessary to continue to provide existing programs.

-D-

**Debt Service:** Payment of interest, principal, and other associated costs to County creditors.

**Deficit**: The excess of expenditures over revenues during a fiscal year.

**Department:** An organizational unit composed of divisions that are responsible for a major governmental function.

**Depreciation**: Expiration in the service life of fixed assets attributable to wear and tear, deterioration, action of physical elements, inadequacy, and obsolescence.

**Division:** The basic organizational unit of the County which provides a specific service.

-E-

**Enterprise Fund:** A fund established to account for activities operated in a manner similar to a private business enterprise. The County's Utility Division and Solid Waste Department operations are accounted for in this way.

**Expanded Service:** A new program or an enhancement to an existing program. The expanded service budget includes the costs to provide new services and enhancements to existing services approved by the BCC.

**Expenditure:** Money spent to receive a good or service.

-F-

**Fiduciary Funds:** Trust or Agency funds that account for assets held by the County as a trustee or agent for individuals, private organizations, and other governmental units.

**Fiscal Year:** A 12-month period used to plan for the use of an organization's funds. By state law, the County's fiscal year runs from October 1 through September 30 of the following year.

**Fixed Asset**: Assets of a long-term character such as land, buildings, and improvements other than buildings, machinery, equipment, and furniture whose cost is in excess of a specific amount and whose life expectancy is in excess of one year.

**Full-Time Equivalent (FTE):** The number of approved positions equated to a full-time basis (e.g., two half-time positions equal one full-time equivalent position).

**Fund:** A financial unit used to account for activities of a similar purpose or with a common revenue source.

**Fund Balance:** (Carry Forward). A fund's current assets less current liabilities at fiscal year end. In governmental funds, this is also equal to revenues less expenses for the fiscal year.

-G-

**General Fund:** The fund that accounts for most county-wide general government activities and is supported by ad valorem taxes.

**General Long Term Debt**: The long term debt associated with a governmental type fund. Long term debt legally payable from general revenues and backed by the full faith and credit of a governmental unit.

**General Obligation Bonds:** Bonded indebtedness relying on the general credit worthiness of the issuing government for repayment rather than a specific revenue source pledged for repayment.

**Goals:** Written statements that reflect the broad, general purpose of a program.

**Governmental Fund:** A broad category of funds used to account for general government operations. The General Fund, Special Revenue Funds, Capital

Funds and Debt Service Funds are all types of Governmental Funds.

**Grant:** A contribution of assets (usually cash) by one governmental unit or other organization to another. Typically, these contributions are made to local governments for a specified purpose by the state or federal government.

-H-

**Homestead Exemption:** A deduction of up to \$25,000 from the assessed value of property occupied by the owner and designated as his primary residence.

-I-

**Impact Fees:** Fees assessed during the construction process that are used to offset the costs of providing growth related infrastructure.

**Indirect Service Charge:** Charging for services based on a cost allocation method rather than billing as service is rendered. The County uses an indirect service charge to reimburse the General Fund for general and administrative services provided to other funds.

**Infrastructure:** The basic facilities required for the functioning of a community such as roads, bridges, water, and sewer service, etc.

**Internal Service Fund:** A fund used to account for operations providing goods or services primarily to other government departments on a reimbursement basis.

-J-

**Job Bank Employee**: Pool of temporary prequalified employees maintained by the County and available for hire by various County Divisions, Agencies and Constitutional Offices.

-L-

**Levy:** To impose a tax, special assessment, or charge.

**Line Item Budget:** A budget that lists each expenditure category (salary, materials, contractual services, etc.) separately, along with the dollar amount budgeted for each specified category.

-M-

# Collier County Government Fiscal Year 2024 Adopted Budget

**Major Fund:** A major fund is defined as those funds whose revenues, expenditures/expenses, assets, or liabilities are at least 10 percent of the total for their fund category (governmental or enterprise) and 5 percent of the aggregate of all governmental and enterprise funds in total.

**Mandate:** Any action or responsibility required by law or so ordered by a court.

**Mill:** One thousandth of one dollar. One tenth of one cent.

**Millage Neutral:** A budget prepared with a General Fund millage rate equal to the rate in the prior year adopted budget.

**Millage Rate:** The amount of ad valorem tax, expressed in mills, to be paid on each dollar of a property's taxable value.

Modified Accrual: A governmental fund – type measurement focus whereby revenues and other financial resources are recognized when they become susceptible to accrual, i.e., when they become both measurable and available to finance expenditures of the current period. Available means collectible in the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recognized when the fund liability is incurred.

**Municipal Service Taxing District (MSTD):** A district established to provide a service typically found in a city or town to an area outside city limits (unincorporated area).

**MSTD General Fund:** The Special Revenue Fund that accounts for municipal type services in the unincorporated areas of Collier County,

which is supported principally by ad valorem taxes. Services provided through this fund include Growth Planning, Parks and Recreation, Law Enforcement, and Zoning and Building Code Enforcement.

-0-

**Object Code:** A numerical code identifying a basic revenue or expense account (line item).

**Objectives:** Specific items to be accomplished in the short term (year).

**Ombudsman:** A government official charged with investigating citizens' complaints against the government.

**Operating Budget:** The total budget for on-going operations.

**Operating Expenses:** Appropriation unit accounting for most non-salary costs to provide on-going services.

-P-

**Personal Services:** Appropriation unit accounting for employee salary and fringe benefit costs.

**Program Budget:** A budget whose focus is on a distinct program or service delivery rather than on classes of expenditures.

**Property Tax (Ad Valorem Tax):** A tax levied on the value of real or tangible personal property.

**Proprietary Funds:** Funds operated like a private business that charge user fees including Enterprise and Internal Service Funds.

-R-

**Referendum:** The submission of a proposed public measure to direct popular vote.

**Reserve:** Money set aside or saved for future use or a specific purpose.

**Revenue:** Financial resources received from taxes, user charges and other levels of government such as state revenue sharing.

**Revenue Bonds:** Bonded indebtedness that pledges a specific revenue source for repayment. Revenue bonds do not require voter approval under state law.

**Rolled Back Rate:** The millage rate based on the current year's taxable value, exclusive of new construction, that will raise the same number of tax dollars as the previous year.

S-

**Special Revenue Funds:** Used to account for specific revenue sources that are legally or administratively restricted to expenditures for specific purposes. Building permit fees and gas taxes are examples of revenues accounted for in Special Revenue Funds.

**Special Master**: A Special Master is a person who meets the minimum qualifications set forth in the local jurisdiction enabling ordinance and who is

# Collier County Government Fiscal Year 2024 Adopted Budget

authorized to hear and decide cases involving violations of local codes and ordinances.

**Strategic Planning:** A method of priority setting based on establishing short and long-term goals, objectives, and implementation plans.

-T-

**Tax Increment Financing (TIF):** Tax increment revenues are all new property tax revenues generated by new developments or assessments, which increase the existing tax base within the designated redevelopment area.

**Tax Neutral:** A budget prepared with a General Fund Millage Rate that will raise the same amount of ad valorem revenue as the prior year adopted budget.

**Tax Roll:** The list of properties, and their values, subject to tax for the coming year.

**Tentative Budget:** The proposed budget subject to revision and final adoption by the Board of County Commissioners.

Transfer: Money moved from one fund to another.

**Trust Fund:** A fund used to account for assets held in a trustee capacity.

-U-

**Unfunded Requirement (UFR):** Description for a program, initiative or personnel request which is not recommended for funding within the proposed fiscal year budget but may receive funding consideration by the Board of County Commissioners during the budget process prior to final adoption from excess or surplus funds.

**User Fees:** Money paid for a service by the recipient of that service. Examples include utility charges, ambulance fees and parking fees.

Basis for property tax rates is 1 mill per \$1,000 of assessed value. Property is assessed as of January 1 and taxes based on those assessments are levied according to the tax rate in effect that tax year and become due on November 1. Therefore, assessments and levies applicable to a certain tax year are collected in the fiscal year ending during the following calendar year.
