# Budget Book Format (how to use this book)

The Collier County Budget Document is organized into six sections. The Budget Summary Information, Departmental Budgets, Debt Service, Capital Improvement Program, Budget by Fund Summary, and the Appendix.

#### **Budget Summary Information**

This section lists the names of the Board of County Commissioners, Constitutional Officers, Appointed Officials, and the Office of Management & Budget Staff at the time of budget adoption. Here you will also find the County Organizational Chart and the comprehensive Table of Contents.

This section also includes summary information for Collier County as follows:

**Budget Book Format (how to use this book):** This area describes the major sections of the Budget Book and what they mean.

**Budget Message from the County Manager (transmittal letter)**: This letter from the County Manager formally transmits the annual budget to the Board of County Commissioners and the Citizens of Collier County. It summarizes the significant factors affecting Collier County's current budget development and an overview of major fiscal issues.

**Economic Overview:** Provides a brief history of Collier County, demographics, and the effect of current economic conditions.

*Vision and Strategic Goals:* This section describes the current County Vision and Strategic Goals, various organization-wide long and short-range planning processes, and cycles, and how they affect the budget process.

**Budget Policies and Procedures:** Includes a narrative on the annual budget development process, current year and standing Budget Policies of the County, Budget Review procedures, the Budget Amendment Process, and the current Basis of Accounting and Budget information.

**Adopted Budget Summaries:** Included in this section is the overall Budget Summary of Revenues and Expenditures for the County, including the Constitutional Officers. A second schedule is included that summarizes Governmental Funds by function and includes actual, prior year budget, and current year budget amounts. The third schedule summarizes the current and prior year adopted budget by the fund for all County funds.

**Summary of Budget by Fund:** This section provides a snapshot of prior and current year adopted budget totals and the % budget change for each of the appropriated funds for Collier County. This Summary of funds is categorized by fund types.

**Fund Structure, Fund Balance, and Description of Funds Subject to Appropriation:** This section outlines the County's fund structure, defines fund balances, and summarizes the budgeted changes to fund balances grouped by Major and Non-Major Fund Type. This schedule shows the beginning fund balances, budgeted increases and decreases in total fund balance and the ending fund balance along with a discussion of significant planned changes.

Fiscal Year 2024 10 Budget Summary

**Major Areas of Spending:** This section summarizes the County's major areas of expenditures and revenues by function to provide information for the residents to understand where their money goes in support of the County Government.

**Revenues:** Provided in this section is the summary of the major revenues used by the County to operate the government. This section also includes a detailed discussion of the major revenues, their estimates, uses and historical trends, schedules of Property Tax Rates, Property Tax Dollars, and Taxable Property Values.

**Employment Summary:** This final section of the Summary provides information on the current staffing levels, changes in service, and historical trends of the number of employees to the permanent population of Collier County.

#### **Departmental Budgets**

After the Summary Section, the book is organized according to County functional categories or Departmental budgets. The department budgets represent basic operating units and have been grouped and tabbed by operating division or agency. Department budgets are presented programmatically and by the appropriation unit.

Program budgets provide a brief description of the program, the relative priority of each program in a department, the number of full-time equivalent positions necessary to perform the program, FY 2024 dollars necessary for the program, offsetting revenues generated by each program, and the net cost of each program. The administration/overhead program encompasses the minimum level of service that is mandated by Federal or State law or judicial order and is necessary to protect the health and safety of Collier County residents or to maintain capital asset value for a particular department. Programs above the administration/overhead level approved by the Board of County Commissioners are in priority order and reflect the community's demand for high-quality services.

Performance measures are presented within the Departmental Budgets, linking each functional/programmatic area to the overall County Vision and Strategic Goals. These performance measures include the number of activities (quantitative) and the effectiveness of the actions (qualitative) for FY 2022 actual results, forecasts for FY 2023, and budgets for FY 2024. Performance measures are reevaluated in conjunction with the County's strategic planning process and the desire to measure outcomes based not only on available resources, but the one and five-year strategic planning objectives.

The appropriation unit presentations, i.e., personal services, operating expenses, and capital outlay, break out costs into two categories, current and expanded services. Current services reflect the ongoing cost of existing programs. Expanded services include new programs and enhancements to existing services. Budget highlights are incorporated to identify significant changes from FY 2023. The FY 2024 Adopted Budget is compared in the "Percent Change" column to the budget adopted by the Board of County Commissioners for FY 2023. To illustrate projected activity, a forecast of estimated revenues and expenditures for FY 2023 is presented. The rationale for projecting FY 2023 activity is to improve carryforward (fund balance) estimates and to reflect the policy/program decisions and budget amendments that occurred throughout the year. Also included are FY 2022 actual revenues and expenses that represent one year's history of financial activity.

#### **Debt Service**

This section contains a summary discussion and presentation of the debt for the County followed by the detail and descriptions of the current county-wide General Governmental debt service.

Fiscal Year 2024 11 Budget Summary

#### **Capital Improvement Program**

Provided in this section is a description of the County's Capital Program, current year planned expenditures, five-year projections, and details on each capital project the County has planned and/or is underway.

#### **Summary Budget by Fund**

Each fund utilized by the County is summarized here. Information includes the Fund number, Fund Type, Fund Description, actual amounts for FY 22, Adopted FY 23, Forecast FY 23, and Adopted FY 24.

#### **Appendix**

This section includes a glossary of commonly used terms and acronyms; the current year adopted budget policy as well as Statistical data from the Annual Comprehensive Financial Report (ACFR) for the county.

3299 Tamiami Trail East, Suite 202 • Naples Florida 34112-5746 • (239) 252-8383

January 24, 2024

To the Honorable Board of County Commissioners, Citizens of Collier County and Consumers of the County's Financial information:

As County Manager, I am proud to provide the Collier County, Florida, Adopted Budget for Fiscal Year (FY) 2024.

The budget remains a flexible fiscal expenditure plan consistent with the County's financial and budget philosophy. This flexible plan, along with sound financial and budget philosophy, positions the County to cash flow and expend appropriated dollars to restore the community from any natural disaster and to absorb unexpected economic impacts. County leadership remains committed to a value-added coordinated emergency management approach that coalesces all County Agencies and external District partners as natural disasters threaten Collier County.

This budget reflects the best efforts of all County Agencies and Constitutional Officers to maintain and where appropriate, enhance existing programs and services within funding guidance for the benefit of our residents, visitors, and the general community continuing to fund high-priority public health and safety programs, equipment and systems.

The comprehensive Adopted Budget Book, you are receiving today, contains precise details of the economic drivers, legislative impacts, and other background information that affects and influences the budgetary process. This budget is being made available, today, to County bondholders, other County creditors, contractors, state agencies, federal agencies, interested citizens, and other users of budgetary information.

This budget document has been prepared in accordance with the requirements of the National Governmental Finance Officers Association (GFOA). The GFOA requirements provide assurance that the adopted budget reflects both the guidelines established by the National Advisory Council on State and Local Budgeting and the GFOA's recommended practices on budgeting.

The adopted budget is the most important document that the Board approves each year. It is the County's annual spending plan. It is comprehensive and includes both operational and capital expenditure controls. It is the authorization to commit, spend, and execute Board direction and policies and provides measurement criteria to determine if the Board's Vision, Strategic Goals, Policies, and Directives are being accomplished.

#### Vision and Strategic Goals

The budget serves as a comprehensive road map guiding Collier County's endeavors to fulfill the Board's Vision Statement: "To be the best community in America to live, work, and play" and

its Mission: "To deliver high-quality and best-value public services, programs, and facilities to meet the needs of our residents, visitors, and businesses today and tomorrow". Moreover, the budget integrates with the County's four (4) strategic focus areas and associated strategic objectives providing a tangible link to the overarching agency priorities and goals which were endorsed by the Board of County Commissioners in February 2023.

#### I. Quality of Place (QP)

To preserve and enhance the health, safety, welfare, quality, character, and heritage of our neighborhoods and communities.

#### II. <u>Infrastructure and Asset Management (IAM)</u>

To plan, build, and maintain our critical infrastructure and assets to ensure their sustainability and resiliency for current and future needs.

#### III. Community Development (CD)

To balance the needs of community growth and development with the protection of our natural resources and environment.

#### IV. Responsible Governance (RG)

To maintain and strengthen public trust and confidence through open and transparent operations, ethical leadership, and proactive community engagement.

Collier County is continually striving to achieve its Vision and Mission, emblematic of the county's unwavering dedication to cultivating a top-tier organization that embraces innovation and adeptly navigates the intricacies of public sector management. Our overarching objective is to deliver "best value" amenities and services, while simultaneously enhancing and safeguarding the distinctive qualities that have made our community a world-renowned destination.

Public sector management must continue to be innovative and reinvent itself to be successful in this highly competitive market. Collier County has a tremendous advantage over other destinations due to its climate, location, amenities, and services offered. Our natural environment serves as a strategic resource that must be managed and protected. Our built environment provides both aesthetic attraction and functional infrastructure. For these reasons, we continue to be one of the fastest-growing metropolitan communities in the nation.

#### **Budget Development**

The Board of County Commissioners annually provides guidance in the form of budget policy. This policy is approved in February/March of each year and includes direction covering tax policy, compensation, debt management, agency position limitations, health care, capital funding, reserves, and other economic and financial priorities within the organization. Also, a three-year projection of major ad valorem supported funds (General Fund and the Unincorporated Area General Fund MSTD) is conducted. Information on projected out-year tax rates, expenditure patterns, and programs are presented to the Board.

Currently, the budget policy emphasizes guided growth in General Fund reserves, fully funded and policy-compliant debt management, and a sustained focus on high-priority capital investment. Moving forward, these strategic practices, coupled with the ongoing dedication of Collier County's workforce, will form the bedrock for delivering quality services and programs consistently, especially in an environment where agency competition for limited resources is the prevailing norm.

#### **FY 2024 Budget Objectives and Outcomes**

Staff was able to present a budget that met current program guidance while accomplishing the following noteworthy budget objectives and outcomes:

- Beginning year General Government cash balances protected by strong policy-driven reserve levels, conservative budget development principles, and active budget management.
- Rolled-back General Fund tax rate of \$3.2043 generated \$444 million in property tax with 45% of those dollars directed to fund Constitutional Office operations including the Sheriff.
- Sheriff represents 37% of the General Fund millage rate or \$1.1888 per \$1,000 of taxable value.
- General Fund reserves increased each year since FY 2011.
- Reserves across all funds and categories total \$665 million or 23% of the gross County budget and this reserve number includes \$210 million within the voter-approved local option infrastructure sales tax fund.
- Continue capital "pay-go" programming within the General Fund and Unincorporated Area General Fund supporting general governmental capital and infrastructure initiatives in the areas of transportation, stormwater, parks and recreation, museums, information technology, and the Constitutional Officers including the Sheriff's agency. FY 2024 general governmental capital totals \$90.6 million for; 800MHz equipment repair and replacement; SAP upgrade; Medical Examiner renovation and expansion; campus security equipment replacement; campus transformer replacement; County Manager agency and Constitutional Officer facility renovations, customary capital appropriations in the areas of parks and recreation, transportation and stormwater system improvements, governmental building repair and maintenance, libraries, museums and various administrative back office infrastructure.
- Strategic future capital funding through continued regular appropriations into the capital
  vehicle and equipment recovery fund; annual contributions to a separate reserve which is
  earmarked to replace the County's existing and substantial general governmental capital
  asset investments which totals \$22.5 million in the FY 2024 budget; continued hardening
  of infrastructure to withstand natural disasters.
- Enhanced commitment to fund stormwater maintenance.
- · Funding for compensation administration in alignment with the Board's strategic goal of

enhancing employee recruitment and retention, positioning Collier County as an employer of choice.

- Maintained the County's exemplary investment quality credit rating.
- Allocate water, sewer, solid waste, and other public utility resources in a conservative approach which strikes a balance between maintaining sufficient policy driven operating and capital reserves, constructing new and replacement capital projects, and providing strong operational resources all while upholding strong cash position and debt coverage ratios.
- Growth management building and planning enterprise resources allocated in a customer focused approach and dedicated toward resourceful operation of all development activities in accordance with state and local regulations.
- All county principal debt and annual debt service is fully funded and policy compliant.

#### State of Taxable Property Valuation and Ad Valorem Taxes

Taxable value county-wide has increased for the twelve (12) consecutive years and is expected to increase once again for the 2024 tax year (FY 2025). Major general governmental revenue sources like sales tax, state shared revenues, gas taxes, and the local option infrastructure sales tax all exceeded forecast for FY 2023 and are trending higher over budget in FY 2024. Senior leadership regularly evaluates all economic indicators, and the organization is always positioned to respond, if, necessary, to any softening economic condition.

Overall property valuation trends as depicted by building permit activity, land development applications, site plan applications, and building inspections point to short-term slowing growth. New construction permitting remains strong but slightly lower than seasonal averages over the past two years. Most of the new permits issued are for one-and two-family residential units.

The Board directed a departure from the millage-neural rate in budget policy and reduced the rate to the rolled-back rate for the three county-wide levied millage rates: the General Fund, Water Pollution Control, and Conservation Collier, as well as the Unincorporated Area General Fund. Accordingly, the General Fund property tax rate decreased from \$3.5645 to \$3.2043, the Water Pollution Control tax rate dropped from \$0.0293 to \$0.0263, the Conservation Collier tax rate saw a reduction from \$0.2500 to \$0.2242, and the Unincorporated Area General Fund tax rate decreased from \$0.8069 to \$0.7280. These reductions resulted in a decrease in the ad valorem tax levy of approximately \$61 million.

The adopted General Fund property tax rate of \$3.2043 for FY 2024 is low compared with other Florida Counties, but is possible given the County's strong and stable tax base. The State of Florida Statutory General Fund tax rate ceiling is \$10.0000 per \$1,000 of taxable value. Overall, the County's aggregate adopted millage rate of \$4.0004 is lower than the aggregate rolled back millage rate of \$4.0025. The adopted aggregate millage rate is a product of all property taxes levied under

the County's authority including twenty-three (23) MSTUs and other dependent districts levying taxes and does not include debt service levies.

Property taxes comprise 65% of all General Fund revenue sources and 28% of the County's total net budget. While property taxes are a flexible source of revenue, continued attempts at the state level to curtail local control of these taxes reduce predictability and consequently budget certainty. Going forward, diversification of the County's general revenue mix will continue to be a topic of conversation with policymakers. This discussion must center on unrestricted revenue streams that can be utilized for all general governmental programs or initiatives and not those that are statutorily controlled as to purpose and function.

#### **Capital Investment**

For FY 2024, the County has appropriated \$707 million toward various general governmental, public utility and other capital project initiatives. County leadership is mindful that maintaining current and future capital infrastructure is of critical importance and to that end, a careful balance of resources is annually; devoted to operations necessary to service an expanding customer base; allocated to maintain existing capital infrastructure; and reserved to maintain and replace new infrastructure coming online.

The capital appropriation includes \$30 million in anticipated collections of the local option infrastructure sales tax. Five years after Collier County voters approved the local option infrastructure sales tax, the process and methodology required for budgeting, tracking, managing, and reporting on all facets related to the collection and expenditure of tax proceeds, as outlined in the enabling ordinance, remain in place. These funds are earmarked exclusively for capital projects and cannot be utilized for operational costs of infrastructure. Numerous transportation, general governmental, and community infrastructure projects are actively progressing, including the extension of Vanderbilt Beach Road east of Collier Boulevard, the construction of new and replacement bridges, Emergency Service Center enclosed bay, the main campus chiller plant, new EMS station, a mental health facility, a Sheriff's forensic and evidence facility, a State Veteran Nursing Home, and other community initiatives. Collections to date have surpassed the \$420 million mark and the County is set to sunset the tax on December 31, 2023, two years ahead of schedule.

Continued construction of new plant, equipment and facilities certainly brings into focus ongoing long-term maintenance and replacement of the County's substantial infrastructure investment. Collier County leadership remains committed to protecting its substantial infrastructure investment; targeting new strategic capital investment; and structuring the organization to always maintain customary unique services and programs enjoyed by County residents and visitors. Capturing the ad valorem revenue associated with new construction and potentially with taxable value increases to; fund asset and infrastructure replacement and maintenance; and maintain service levels expected by County residents and visitors continues to represent one of the most important policy decisions faced by the elected leadership, especially knowing the strong reliance upon this source of funding.

#### **Short Term and Long-Term Debt**

Issuing strategic short term and/or long-term debt is an important part of the County's capital improvement program under the basic premise that future residents should pay for improvements that they will enjoy and not just current residents. Further, the historically low cost of capital environment which has existed provided a unique opportunity to lock in very low interest rates and capitalize on the County's exemplary credit rating.

As such the County has issued since April 2018, \$513 million in general governmental and enterprise debt to fund several strategic initiatives including:

- April 2018 commercial paper draw of \$12 million to purchase 60 acres for construction of an amateur sports complex
- Series 2018 Tourist Development Tax bonds totaling \$62.9 million dated October 2018 to finance construction of amateur sports complex facilities
- Collier County Water/Sewer District revenue bonds dated April 2019 in the amount of \$76.2 million to finance the acquisition, construction and equipping of various utility capital improvements servicing the northeast area of Collier County
- Strategic purchase in July 2019 of the Golden Gate Golf Course for \$28 million through a taxable competitive bank loan
- Series 2020 A&B tax exempt and taxable debt in the amount of \$115 million dated October 2020 for strategic eastern lands property acquisition, construction of stormwater facilities and improvements to various park and recreation aquatic facilities
- June 2021 authorization to borrow commercial paper in an amount not to exceed \$10 million for infrastructure and facility improvements within the Pelican Bay MSTU&BU
- Collier County Water/Sewer District revenue bond dated July 2021 in the amount of \$128.9
  million to finance the Golden Gate City potable water transmission mains expansion, the
  utility infrastructure expansion in the northeast service area to serve future residents and
  business and provide funding for Government Operations Park facility for the Districts
  business and field operations
- July 2022 authorization to borrow commercial paper in an amount not to exceed \$30 million for the construction of the extension of Vanderbilt Beach Road
- July 2023 authorization to borrow commercial paper in an amount not to exceed \$50 million for the construction of the North Collier Water Reclamation Facility Pretreatment Facility and Public Utility Renewal Projects

The County is positioned to add new strategic debt to the portfolio after embarking upon an aggressive debt restructuring program in the summer of 2010 and to date over \$531.2 million in general governmental debt has been refinanced. As a result, the cost of borrowing has been reduced by \$3.1 million annually with this recurring savings applied toward high priority "pay as you go" operating and capital programs. Annual principal and interest payments servicing outstanding general governmental and enterprise debt totals \$66.7 million and represent 3.4% of the County's net adopted FY 2024 budget. The County continually looks for strategic and economically feasible debt restructuring opportunities.

#### **General Fund Reserves**

The General Fund's budgeted reserve position (all reserve types) has grown by \$54 million since FY 2012 to \$72.2 million. This reserve position represents 11.7% of General Fund non-reserve expenses which is above the minimum policy threshold of 8.0% and below the 16% ceiling established within the FY 2024 adopted budget policy. Adequate General Fund reserves within policy levels are the cornerstone of general governmental financial flexibility and provide the County with options for responding to unexpected or changing public policy dynamics, natural disasters, and a buffer against other forms of external agency risk.

#### **Compensation Administration**

The strategic goal of Collier County Government is to provide a market-based compensation program that meets the following goals:

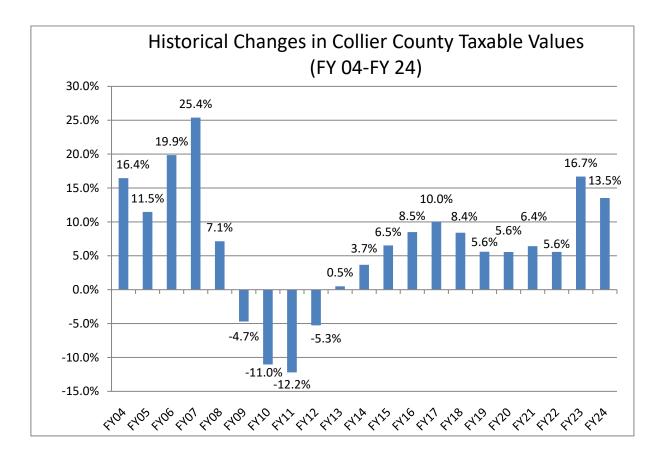

- 1. Facilitates the hiring and retention of the most knowledgeable, skilled and experienced employees available.
- 2. Supports continuous training, professional development and enhanced career mobility.
- 3. Recognizes and rewards individual and career achievements.

The following table provides a look at previous Board approved compensation plan adjustments.

#### **State and Local Economic Conditions/Outlook**

Over the next two (2) years, Collier County's taxable value could slow to an average of roughly three (3) percent annually. Continual monitoring of tax base trends and tracking of leading community development and other economic indicators is important considering the County's heavy reliance upon property tax revenue. The following chart provides a historical account of taxable value changes.

State budget and legislative initiatives must be watched closely each year to gauge the impacts of potential revenue loss and or programmatic/service shifts to local government. Unfunded mandates can pose a serious threat to a local government service delivery and fiscal stability.

The FY 2025 budget (coming fiscal year) will continue to pose extreme challenges, given the need to maintain sufficient budgeted reserves; preserve the agency's superior investment credit rating and related cash positions; fund infrastructure maintenance and replacement; sustain public safety and high value public services; and continue to invest in human capital necessary to advance the organization and serve the citizens of Collier County. County staff will continue to shape the organization to deliver high quality best value services to residents and visitors of this wonderful community we call home.

#### **Budget Priorities**

Multi-year budget priorities will include an emphasis on funding dedicated to the maintenance and replacement of the County's expansive infrastructure investments and operation of programs and facilities, aligning with the evolving service needs of a growing resident and visitor base. The budget framework underscores the significance of flexibility, anticipating adjustments in response to economic fluctuations, ensuring community resilience in the face of natural disasters, and adapting to new policy and operational standards through a priority-based budgeting lens. Moving forward the analysis of business operations and their alignment with the organizational structure utilizing

internal and external resources will be crucial for achieving and maintaining operational efficiency. This evaluation will ensure that the county's activities are in line with its strategic priorities and objectives and allow for timely adjustments to optimize performance.

#### Summary

Collier County Government remains committed to achieving its Vision Statement "To be the best community in America to live, work, and play." Achieving this vision requires the cooperation of all County government agencies. My sincere gratitude is extended to everyone in Collier County Government that participated in the development of the FY 2024 budget.

Respectfully submitted,

Amy Patterson, County Manager

### **Economic Overview**

#### **History**

Collier County Centennial - In 2023, Collier County will be celebrating 100 years.

Florida Governor Carey A. Hardee (seated on left), Barron Collier (third from right) and Governor D.W. Mcleod on far right

Collier County was created on May 8, 1923 when Florida Governor Cary A. Hardee signed Senate Bill 149, Chapter 9362, officially creating Florida State's 62nd county.

Today Collier County encompasses 2,305 square miles of land. It is the second largest county by size in the state of Florida (behind Palm Beach County) as well as bigger than both the states of Rhode Island and Delaware.

Collier County has been a home for southwest Floridians for over 10,000 years. Our earliest residents were the Paleoindians, hunter - gatherers who lived among an abundance of Ice Age megafauna such as Columbian mammoths and saber – toothed cats. These residents enjoyed a dry, temperate grassland and could be considered our area's first snowbirds. Our county was also once part of the Calusa domain, which extended from the Ten Thousand Islands all the to the far reaches of Charlotte Harbor. The Calusa, or "fierce people," defended our coast from any attempts at Spanish colonization until their eventual demise in the 1700s.

Shows two Seminole children in a camp in Big Cypress

The Seminoles of north Florida made their way to what would become Collier County in the early 1800s, hunting in the high prairies of our northern interior and living in the cypress swamps in the south. While a variety of black, white, and Hispanic settlers found their way into the region throughout the 1850s and 1860s, it was not until the 1870s that permanent settlement began in the towns and communities that would become Everglades City, Marco Island, Immokalee, and Naples.

Politically, Collier County has held many names. When the State of Florida was established in 1845, we were part of Monroe County, with our county seat residing in Key West. In 1887 we were part of the newly formed Lee County, and while a trip to the county seat in Fort Myers was certainly less burdensome than Key West, it still made getting business done difficult for the residents of the southern portion of the county. This relative isolation of these southern communities also slowed their growth considerably, even as the rest of Florida was blossoming by the early 20th century. Naples, Marco, Caxambas, and Everglade could only be accessed easily by boat. A road connecting Immokalee to Fort Myers had only finally opened in 1917. Railroads only went as far as Fort Myers until the mid – 1920s. Despite the isolation, there were many people with money, affluence, and influence who saw the potential of this region and who were ready to make investments in its future.

In 1911, an advertising magnate from Tennessee by way of New York named Barron Gift Collier visited Florida for the first time. He stayed at his friend John Roach's island in the Pine Island Sound off the coast of Lee County, Useppa. Collier quickly became enamored by the beauty and resources — the tourism potential — that the region offered and bought Useppa Island from his friend. Roach also introduced Collier to his property in south Lee County at Deep Lake, a citrus grove with a narrow gauge railroad track that was a little over 10 miles from the town of Everglade. Collier bought that from Roach as well, in 1916. Collier's investment in the region continued, and between 1921 and 1923 alone he accumulated over one million acres of land in south Lee County.

Knowing that his business ventures would be more successful with better transportation options, he had a keen interest in the Tamiami Trail project, which had been initiated by the State Road Department in 1914 to connect the west and east coasts of south Florida. The project was to be financed by the counties that

this road would go through. Unfortunately for Lee County, a large portion of their project required its investment in pricey engineering and construction, and with a relatively small tax base compared to other counties the project quickly ran out of money and steam. Barron Collier, seeing an opportunity to leave a legacy in an area he loved, offered to fund the construction of the Tamiami Trail through the swamps of the Everglades in exchange for a new county to be formed and named in his honor. On May 8th, 1923 Collier County was officially partitioned from Lee County by the Florida State Legislature. The Town of Everglades (now Everglades City) was the original county seat.

Construction site at the Tamiami Trail. Temporary railroad with Ford motor-car

#### **Collier County Historical Events**

- April 26<sup>th</sup>, 1928- The Tamiami Trail was officially opened to traffic in Everglades, completing the first paved highway between Tampa and Miami.
- <u>December 23, 1943</u> The U.S. Army activated a military base at Naples Army Air Field to train pilots for aerial combat during World War II.
- March 20<sup>th</sup>, 1944 A 5,600-acre tract of land was deeded to the state for preservation as Collier-Seminole State Park.
- <u>December 6<sup>th</sup>, 1947</u>- President Harry S. Truman dedicated Everglades National Park in Everglades City.

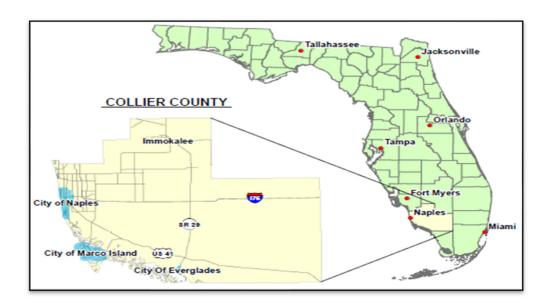

#### **Collier County Historical Events - Continued**

- March 20, 1954 Following extensive logging of the region in the 1940s and 50s, the Corkscrew
  Cypress Rookery Association was established to acquire and protect the last remaining stand of
  mature bald cypress in South Florida. This 45-acre tract became the Corkscrew Swamp
  Sanctuary maintained today under the stewardship of the National Audubon Society.
- <u>June 9, 1959</u>- Collier County residents voted to move the County seat from Everglades City to East Naples by a margin of 641 votes.
- October 13, 1961- State Representative James Lorenzo Walker and Collier County Commission Chairman Henry B. Watkins, Jr broke ground for the new \$1.6 million County Government Center in East Naples.
- <u>February 11, 1968</u>- Everglades Parkway, better known as Alligator Alley, was officially opened to traffic in Collier County.
- October 11, 1974

   The 93<sup>rd</sup> U.S Congress approved the establishment of the Big Cypress National Preserve.
- October 10, 2000- The Collier County Administration Building at the government center was named in honor of W. Harmon Turner. Turner served as the County's first engineer, public works director and County manager.
- <u>June 16, 2022</u>- Collier County's Board of Commissioners names Amy Patterson as the County's first female County Manager.

#### **Map of Collier County**

Below is a map of Collier County and its location in relation to the state of Florida.

- 5/25/49 The Florida State Legislature approved a new charter for Naples, changing it from a town to a city.
- 6/30/53 By act of the Florida Legislature, the Town of Everglades officially became the City of Everglades.
- 8/29/97 After five failed attempts at incorporation, Marco Island became Florida's 398th city.

#### **Demographics**

Collier County is a non-chartered county established under the constitution and the laws of the State of Florida. Collier County continues to experience population growth, as it has over the past several decades. The permanent population has increased from approximately 38,000 residents in 1970, to the April 1, 2023, countywide population projection of 399,480 (extrapolated from 2023 Florida Population Studies estimates and projections prepared by the University of Florida's Bureau of Economic and Business Research (BEBR)). Data from the Collier County Comprehensive Planning Section and BEBR indicates that the County's population will grow by 37,420 by 2030 – an average of 1.8% annually.

Collier County continues to be a favorite tourist destination during the winter months between November and April when the population swells to approximately 479,000, around twenty percent (20%) higher than the permanent population adjusted to fiscal year. The seasonal population is projected to be approximately 520,000 by the year 2030.

Current U.S. Census data shows Collier County's median age to be 53.2 years compared to the Florida median of 42.7 years and the U.S. median of 39.0 years. The latest available figure from the U.S. Census Bureau for Collier County median household income is \$80,815, which is \$11,512 above the State figure. According to the Florida Department of Economic Opportunity, Collier County's unemployment rate for October 2023 was 3.1%. This rate is lower than the October 2023 national unemployment rate of 3.9% and is slightly higher than the statewide unemployment rate of 2.8%. The national, state, and Collier County unemployment rates have increased slightly in the last year.

#### **Economic Conditions**

In FY 2013, the Office of Business & Economic Development (OBED) was created to work with state and local economic development organizations, assisting in the retention, relocation and/or expansion of

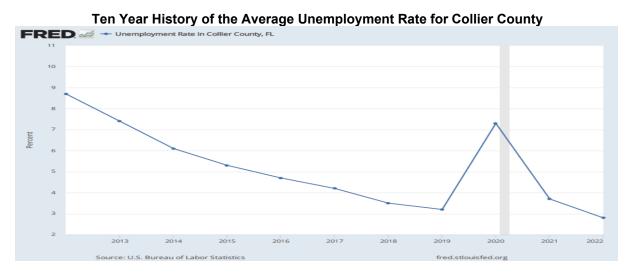

existing businesses, in addition to the attraction of new business opportunities. A partnership between the County Office of Business & Economic Development and the chamber's Partnership for Collier's Economic Future, known as **Collier EDO**, has as its mission to be an effective force in improving the quality of life for all County residents and visitors. The partnership promotes economic development initiatives that will diversify the economy, create high value-added jobs, increase average wages, improve

productivity and growth rate, facilitate capital formation, preserve and enhance the natural environment, and enable all County residents to have a meaningful opportunity for upward mobility.

In FY 2021, a \$15 million incentive was approved for the construction of Great Wolf Lodge, set to open in 2026. The first milestone was achieved on time, as well as the second milestone of 50% completion in May 2023. In addition, Collier EDO manages the Immokalee Culinary Accelerator, a state-of-the-art facility that offers budding culinary businesses over 5,000 square feet to plan, prepare, cook, and package their culinary creations for distribution. The Immokalee Culinary Accelerator is currently serving 11 members and 3 in certification. In certification support, the Accelerator assists the member in completing the Department of Business and Professional Regulations (DPBR) and other state regulation standards and inspections to operate food businesses in the County.

The recent economic landscape for the January to September 2023 period continued to range from a stable growth economy to an economy that suffered from a lack of affordable housing, product shortages, supply line disruptions, worker shortages, and increased inflation. In addition to the inflation and supply chain issues, in September 2022, Collier County was hit with a late season hurricane, lan. lan devastated the local beaches and caused close to \$1 billion in damages. While the County is continuing to recover from the impacts of Hurricane Ian and high inflation, the County's economy continues to exhibit growth. The County is seeing improved unemployment with a rate lower than state and national averages, bellwether industries performing well; median household income remaining one of the highest in the State; strong real estate market with median home values on the rise; robust new construction permitting and increasing taxable values for the twelfth consecutive year.

A strong resurgence of tourism within the County, increasing 46.7% year over year, has invigorated the local hospitality and restaurant sectors that were devastated by the 2020 economic shutdown. Similar impacts to local government revenues can be seen with increasing sales tax revenues, state shared revenues, gas tax revenues and tourism-development tax revenues. As we usher in 2024, all County economic, demographic, housing, and permitting indicators point to stable growth, even in the wake of continued hurricane recovery/mitigation efforts and economic factors. Senior leadership regularly evaluates all economic indicators, and the organization is always positioned to respond, if necessary, to any softening of economic conditions.

Vacancies in industrial space remains at 1.2% through 2023. In addition, 100% of under construction properties are already preleased. The County's Manufacturing Gross regional Product (the sum of all the value added produced within the County in a year), grew from under \$400 million in 2008 to over \$1 billion in 2022. These establishments generated 5088 jobs with average earnings of \$80,239 in 2022. Naples also is well-positioned to service both the outer Tampa and Miami metros and has started to develop a logistics and warehousing cluster. Collier County has easy access to I-75, which provides routes to Port Everglades and Southwest Florida International Airport. This is further evidenced by the Uline Corporations moved into a newly constructed 1 million square foot distribution center in the City Gate Commerce Park, in the Third Quarter of 2023, generating approximately 275 jobs. Amazon has also invested in a last mile distribution center in the area, expected to generate over 100 jobs.

The following table provides a history employment by major industries in Collier County:

| Employment by Industry  Collier County        |         |         |         |         |         |         |         |         |
|---|---------|---------|---------|---------|---------|---------|---------|---------|

Source: 2023 Employment and Economic Indicators - Southwest Florida Economic Almanac Series

To further promote economic growth, diversify the economy and encourage high-wage job creation, the Board of County Commissioners has placed increased focus on expanding and creating new Economic Innovation Zones. These zones encompass a specific geographic area and derive dedicated economic development funding through tax-increment revenues. The Ave Maria Innovation Zone was authorized in June 2015, the Interchange Activity Center No. 9 (IAC9) Innovation Zone was authorized in June 2018, and the Golden Gate City Economic Development Zone was authorized in November 2018. The County's Innovation Zone program has facilitated projects in all three Zones. On April 25, 2023, the County supported advanced manufacturer Azimuth Technology to open a new operation in the IAC9 Zone. On May 9, 2023, the County approved up to \$788,879 for Project CENTRO, the First Class-A commercial facility in the Golden Gate City Economic Development Zone. On August 22, 2023, Dialum Glass was approved for \$1.5 million for an advanced manufacturing facility in the Ave Maria Innovation Zone.

Further boosting economic incentives, in June 2018, five U.S. Census tracts in Collier County were among 427 areas statewide that were named federal low-tax Qualified Opportunity Zones— three areas in and around Immokalee, one in Naples Manor and one in Golden Gate City. Opportunity Zones are an economic and community development tax incentive program that provide a new impetus for private investors to support distressed communities through private equity investments in businesses and real estate ventures. The incentive is deferral, reduction, and potential elimination of certain federal capital gains taxes.

Sports tourism also is a burgeoning segment of the County's economy. The East Naples Welcome Center within the East Naples Community Park was completed in early 2022. The park continues to host the Minto U.S. Open Pickleball Championship.

Phase one of the new \$100 million Paradise Coast Sports Complex opened in October of 2020 and completion of four additional fields was done in October 2023. Additional phases will add more fields. Once complete, the facility which will contain 21 multipurpose fields, a world class outdoor fitness center, food truck and food pavilion and championship stadium. The complex will not only attract national tournaments, but also fulfill a need for local field play for popular sports such as soccer and baseball.

#### **In Summary**

Collier County, Florida continues to maintain a stable superior investment quality credit rating from all three major rating agencies. In April 2023, Fitch affirmed Collier County's Florida Issuer Default Rating (IDR) as AAA. The IDR of 'AAA' reflects Fitch's expectations for the continuation of strong tax base, population and economic activity growth in the county, reflected in robust revenue, labor force and income gains. The IDR also reflects the county's historically solid operating performance characterized by high independent revenue raising ability, solid expenditure flexibility, and maintenance of sound reserve levels. Fitch Ratings affirmed the County's issuer credit rating (ICR) of AAA in April 2023. Likewise, Moody's Investor Services and Standard and Poor's have assigned issuer credit ratings of Aaa and AAA, respectively, to Collier County. Aaa/AAA are the highest ratings assigned by the major credit agencies and these ratings indicate that the obligor's capacity to meet its financial commitments is extremely strong. The County is one of only a handful of local governments in the State of Florida with the highest credit rating from Fitch, Standard and Poor's and Moody's Investor Services.

Collier County boasts attractions and amenities which foster community and economic development. The Minto US Open Pickleball Championship continues to grow in both size and popularity, a documented sports tourism driver to the area. The amateur sports complex will only enhance the image of Collier County as a sports tourism destination. There are also numerous other recreation and educational opportunities which can be enjoyed by visitors due to our proximity to the Everglades and Ten Thousand Islands. Enjoy pristine natural wilderness perfect for bird watching or outdoor adventures within close proximity of

white sand beaches, exceptional accommodations, family attractions, upscale shopping, arts, culture, and world-class dining throughout the County.

The citizens of Collier County are not the only ones who rank the area highly:

- Naples ranked 6th Best Place to Live in U.S. News & World Report (Source)
- Naples ranked 3rd best city in Florida to start a Business in 2023 (Source)
- Naples ranked 6<sup>th</sup> Best Place to Retire by U.S. News & World Report and the #1 Safest City (Source)
- Collier county ranked as 5th in Florida for well-being (Source)
- Great golfing location for business executives: with 85 golf courses, Collier County ranks 1st in Florida for golf courses per capita (Source)
- Naples named best beach town to live in. (Source)
- You can breathe safely as Collier county received an A-grade for air quality by the American Lung Association for 2023 (Source)
- Scholaroo ranked Naples as the best place to live based on factors including crime and safety, economy, quality of life, healthcare, and infrastructure. (Source)

Collier County is positioned to capture residential, commercial, and high technology opportunities through its strong infrastructure base, quality of life, natural amenities, transportation network and commitment to an organized public-private strategic economic development program. Collier County's blend of cultural and recreational amenities and unique quality of life are enjoyed by both those who visit this destination or call this extraordinary community home. The County, through its elected and appointed leadership, strives to be the best community in America to live, work, and play.

## Aligning Tactical Budgets with the Strategic Policy Model

The annual budget document serves as a tactical financial plan, allocating resources for one-year initiatives, activities, and projects to advance long-term policy objectives. While primarily a tactical tool, it also incorporates strategic elements. The budgetary plan commences with a detailed overview of annual budget policies, outlining the tactical issues slated for funding. In addition to addressing short-term goals, the budget strategically programs funds for reserves. These reserves are for future asset maintenance, replacement, and contingencies such as vehicle and equipment replacement, natural disasters, and unforeseen risks. The County's reserves support vital strategic positions, underscoring the importance of judicious resource allocation amid competing short-term and long-term funding priorities. As the County's general governmental and enterprise capital assets expand, consistent funding for long-term asset maintenance and replacement gains heightened significance. Notably, for FY 2024, capital projects and reserves account for \$740 million, representing 26.4% of the County's \$2.8 billion budget.

# Impact of County-Wide Planning Processes on the Budget Development

Throughout the year, several interconnected planning processes significantly shape the development of the annual budget document. Long-range planning initiatives play a pivotal role in the budget development including the Long-Range Transportation Plan, the Master Mobility Plan, the Water and Wastewater Master Plans, the Capital Improvement Element (CIE), the Annual Update and Inventory Report (AUIR), and concurrency planning. (These plans are explained with more detail further down.) These plans are formally submitted to the Board of County Commissioners (Board) for their review, consideration, and final approval, at the same time gathering valuable stakeholder input. These planning processes are fundamentally geared towards capital programs, budgets, and desired outcomes, establishing the bedrock for strategically planning budgeted capital expenditures.

Furthermore, the Agency's strategic planning process wields substantial influence over the development of both operational and capital budgets. The County's Strategic Plan, initially adopted by the Board for Fiscal Year 2007, was significantly revised for Fiscal Year 2012, and the strategic direction was reaffirmed during the Board's Strategic Planning Workshop in February 2014. A recent milestone in this ongoing process occurred on February 21, 2023, when the Collier County Board of Commissioners convened a workshop to discuss the results of the County's Strategic Plan Review Process. Spearheaded by the County Manager, county staff actively engaged in an extensive review of the existing Strategic Plan framework, conducting multiple strategic planning workshops and meetings. Core Values and Strategic Focus Areas were refined while preserving the existing Mission and Vision Statements. With valuable direction from the Board, staff developed a list of Board and County Manager priorities. This updated framework, along with Board and County Manager priorities, establishes a clear roadmap for resource allocation, ensuring cohesive alignment between strategic goals and budget decisions throughout the year maintaining focus on fulfilling the County's overarching vision and the fiscal priorities.

## Strategic Planning and Budget Integration

#### Strategic Plan Framework

The application of the Strategic Planning Pyramid (Exhibit A) as the foundational framework for strategic planning serves as a crucial mechanism to align the Board's values and overall vision for the County with identifiable, measurable priorities. This strategic alignment isn't confined to a theoretical construct; it permeates throughout the organizational structure. In the day-to-day operations, individual departments and divisions integrate this strategic framework as a guiding force when developing their annual operational

plans. This ensures that the objectives and actions undertaken by each business unit resonate with the vision set by the Board.

#### Exhibit A

To support this integration, the Budget Office assumes a pivotal role. It acts as the linchpin, ensuring a seamless connection between County priorities and the intricate budget development process. By diligently overseeing this alignment, the Budget Office plays a critical role in converting strategic aspirations into tangible fiscal plans. This comprehensive approach facilitates a unified trajectory where strategic goals are not just lofty ideals but are pragmatically embedded in the fabric of the County's day-to-day operations and fiscal decision-making.

The budget serves as a comprehensive road map guiding Collier County's endeavors to fulfill the Board's Vision Statement: "To be the best community in America to live, work, and play." and its Mission: "To deliver high-quality and best-value public services, programs, and facilities to meet the needs of our residents, visitors, and businesses today and tomorrow." Moreover, the budget integrates with the County's strategic focus areas and associated strategic objectives providing a tangible link to the overarching agency goals.

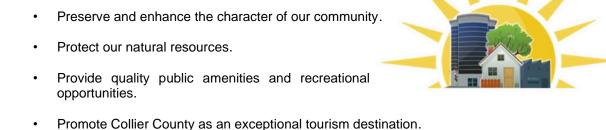

#### **Strategic Focus Areas:**

#### I. Quality of Place (QP)

To preserve and enhance the health, safety, welfare, quality, character, and heritage of our neighborhoods and communities.

#### **Strategic Objectives:**

- Support and enhance our commitment to robust public safety services.
- Support access to health, wellness, and human services.

#### II. <u>Infrastructure and Asset Management</u> (IAM)

To plan, build, and maintain our critical infrastructure and assets to ensure their sustainability and resiliency for current and future needs.

#### **Strategic Objectives:**

- Plan and build public infrastructure and facilities to effectively, efficiently, and sustainably meet the needs of our community.
- Optimize the useful life of all public infrastructure and resources through proper planning and preventative maintenance.
- Prepare for the impacts of natural disasters on our critical infrastructure and natural resources.
- Use the Annual Update and Inventory Report (AUIR) and other planning tools to establish and implement plans that concurrently provide public infrastructure.

- Develop and utilize partnerships to ensure that government facilities meet public expectations.
- Provide services and programs that sustainably manage the County's waste.

#### III. Community Development (CD)

To balance the needs of community growth and development with the protection of our natural resources and environment.

#### **Strategic Objectives:**

- Implement prudent and inclusive policy development through effective planning for transportation, land use, and growth management.
- Design and maintain an effective transportation system to reduce traffic congestion and improve the mobility of our residents and visitors.
- Encourage diverse economic opportunities by fostering a business-friendly environment.
- Support comprehensive affordable housing opportunities.
- Operate an efficient and customer-focused permitting process.
- Develop integrated and sustainable plans to protect and manage water resources.

#### IV. Responsible Governance (RG)

To maintain and strengthen public trust and confidence through open and transparent operations, ethical leadership, and proactive community engagement.

#### **Strategic Objectives:**

- Implement prudent and inclusive policy development through effective planning for transportation, land use, and growth management.
- Design and maintain an effective transportation system to reduce traffic congestion and improve the mobility of our residents and visitors.
- Encourage diverse economic opportunities by fostering a business-friendly environment.
- Support comprehensive affordable housing opportunities.
- Operate an efficient and customer-focused permitting process.
- Develop integrated and sustainable plans to protect and manage water resources.

The interconnectivity between budget programs and the Strategic Plan along with specific program outcomes are identified throughout the budget book utilizing the acronyms (QP, IAM, CD, RG) associated with the four Strategic Focus Areas and specific Program Performance Measures as highlighted in the budget page example below.

# Coastal Zone Management TDC Category A Beach Renourish/Pass Maint Admin-Fund (185/1102)

#### Mission Statement

To provide TDC beach renourishment and pass/inlet program management, project administration, engineering, monitoring, and project management.

| Program Summary  | FY 2024<br>Total FTE | FY 2024<br>Budget | FY 2024<br>Revenues | FY 2024<br>Net Cost |
|--|----------------------|-------------------|---------------------|---------------------|
| TDC Beach Engineering - QP, CD, IAM  | 4.00                 | 856,300           | 856,300             | -                   |
| Project engineering and management of beach renourishment and maintenance projects as well as beach and pass monitoring. |                      |                   |                     |                     |
| Beach Maintenance - QP, IAM  | 2.00                 | 157,700           | 157,700             | -                   |
| Staffing for County and Marco Island beach maintenance.  |                      |                   |                     |                     |
| Reserves, Transfers, Interest - RG   | -                    | 93,600            | 93,600              |                     |
| Current Level of Service Budget  | 6.00                 | 1,107,600         | 1,107,600           |                     |
| Program Performance Measures   | 2022<br>Actual       | FY 2023<br>Budget | FY 2023<br>Forecast | FY 2024<br>Budget   |
| Beach Project Management Costs less than or equal to 15% of TDC Category A Revenue                                       | 6.09                 | 9.65              | 7.08                | 8.44                |

#### **Strategic Plan Annual Process**

The following is the high-level view of the strategic plan annual approach, from a process perspective:

Utilizing this approach, the strategic planning cycle begins with ongoing feedback from senior staff and citizens. The proposed plan resulting from the stakeholder input is presented to the Board for their input and approval and the outcome forms the basis for budget and operational planning for the following fiscal year. Performance measures supporting the strategic and operational levels are reviewed, updated, and acted upon as necessary.

Copies of the current and prior Fiscal Year Strategic Plans can be found on the County's website by following the link <a href="https://www.colliercountyfl.gov/government/county-manager-operations/strategic-plan.">www.colliercountyfl.gov/government/county-manager-operations/strategic-plan.</a>

#### VALUES

- Leadership
- Ethics
- Accountability
- Dedication
- Service

#### VISION

To be the best community in America to live, work, and play

#### MISSION

To deliver high-quality and best-value public services, programs, and facilities to meet the needs of our residents, visitors, and businesses today and tomorrow

#### **BOARD PRIORITIES 2023**

- Strategic Plan Budget Integration
- · Sheriff's Office Evidence/Forensics Building (GOBP)
- Affordable Housing
  - Golf Course Project (Housing, Golf
     Stormwater/Utility Partnership Projects Course, Nursing Home)
  - Strategic Real Estate acquisition and management
- Health & Safety
- Mental Health Receiving Facility
- AUIR (Annual Update & Inventory Report)
- Parks. Marinas & Beaches
- Beach Berm Replacement
- Beach Renourishment Program
- Beach Parking and Boat Ramp Additions
- · Human Resources Recruitment and Retention to position Collier County as an employer of Choice

- · Hurricane Preparedness and Hardening
- 800 MHz Radio System and System Hardening & Upgrade
- Transportation
  - Vanderbilt Beach Road Extension
  - Pine Ridge Road Improvements
  - Immokalee Complete Streets Tiger Grant Project (Transit, Stormwater, Transportation)
  - Roadway resurfacing program
- Water resources
  - · Golden Gate City Infrastructure & Economic Development Masterplan
  - Northeast Regional Utility Program
  - North Collier Water Reclamation Facility Headworks Project
  - · Septic to Sewer Conversion
- Well to Potable Water Conversion

#### **COUNTY MANAGER PRIORITIES**

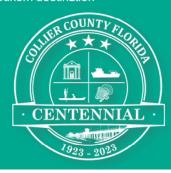

- Asset Management
  - · Cyber Security Initiatives
- Asset Management and Preventative Maintenance
- Capital Improvement Masterplans (5 10 20 years)
- Communication
  - · CMA review & updates
  - Public Outreach and Communication outreach
  - · Public Portals to interact with County Government
- User fee & Rate Studies
- DAS Facility and Service Expansion-Northeast
- IT Masterplan
- · Master Space planning and utilization for County Facilities
- Utility Masterplan & Solid Waste Strategy
- Stormwater and Natural Resources
- · Stormwater Telemetry & SCADA (supervisory control and data acquisition)
- Estates Swale Maintenance/ Restoration

# **COLLIER COUNTY STRATEGIC PLAN 2023**

## **QUALITY OF** PLACE.

#### **OBJECTIVES**

- Support and enhance our commitment to robust public safety services
- Support access to health, wellness, and human services
- Preserve and enhance the character of our community
- · Protect our natural resources
- · Provide quality public amenities and recreational opportunities
- · Promote Collier County as an exceptional tourism destination

## INFRASTRUCTURE AND ASSET MANAGEMENT

#### **OBJECTIVES**

- Plan and build public infrastructure and facilities to effectively, efficiently, and sustainably meet the needs of our community
- Optimize the useful life of all public infrastructure and resources through proper planning and preventative maintenance
- Prepare for the impacts of natural disasters on our critical infrastructure and natural resources
- Use the Annual Update and Inventory Report (AUIR) and other planning tools to establish and implement plans that concurrently provide public infrastructure
- Develop and utilize partnerships to ensure that government facilities meet public expectations
- Provide services and programs that sustainably manage the County's waste

## COMMUNITY DEVELOPMENT

#### **OBJECTIVES**

- Implement prudent and inclusive policy development through effective planning for transportation, land use, and growth management
- · Design and maintain an effective transportation system to reduce traffic congestion and improve the mobility of our residents and visitors
- Encourage diverse economic opportunities by fostering a business-friendly environment
- Support comprehensive affordable housing opportunities
- Operate an efficient and customer-focused permitting process
- · Develop integrated and sustainable plans to protect and manage water resources

# RESPONSIBLE **GOVERNANCE**

#### **OBJECTIVES**

- · Lead by example with positive and purpose-driven actions
- Promote data-driven decision-making through performance management, continuous improvement, and measurable results
- Safeguard taxpayer money by promoting fiscal stewardship and sound budget oversight
- Encourage active community engagement and participation
- Foster a high-performing work culture with transparency and accountability
- Maintain a fully responsive, best-in-class emergency management capability
- · Recruit, develop, assess, and retain a high-quality workforce
- Support the Collier County Constitutional Officers in the execution of their responsibilities

## Long Range Planning

In addition to focusing on the upcoming one-year term for budgeting purposes, an important component of performance management reporting is prospective in nature, spanning a 5-10 year horizon. Performance measurement reporting directly indicates whether programs are on track for attaining the current year's goals given the year's budget, but also provides an indicator of whether the current year's activities are likely to lead to achievement of the 5-10 year objectives and requirements.

#### **Master Mobility Plan (MMP)**

In the past several years, Collier County has seen dramatic fluctuations in development trends. These fluctuations make it challenging to adequately plan for the timing of future transportation improvements. To address this demand, Transportation Planning and Comprehensive Planning developed the concept of a Master Mobility Plan (MMP) to address the transportation mobility needs of Collier County. The MMP is focused on demand management and coordination to reduce the need for transportation infrastructure. Staff is continuing to vet and explore the ideas approved within the MMP.

#### Three Year Budget Projection for Principal Ad Valorem Tax Supported Funds

On an annual basis, the Office of Management and Budget (OMB) prepares a three (3) year projection of revenues and expenses within the primary ad valorem funds – the General Fund and Unincorporated Area General Fund. This analysis provides the Board of County Commissioners with important data covering millage rate assumptions, general corporate revenue trends, and the impact of these revenue assumptions and trends on expense patterns over the projection period. This section of the Budget Policy is important and provides the staff and elected leadership with an opportunity to discuss the practical aspects of policy and level of service demands in conjunction with existing and projected revenue streams.

#### Annual Update and Inventory Report (AUIR) and Capital Improvement Element (CIE)

Chapter 163, Part II, Florida Statutes required the County to adopt certain Land Development Regulations (LDR's) to implement its Growth Management Plan adopted on January 10, 1989. One of the LDR's requires the County to, "Provide that public facilities and services meet or exceed the standards established in the CIE required by Section 163.3177 and are available when needed for the development..." This Section of Chapter 163, Part II, Florida Statutes is commonly known as the concurrency requirement. Accordingly, on March 21, 1990, the Board adopted the Collier County Adequate Public Facilities Ordinance No. 90.24, which was subsequently repealed and superseded by Ordinance No. 93-82, as amended by Ordinance No. 96-53. The Adequate Public Facilities Ordinance was subsequently codified in Division 3.15 of the prior Land Development Code (LDC). Ordinance No. 04-41, adopted the current LDC, and provides for the requirements of Adequate Public Facilities within Section 6.02.00.

Section 6.02.02 of the Land Development Code establishes a management and monitoring program for public facilities, which provides for an annual determination of concurrency for Category "A" facilities and identification of additional facilities needs. Category "A" facilities are roads, solid waste, drainage, parks, potable water, and sewer. Section 6.02.02 of the Land Development Code also requires the preparation of an AUIR on Public Facilities for presentation to the Board of County Commissioners (BCC). The findings of the AUIR form the basis for the preparation of the Annual Update and Amendment to the Capital Improvement Element and Schedule of Capital Improvements, proposed projects to be included in the next annual budget, the determination of any Area of Significant Influence (ASI) and the review of the issuance of development orders (excluding roads) during the next year. The AUIR provides an update to the ledger baseline for the real-time Transportation Concurrency Management System database. The preparation and presentation of the AUIR to the BCC meets the requirements of Section 6.02.02 of the Land Development Code for an annual determination of the status of public facilities.

The Capital Improvement Element (CIE) and the Annual Update and Inventory report (AUIR) are required County processes that concentrate upon the same subject matter, the schedule of capital improvements for the County, but prior to FY 2011, each were separate processes. There were a few negative ramifications associated with the separate timing of these two capital improvement processes:

- Section 163.3177 Florida Statutes requires that the County adopt the annual CIE amendment by December 1<sup>st</sup> and the bifurcated process did not allow the County to achieve the statutory requirement.
- 2. Inconsistency between the financial basis of the two processes and the corresponding inconsistency between the projects contained within each due to timing discrepancies.
- 3. The CIE was adopted with 10-month old population projections and 10-month old seasonally adjusted transportation factors.
- 4. Redundancy in staff work effort for capital improvement projects.

The combination of the two processes, with completion in December has allowed for:

- 1. CIE amendment in compliance with the Florida Statutes December 1st adoption requirement.
- 2. A decision-making process for capital improvements based upon the same financial basis.
- 3. One document to the Collier County Planning Commission (CCPC) and the BCC.
- 4. Elimination of data changes and revenue projections inconsistencies between the AUIR and the CIE processes.
- 5. Fewer CCPC and BCC meetings related to capital improvement programming.
- 6. An eight month, rather than a continuous 12-month capital improvement cycle.
- 7. Eliminates redundant preparation process across the County organization.

The combination of the two processes continues to provide a positive fiscal impact with the elimination of redundant meetings and staff duplicative efforts.

### **Budget Policies and Procedures**

The annual budget document is considered a single-use tactical financial plan that appropriates dollars toward one-year initiatives, activities, and projects in furtherance of longer-term policy strategic objectives embodied in the 2023 Strategic Plan. This tactical budgetary plan begins with an examination of annual budget policies which describe in detail the tactical issues to be funded.

While the budget is a tactical tool, components of the budget also program dollars strategically. Multiyear capital project funding for key infrastructure often involves a phased approach and can span three to seven years to achieve project completion. Reserves designated for future asset maintenance and replacement, vehicle and equipment replacement, natural disasters, and unforeseen risks are considered critical strategic requirements that emphasize the need for careful resource allocation among competing short and long-term funding priorities.

As the County's general governmental and enterprise capital assets grow, repeatedly resourcing long-term asset maintenance and replacement becomes increasingly important.

An additional key factor guiding budget development is Florida Statutes require the adoption of a balanced budget (total budgeted revenues = total budgeted expenses). This definition applies to the overall budget and individual county funds. Florida Statutes further require that all funds, including estimated fund balance, be appropriated.

For FY 2023, \$717.9 million or 36.6% of the County's \$1.96 billion net budget is for county-wide enterprise and general governmental capital projects and capital reserves. Planning numbers for FY 2024 within the General Fund allocate \$60.6 million or 9.4% of the recommended \$643.8 million spending plan toward capital initiatives including projects, debt repayment, and capital reserves.

### **Annual Budget Development**

Collier County staff initiates the budget process by developing a recommended budget policy that includes a multi-year analysis of the General Fund and the Unincorporated Area General Fund, as these funds are the principal County tax-supported operating funds. The analysis reflects the estimated impact of the proposed budget policies on the respective budgets and associated millage (tax) rates.

The recommended budget policy is then presented to the Board of County Commissioners in late February or early March. The Board approves the broad policy guidelines (millage rate recommendations, capital funding allocations, level of service standards, salary adjustments, limitations on operating budgets, and position guidance) that govern the development of the budget, which are then incorporated into a budget instruction manual for staff.

Year to date financial information through February (five months of the County fiscal year) is then uploaded into the budget module to assist with revenue and expense year-end forecasting. County staff members develop their respective budget requests for the upcoming fiscal year. Requests are broken down into two categories: Current Service and Expanded Service. Current Service is defined as the inflationary cost of providing existing services. Expanded Service requests include enhancements to existing programs and new programs and/or position requests. The Expanded Service column focuses attention on any service requirements that may be necessitated by a growing population or level of service increases. OMB staff then reviews and makes recommended changes to the proposed budget requests in conjunction with the operating departments. The Constitutional Officers: Supervisor of Elections, Clerk to the Board, and Sheriff submit their respective budget requests by May 1; the Property Appraiser submits their budget by June 1; and the Tax Collector's budget submittal is due on August 1. All dates are in accordance with Florida Statutes.

Internal budget reviews are conducted with the County Manager in May. At this time the County Manager's recommended budget for the upcoming fiscal year is finalized. On June 1, the Property Appraiser provides a preliminary estimate of taxable value for the upcoming fiscal year. This provides taxing authorities with

Fiscal Year 2024 38 Budget Summary

important information for budget planning purposes. Tax supported budgets are re-balanced to reflect this information. In June the Board conducts workshops to review the tentative budget. The Board makes preliminary policy decisions regarding the proposed budget at this time. On July 1 the Property Appraiser certifies a tax roll for the upcoming fiscal year. The budget is changed based on the updated property valuations. A tentative budget summary is provided to the Board of County Commissioners in accordance with State Truth in Millage (TRIM) requirements.

In late July all taxing authorities adopt proposed tax rates. These tax rates represent the maximum rates for state statutory Truth in Millage (TRIM) purposes and may be maintained or reduced during public hearings in September. (Note: There are emergency provisions by which the proposed tax rates may be increased, subject to very onerous public notice requirements). The Property Appraiser then assimilates all of the proposed tax rates and generates the Notice of Proposed Taxes. This notice provides the taxpayer with the maximum tax impact of the proposed millage rates to be levied by the various governmental units (County, City, School District, etc.) and the updated valuation of each property as established by the Property Appraiser.

Florida Statutes require two advertised public hearings on the budget. The Notice of Proposed Taxes serves as the public notice for the first public hearing held in September. Thereafter, the final hearing is noticed and conducted in accordance with State TRIM provisions. The public is allowed to speak on any topic prior to the final adoption of tax rates and the budget. Upon adoption of the budget by the Board of County Commissioners, appropriations are uploaded into the County financial system. The ensuing fiscal year begins on October 1. The annual budget development cycle is depicted in the following budget calendar.

### **Budget Calendar**

Budget formulation, adoption, and execution in Collier County involve the year-round interaction of many people at various levels within the County. The purpose of the process is to identify service needs, develop strategies to meet those needs and develop detailed revenue and expenditure estimates to carry out the financial plan. As such, the budget process incorporates the following activities:

| <u>Date</u>        | <u>Activity</u>   |
|--------------------|---|
| February/<br>March | Budget policy, providing broad direction to staff governing the preparation of the FY 2024 budget, is adopted by the Board of County Commissioners. |
| April/May          | County Manager's Agency departments submit program and appropriation requests.  |
| May 1              | Supervisor of Elections, Clerk to the Board, and Sheriff request budget submitted.  |
| June 1             | Property Appraiser budget submitted.  |
| Mid-late June      | Board of County Commissioners conducts budget workshops to review the proposed FY 2024 balanced budget.   |
| July               | Tentative budget, incorporating workshop changes and certified taxable value, is released to the Board of County Commissioners.                     |
| July               | Proposed millage rates (maximum property tax rates to be levied in FY 2024), approved by the BCC and certified to the Property Appraiser.           |
| August 1           | Tax Collector budget submitted.   |
| Late August        | Property Appraiser distributes Notice of Proposed Taxes to all property owners in Collier County.   |

Fiscal Year 2024 39 Budget Summary

| September 7  | First public hearing on FY 2024 budget conducted.   |
|--------------|---|
| September 21 | Final public hearing on FY 2024 budgets conducted. FY 2024 millage rates and budget adopted by the BCC. |
| October 1    | New fiscal year begins; implementation of FY 2024 adopted budget.                                       |

This schedule complies with the requirements set forth in Florida Statutes Chapter 200, "Determination of Millage", and Chapter 129, County Annual Budget.

### **Budget Policies**

Historically, the annual budget policy approved by the Board of County Commissioners (Board), has consisted of three (3) sections which are "annual budget policies to be adopted", "continuing budget policies to be reaffirmed" and a "three-year forecast for the General Fund and the Unincorporated Area General Fund". While it is suggested that this format continue, the policy document will also cover significant budget influences and discuss the strategies that may be utilized to address these influences as the budget document and budget planning evolve for FY 2024 and beyond.

Summary of Specific Board Adopted Budget Policies for Fiscal Year 2024:

- A millage neutral General Fund tax rate budget (adopted rollback rate).
- A millage neutral Unincorporated Area General Fund tax rate budget (adopted rollback rate).
- Maintained the County's exemplary credit rating among all their major rating agencies.
- Annual debt service is fully funded and policy compliant.
- · Continued emphasis on capital facility repair and replacement.
- Continuation of current 80/20 cost share for health care program with employees contributing 20%.
- Adherence to OMB published retirement rates.
- State and Federal mandates fully funded.
- Continue to focus on building reserves.

#### **Natural Disaster Planning**

Since the landfall of Hurricane Ian in September 2022, the County has put forth significant effort and resources into the recovery effort. As of January 2023, the BCC has approved in excess of \$125 million in recovery funding and the County has expended upward of \$29 million on these efforts.

For perspective on hurricane cashflow, recovery efforts for Hurricane Irma totaled \$115.2 million and the County received \$98.1 million in reimbursement revenue consisting of \$72.9 million in FEMA reimbursements and \$25.2 million in insurance reimbursements. Net cost to the County for Hurricane Irma currently totals \$17.1 million. The County reallocated internal resources to cash flow Hurricane Irma recovery. Substantial FEMA reimbursement took approximately 18 months. With reimbursements continuing to trickle in through FY 2023. The County can expect similar timing for reimbursements for Hurricane Ian.

The following summary table for FY 2023 shows the Hurricane Ian recovery budget and actuals by fund category as of February 27, 2023.

| Fund Category        | Budget       | Actual       |
|----------------------|--------------|--------------|
| General Governmental | \$43,000,000 | \$11,148,132 |
| Enterprise           | \$55,000,000 | \$17,372,043 |

| TDC          | \$27,050,000  | \$1,411,199  |
|--------------|---------------|--------------|
| CATT Transit | \$100,000     | \$40,087     |
| Total        | \$125,150,000 | \$29,971,461 |

There will be a significant budgetary impact both in FY 2023 and FY 2024 from Hurricane Ian and this impact will largely depend upon when reimbursement revenue is received. The Office of Management and Budget (OMB) is closely monitoring the reimbursement stream with a keen eye toward implementing any necessary FY 2023 budget adjustments to ensure that sufficient cash balances are maintained in affected funds. Any necessary budget adjustments will mostly affect capital budgets through a reduction in capital transfers and deferring appropriate capital projects. Upon receipt of reimbursements, when possible, budgets utilized to fund Hurricane Ian's recovery efforts will be appropriately restored.

The County is prepared to cash flow the response necessary to restore the community from natural disasters utilizing three specific budget techniques:

- First, existing capital project budgets are reviewed, and funding is reallocated where appropriate.
- Second, general governmental and enterprise reserves are drawn down in inappropriate and prudent amounts.
- Third, in funds where enough cash balance exists, FEMA revenue is budgeted, and the
  corresponding expense budget is appropriated anticipating some level of reimbursement in the
  coming months/years. Planned revenue and existing fund balance are utilized for cash flow until
  the receipt of FEMA deposits.

County leadership is committed to a value-added coordinated emergency management approach that coalesces all County Agencies and external partners as future natural disasters threaten Collier County.

### Millage Rates

The General Fund and Unincorporated Area General Fund tax or "millage" rate has varied over the years and has been influenced by the taxable value environment and State legislation.

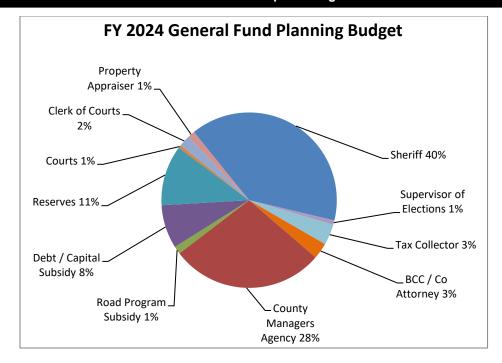

Tax or "millage" rates for the past eighteen (18) years are shown in table form below.

| Millage Area                           | FY 06    | FY 07    | FY 08    | FY 09    | FY10-FY16 | FY17-FY22 | FY 23    | FY 24    |
|--|----------|----------|----------|----------|-----------|-----------|----------|----------|

### **General Fund Allocations by Agency and Component**

The purpose of this allocation is to identify those agency appropriation components within the General Fund. All agencies work diligently with the County Manager in support of budget policies adopted by the Board. Equally important is the premise that all agencies would share in any budget reductions necessitated by taxable values below the planning threshold, reductions in property tax revenues, new state tax reform initiatives, reductions in state shared revenue and *unfunded mandates*.

Fiscal Year 2024 41 Budget Summary

Considering that planned transfers to the Constitutional Agencies in FY 2024 account for 48% of total General Fund budgeted expenses and 66% of the General Fund ad valorem budgeted revenue, their participation in any necessary reductions due in part to unexpected ad valorem revenue shortfalls, tax rate reductions or unforeseen unfunded mandates is essential.

It should be noted that these expense percentages are gross figures and do not account for the statutorily required year ending constitutional officer turnback. This turnback revenue is budgeted and forecast conservatively each year. Constitutional turnback revenue totaled \$38,282,633 and \$10,270,710 across all funds for years ending FY 2021 and FY 2022 respectively. The FY 2021 figure is inflated due to the CARES sub-recipient agreement with the Sheriff which allowed for \$31,000,000 in CARES funds to be earmarked for CCSO salaries freeing up a like amount in turnback funds for flexible general governmental use. For the year ending 2022, actual collections exceeded the forecast in the General Fund by \$3.7 million. The General Fund receives on average 91% to 96% of all turn-back revenue.

### **Revenue Centric Budgets**

It is generally recognized that all budgets and expense disbursements regardless of fund or activity are revenue and cash dependent. This concept establishes that enterprise funds, internal service funds, certain special revenue funds, and other operational funds that rely solely on a fee for service income with zero reliance upon ad valorem revenue should be allowed to establish budgets and conduct operations within revenue centric guidelines dictated by cash on hand and anticipated receipts.

For FY 2024, revenue centric budget parameters for enterprise operations will be tied to working capital guidelines established by GFOA; capital obligations from the capital improvement element (CIE); any rate or fee studies stipulations; priority agency wide expansion initiatives; and statutory or ordinance spending limitations. A critical review of operating and capital reserve levels versus operating and capital appropriations will be discussed during County Manager budget deliberations with an expectation that enough recurring resources are devoted to maintaining the utility asset at a high standard while resources are set aside to protect cash and fulfill our fiduciary responsibility to public protection in the event of a natural disaster.

This concept also presumes continual monitoring of cash and receipts and, if necessary, subsequent operational adjustments dictated by cash flow. Therefore, general governmental departmental spending guidance will not apply.

Certain cost centers or functions have a net cost to the General Fund (001/0001) or Unincorporated Area General Fund (111/1011). In these instances where the fee for services offset the ad valorem impact, the budget reduction guidance should account for this positive impact upon the net cost to the General Fund (001/0001) or the Unincorporated Area General Fund (111/1011). Under this revenue centric approach, Departments will be held to their fee for service projections and any negative fee variances will be addressed through expenditure cuts and not subsidized by Ad Valorem taxes. Department Head discretion upon guidance by the County Manager should be afforded in these scenarios.

### **Expanded Positions**

For FY 2024, Departments will **carefully** consider program enhancement requests given ongoing elevated vacancy rates and operating expenditure guidance that will likely require a significant re-prioritization of the current budget. All program enhancement requests will be limited to new capital facility openings, Board directed service level adjustments, and/or historically strained mission critical imperatives. These program enhancement requests must identify the strategic focus area(s) and strategic objective(s) that are being satisfied.

All budget-to-budget expanded requests will be considered by the County Manager with recommendations presented as part of FY 2024 budget workshop discussions in June.

### **Compensation Administration**

The philosophy of Collier County Government is to provide a market-based compensation program that meets the following goals:

- Facilitates the hiring and retention of the most knowledgeable, skilled, and experienced employees available.
- Supports continuous training, professional development, and enhanced career mobility.
- Establish and maintain equity in the pay plan and rates paid to incumbents in those positions
- Recognizes and rewards individual and team achievements.

On January 25, 2022, the Board approved a recommendation to initiate a comprehensive overhaul of the County's classification and compensation plan from Evergreen Solutions fixing the internal pay plan structure and allowing the County Manager's Agency to become much more competitive in the attraction and retention of skilled talent.

The Consumer Price Index 12-month percent change from December 2021 to December 2022 is 9.9% for the Miami-Fort Lauderdale area. It is generally expected that the inflation index will stabilize and shrink by year-end. This is one of the indices that Collier County traditionally uses when considering a general wage adjustment. The annual Florida Relative Price Index, an index comparing the relative cost of living among the State's 67 counties, is also used as a basis for compensation plan recommendations. The most recently published Florida Relative Price Index lists Collier County as having the second highest relative cost of living among the 67 counties in the State.

In consideration of recommendations provided by the County's Pay and Classification plan vendor, as well as current market conditions, for FY 2024 the County Manager is recommending a 5% increase to base salaries within each paygrade classification and an additional 1.5% allocation for a merit-based incentive program. Given the current average salary in the County Manager's Agency is \$66,300, the collective recommended pay adjustments would result in an average of \$4,310 per employee. In addition, a .5% allocation is recommended to strengthen certain targeted classification pay grades where market imbalances exist.

The FY 2023 compensation adjustment and pay plan maintenance allocation resulted in appropriate dollars equivalent to a 5% base wage increase to all classifications plus 1.5% to implement a merit-based incentive program and a .5% pay plan maintenance component to strengthen certain targeted classification pay grades where market balance exists. Total cost is approximately \$11.9 million in FY 2024. In previous years, the Board of County Commissioners has authorized adjustments to the compensation plan as shown in the following table.

| Program<br>Component          | FY 13 | FY 14   | FY 15              | FY 16              | FY 17 | FY 18 | FY 19 | FY 20   | FY 21               | FY 22  | FY 23              | FY24          |

#### **Health Care Program Cost Sharing**

The County Health Care Program is self-funded and seeks to operate the health plan with the same diligence as a small insurance company. Like an insurance company, the County faces a significant budget risk within the health plan due to the unpredictability of claim cost variances. Such variance is normal statistically and has its roots in the fact that total medical costs are extremely sensitive to the number of claimants who experience catastrophic losses. The expected number and size of large claimants is by nature extremely random and volatile. To manage and prevent this variability, the County reinsures catastrophic losses and maintains a prudent reserve to comply with Florida Department of Insurance requirements as well as to protect the General Fund from this volatility.

Several goals guide how the County operates the plan within the small insurance company context. These are:

- 1. Comply with all legal and regulatory requirements for plan operation
- 2. Manage plan cost trends to be 30% or more below published trends
- 3. Maintain overall controllable expenses, reinsurance costs, network fee arrangements, and reserves at prudent levels
- 4. Protect our employees from the economic impacts of illness or injury
- 5. Prevent illness and stabilize chronic health states, when possible, by helping our employees and their spouses become aware of their health, and act on that knowledge

Although the goals have been met and County costs have continued to show a favorable trend compared to national and state averages over the last twelve years, medical plan costs, and the premium dollars required to fund them, continue to increase annually. The County's medical plan has been similarly impacted by these rising costs and as a result, currently, there are two main challenges regarding the rates outlined in the health plan:

- 1. Current County and employee contributions to the fund have not covered the cost of the plan in the last two fiscal years nor will they cover future projected costs.
- Though current reserves likely exceed what would be considered reasonable and have been used to cover past shortfalls in contributions to the fund, if rates are not changed, reserves may fall below required minimums as soon as FY 2025.

The longer rate action is deferred, the greater the imbalance becomes and the greater the needed increase will be. Assuming a 3% inflationary trend for health care costs, if rates are not increased, the fund reserve will be exhausted sometime during FY 2027 and the shortfall would be approximately \$5.8 million. With reserves exhausted, rates would need to be increased by 33% for the FY 2028 fiscal year to align fund inflows with expected expenses.

| Assumed Annual Claim Trend 3%            |               |               |               |                |                |  |  |  |  |
|--|---------------|---------------|---------------|----------------|----------------|--|--|--|--|
| 0.0% Increase in Contributions (ER & EE) | 10/22-9/23    | 10/23-9/24    | 10/24-9/25    | 10/25-9/26     | 10/26-9/27     |  |  |  |  |
| Claims                                   | \$42,554,148  | \$43,831,000  | \$45,146,000  | \$46,500,000   | \$47,895,000   |  |  |  |  |
| Expenses                                 | \$4,434,136   | \$4,523,000   | \$4,613,000   | \$4,705,000    | \$4,799,000    |  |  |  |  |
| Total                                    | \$46,988,284  | \$48,354,000  | \$49,759,000  | \$51,205,000   | \$52,694,000   |  |  |  |  |
| Revenue (inc vacant positions)           | \$40,785,036  | \$40,785,000  | \$40,785,000  | \$40,785,000   | \$40,785,000   |  |  |  |  |
| Gain/(Loss)                              | (\$6,203,248) | (\$7,569,000) | (\$8,974,000) | (\$10,420,000) | (\$11,909,000) |  |  |  |  |
|  | -15.2%        | -18.6%        | -22.0%        | -25.5%         | -29.2%         |  |  |  |  |
|  |               |               |               |                |                |  |  |  |  |
| Surplus                                  | \$33,048,152  | \$25,479,152  | \$16,505,152  | \$6,085,152    | (\$5,823,848)  |  |  |  |  |

The need for a dramatic rate increase can be avoided by modest action taken in FY 2024. Therefore, it is recommended that there be a five percent (5%) program rate increase for FY 2024. This increase will be the first step in a potential multi-year program stabilization. Trends will be analyzed annually to adjust rate structures to ensure coverage of plan cost and maintenance of a reserve level that includes statutory reserves plus an amount to cover cost variances with 99% certainty. It should be noted that employer health insurance contribution increases are absorbed within operating appropriations and the 5% increase will result in approximately \$1.5 million in employer contributions across the County Manager's Agency. The average employee will see bi-monthly cost increases between \$3 and \$8 for single coverage and \$6 and \$14 for family coverage.

Since 2009, the Collier County Government has invested in processes to heighten employees' and spouse's awareness of their health and make available resources to assist covered employees and spouses in improving and maintaining their health. These programs have achieved meaningful reductions in risk and improvements in outcomes for the covered participants. Employees and spouses have embraced the County's preventive educational and qualifier processes which have contributed greatly toward the financial strength of the health program. Over the last 12 years, participation has been consistently more than 90% for those meeting the necessary qualifiers. This rate far exceeds those of large employers nationwide.

To mitigate necessary increases to the plan, the County will continue to emphasize participation in an existing wellness program, proper structuring of reinsurance to manage adverse plan impacts, and prudent plan management.

Coverage under the Plan extends to all eligible County employees, except for the Sheriff's Office, which operates its self-funded plan. Historically, Board budget guidance has suggested that all agencies uniformly share health insurance contributions between employers and employees.

In FY 2024, a 5% rate increase to the existing rate structure is recommended. This rate increase will result in an employer portion funding increase of approximately \$1.5 million for the County Manager's Agency. Bimonthly employee cost increases will be between \$3 and \$8 for employees with single coverage and \$6 and \$14 for employees with family coverage. It is suggested that these rate adjustments and the associated employer and employee share be uniform across all participating agencies, including the Constitutional Officers. This policy treats all county employees equally in terms of cost-sharing for health insurance premiums.

#### **Retirement Rates**

All agencies including Constitutional Officers must use the retirement rates published within the OMB budget instructions. OMB is monitoring all proposed bills. The legislature usually establishes the new retirement rates at the beginning of May with the Governor signing the bill into law at the end of May. The preliminary retirement rates that will be published in the instructions are based on proposed House and/or Senate Bills (Florida Statute Chapter 121).

Fiscal Year 2024 45 Budget Summary

### **Accrued Salary Savings**

When employees leave, they are generally replaced, and the process of replacement takes varying lengths of time depending on the position being recruited. This fact, coupled with the full budgeted amounts for health insurance and worker's compensation being transferred to the self-insurance funds, impacts the amount of accrued salary savings due to position vacancies. A 2% attrition rate has been utilized since FY 2016. For FY 2024, it is suggested that the rate remains at 2%.

### Financing New and Replacement Capital Infrastructure

The issuance of debt for capital improvements is generally considered a good alternative to pay as you go under the philosophy that future taxpayers who will also enjoy the capital improvements should participate in funding capital improvements rather than that burden falling solely on existing taxpayers. Further, the modest interest rate environment, the County's superior investment quality credit rating, a revenue to debt service ratio well below the self-imposed cap of 13%, and not raising the millage rate to pay debt service for world class capital amenities provide further rationale for issuing strategic debt. Total unaudited general governmental and enterprise principal debt outstanding on 9/30/22 was \$689.1 million and includes recent new debt issues from FY 2018, through FY 2022. Debt outstanding reached a high of \$788 million in FY 2008.

Pursuant to the Collier County Debt Management Policy, several guiding principles have been identified that provide the framework within which the issuance, management, and continuing evaluation of and reporting on all debt obligations issued by the County takes place.

Asset Life: The County will consider long-term financing for the acquisition, maintenance, replacement, or expansion of physical assets (including land) only if they have a useful life of at least five (5) years. Debt will be used only to finance capital projects and equipment, except in case of emergency. County debt will generally not be issued for periods exceeding the useful life or average useful lives of the project or projects financed.

Capital Financing: Debt of longer amortization periods will be issued for capital projects when it is an appropriate means to achieve a fair allocation of costs between current and future beneficiaries. Debt shall not, in general, be used for projects solely because insufficient funds are budgeted at the time of acquisition or construction.

To the degree possible, the County will rely on specifically generated funds and or grants and contributions from other governments to finance its capital needs on a pay-as-you-go basis. To achieve this, it may become necessary to secure short term (not exceeding 5 years amortization) construction funding. Such financing is anticipated and allows maximum flexibility in CIP implementation.

A decision to issue some component of short or long-term debt is based on the level of service standards, the timing of any capital improvement, the ability to execute, the credit market environment, and the cost of capital. The County had pursued a strategy in recent history (FY 2008 and prior years) by incurring short term commercial paper loans for capital projects and refinancing that short-term debt with longer term bonds or other long-term credit instruments that match the asset's useful life. Short term commercial paper loans carry a low variable interest rate — with the January 2023 rate currently at 3.95% - and funds can be accessed within about 30-45 days of approving the authorizing resolution.

The advantage of long term competitively issued bonded debt, especially in a low interest rate environment, is that budget certainty for the cost of credit is achieved. Generally, a project should be ready for construction and proceeds must reasonably be expected to be spent within a three-year window from debt issuance, or adverse tax consequences may occur. Long term bonded debt or in the alternative competitively issued bank loans, can be issued normally within a ninety (90) day window. The County's current general governmental long-term debt portfolio is comprised of special obligation revenue bond debt under a covenant to budget and appropriate all legally available non- ad valorem revenue. It is anticipated that this type of long-term debt will be used under future new general governmental debt credit scenarios.

Fiscal Year 2024 46 Budget Summary

Interest rates have increased over the past year. If financing is needed for a capital project, then long term bonded debt can still be considered knowing that when interest rates fall, there will be opportunities to refund the higher interest rate debt.

The County is always positioned to add new strategic debt to the portfolio after embarking upon an aggressive debt restructuring program in the summer of 2010, and to date over \$531.2 million in general governmental debt has been refinanced. As a result, the cost of borrowing has been reduced by \$3,071,488 annually with these recurring savings applied toward high-priority pay-as-you-go operating and capital programs. Annual principal and interest payments servicing outstanding general governmental and enterprise debt totals \$66.5 million and represent 3.4% of the County's net adopted FY 2023 budget. The County continually looks for strategic and economically feasible debt restructuring opportunities.

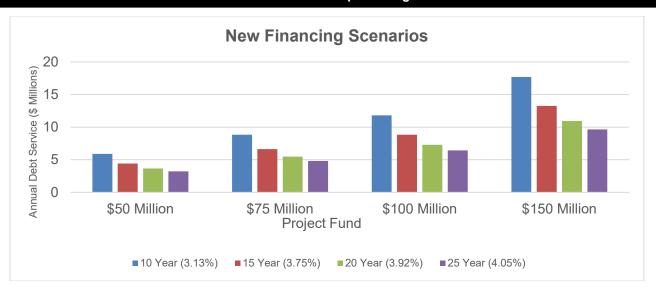

### Through the County's finance committee and financial advisor, the debt portfolio is evaluated regularly for opportunities to generate savings through debt restructuring.

Countywide capital allocations have traditionally included new money components for general governmental capital projects as well as maintaining and replacing existing general governmental infrastructure.

<u>Immediate Term New Debt Strategy:</u> Passage of the Local Option Infrastructure Sales Tax does not eliminate the need to finance future infrastructure needs. New debt would be considered as projects are engineered and progressing in the following circumstances:

- Short term bridge financing in the estimated amount between \$35 \$50 million is anticipated for the NCWRF Headworks project. Due to anticipated cost escalations, additional funding will be needed.
   Once FEMA and insurance proceeds are received for the hurricane, the financed amount will decrease.
- Financing in the estimated amount of up to \$128 million to construct the Northeast Regional Water Reclamation Facility (4 MGD) within the next 5 years. Further financing for the construction of the first phase (5 MGD) of the Northeast Regional Water Treatment Plant is anticipated in the upcoming 10 planning cycle.
- Any gap funding necessary to support water and wastewater system renewal and replacement projects.
- General Sheriff replacement capital improvements based upon a phased prioritized schedule.
- Any gap financing to complete all phases of the Sports Complex and Events Center.
- Gas Tax transportation network improvements.

The following illustrates various long-term financing scenarios, the annual debt service, and the respective interest rates.

### **Stormwater Management Funding**

The budget planning model under a millage neutral tax rate for FY 2024 allocates \$16.3 million from the General Fund and Unincorporated Area General Fund toward cash and carry storm-water infrastructure replacement (\$6.0 million); maintenance and operations (\$8.1 million); and annual debt service on the November 2020 Special Obligation Revenue Bond Series A \$60 million stormwater component (\$2.2 million). Annual debt service will reduce the cash and carry capital allocation and project engineering and capital implementation is ongoing to spend down bond proceeds on strategic projects intended to update the County's stormwater system.

#### Use of Gas Taxes and Future Gas Tax Pledged Debt:

In July 2022 the Board approved the renewal of the 5 Cent, 6 Cent, and the 9th Cent local option gas taxes through December 31, 2055. Gas tax dollars that align with the current gas tax ordinances not devoted to paying debt service will be available annually to support/supplement maintenance on the roadway network.

Large scale projects and others identified for completion in the five-year CIE between FY 23 and FY 27 have a projected shortfall of over \$205,000,000. Funding strategies including issuance of debt supported by gas tax revenues is part of the long-term plan for transportation CIE funding Proceeds would fund identified Transportation system assets deemed "poor" in the inventory; capacity improvements not funded by the Local Option Infrastructure Sales Tax; and **expansion of the eastern Collier County transportation grid**. Large scale projects identified in the five (5) year CIE that could be financed include Collier Boulevard (Green Boulevard to Main Golden Gate Canal), Vanderbilt Beach Road (16th Street NE to Everglades Boulevard), Goodlette Road (Vanderbilt Beach Road to Immokalee Road), Wilson Boulevard (Golden Gate Boulevard to Immokalee Road) and Veterans Memorial Parkway (School to US 41). Specific project engineering schedules will be reviewed, and the Finance Committee will continue to refine the concept and strategy.

Gas taxes collected in FY 2022 from all sources totaled \$24.2 million. Annual debt service is \$13.2M leaving, the remaining \$11 million programmed for construction and maintenance of the transportation network consistent with strict statutory guidelines.

Augmenting transportation network improvements budgeted in the Gas Tax Fund (313/3083) are regular general governmental transfers to the Transportation Capital Fund (310/3081). The General Fund capital transfer planned for FY 2024 to Fund (310/3081) is \$9,200,000 which represents a decrease of \$1,425,900 from the FY 2023 budget. The Unincorporated Area General Fund transfer planned to Fund (310/3081) for

FY 2024 is \$13,600,000 representing an increase of \$9,800,000 from the FY 2023 budget as a result of the median maintenance allocation being included in the transfer. These dollars support maintenance on the roadway network including intersection improvements, resurfacing, sidewalks, pathways, medians, asset management, traffic control software, and other critical maintenance needs that are not eligible for gas tax funding by statute.

### **General Fund Debt Contribution and Debt Management**

The following table identifies how General Governmental County Wide Capital contributions appropriated within the General Fund were programmed in FY 2023 and planned in FY 2024. General Fund transfers to Stormwater and Transportation System improvements are accounted for separately and not included in this General Capital programming scenario.

| General Appropriation                          | FY 2021      | FY 2022      | FY 2023      | FY 2024      |
|--|--------------|--------------|--------------|--------------|
| Non-Growth Debt Service                        | \$ 3,650,400 | \$ 8,908,000 | \$ 7,774,700 | \$ 8,469,000 |
| Impact Fee Trust Fund Loans                    | 2,192,100    | 1,832,000    | 757,700      | 1,418,600    |
| General Governmental Capital Projects          | 15,592,400   | 20,743,600   | 29,918,600   | 25,535,000   |
| Park, Museum, Airport, Sport Complex Transfers | 4,776,500    | 7,505,000    | 9,805,800    | 8,200,000    |
| Future Capital Replacement/Maintenance Reserve | 5,000,000    | 7,500,000    | 18,300,000   | 5,000,000    |
| Total  | \$31,211,400 | \$46,488,600 | \$66,556,800 | \$48,622,600 |

Planned contributions in FY 2024 represent a decrease from FY 2023 levels and this allocation may change depending upon the Board adopted millage rate policy; changes in the tax base; Board adopted operational service level changes; or other reprioritized initiatives.

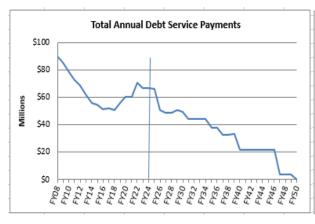

Loans outstanding to the impact fee trust funds (i.e., EMS, Libraries, Corrections, Law Enforcement, and General Government Facilities) from the General Fund since inception (FY 2005) through FY 2024 totals \$104.2 million. Going forward, the level of the General Fund loan subsidy is heavily dependent upon the level of impact fee collections and any new eligible growth-related general governmental capital projects planned in the areas identified above that are not paid by the Local Option Infrastructure Sales Tax. Current general governmental growth debt, which is paid predominately from impact fees, expires in FY 2036.

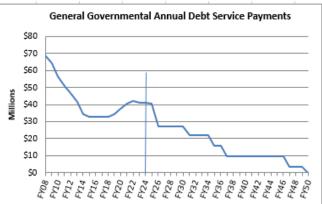

General Fund loans to the Airports began on or about FY 1995 and to date various operational and capital subsidies total \$29.8 million. In recent years, loans have not been necessary to subsidize operations or to support capital.

Payment of debt is always a top priority. Under the FY 2024 budget planning scenario dollars allocated will cover all revenue bond debt service.

The cumulative net interest rate of the County's overall debt portfolio has been reduced from approximately 5% to 2.83% and annual principal and interest payments servicing all outstanding County debt (including enterprise debt) totals \$66.5 million and represents 3.4% of the County's net adopted FY 2023 budget. General governmental debt service represents 2.1% of the County's net adopted FY 2023 budget. The following charts depict annual debt service payments servicing all debt and annual debt service connected with our general governmental credit.

Fiscal Year 2024 49 Budget Summary

Collier County's total unaudited principal debt outstanding at 9/30/22 totals \$689.1 million of which \$357.3 million relates to infrastructure improvements driven by population growth and related service demands. The County's principal debt is \$99 million below the FY 2008 figure of \$788 million.

### **Reserves**

<u>General Fund</u>: Reserve is a budget/policy term referring to resources set aside to provide a financial barrier against risk. Likewise, reserves may also be referred to as a portion of the fund balance — only on the expense side of the equation. Reserves are the cornerstone of financial flexibility and provide the government with options for responding to unexpected issues and a buffer against shocks and other forms of risk. One such unplanned risk may, for example, include the potential for a grant award to be rescinded after work on the activity begins.

Grant revenues are appropriated at the time of award with the expectation of future cash inflows from the grantor agency. Until reimbursements are received, the General Fund and General Fund supported agencies provide the cashflow for most general governmental grant funded activities and are responsible for financing grant related activities in full, should the County default on any grant provisions or a grantor agency cancel, revoke, or de-obligate an award.

It is essential for governments to maintain adequate levels of fund balance to mitigate current and future risks, such as revenue shortfalls, natural disasters, and unanticipated expenditures. As such, budgeted reserves serve to protect the beginning cash position in a fund and are an essential component of Collier County's overall financial management strategy and a key factor in external agency measurement of Collier County's financial strength.

Various bond rating agencies recognize that the best reserve policies provide both specificity and flexibility accomplishing one or more of at least the following three criteria:

- establishing a target level of reserves or a reserve floor
- specifying the appropriate circumstances for drawing down reserves
- directing the replenishment of reserves

In general, rating agencies view positively higher reserve levels, although local governments can maintain high credit ratings with lower reserve levels if other indicators of financial flexibility, such as revenue raising ability, stable diverse revenue structure, expenditure flexibility, and conservative budgeting practices are strong.

A reserve for contingency is typically budgeted in all operating funds, except for the Constitutional agency funds. Reserves for the Constitutional Agency funds shall be appropriated within the County General Fund.

The following is a history of budgeted reserves within the General Fund and Unincorporated Area General Fund since FY 2008 as well as the percentage of reserves against total operating expenses.

| Fiscal Year | General Fund<br>Reserves | Unincorporated Area<br>General Fund Reserves | % of General<br>Fund<br>Expenses | % of<br>Unincorporated GF<br>Expenses |
|-------------|--------------------------|--|----------------------------------|---------------------------------------|
| 2024        | \$71,858,200             | \$5,832,700                                  | 11.2%                            | 7.5%                                  |
| 2023        | \$68,366,400             | \$4,722,800                                  | 10.7%                            | 6.2%                                  |
| 2022        | \$64,856,900             | \$4,189,100                                  | 13.7%                            | 6.7%                                  |
| 2021        | \$56,798,900             | \$2,695,500                                  | 12.8%                            | 4.4%                                  |
| 2020        | \$51,532,900             | \$2,340,600                                  | 12.1%                            | 3.9%                                  |
| 2019        | \$44,481,200             | \$2,982,300                                  | 11.4%                            | 5.3%                                  |
| 2018        | \$40,450,300             | \$3,255,000                                  | 10.8%                            | 5.5%                                  |
| 2017        | \$33,899,700             | \$2,432,900                                  | 9.6%                             | 4.8%                                  |
| 2016        | \$27,890,800             | \$1,905,600                                  | 8.4%                             | 4.4%                                  |
| 2015        | \$26,670,700             | \$2,220,100                                  | 8.5%                             | 5.6%                                  |
| 2014        | \$26,217,400             | \$1,715,000                                  | 8.9%                             | 4.5%                                  |
| 2013        | \$24,844,400             | \$1,596,200                                  | 8.7%                             | 4.3%                                  |
| 2012        | \$18,180,900             | \$1,739,500                                  | 6.2%                             | 4.5%                                  |
| 2011        | \$14,210,200             | \$2,925,100                                  | 4.7%                             | 7.4%                                  |
| 2010        | \$15,569,100             | \$3,422,400                                  | 4.9%                             | 7.2%                                  |
| 2009        | \$17,541,200             | \$2,853,500                                  | 5.0%                             | 5.8%                                  |
| 2008        | \$20,506,000             | \$6,336,600                                  | 5.5%                             | 12.9%                                 |

Optimally, and to achieve a regular and sustained General Fund beginning fiscal year cash position, budgeted reserves should be a minimum of \$65 million. Otherwise, expense-side management of the budget in the form of capital transfer reductions and/or reductions in operating transfers may become necessary.

Budget management is always ongoing and more magnified at times when Hurricane events occur. Expenditures and revenues are monitored continually, and any budget adjustments are made accordingly. Likewise, execution patterns are scrutinized along with transfer dollars – specifically out of the General Fund to make sure that appropriations are properly executed and spent for the intended purpose.

Florida State Statutes: In all respects, budgeted reserves shall conform to the requirements of Florida State Statutes. The State establishes maximum limitations on certain reserves. The maximum limitations for contingency reserves and cash flow reserves are 10% and 20% of a fund's total budget respectively. There is no statutory limit on capital reserves.

### **Comparative Budget Data**

Provide comparative budget data using FY 2023 adopted budget data (cost and employees per capita based on unincorporated area population) by Agency with Budget Submittals for Similar Sized Florida Counties.

Adopted Budget Policy: Counties for comparison purposes include:

- Sarasota County
- Lee County
- Charlotte County
- Manatee County
- Martin County

### Regular Routine Budget Policies for FY 2024

<u>Grant-Funded Positions</u>: Any positions formerly funded with grant funds being recommended for inclusion in a general (non-grant funded) operating budget shall be treated as expanded service requests.

<u>Self-Insurance</u>: To conduct an actuarial study of the self-insured Workers' Compensation, Property and Casualty, and Group Health Insurance programs. Program funding is to be based upon an actuarial based confidence interval of 75%, except for group health which will be funded to include statutorily required reserves plus an amount equal to at least the expected cost variance with 99% certainty.

**Contract Agency Funding:** The Board will not fund any non-mandated social service agencies.

<u>Carry forward (Fund Balance)</u>: All funds that are unexpended and unencumbered at the end of the fiscal year will be appropriated as carry forward revenue in the following year. Carry forward revenue represents not only operating funds but also previously budgeted operating, debt service, and capital reserves that are "carried forward" to fund these same reserves in the new year or to fund capital projects in the current or future years. The largest sources of carry forward are capital, debt service, and enterprise funds. In both the General Fund and Unincorporated Area General Fund, carry forward is maintained to provide cash flow for operations prior to the receipt of ad valorem taxes and other general revenue sources.

Proper General Fund carryforward is necessary to meet significant constitutional transfer, public safety, and priority operating needs for October and November, prior to the receipt of any significant ad valorem tax revenue (ad valorem taxes represent 66% of the total FY 2023 General Fund adopted recurring operating revenues).

Carryforward balance is also an important measure used by bond rating agencies in determining the County's creditworthiness. Specific concerns for Florida communities are reliance on the tourism industry and sales tax revenue, and the ongoing threat from hurricanes and wildfires. For Florida coastal communities, a minimum cash balance of 15% of total General Fund expenditures was recommended by the rating agencies. Of course, this figure and recommendation were general in nature and subject to each county's individual cash flow needs. A higher percentage would be considered positive – especially during any ratings surveillance.

The recommended level of year ending cash in the General Fund should be a **minimum of 15%** of actual expenditures. At the year ending September 30, 2022, the actual General Fund cash and cash equivalents balance totaled \$157,929,500 an increase of \$29,020,700 over the year ending September 30, 2021. The FY 2022 year ending cash position represents approximately 33.6% of actual FY 2022 expenses.

Indirect Cost Allocation Plan: The policy of charging enterprise, special revenue, and grant funds for support services provided by General Fund departments will be used again in FY 2024. The basis of these charges is a detailed indirect cost allocation plan prepared, periodically, by a consultant and adjusted by staff to reflect the organizational environment on a real-time basis.

**Impact Fees:** Collier County will assess impact fees at such levels as allowed by law, established by the Board of County Commissioners, and supported by impact fee studies.

Enterprise Fund Payment In lieu of Taxes: The Solid Waste Fund and the Collier County Water-Sewer District will once again contribute a payment in lieu of taxes (PILT) to the General Fund. For FY 2023, the payment in lieu of taxes calculation was based upon a "franchise fee equivalent basis" commonly referred to as a percentage of gross receipts. Six percent (6.0%) of gross receipts of the Water/Sewer District were applied in FY 2023. This method and percentage will continue for FY 2024. One and three-quarter percent (1.75%) of Solid Waste tipping fees were applied in FY 2023 and this method and percentage are planned in FY 2024. This method is a common approach used by local governments and is generally consistent with fees paid by private utilities operating in a local government jurisdiction.

Fiscal Year 2024 52 Budget Summary

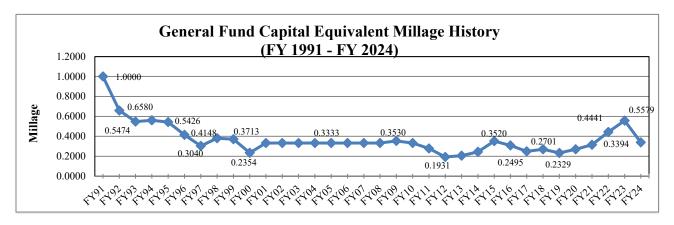

Prior to FY 2013, PILT was based upon the prior year's General Fund millage rate multiplied by the prior year's gross (non-depreciated) value of property, plant, and equipment.

<u>Debt Service:</u> Any capital projects financed by borrowing money shall limit the repayment period to the useful life of the asset.

<u>Interim Financing:</u> Collier County may also borrow funds on an interim basis to fund capital projects. In these cases, a repayment source shall be identified and the financing source that has the lowest total cost shall be employed.

The Collier County Debt Management Policy provides that debt restructuring for economic savings will be undertaken when a present value savings of at least five percent of the refunded debt can be achieved. The policy also states that five percent savings is often considered a benchmark and that any refunding that produces a smaller net present value savings may be considered on a case-by-case basis. A smaller net present value savings may be prudent for example when the intent is to eliminate old antiquated and limiting bond covenant language.

<u>Ad Valorem Capital and Debt Funding:</u> Continuation of a General Fund equivalent millage dedicated to ongoing regular general governmental capital projects, debt service, and impact fee fund debt loans from the General Fund. The target rate is the equivalent of 0.3333 mills. (See history below).

The General Fund continues to loan money to impact fee funds to pay their annual debt service payments. This of course is in addition to normal and customary debt service on non-growth revenue bond debt. Loans from the General Fund to the impact fee trust funds began in FY 2006 and the value of all loans made now exceeds \$104 million.

<u>Capital Improvement Program (CIP) Policies:</u> On an annual basis, the County shall prepare and adopt a five-year Capital Improvement Element (CIE) consistent with the requirements of the Growth Management Plan.

- Capital projects attributable to growth will be funded, to the extent possible, by impact fees.
- Capital projects identified in the five-year CIE will be given priority for funding. The five-year plan
  for water and wastewater CIE projects will be based on projects included in the adopted master
  plans.

Unlike operating budgets that are administered at the appropriation unit level, capital project budgets will continue to be administered on a total project budget basis. The minimum threshold for projects budgeted in capital funds is \$25,000.

Fiscal Year 2024 53 Budget Summary

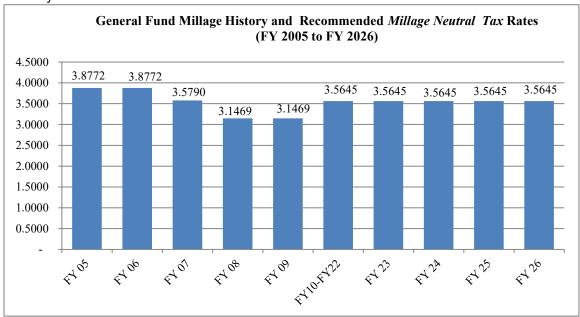

### Three-Year Budget Projections Ad Valorem Tax Funds (FY 2024 - FY 2026)

OMB staff prepares annually a three-year projection of General Fund and MSTD General Fund revenues and expenditures to improve financial planning and to understand the long-term impact of funding decisions. These projections are complimented by a **trend analysis** of revenues and expenses which conclude the General Fund and Unincorporated Area General Fund sections respectively.

The following 3-year budget projections are for the General Fund (001/0001) and the MSTD General Fund (111/1011).

#### General Fund (001/0001) Millage History and Millage Rates

As a point of reference, the following graph plots the historical General Fund millage rate, as well as tax rates for FY 2023 through FY 2025. These rates do not include any marginal increase that the Board may direct by policy for a specific program or initiative. Millage neutral rather than tax neutral rates for general operations are used for planning purposes considering the belief that taxable value will continue to increase modestly in the future.

While the County Manager will be recommending a General Fund *millage neutral base operating budget* in FY 2023 and while this millage neutral budget will contain funding for priority public safety and other significant asset maintenance/replacement initiatives, the Board should note the magnitude of our current and future asset maintenance responsibility as well as significant new initiatives and devote additional future dollars which may be generated from an increasing taxable value base to fund these recurring initiatives.

Diversifying the County's tax base means in large part attempting to reduce risk. Risk of an economic downturn which surely will stagnate resources and organizational risk where the risk of stagnating resources exponentially impacts operations and capital resource allocation. Significant future resources must be devoted to capital maintenance in numerous areas. We have addressed our future heavy equipment, public safety ambulance, and general vehicle replacement needs. But there remain substantial asset maintenance and replacement needs, not the least of which is general governmental building maintenance, park's system infrastructure, constitutional officer capital requirements, and other general governmental capital functions like information technology upgrades, accounting system replacement, and other soft infrastructure needs. Then there is the issue of maintaining existing storm-water infrastructure which for FY 24 will be funded on par consistent with industry standards through general governmental appropriations.

Fiscal Year 2024 54 Budget Summary

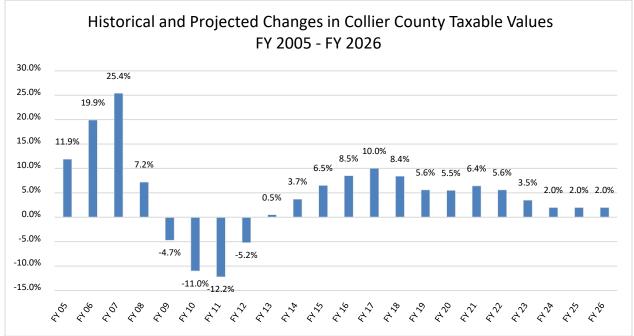

The following tables depict the respective *millage neutral* tax rates for FY 2024, 2025, and 2026 as well as additional ad valorem dollars which could be raised under certain increasing tax base assumptions.

| General Fund | FY 24 Adopted and Recommended<br>Operating Millage Neutral Millage Rates | Additional Budgeted Ad Valorem<br>Revenue Projection Each Year |
|--------------|--|--|
| FY 23        | 3.5645   |  |
| FY 24        | 3.5645   | \$25,068,600@ 5.75% TV Increase                                |
| FY 25        | 3.5645   | \$9,220,900 @ 2.0% TV Increase                                 |
| FY 26        | 3.5645   | \$9,405,300 @ 2.0% TV Increase                                 |
| FY 27        | 3.5645   |  |

For Collier County to continue providing high quality best value services; continue to address infrastructure maintenance and replacement; replace public safety and general governmental equipment and vehicles; and maintain its reserve and cash positions pursuant to policy and representative of an investment quality credit rated organization, it is prudent to capture those additional ad valorem dollars generated by an increasing taxable base. New governmental initiatives which always seem to emerge each fiscal year also provide a rationale to capture property tax revenue from an increasing base year over year.

Failure to capture additional property tax dollars resulting from increasing taxable values will jeopardize service levels and make it difficult to maintain the extraordinary world class infrastructure investment which this community enjoys. As taxable values begin to slow and investment in County innovation zones and the County and Naples CRAs grows, the margin between rolled back rate and millage neutral will narrow. Thus, maintaining the long-standing millage neutral philosophy must be continued knowing the level of investment required to simply maintain our general governmental assets, and fund Sheriff operations let alone mission critical expanded services and facilities based upon AUIR requirements and servicing the needs of an expanding population.

The projected millage rates assume that the tax base will increase by 5.75% in FY 2024 (the 2023 tax year). Taxable value in FY 2025 is projected to also increase by 2%. The Property Appraiser will provide preliminary taxable value estimates for FY 2024 on June 1, 2023. Actual and assumed changes in County taxable values are as follows:

Notes to Graph - FY 2007: The General Fund (001) millage rate adopted in FY 2007 was based upon a 16% increase in taxable value under BCC direction. FY 2008: As part of the Florida Legislative Property Tax Reform package implemented in FY 2008, Collier County adopted its final millage rate at 91% of the rolled back rate.

### **FY 2024 Significant Expense Assumptions**

A millage neutral operating budget, again assuming no marginal adjustment for special policy initiatives of the BCC, assuming an increasing taxable value base provides the County with those important additional ad valorem dollars necessary to maintain our assets, invest in our personnel, and service those who live and visit Collier County. Significant expense assumptions include:

- Appropriate dollars equivalent to a 5% base wage increase to all classifications plus a 1.5% to implement a merit-based incentive program and a .5% pay plan maintenance component to strengthen certain targeted classification pay grades where market balance exists. The total allocation across the County Manager Agency is approximately \$11.9 million.
- Appropriate dollars equivalent to a 5% increase in the employer health insurance cost.
- 2% attrition rate on regular salaries assumed in the County Manager's Agency.
- Motor pool replacement dollars for routine ambulance replacement on schedule.
- \$8,000,000 for general County Manager Agency building maintenance, \$6,000,000 for upgrades to the 800MHz radio system, \$2,000,000 for site development for the Golden Gate Golf Course and \$1,500,000 for switch gear upgrades in parking garage #1.
- \$5,000,000 allocation toward long-term general governmental asset maintenance reserve.
- Continued Social Service and Mental Health Funding.
- General Fund loans to the impact fee trust funds planned at \$1,418,600 which while low compared
  to the average of the previous ten years, should not be viewed as a trend due to the volatility of
  impact fees.
- Stormwater maintenance, operations, and transfers for capital and debt service payments planned at \$7.8 million.
- General Fund transfer dollars supporting road construction and maintenance funded at \$9.2 million.
- General Fund support of EMS Operations established at \$29,392,300 up 16.1% from last year reflecting an anticipated pay plan pay adjustment.
- Full support for Transportation Operations from the General Fund (001) exclusively in the amount of \$25,643,600.
- Continued corporate IT capital funding.
- Cash and carry deposit of an additional \$1 million, bringing the total to \$6.7 million, as the process of implementing a new accounting system continues.
- Building maintenance funding for Sheriff Facilities totaling \$1,000,000, plus \$3,000,000 for windows at the jail, and \$1,200,000 for the Caxambas Substation/Seawall repair.
- Mandates to be absorbed, if possible, within operating budgets, including Constitutional Officers.

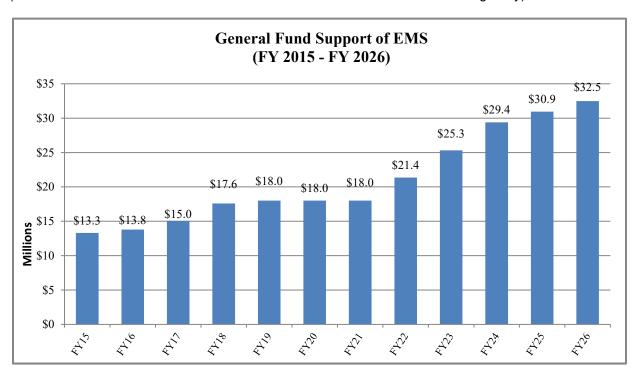

#### **Significant Revenue Assumptions**

- FY 2023 ad valorem tax revenue forecast is 96% of actual taxes levied. FY 2023 forecast totals \$420,060,100 a reduction of \$15,915,900 from the adopted budget. Collections are within the 5% statutorily budgeted revenue reserve.
- A millage neutral position for FY 2024 produces a levy of \$461,044,600.
- Sales tax revenue forecast for FY 2023 is projected conservatively at \$50 million, an increase of \$2 million from the adopted budget. FY 2024 budgeted revenue is planned at \$52 million. Conservative revenue estimates are essential to achieving the required beginning cash balance position.
- State Revenue Sharing forecast for FY 2023 is projected conservatively at \$12 million. The FY 2024 budget is projected conservatively at \$12 million, which is in line with the adopted 2023 budget.
- Property taxes, sales taxes, and revenue sharing deposited in the General Fund represent 93% of all recurring operating revenue which excludes carry-forward (fund balance).
- Constitutional Officer turn-back is a conservative budget estimate and for FY 2024 \$6,600,000 is planned. Turnback to the General Fund at year ending 2022 totaled \$10,270,710.

- Measures to maintain annual beginning cash balance are necessary and include continued growth in budgeted reserves coupled with any combination of revenue receipts over budget and expense side budget management.
- Interest income for FY 2024 is conservatively planned at \$650,000.

### **EMS Fund**

EMS Operations Fund (490/4050) is another fund that impacts the General Fund. Typically, this ad valorem support in recent years accounted for 45% to 55% of total EMS operating revenues. The percentage varies given the instability in fee revenue collections and any Board policy directives. The General Fund subsidy planned for FY 2024 is up \$4,075,900 reflecting an anticipated pay plan adjustment. Historical and projected General Fund support of EMS operations by fiscal year are Policy Document Page 51 as follows: (also added \$700k in FY25 and FY26 for 2 new stations – Old US 41 and Heritage Bay).

The use of General Fund dollars to support this life/safety function has been and continues to be a priority.

### **Road Construction Program**

Board approved budgets have recently supplemented funding for the transportation network with general governmental dollars transferred from the General Fund to the Transportation Capital Fund (310/3081). This transfer is sized annually based on the anticipated growth in taxable value and the recurring need to fund other strategic capital commitments. Over the past four (4) fiscal years the actual transfer has averaged \$8.6 million annually. With taxable values projected to increase for FY 2024, the General Fund contribution to road construction and maintenance is planned to total \$9.2 million. This transfer is subject to change based on budget year execution patterns.

As future budgets are planned, and scarce resources allocated, infrastructure maintenance and non-growth-related improvements will certainly require a dedicated commitment of general revenue to protect this investment. Capital obligations necessitated by state or federal agreements, like joint powers agreements (JPAs) and Defense Cooperation Agreements (DCAs) will be funded.

### **FY 2025**

A *millage neutral* operating budget in FY 2025 with an increase of 2% in taxable value can continue to allow for priority funding of public safety capital initiatives and general governmental capital programming referenced in this document with proper budget management. This of course is in addition to the many new initiatives and program enhancements, Board directed or otherwise required to support an expanding service base, all of which compete for limited general governmental resources.

In addition to annual inflationary cost increases, the following items were included in the FY 2025 budget analysis:

- Maintain general governmental capital projects recurring funding.
- Maintain General Fund support of EMS.
- · Contingency reserves are maintained at policy.
- Maintain General Fund road subsidy.
- Maintain General Fund support for park system maintenance and replacement.
- Maintain General Fund support for Transportation Operations expenses.
- Continue annual contribution to the long-term asset maintenance reserve.

In summary, the FY 2025 analysis signals caution especially when critical variables like taxable value, market conditions, and general revenues are difficult to predict. Pursuing a *millage neutral* operating budget in FY 2025 without a proper budgeted beginning fund balance would likely result in a \$20.5 million budget planning deficit as depicted in the trend analysis below. Of course, regular annual budget management to eliminate any actual equity reduction would occur in real time.

### **FY 2026**

A *millage neutral* operating budget in FY 2026 coupled with a projected 2% taxable value increase can allow for continued funding of asset maintenance and replacement while funding those programs and services enjoyed by an expanding population base. Once again, management of the budget will be important to achieve an appropriate beginning fund balance.

The following items were included in the FY 2026 budget analysis:

- Maintain general governmental capital projects recurring funding.
- Maintain General Fund support of EMS.
- Contingency reserves are maintained at policy.
- Maintain General Fund road subsidy.
- Maintain General Fund support for park system maintenance and replacement
- Maintain General Fund support for Transportation Operations expenses.
- Continue annual contribution to the long-term asset maintenance reserve.

The General Fund Trend Analysis model shown below is intended to offer a picture of very conservative revenue projections against operating and capital expenses which will likely be faced in the out years. Of course, the financial staff manages the budget in real time and will mitigate unplanned equity reductions. But imagine a scenario where major revenue sources like property taxes or state shared revenues were cut or reduced. The obvious impact would be subsequent expense reductions possibly coupled with newly adopted revenue sources and thus the need for budget flexibility.

### **Budget Review Process**

Department Heads prepare program and line item budgets based on adopted Board policy. Budget instructions provide details regarding the implementation of the policies such as proposed salary adjustments, internal service charges, etc. The OMB staff analyzes each submission for accuracy, content, and compliance with the previously determined priorities and policies.

Each Department Head is provided an opportunity to discuss and defend budget submissions to the County Manager. The County Manager makes the final decision for the recommended budgets presented to the Board of County Commissioners in June.

Budget work sessions with the Board of County Commissioners provide a forum for the discussion and finalization of spending plans, the establishment of proposed millage rates, and the finalization of the policy statements. In July, the maximum proposed millage rates are adopted based on the tentative spending plan and assessed taxable values provided by the Property Appraiser.

Public hearings are held in September to allow for citizen input. The final budget is adopted at the second hearing following a legal notice summarizing the proposed plan and tax rates.

### **Budget Amendment Process**

The Board of County Commissioners annually adopts the budget by resolution for all funds of the County. Budgetary authority is legally maintained at the fund level. However, the County's computerized financial system imposes budget controls for operating funds at the appropriation unit levels of the department.

Amendments to the adopted budget can occur at any time during the fiscal year through action of the Board or the County Manager in the following manner:

Fiscal Year 2024 59 Budget Summary

- 1. Budget Amendments: Fund revenue and expenditure amounts may be increased or decreased by formal action of the Board following proper public notice as specified in Chapter 129.03 (a) Florida Statute. Amendments to the adopted budgets normally result from either the desire to recognize anticipated revenue or the unanticipated decrease of anticipated revenue. The purpose of the amendment process is to adjust fund amounts to reflect the level of revenues reasonably anticipated to be received and to balance expenditures to these revenues in accordance with state law and sound financial practices.
- 2. Certain Budget Amendments in accordance with Chapter 129, F.S., require either a resolution that can be approved by the Board of County Commissioners (BCC) on the consent agenda or a resolution that can be approved by the BCC on the Summary Agenda after an advertised public hearing. To save staff time and significant advertising costs, OMB processes one consent resolution on the following agenda to cover all budget amendments that just needed a resolution on the prior agenda. Monthly, OMB processes a resolution and an advertised public hearing to cover all budget amendments that required an advertised public hearing for budget amendments from the past two agendas.
- 3. Budget Amendments for \$50,000 or less within the same fund and departments that do not affect revenues or reserves may be made administratively through County Manager approval. Budget Amendment requests under \$50,000 when moving dollars among departments or decreases to reserves equal to or less than \$25,000 that require individual Board action, but no executive summary (formal staff report) is presented twice monthly in a Budget Amendment report for approval. Budget Amendments requiring an executive summary and Board approval include withdrawals from reserves in excess of \$25,000; increase in an operating and/or capital budget over \$50,000; requests for new positions and/or programs; and appropriating supplemental revenues.

### **Basis of Accounting and Budgeting**

The basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. The County's accounting records and budgetary basis for general government operations are maintained on a modified accrual basis, with revenues being recorded when they are earned, and expenditures being recorded in the period incurred.

Accounting records and the budgetary basis for the County's proprietary funds (enterprise funds such as utilities and solid waste operations, and internal service funds such as fleet management and self-insurance funds) are maintained on a full accrual basis. Not only are expenditures recognized when commitments are made (i.e., through purchase orders) but revenues are also recognized when available and measurable (i.e., water and sewer fees are recognized as revenue when bills are produced). Depreciation expense is not budgeted; however, capital expenditure outlays are budgeted. These outlays are capitalized into fixed assets and eliminated from the results of operations in accordance with generally accepted accounting principles (GAAP).

The Comprehensive Annual Financial Report (CAFR) shows the status of the County's finances on a GAAP basis. In many cases, this conforms to the way the County prepares its budget. Exceptions are the treatment of depreciation expense (the budget reflects the full purchase price of equipment and capital improvements but does not reflect depreciation expenses). In addition, expenses for capital improvements in the proprietary funds are depreciated in the CAFR. Compensated absences (accrued but unused sick and vacation leave) are not budgeted but are reflected in the CAFR as an outstanding liability. The Comprehensive Annual Financial Report shows fund expenditures and revenues on both a GAAP basis and a budget basis for comparison purposes.

Finally, fund balance allocations (residual unappropriated liquid assets resulting from prior years' operations) are budgeted and included as revenue on a budgetary basis but are eliminated on a GAAP basis for financial reporting.

Fiscal Year 2024 60 Budget Summary

### **Adopted Budget Summaries**

Collier County prepares a Budget Summary based upon the actual operations of the County, i.e. Divisional/Agency. Summary information is provided for prior and current year adopted budgets. This tool allows management to focus on actual operating plans at a high level, monitor reserves and project cash balances for year-end.

A second Budget Summary, Comparative Revenues, Expenditures and Changes in Fund Balance by Functional Area for All Governmental Funds are prepared for Governmental Funds only. This summary is grouped by functional area for analysis on an annual basis. The highlight of this summary shows the actual fund balance as compared to the planned fund balance, in aggregate, for all Governmental Funds.

Finally, a third summary schedule is included that highlights the appropriations, by fund, compared to the prior year, and grouped by fund type.

| Fund Balance at 9/30 (Note 3)     | 1,140,468                  | 621,394                   | 493,950                   |

**Note (1):** This data comes from the Collier County Annual Comprehensive Financial Report (ACFR) and uses accrual-based accounting.

**Note (2):** As discussed in the Basis of Accounting and Budgeting section, the Finance Department maintains capital expenditures separate from the functional activities while budgeting applies the capital expenditure to the function it relates to.

**Note (3):** As discussed in the Estimated Changes in Fund Balance, Recommended Ending Fund Balance assumes all budgeted appropriations will be expended and only 95% of budgeted revenues will be received.

# Fund Structure, Fund Balance, and Description of Funds Subject to Appropriation

Fund balance (Net Position) represents the net financial resources of a fund – in other words, assets minus liabilities – in simpler terms, dollars available to spend. If some of the funds' resources are not available to spend, this would be indicated by "restricting" or "reserving" a portion of the fund balance.

The Governmental Accounting Standards Board (GASB) Statement Number 54, Fund Balance Reporting and Governmental Fund Type Definitions has been in effect for fiscal years beginning after June 15, 2010. The objective of this statement was to improve the usefulness and understandability of governmental fund balance information. GASB 54 classification is only required for governmental funds and therefore, no presentation is made for Proprietary or Agency Funds. All funds are appropriated annually except for Grant Funds, which are appropriated at the time grant awards are approved by the Board of County Commissioners. Collier County's funds can be divided into the following three categories: governmental, proprietary, and fiduciary.

A further designation is made between Major and Non-Major.

#### Major Funds and their descriptions are:

#### Governmental:

- **General Fund** is the largest operating fund of the County. It is used to account for all countywide general government activities and is supported principally by ad valorem taxes.
- Bayshore/Gateway and Immokalee CRAs are Community Redevelopment Agencies
  established for areas of the County to address the specific needs of those areas. The primary
  revenue source is the Tax Increment Financing (TIF) revenue transferred from the General Fund.

- Infrastructure Sales Tax Fund is used to account for receipt and expenditure of public infrastructure expenditures funded by the one-cent local government infrastructure surtax approved by the voters. Collection of the local option infrastructure one-cent sales surtax started on January 1, 2019, and will sunset on December 31, 2023.
- Grants and Shared Revenue Special Revenue Fund is used to account for the receipt and expenditure of federal, state, and local grants.

### Proprietary:

- Collier County Water and Sewer Fund is used to account for the day-to-day operating
  functions of the County's water collection, distribution, and sewer systems. Principal revenues
  are water and sewer user fees.
- **Solid Waste Fund** is used to account for the collection and disposal of the entire waste stream generated in Collier County. Landfill operations have been privatized through a contractual agreement with Waste Management, Inc. The principal revenue source is tipping fees.
- Emergency Medical Services Fund is used to account for the provision of emergency ambulance and paramedical services used throughout the County. Principal revenue sources are ad valorem taxes and ambulance user fees.

### Non-Major Funds include:

#### Governmental:

- **Special Revenue Funds** are used to account for the proceeds of specific revenue sources that are for specified purposes or are restricted in use.
- **Debt Service Funds** are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs. A brief discussion of each bond issue, repayments pledge, and date of final maturity follows.
- Capital Project Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities or improvements.
- Permanent Funds are used to account for resources that are legally restricted.

#### Proprietary:

- Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises. The intent of the governing body is that all costs of providing goods or services to the general public be financed or recovered primarily through user charges.
- **Internal Service Funds** are used to account for the provision of goods and services by the County departments providing services to other County operations.

#### Fiduciary Funds:

• Trust and Agency Funds are used to account for resources held for the benefit of parties outside of Collier County government. They are assets held in trust or for individuals, private organizations, other governmental units and/or funds to be used for special purposes.

For a complete listing of all Funds utilized by Collier County, their descriptions and the category they fall into, please see the Budget by Fund section.

Fiscal Year 2024 72 Budget Summary

### **Estimated Changes in Fund Balance by Fund Type**

The next several pages provide an estimate and a discussion of the budgeted fund balance for the County's Funds by fund type. Fund balances are the product of unspent amounts from prior years within a fund. Fund balances can be caused by timing issues (capital projects not completed when expected, unspent grant funds), excess planned revenues over planned expenditures, or they can be planned for, such as setting aside monies for future or contingent events. When developing a "balanced budget," available fund balances are combined with estimated revenues to comprise the total sources available to fund appropriations.

The budgeted year-end fund balance is determined by subtracting budgeted expenditures from the sum of the prior year-end fund balance plus budgeted revenue. The difference is the budgeted year-end fund balance. The budgeted year-end fund balance is then compared to the prior year-end budgeted fund balance to determine the change in fund balance.

The budget-based approach discussed above assumes 100% of budgeted appropriations will be expended and only 95% of budgeted revenues will be received. Collier County has a history of conservative budget management practices and, as a result, actual expenditures incurred are typically less than the amount budgeted. Similarly, actual revenue received can trend above 95% of the budgeted amount. The budget is routinely managed during the course of any fiscal year to ensure that sufficient beginning actual cash is available and sized around policy objectives.

There are two summary documents for this section. The first summary provides an overview of the changes in fund balance, including beginning fund balance, estimated revenues and other financing sources, expenditures and other financing sources/uses and then budgeted (recommended) ending fund balances for all fund types. The ending fund balances are presented by undesignated reserves, designated reserves, and cash flow reserves. Undesignated reserves are the County's reserve for contingencies. Designated reserves are made up of reserves for debt service, disasters, capital, and actuarial insurance reserves. The cash flow reserve is established to fund beginning-of-the-year operations, as a large part of County revenues are received a few months after the start of each fiscal year.

#### BUDGETED SUMMARY OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE BY FUND TYPE AND FUNCTIONAL ACTIVITY AREA FOR ALL FUNDS FISCAL YEAR 2024

(amounts expressed in thousands)

<sup>(1)</sup> General Fund Grouping includes the County-wide General Fund, Constitutional Officers General Funds, Affordable Housing Deferrals, Misc Florida Statute, Emergency Relief and Economic Development Funds.

<sup>(2)</sup> Designated reserves include a budgeted negative reserve for payroll attrition savings.

The second summary document provides an overview of all County Funds by type with an analysis of the change in fund balance. As discussed above, the County practices conservative budget management and, in order to present a reasonable analysis, the prior and current year planned fund balances are compared.

The following chart shows the budgeted change in Fund Balance from FY 2023 to FY 2024 along with a discussion of the significant changes.

| SUMMARY OF CHANGES IN BU         | DGETED   | ENDING    | FUND B | ALANCE   | S             |              |              |                 |           |

**Major Governmental Funds:** Fund balance decreased by \$31.2 million or 10% and includes the General Fund Grouping, Immokalee Community Redevelopment Area (CRA), Bayshore CRA, Grants & Shared Revenue, and Infrastructure Sales Tax.

- **General Fund Grouping:** Fund balance increase of \$3.0 million or 4% is primarily attributable to an increase in the reserve for cash flow which preserves the beginning cash balance needed at the start of the fiscal year.
- Immokalee CRA: Fund balance remained the same.
- Bayshore CRA: Fund balance increase of \$14 thousand or 88% is attributable to increasing the reserve for contingencies.
- **Grants & Shared Revenue:** Fund balance increase of \$340 thousand or 14% is attributable to increasing restricted reserve for unfunded requests.
- Infrastructure Sales Tax: Fund balance decreased by \$34.6 million or 14% which is attributable to decreasing the capital reserve. Projects were approved by the infrastructure committee and contracts were awarded which decreased the reserves and moved the funds into the appropriate project.

**Non-Major Aggregate Governmental Funds:** Fund balance decreased by \$96.3 million or 32% and this aggregate grouping includes Capital Projects, Debt Service, Special Revenue, and Permanent Funds.

- Capital Projects Funds: Fund balance decreased by \$46.7 million or 39%.
  - The reserve for capital outlay decreased by \$13.0 million in Stormwater CIP Bond Fund (327/3052), the capital cost recovery reserve in County-Wide Capital Fund (301/3001) for future asset maintenance obligations decreased by \$13.3 million and Road Impact Fee reserves to fund future projects decreased \$16.1 million.
- **Debt Service Funds:** Fund balance decreased by \$4 thousand or 0.1%.
- Special Revenue Funds: Fund balance decreased by \$49.7 million or 29%.
  - TDC Beach Renourishment & Inlet Management Fund (195/1105) reserves decreased by \$24.8 million which funds future beach renourishment projects.
  - Conservation Collier Maintenance Fund (174/1062) reserves decreased \$30.7 million. Reserves were decreased and the transfer to the General Fund (001/0001) increased.
  - Golden Gate City Economic Development Zone Fund (782/1032) reserve increased by \$2.0 million due to an increase in taxable value. This reserve can only be disbursed upon Board approval consistent with the Economic Development Plan.
- **Permanent Funds:** Fund balance increased by \$170 thousand 3%.

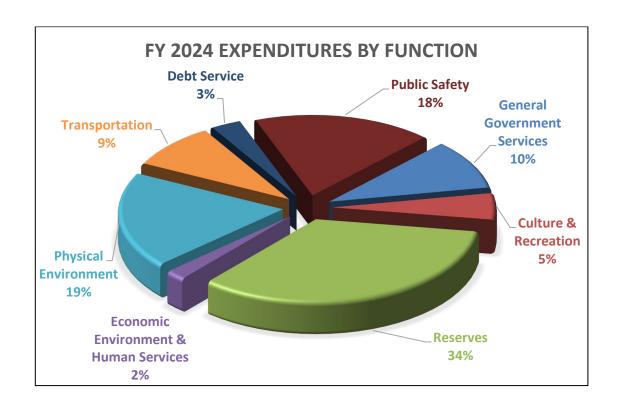

**All Other Proprietary Funds:** Fund balance decreased by \$5.3 million or 3% and include an aggregate of the following with changes of note:

- Enterprise Funds: Fund balance increased by \$7.2 million or 6%.
  - Airport reserves for contingencies and capital increased by \$2.1 to fund capital and operating priorities.
  - EMS fund balance increased by \$1.2 million primarily due to a decrease in capital reserves.
  - The Solid Waste Fund Series decreased by \$7.6 million primarily due to disaster relief reserves being utilized to recover from Hurricane Ian.
  - Water/Sewer reserves increased by \$11.5 million primarily due to an increase in reserve for capital outlay.
  - Mass Transit reserves remained relatively stable.
- Internal Service Funds: Fund balance decreased by \$1.9 million or 4%.

### **Major Areas of Spending**

The following table and graph depict the major functional areas of spending within the Collier County budget:

| Functional Area                | FY | 2024 Adopted<br>Budget | Percent of Total<br>Adopted Budget |
|--------------------------------|----|------------------------|------------------------------------|
| General Government Services    | \$ | 198,843,000            | 10%                                |
| Public Safety                  |    | 359,256,900            | 18%                                |
| Physical Environment           |    | 379,095,700            | 19%                                |
| Transportation                 |    | 183,856,500            | 9%                                 |
| Economic Env. & Human Services |    | 37,658,800             | 2%                                 |
| Culture & Recreation           |    | 104,830,500            | 5%                                 |

#### **General Government**

The Legislative, Executive, Financial, Administrative, Judicial and Planning branches of Collier County provide services in this functional area for the benefit of the public and the governmental body as a whole. The major areas are the Board of County Commissioners, Tax Collector, Property Appraiser, Clerk of Courts, Supervisor of Elections, County Manager, County Attorney, Judicial Branch, County Administrative Services Department, and Comprehensive Planning. General Government amounts to \$199 million, comprising 10% of the entire County net budget. The General Government budget decreased by 0.8% or approximately \$1.5 million dollars. Major decreases are seen in court maintenance, multiple County-wide capital projects, and motor pool capital.

#### **Public Safety**

Collier County provides services in this functional area for the health, safety and welfare of citizens and property. The major areas included are the Sheriff's Office, the 800MHz Radio System Operations, Medical Examiner, Emergency Medical Services (EMS), Building Review/Permitting and Code Enforcement. Public Safety amounts to approximately \$359 million, consuming 18% of the FY 2024 County net budget, as this sector of spending remains a priority for Collier County. The public safety budget increased 8.6% or approximately \$28.6 million dollars. Major increases are seen in the Sheriff's Office (Detention & Correction and Law Enforcement programs); Emergency Medical Services, as our population grows, so the need for medical services; and the 800 MHz Upgrade, the most recent upgrade occurred in 2018.

#### **Physical Environment**

Services in this functional area provide for safe, healthy, and aesthetically clean-living conditions through management of various elements of the environment. The Water & Wastewater Divisions, Solid Waste Division, Pollution Control Division, Stormwater Management Division, Conservation Collier, and Beach Renourishment/Pass Maintenance activities provide most of these services. Physical Environment amounts to approximately \$379 million, comprising 19% of the FY 2024 County net budget. The Physical Environment budget increased 14.4% or approximately \$47.8 million dollars. Major increases are due to:

- Park Shore Beach Renourishment and Vanderbilt Beach Renourishment Maintenance Projects
- Landscaping improvements for the Vanderbilt Beach MSTU.
- Pelican Bay Sidewalk Replacements and administration building remodeling.
- Increases in chemicals, electricity, bulk water, utility parts, property insurance, fuel, emergency repairs and other contractual services for the Water and Wastewater Divisions.
- Naples Park Area Improvements Project.
- Engineering fees for the Naples Park Basin Optimization, Palm River, and North County Water Reclamation Facility Projects.
- Landfill Contract for the Solid Waste Disposal.
- Mandatory residential collection contract increased due to CPI, increased disposal costs, and more housing units.

#### **Transportation**

- This functional area includes maintenance, administration, planning, and construction for Collier County's transportation network. Other areas included are airports, MSTU improvement districts, and operating the public transit system. Transportation increased 53% or approximately \$63.7 million dollars over the last year. Transportation amounts to \$183.8 million which is 9% of the County net budget. Major increases are due to:
- 17 new FTE's and 2 Boom Mowers for the Swale Maintenance Program.
- Bayshore North Landscape
- Maintenance of aesthetics and vegetation on improved medians and right of way.
- Road resurfacing.
- Vanderbilt Beach Road, from 16th Street NE to Everglades Project.
- CR 951, Golden Gate Boulevard to Green Boulevard Project.
- Increase in aviation fuel due to increases in the Jet A and AvGas volumes. This additional expense is partially offset by an increase in projected fuel sales.

#### **Economic Environment and Human Services**

Services that develop, diversify, expand, and improve the economic condition of the county and its citizenry through job and associated revenue creation are classified as Economic Environment. These services are provided by the County Manager's Agency in conjunction with the Collier Economic Development Office (Collier EDO); also included in this grouping are the Immokalee and Bayshore/Gateway Triangle Community Redevelopment Agencies (CRA's), Ave Maria Innovation Zone and the Veterans Services Department.

Human Services include health and welfare services provided primarily by the Collier County Public Health Division, Domestic Animal Services, and the Community and Human Services Division.

These sectors combined increased 41.1% or approximately \$11 million dollars over last year. Economic Environment and Human Services are approximately 2% of the total County net budget. Major increases are due to:

- Increase in temporary labor for the Domestic Animal Services Division in order to keep clean and sanitize animal holding areas.
- Increase in the County Medicaid portion of almost 20% compared to last year. This payment goes directly to meet community healthcare needs.
- \$2,065,400 for the Agency for Health Care Administration.
- \$7,000,000 in remittances for the Great Wolf Lodge Water Park Project.

#### **Culture & Recreation**

This functional area includes the provision and maintenance of cultural and recreational facilities and activities for the citizens and visitors of Collier County. Included are the Parks and Recreation Division, the Public Library system, Collier County Museums, and the Tourist Development Division. An increase in funding over the prior year of 7.9% or \$7.7 million brought the total budget to \$104.8 million for this functional area. Culture & Recreation functions represent 5% of the total County net budget. Major increases are due to:

- Increase in utilities, maintenance and temporary labor cost for the Parks and Recreation Division.
- Increase in utilities, the new Integrated Library System, and digital materials for the Library Division.
- Marketing to promote Naples as a tourism destination increased by 25% from prior year.
- Maintenance and contractual services for the Sports Complex increased by 29% from prior year. This additional expense is partially offset by an increase in projected revenue.

#### **Debt Service**

Debt Service is the payment of principal and interest on long term debt instruments. Debt service budgets in FY 2024 total \$66.7 million or 3% of the total County net budget. This area increased by 224,200 due to:

- Principal payment of the Gas Tax Revenue Ref Bonds 2014.
- Interest payments for the Commercial Paper Loan A2 and A3; proceeds were used to finance capital improvements within the Pelican Bay MSTU and the construction of Vanderbilt Beach Road Extension, respectively.

#### Reserves

The levels of reserves budgeted are set by Board policy, state law, and bond or debt covenants. Current Board policy dictates that reserves be set at a minimum of 2.5% of operating expenses. By State Statute, reserve for contingencies cannot exceed 10%. Similarly, the Cashflow reserves should not exceed 20%.

Budgeted reserves of \$664.9 million account for 34% of the total FY 2024 County net budget. Appropriations in this area decreased by \$122.2 million or 15.5% from prior year. The largest decreases were due:

- Decrease in the reserve for disaster relief in the Solid Waste Capital Fund, due to funds being utilized for Hurricane lan and debris pick up.
- Decrease in the reserve for insurance in the Property & Casualty Fund.
- Decrease in the reserve for capital in the Stormwater CIP Bond Fund, as stormwater capital projects were awarded, and funding was moved from capital reserves into the appropriate project.

Highlighted Summary Changes Between FY 2024 Tentative (July) Budget and the September 7<sup>th</sup> Adopted Tentative Budget

### SUMMARY OF CHANGES TO THE FY 2024 TENTATIVE BUDGET

#### NET CHANGE TO

| FUND TITLE/(NUMBER)  | FUND TOTAL      | EXPLANATION   |
|--|-----------------|---|
| General Fund (001/0001) Major funding sources are Ad Valorem, Half Cent Sales Tax, and State Revenue Sharing           | \$ 10,000,000   | On the revenue side, FY 23 forecasted loan to FEMA Fund (727/1813) decreased by \$10,000,000 which increased the FY 24 Carryforward by \$10,000,000. On the expense side, an increase of \$10,000,000 to reestablish the loan to FEMA Fund (727/1813) in FY 24, an increase of \$1,033,700 for items on the Unfunded Request List for Parks & Recreation, Libraries, Domestic Animal Services and Museums per Board direction on 08/08/2023, an increase of \$353,600 less \$7,000 for attrition for the FY 23 transfer and reclassification of positions to the Growth Management Department for Community Planning & Resiliency and Housing Policy and Economic Development, and a reduction of \$1,665,000 in the transfer to County-Wide Capital Fund (301). The net effect of these changes increased Contingency Reserves by \$284,700. |
| Economic Development Fund<br>(007/0004)<br>Major funding sources<br>Intergovernmental Revenues from the<br>State       | \$ 306,100<br>e | On the revenue side, Carryforward was increased by \$306,100 due to receipt of a distribution in FY 23 from the Florida Gaming Commission as a result of the Compact between the Seminole Tribe and the State of Florida. Expenses were adjusted by a like amount.  |
| Tax Collector Fund (070/0070)<br>Major funding sources are<br>Commissions  | \$ 34,045,300   | Adjustment reflects proposed budget submitted by the Tax Collector to the Department of Revenue pursuant to state statutes on August 1, subsequent to the development of the FY 24 (July) Tentative Budget.   |
| Unincorporated Area General<br>Fund (111/1011)<br>Major funding sources is Ad<br>Valorem                               | \$ 0            | Addition of Unfunded Request List items per Board direction 8/8/2023 include \$300,000 in Planning Studies/Amendments and \$648,000 for the Parks and Recreation Division. Reserves were decreased by \$948,000.  |
| Palm River MSTU Fund (1638) Major funding sources are ad valorem taxes.  | \$ 79,700       | Taxable value increased resulting in additional revenue totaling 83,900 less the 5% revenue reserved of \$4,200. On the expenditures side Other Contractual Services increased by \$73,400 and transfers to the Property Appraisal and Tax Collector increased by \$6,300 collectively.   |
| County Museums Fund (198/1107)<br>Major source of funding is from TDC<br>taxes   |                 | Addition of Unfunded Request List items per Board direction on 8/8/2023.  |
| County-Wide Capital Program<br>Fund (301/3001)<br>Major source of funding is a transfer<br>from the General Fund (001) | \$ 13,335,000   | On the revenue side, the FY 23 forecast for the loan to the FEMA Fund (727/1813) was reduced by \$15 million which increased the FY 24 Carryforward by the like amount, and the transfer from the General Fund (001/0001) was reduced by \$1,665,000. On the expenditure side, the FY 24 loan to the FEMA fund was increased by \$15 million and the Reserve for future capital replacements was reduced by \$1,665,000.  |

### Revenues

The information contained on the following pages is included in this document to provide the reader with an overview and multi-year perspective of the major revenue sources used to support the Collier County budget. The following graph illustrates the major revenue sources and their relationship to the Collier County net budget exclusive of carryforward and the statutory required revenue reserve.

| <u>Description</u>  | <b>Budgeted Amount</b> |
|---|------------------------|
| Current Revenues  |                        |
| Ad Valorem  | \$ 554,728,300         |
| Gas / Sales Tax   | 74,603,100             |
| Infrastructure Sales Taxes                                  | 30,313,400             |
| Permits / Assessments / Fines                               | 78,272,200             |
| Intergovernmental Revenues                                  | 17,532,100             |
| Service Charges   | 346,953,400            |
| Interest/Miscellaneous                                      | 17,634,900             |
| Impact Fees   | 59,868,000             |
| Loan & Bond Proceeds  | 4,004,000              |
| Revenue Reserve Required by Law                             | (58,374,900)           |
| Sub-total Current Revenues                                  | \$ 1,125,534,500       |
| Carry forward   | 869,643,000            |
| Net Total County Revenue Budget                             | \$ 1,995,177,500       |
| Transfers – Constitutional Officers and Board               | \$ 288,662,600         |
| Transfers from General Fund (001)                           | 167,778,200            |
| Transfers from County Water / Sewer (408)                   | 59,934,200             |
| Transfers from Other Funds                                  | 208,789,700            |
| Health / Dental / Life / Disability / WC Insurance Billings | 50,771,200             |
| Property and Casualty Billings                              | 14,469,600             |
| Fleet and Fuel Billings                                     | 23,229,400             |
| Other Internal Billings                                     | 40,127,000             |
| Sub – Total Internal Money Shifts                           | \$853,761,900          |
| Gross Total County Revenue Budget                           | \$ 2,848,939,400       |

Because the budget must adhere to Federal, State, and local statutes as well as generally accepted accounting principles that apply to fund accounting, the gross county budget includes double counts or internal money shifts. These double counts or internal money shifts occur wherever an amount of money is received into one fund and then expended to another fund where the final expense is recorded. The net budget eliminates these double counts or internal money shifts.

#### **Property Taxes**

The County's largest source of operating revenue is the property or "ad valorem" tax. This tax is based on the value of all land and buildings (real property) as well as business equipment and machinery (tangible personal property) within the County as determined by the Property Appraiser. By state law, the appraised value must equal the full market value of the property. Property taxes are based on the taxable value (assessed value minus any applicable exemptions). The most common exemption is the "Homestead Exemption" which entitles permanent Florida residents owning the property in which they reside an exemption of up to \$50,000 on the assessed value of their property (residents only receive a \$25,000 exemption applied to Public School Board taxes). There are a number of other limited special exemptions based upon certain qualifying events. The most notable class of tax exemption are those applying to senior citizens age 65 and older.

The County levies property tax on a countywide basis to support general government services in the General Fund (001/0001), pollution control programs in the County Pollution Control Fund (114/1017) and land preservation in the Conservation Collier Fund (172/1061). On November 3, 2020, the Collier County electors approved a referendum to reestablish a not to exceed .25 mil ad valorem levy for ten (10) years to fund Conservation Collier's acquisition and management of environmentally sensitive lands.

The County also levies property taxes in special taxing districts known as MSTU's (Municipal Services Taxing Units), which are created to provide municipal type services to areas not within a city. The Unincorporated Area General Fund is the County's largest MSTU. It covers all unincorporated areas of the County and provides such services as planning and zoning, code enforcement, parks and recreation, road maintenance, landscaping operations and natural resources programs. Smaller district specific MSTU's provide such services as street lighting, drainage improvements, median beautification, and community centers. Other taxes levied through the County's principal taxing authority include dependent fire district taxes. The MSTU's provide "tailor-made" government services, whereby only those directly benefiting pay for extraordinary service levels.

The general indicator of total property tax burden levied by Collier County and all special and dependent districts is the aggregate millage. The aggregate millage is the total of all non-voted ad valorem taxes to be levied by the principal taxing authority (the County) and all special and dependent districts (exclusive of debt service levies) divided by the countywide Gross Taxable Value for Operating Purposes. This millage equivalent combines the various millage rates for the numerous special and dependent districts into a county millage figure.

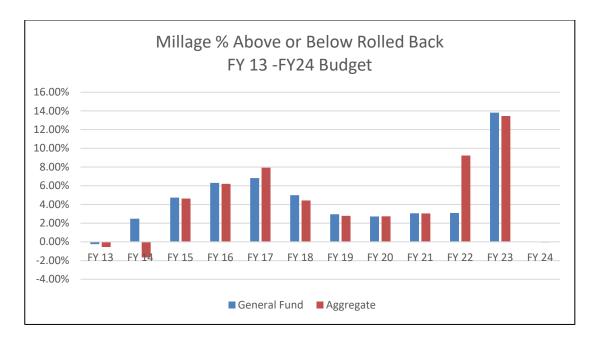

Section 200.065 (1) Florida Statutes (adopted in 1980) dictates to local governments the calendar and process for adopting millage rates. This section is commonly referred to as "Truth in Millage" or "TRIM," and establishes the statutory requirements that all taxing authorities levying a millage must follow, including all notices and budget hearing requirements. This law is designed to inform taxpayers which governmental entity is responsible for the taxes levied and the amount of tax liability owed to each taxing authority through the issuance of the Notice of Proposed Taxes ("TRIM notice"). The TRIM notice enables the taxpayer to compare the prior assessed value and taxes with the current year assessed value and proposed taxes. It also lets the taxpayer compare the amount of taxes if there is no budget change for the upcoming year. The notice also lists the date, time, and location of all budget hearings at which the taxing authorities will hear from the public. At these hearings, the taxing authorities establish the millage to be levied against the parcel of land shown on the TRIM notice. The notice also shows the deadline for filing a petition to protest the assessment and any denial of exemptions.

The law further requires local governments to compare proposed millage rates with "rolled back rates," rates that would generate the same tax revenue as the prior year, exclusive of new construction. The Florida Department of Revenue monitors compliance with the TRIM law.

#### Millage History

The schedule and graph below show the percentage increases above or below the rolled back millage rates for both countywide and aggregate taxes from FY 13 through FY 24. (Note: A "mill" is equivalent to one dollar per thousand dollars of taxable property value). In FY22, a voter approved tax of .2500 mills for the reinstated Conservation Collier Program drives the aggregate increase.

|    |           | General | Fiscal |
|----|-----------|---------|--------|
| е  | Aggregate | Fund    | Year   |
| 6) | (0.56%)   | (0.25%) | FY 13  |

|    |           |         |        |
| (  | 13.45     | 13.81%  | FY 23  |

Florida law prohibits millage rates for county services from exceeding 10 mills. Municipal services provided through MSTU have a similar 10-mill limit. Voter approved millage rates specifically for debt service are excluded from these limits. As the tables on the following pages show, the County has kept the General Fund millage rate well below the 10-mill cap.

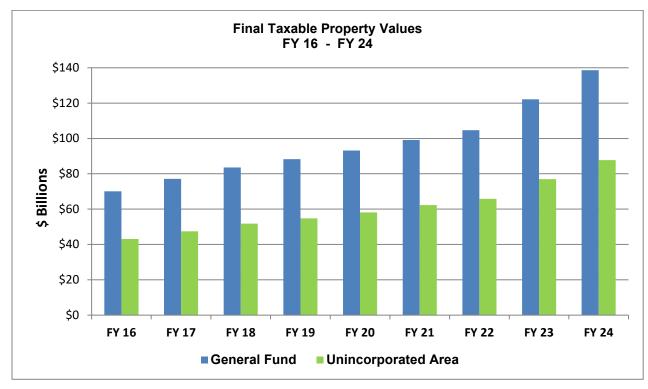

The County has historically collected over 96% of ad valorem taxes levied. For FY 2024, taxes become due and payable in November 2023 with the tax considered delinquent if not paid by April 1, 2024. State law allows for a discount of up to 4% for early payment of taxes (November 4%, December 3%, etc.), thus, this collection rate indicates an excellent record.

The enactment of Constitutional Amendment #10, Article VII, Section 4, was designed to protect homeowners from being taxed out of their homes due to rising property values. It limits increases in homestead property valuations for ad valorem tax purposes to a maximum of 3% annually. The constitutional amendment resulted in a dramatic shift in property tax burden from residential homestead property to non-homestead properties such as businesses, vacant lots, vacation homes, and rental properties. Property is reassessed at current market value upon change of ownership and may result in a major increase in the tax bill. Portability, which went into effect for 2008, allows homestead property owners to apply for a transfer up to \$500,000 of "Save Our Homes" exempt value to their next homestead property.

| Mosquito Control                | 0.1443       | \$ 14.43     |
| Fire Control                    | 1.3714       | \$ 137.14    |
| MSTU's (County levied)          | 1.6453       | \$ 164.53    |
| Total Ad Valorem Taxes          | 11.1004      | \$1,110.04   |

#### **Other Major Funding Sources**

Major funding sources other than property taxes include carry forward, internal services/transfers, bond/loan proceeds, sales tax, state revenue sharing, gas taxes, local option infrastructure sales tax, impact fees, tourist development tax and service charge/enterprise revenues.

Projections of FY 2024 intergovernmental revenues (primarily gas and sales taxes) were based on an analysis of historical monthly receipts of these revenue sources and were compared to forecasts provided by the Florida Department of Revenue. In addition, the forecast was analyzed in the context of current economic trends. OMB staff monitors revenues (major intergovernmental revenues, enterprise fund revenues, and impact fees) on a monthly basis to identify both current revenue conditions and the potential need for budgetary adjustments.

#### **Carry Forward**

Carry Forward (Fund Balance) is an estimate of the excess of revenue above expenses from the previous fiscal year and available for use as a funding source in the succeeding fiscal year. Carry forward is a significant source of funds in the County budget, amounting to 30.53% of total gross revenues.

Carry Forward revenue represents not only operating funds but also previously budgeted operating, debt service, and capital reserves that are "carried forward" to fund these same reserves in the new year or to fund capital projects in the current or future years. The largest sources of carry forward are the capital, debt service, and enterprise funds. In the General and MSTD General Funds, adequate carry forward/fund balance is maintained to provide cash flow for operations prior to the receipt of ad valorem taxes and other general revenue sources.

#### Bond/Loan Proceeds, Interest and Miscellaneous Revenue

Bond/Loan proceeds, interest, and miscellaneous revenues amount to 0.76% of gross county revenues or \$21,638,900.

| (000's) Omitted   | FY 16   | FY 17   | FY 18   | FY 19    | FY 20    | FY 21    | FY 22    | FY 23    | FY 24    |
|---|---------|---------|---------|----------|----------|----------|----------|----------|----------|

The above amounts reflect the adopted budget

#### **State Shared Revenues**

State shared revenues are comprised of the Local Half-Cent Sales Tax and State Revenue Sharing. OMB staff maintains a database of monthly receipts from these two sources and applies trend analysis in making revenue forecasts. The Florida Department of Revenue projections are also considered in the budget projections proposed by OMB.

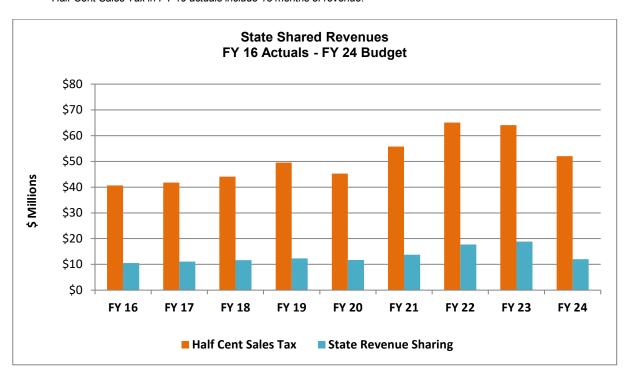

The Local Half-Cent Sales Tax is collected and distributed by the Florida Department of Revenue to counties and municipalities. All city and county governments share the proceeds based on a specific redistribution formula. Local regular half cent sales tax revenue is the largest non-property tax general governmental revenue source in the General Fund and may be used for any lawful purpose. Collier County deposits the proceeds of this tax into the General Fund to fund general government operations.

The State Revenue Sharing Act of 1972 established trust funds for certain State levied tax monies to be shared with counties and municipalities. The sources of these funds are cigarette taxes and state sales and use tax collection. An allocation formula distributes these revenues to each county that meets strict eligibility requirements. Funds are distributed among counties based on a weighted average of proportionate county populations, unincorporated area populations, and sales tax collections. The State Revenue Sharing money has no use restrictions other than some statutory limitations regarding funds that can be used as a pledge for indebtedness. Collier County uses these funds for general government functions in the General Fund. For FY 24, the County is expected to receive a total of \$12,000,000 in State Revenue Sharing proceeds.

#### **Collier County Local Option Infrastructure Sales Tax:**

The infrastructure one-cent sales surtax was passed by voters in to enhance safety, mobility, and hurricane preparedness in Collier County and its cities by constructing, repairing, and maintaining roads, bridges, signals, sidewalks, parks, evacuation shelters, governmental and emergency services facilities; acquire land and support construction for workforce housing and career and technical training, veteran's nursing home and expand mental health facilities. The collection of the one-cent sales surtax started on January 1, 2019, and will be sunseting on December 31st, 2023, since the 490 million have been collected. Ordinance 2018-21, Exhibit A (approved by the BCC on April 24, 2018) is a list of eligible projects.

Fiscal Year 2024 93 Budget Summary

<sup>\*\*</sup> FY 24 – estimates provided by the Florida Department of Revenue's Office of Tax Research. These figures represent 3 months as the infrastructure sales taxes will sunset on December 31, 2023.

#### **Collier County Gas Tax Revenue**

Gas taxes are a major source of revenue funding the County's road construction program and for the payment of debt. The County is using the proceeds of the Local Option Gas Tax (five cents per gallon), the Constitutional Gas Tax (20% and 80% portions), Old Local Option Gas Tax (six cents per gallon), the County 7<sup>th</sup> Cent Gas Tax, and the balance of the County 9<sup>th</sup> Cent Voted Gas Tax to fund road capital improvements and debt service payments. OMB staff maintains a database of monthly receipts from each individual gas tax and applies trend analysis in making revenue forecasts. The County budgeted FY 24 gas tax at \$22,603,100. The State of Florida's Department of Revenue's Office of Tax Research provides FY 24 gas tax estimates, and these estimates are considered as budget projection proposed by OMB.

FY 16 to FY 23 amounts are actual collections--FY 24 is budget amount.

\*FY 19 actuals include 13 months of revenue.

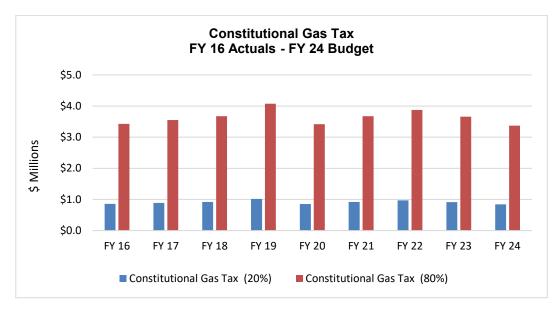

#### **Local Option 6 Cents Gas Tax**

The 6 Cent Local Option Gas Tax is collected by the State on behalf of Collier County, the City of Naples, the City of Marco Island, and Everglades City on each gallon of motor fuel and special fuel sold in the County, with municipal shares based on their transportation expenditures over a five-year period relative to such expenditures of the County. The County's share (effective January 2014) of proceeds is 85.48% based on the transportation expenses incurred during the period from FY 08 through FY 12. On July 12, 2022, the Board of County Commissioners adopted Ordinance No. 2022-31 extending the levy of an additional six-cent local option gas now expiring on December 31, 2055. In FY 24, the County anticipates receiving \$8,295,600 from this revenue source and will utilize the proceeds for debt service payments and other allowable transportation related expenses.

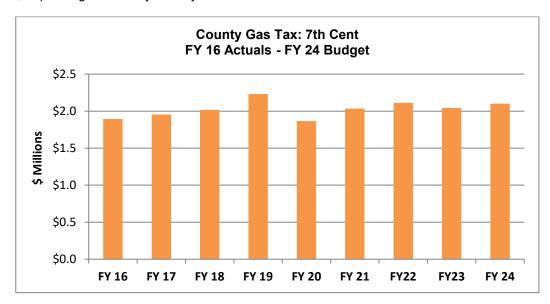

#### Constitutional Gas Tax 20% and 80%

Revenues from the Constitutional Gas Tax are collected by the state as a two-cent tax on each gallon of motor fuel and special fuel sold, in accordance with Article XII, Section 9(c) of the Florida Constitution. The state allocates 80% of this tax to counties after first withholding amounts pledged for debt service on bonds issued pursuant to provisions of the State Constitution for road and bridge purposes. Collier County anticipates receiving \$3,369,100 from the 80% portion and \$842,200 from the 20% portion in FY 24 and will utilize the proceeds to support the road construction program.

#### County 7th Cent Gas Tax

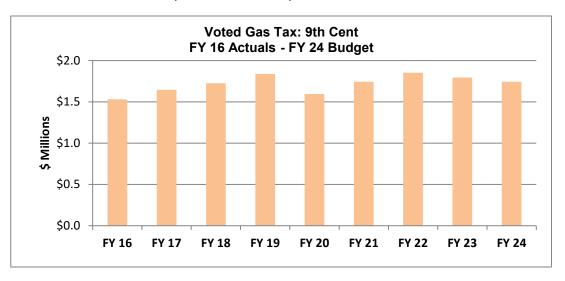

Funds for the County Gas Tax are collected by the state as a one-cent tax on each gallon of motor fuel and special fuel sold in accordance with Section 206.60 of the Florida Statutes. Collier County anticipates receiving \$2,100,000 from this revenue source in FY 24 and will utilize the proceeds for debt service payments, depositing the money directly into the debt service fund.

Fiscal Year 2024 95 Budget Summary

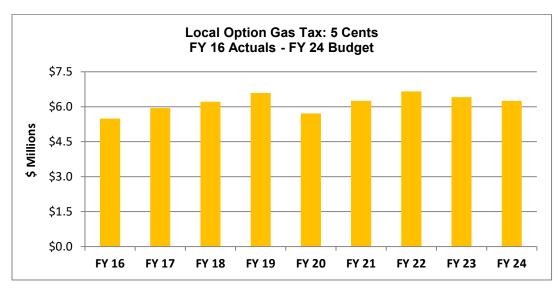

#### County 9th Cent Gas Tax

The County 9th Cent Gas Tax is collected by the State on behalf of Collier County as a one-cent tax on each gallon of motor fuel and special fuel sold in the County and taxed under the provisions of Section 336.02, Florida Statutes. The electorate of Collier County voted at a referendum held on March 11, 1980 to impose this additional fuel tax for the purpose of paying the cost of acquisition, construction and maintenance of roads and streets. On July 12, 2022, the Board of County Commissioners adopted Ordinance No. 2022-32 extending the levy of an additional ninth-cent local option gas tax now expiring on December 31, 2055. In FY 24, there is \$1,744,100 budgeted from this revenue source and will utilize the proceeds for debt service payments and other allowable transportation related expenses.

#### **Local Option 5 Cents Gas Tax**

The Florida Legislature, in special session in 1993 amended section 336.025, Florida Statutes to provide for the levy of an additional local option gas tax on motor fuel. On July 12, 2022, the Board of County Commissioners adopted Ordinance No. 2022-30 extending the levy of an additional ninth-cent local option gas tax now expiring on December 31, 2055. This tax is expected to generate \$6,252,100 in FY 24 and will be used for debt service payments and other allowable transportation related expenses. The County's share (effective January 2014) of proceeds is 85.48% based on the transportation expenses incurred during the period from FY 08 through FY 12 relative to those incurred by the three municipalities in Collier County during the same period.

#### **Collier County Impact Fees**

Collier County has adopted the use of impact fees as the funding source for capital improvements associated with new development. Impact fees are currently collected for road improvements, parks, libraries, emergency medical services, water and sewer services, correctional facilities, law enforcement facilities, fire, and government facilities. Each impact fee is set by ordinance after a thorough rate study. Revenue estimates for each impact fee are based on analyses of historical trends and overall economic conditions. In general, impact fee collections show a history of significant fluctuations corresponding to building industry trends, general economic conditions and the type of permit issued (i.e. residential, commercial, industrial).

Total impact fee collections (all sources) are estimated to be \$59,868 in FY 24.

FY 16 to FY 23 amounts are actual collections--FY 24 is a budget amount.

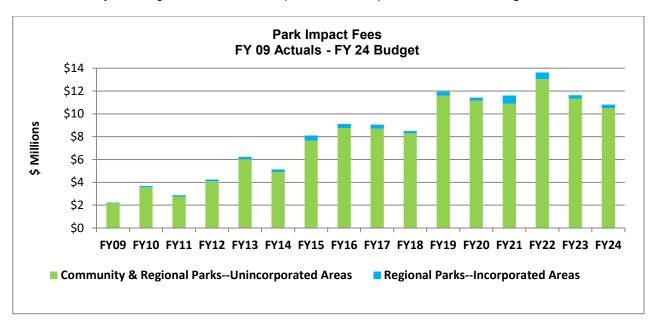

#### **Road Impact Fees**

Road Impact Fees are collected from six separate road-planning districts within the County. The funds are used on road projects that benefit the individual districts or provide overall transportation network improvements that benefit the districts. Annual collections of this revenue source have in the past shown large fluctuations due to year-to-year variations in construction activity, thus, they are difficult to project with a great deal of certainty. In addition, (starting in FY 03) upon approval of a site development plan, developers of Planned Unit Developments (PUD's) were required to pay 50% of the total estimated road impact fees up front (COA-Certificate of Adequacy Public Facilities). In FY 09, 50% upfront money (COA) was reduced to 20% per year for 5 years. In FY 20, the law changed (163.31801(3)(e) Florida Statutes) where the County could no longer request upfront (COA) funding. In FY 24, road impact fee revenue is budgeted at a total of \$24,984,000.

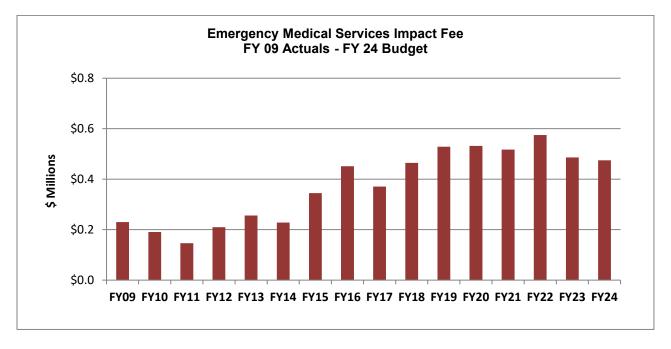

#### **Park Impact Fees**

Parks capital improvements were likewise categorized into regional and community park projects. Beginning in the third fiscal quarter of FY 99, impact fees were categorized as Regional Parks – Incorporated Areas and Community and Regional Parks – Unincorporated Area. Parks impact fees are assessed only on residential construction. For FY 24, Regional Parks - Incorporated Areas impact fee revenue is estimated to be \$300,000, while Community and Regional Parks - Unincorporated Area impact fee revenue is budgeted at \$10,500,000.

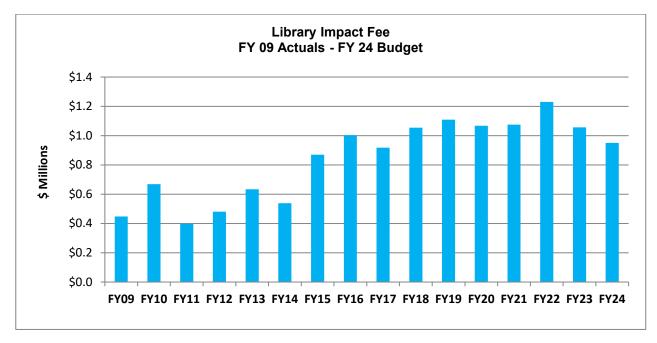

#### **EMS Impact Fees**

Emergency Medical Services (EMS) Impact Fees were originally implemented in FY 92 and are used to fund growth driven EMS facility and equipment needs. For FY 24, EMS impact fee revenue is budgeted at a total of \$475,000. EMS impact fee revenue is particularly sensitive to the types of permits issued.

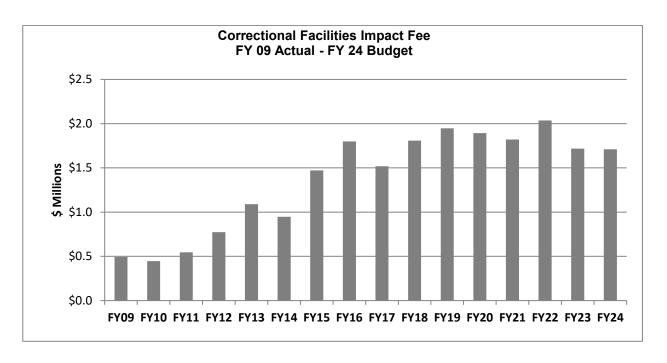

#### **Library Impact Fees**

Library Impact Fees are used to fund growth related facility additions and expansions, as well as the acquisition of library materials necessary to maintain a 1.87 books per capita ratio. Library Impact fee is assessed only on residential construction. For FY 24, there is \$950,000 budgeted for library impact fee revenue.

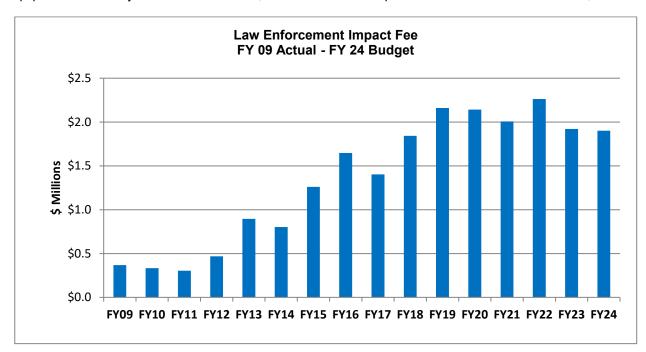

#### **Correctional Facilities Impact Fee**

The Correctional Facilities Impact Fee was implemented in FY 99 and is used to fund growth driven jail facility expansion/additions. For FY 24, there is \$1,710,000 in budgeted Correctional Facilities impact fee revenue. Actual revenues received are highly variable based on the types of commercial buildings permitted in a given year.

#### **Law Enforcement Impact Fee**

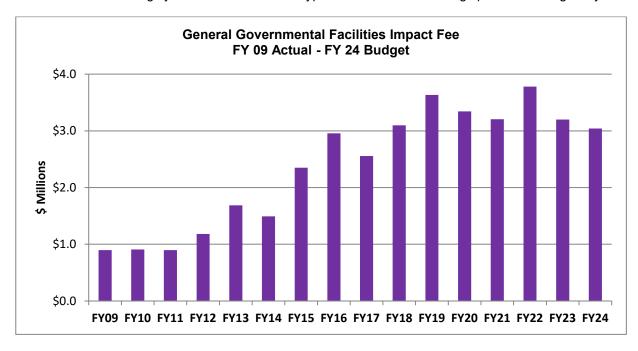

The Law Enforcement Impact Fee was implemented in FY 05 and is used to fund growth driven law enforcement equipment and facility additions. For FY 24, Law Enforcement impact fee is revenue estimated at \$1,900.000.

Fiscal Year 2024 100 Budget Summary

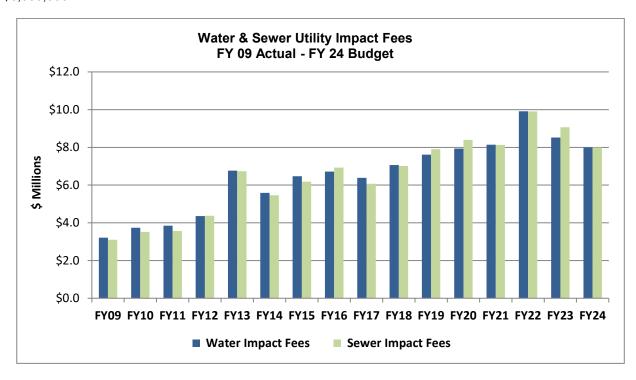

#### **General Governmental Facilities Impact Fee**

This was implemented in FY 04 and is used to fund growth driven facility expansions and additions. For FY 24, General Governmental Facilities impact fee revenue is estimated at \$3,040,000. It must be noted that actual revenues received are highly variable based on the types of commercial buildings permitted in a given year.

#### Water & Sewer Utility Impact Fees

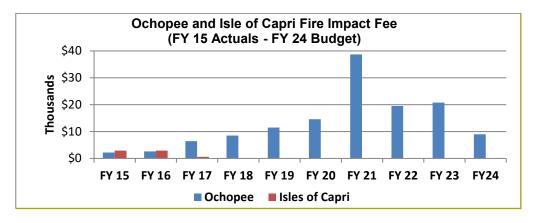

Water & Sewer Utility Impact Fees are used to fund growth driven water and sewer facility expansions and additions. For FY 24, water impact fees are estimated at \$8,000,000 and sewer impact fees are estimated at \$8,000,000.

Fiscal Year 2024 101 Budget Summary

#### Ochopee/Isles of Capri Fire Impact Fees

These fees were implemented in FY 98 and are used to fund growth driven fire facility and equipment needs. For FY 24, there is \$9,000 budgeted in Ochopee Fire impact fee revenue; there is \$0 budgeted in the Isles of Capri impact fee district.

#### **Tourist Development Tax Revenue**

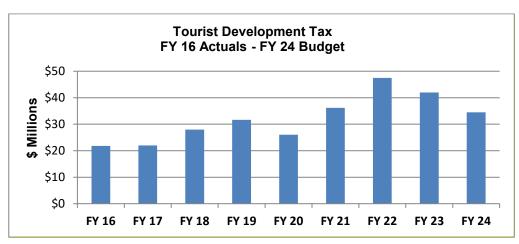

Collier County levies a five (5) percent tax on short-term lodging rentals pursuant to State Statute. The following provides a history of the Tourist Development Tax (TDT). In November 1990, Collier County voters approved the implementation of a 3% tourist tax; 2% was allocated for beach renourishment and tourism promotion and 1% was allocated for debt service on a baseball stadium. This tax was challenged in the courts, and the County ceased collecting the 3% tourist tax. In November 1992, voters approved a new tourist tax plan of 2%. This 2% tax was implemented in January 1993. In January 1996, this tax was increased by 1% for the county beach renourishment program. In August 2005, this tax was increased by 1% for additional tourism promotion. Effective September 2017, the tax was increased by 1% pursuant to an overall Tourist Development Plan setting forth authorized uses of the TDT including but not limited to the promotion of tourism, financing beach improvements and facilities, the providing of museums and amateur sports complex.

Revenue is budgeted conservatively as it is recognized that state and national economic trends, stock market fluctuations, and hurricane activity can all negatively impact tourism in South Florida. FY 24 budgeted revenue is \$34,476.4 and it is anticipated that any decrease in tourism dollars due to economic conditions will fall within the 5% revenue reserve.

| (000's) Omitted         | FY 16    | FY 17    | FY 18    | FY 19 *  | FY 20    | FY 21    | FY 22    | FY 23    | FY 24    |

FY 15 to FY 23 amounts are actual collections--FY 24 is a budget amount.

<sup>\*</sup> FY19 actuals include 13 months of revenue.

#### Service Charges/Enterprise Fund Revenues

Where appropriate, Collier County charges fees for services provided. The Parks and Recreation Department and the Community Development Division are the two areas where charges for services are most prevalent. The Parks & Recreation Division charges for admission to the Sun-N-Fun water park, the Golden Gate Aquatic Facility, and the numerous athletic and recreational programs it conducts. The Community Development Division charges fees for building and related permits.

Enterprise funds are set up to account for activities that are operated similarly to private enterprises, such as the County Water-Sewer District, Solid Waste Disposal, Emergency Medical Services, and the Collier County Airport Authority.

| Total                   | 181,087.5 | 194,811.6 | 213,418.5 | 223,221.5 | 230,778.3 | 245,256.0 | 258,764.2 | 276,450.5 | 286,758.4 |

Note: FY 16 to FY 23 amounts are actual collections--FY 24 is a budget amount.

#### **Building Permit Fees**

The Community Development Division charges for building and various other permits required of the construction and development industry. Permitting activities have begun to level-off when looking at a year over year comparison, with the exception of a spike during FY 18 due to Hurricane Irma and Hurricane Ian repairs. Based on typical permitting trends, FY 24 building permit revenue was conservatively budgeted at \$16,000,000.

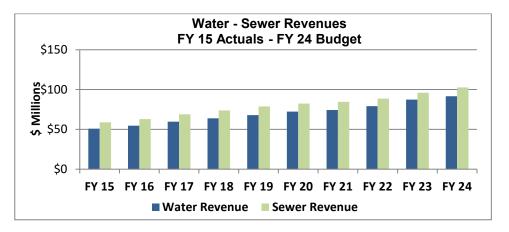

Fiscal Year 2024 103 Budget Summary

#### Water-Sewer District Revenue

The Water-Sewer District rates are set by ordinance. Water rates include a base rate plus a volume usage charge that is designed to encourage water conservation. The sewer rates also include a base charge and a volume charge based on water usage, however for residential customers, there is a cap on the volume charge to take into account that not all water used is returned via the sewer system (e.g. swimming pools, lawn watering).

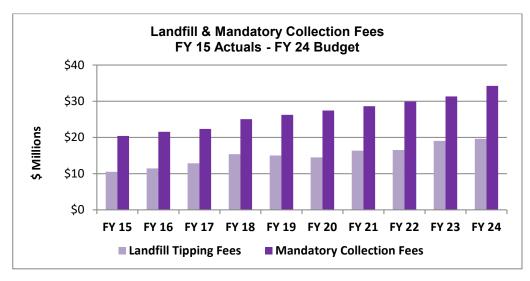

Projected FY 24 water and wastewater revenues are \$91,700,000 and \$102,700,000 respectively. These revenues continue to reflect the revised rate structure. Recent rate changes included an inverted rate schedule (the more a customer uses, the more the customer pays) designed to promote water conservation. The FY 24 includes a rate increase of 7.07% for Water, Wastewater, and IQ Water.

#### **Landfill/Mandatory Collection Fees**

Landfill tipping fees are the primary source of revenue for the Solid Waste Disposal Department, estimated at \$19,618,200 in FY 24. The budget is based on a Landfill tipping fee increase of 8.00% over FY 2023.

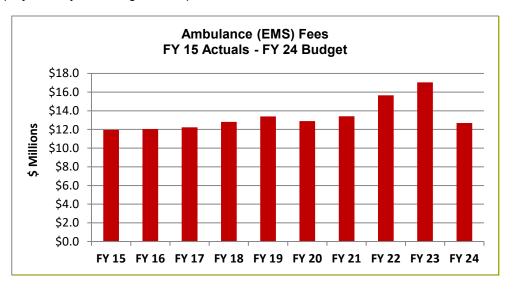

Mandatory Collection fees: Single family residences have been required to have garbage disposed of through the County's contractor since January 1991. Residents are billed for the cost of this collection and disposal service that is estimated to be approximately \$34,228,000 in FY 24. To keep pace with contractual CPI increases to collection franchise contracts, landfill tipping fee increases, and general operational cost increases, the mandatory collection fee rates increased by \$18.47 to \$249.29 in Collier County (District 1) and \$21.20 to \$249.29 in Immokalee (District 2). Additionally, 800 new customer accounts are budgeted in FY 24.

Fiscal Year 2024 104 Budget Summary

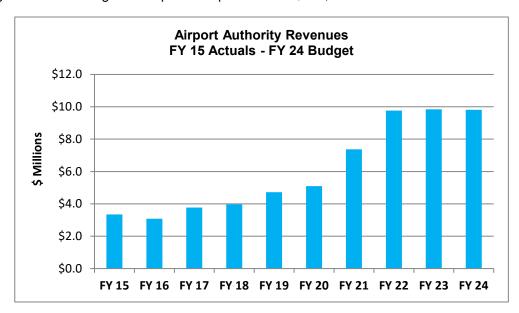

#### Ambulance (EMS) Fees

The Emergency Medical Services Division (EMS) is funded through a mix of General Fund support and ambulance user fees. The user fees are evaluated annually to maximize revenue and thereby reduce the subsidy from the General Fund. During FY 07, Collier County transitioned to a contracted ambulance billing service. Actual ambulance fee revenue collected is a function of economic conditions, insurance carriers paying less than full billings (short pay) as well as a shift from commercial payments to private (uninsured/underinsured) payers. Ambulance fees are budgeted at \$12,700,000 in FY 24 based estimated collections projected by the billing service provider.

#### **Airport Authority Revenue**

Airport Authority operations primary sources of revenues are from fuel sales, T-hangar leases, aircraft tiedowns, and other facility leases. Revenue generated at the Marco Island Executive Airport is estimated to be \$8,072,000 in FY 24. Revenues at the Immokalee Regional Airport are planned to be \$1,567,400 while revenue generated at Everglades Airpark is expected to be \$148,800.

## **Elected Officials-Board of Commissioners**

# County Attorney (001/0001)

#### **Mission Statement**

To provide quality legal services in a timely, efficient, and cost-effective manner to the Board of County Commissioners and the County Manager, and all County divisions, departments, and appointive committees under the Board of County Commissioners. Also, to represent the County in litigation brought by or against the County, and to work with Constitutional Officers and Judiciary on Board-related and statutorily required matters.

## **Elected Officials-Board of Commissioners**

# County Attorney (001/0001)

#### Forecast FY 2023:

Forecast costs for personal services are lower than the total adopted budget due to Board-approved midyear salary increases.

#### Current FY 2024:

Personal Services are 89.7% of the County Attorney's budget, the increase is a result of the aforementioned mid-year salary adjustment.

Operating expenses are lower due to savings in Information Technology allocations.

Capital expenses are needed to cover the replacement of printers, scanners, and laptop computers.

#### Revenues:

Revenues include copies of legal documents - \$1,000 and reimbursements for legal services from Risk Management \$290,000 for a total of \$291,000.

## **Elected Officials-Board of Commissioners**

## County Attorney Legal Aid Society (652/1146)

### **Mission Statement**

To provide financial support of the Legal Aid Society operations.

## County Attorney Legal Aid Society (652/1146)

#### Notes:

Article V legislation provided for the imposition of \$65 in additional court costs for persons found guilty or pleading no contest to felony, misdemeanor, or criminal traffic offenses. Twenty-five percent of this fee is available to fund legal aid programs.

As a result of this legislation, the County entered into an Agreement dated December 14, 2004, with Collier County Legal Aid. This Agreement, which was extended on June 22, 2010, was entered into pursuant to Ordinance 2004-42, which Ordinance was written in response to the legislative mandate of Section 29.008, Florida Statutes, which mandate was funded pursuant to Section 939.185, Florida Statutes. The Agreement provides that the minimum funding for Collier County Legal Aid in any given fiscal year is the greater of (1) twenty-five percent of the amount collected to assist Collier County in providing legal aid programs required under Section 29.008(3)(a), Florida Statutes, or (2) the amount provided from filing fees and surcharges to legal aid programs from October 1, 2002, to September 30, 2003, which was \$108,309.66. Collections from the \$65 fee continue to be below the agreed-upon payment and require a transfer from the General Fund to make up the shortfall.

#### Current FY 2024:

Operating Expenses include \$108,400 and an additional \$84,600 toward operating expenses to offset increased expenses associated with domestic violence and family law caseloads.

#### Revenues:

Revenue is based on average monthly collections of \$3,333. A transfer from the General Fund is necessary to bring the Legal Aid Society up to the level that it was funded in FY 2003. The transfer will only be made in the amount that will bring it up to the \$108,400 level plus the additional \$84,600 after accounting for the fees generated.

#### Current FY 2024:

Budgeted remittances reflect the estimated Fund 111/1011 park system contribution of \$1,000,000 to the City of Naples.

## **Elected Officials-Constitutional Officer**

## Elected Officials-Constitutional Officer Organizational Chart

Total Full-Time Equivalents (FTE) = 1,824.21

### **Elected Officials-Constitutional Officer**

#### Sheriff

Kevin Rambosk is the elected Collier County Sheriff. The Sheriff's Office protects public health, safety, and welfare through various functions including law enforcement, special operations, criminal investigations, community services, detention and corrections, emergency 911, Judicial process, and headquarters operations. The Sheriff also administers its support operations including data processing, finance, and personal services. The Sheriff's general operating budget is funded entirely from the County's General Fund.

For more information about programs administered by the Sheriff's Office, call 252-4434.

#### **Property Appraiser**

Abe Skinner is the elected Property Appraiser. He is responsible for assessing all real and personal property in Collier County and preparing the annual tax rolls. The Property Appraiser is funded by the General Fund and from independent districts.

The phone number for the Property Appraiser's Office is 252-8141.

#### **Tax Collector**

Rob Stoneburner is the elected Tax Collector. He is responsible for the collection of ad valorem taxes levied by the County, the School Board, special taxing districts, and all municipalities within the County. The Tax Collector's Office also issues boat titles and registrations, hunting and fishing licenses and stamps, business tax receipts, and motor vehicle licenses and registrations. The Tax collector's agency is funded by a combination of fees for service and general revenue.

The phone numbers for the Tax Collector's Office are 252-8172 (Taxes); and 252-8177 (Motor Vehicles).

#### Supervisor of Elections

Melissa Blazier is the Supervisor of Elections. She is an independently elected official mandated by the Florida Constitution (Constitutional Officer) who administers the voter registration system for Collier County residents, qualifies candidates for office, monitors financial reporting requirements of candidates for office, and plans, coordinates, and conducts elections within Collier County. She is responsible for implementing the National Voter Registration Act provisions as they pertain to the registration process and statistical requirements.

The Supervisor's agency is primarily funded through the General Fund.

The Elections Building is located at 3750 Enterprise Avenue. For information regarding voter registration or elections, telephone 252-8683.

#### **Clerk of the Circuit Court**

Crystal Kinzel is the elected Collier County Clerk. She performs the constitutional and statutory duties of the Circuit and County Courts in maintaining custody of court records and all pleadings filed, recording of all legal instruments, and acts as ex-officio Clerk of the Board, auditor, recorder, and custodian of all County funds. The Clerk's agency is funded by a combination of service fees and General Fund revenues.

The main phone number for the Clerk of Courts is 252-2745.

### Forecast FY 2023:

Forecast operating expenditures are generally consistent with the adopted budget.

#### Current FY 2024:

The increase in operating expenses is due to Info-Tech automation allocation, and general insurance.

#### Revenues:

The transfer from the Board increased by \$713,900 and the transfer from independent special districts increased by \$59,700.

### **Elected Officials-Constitutional Officer**

# Supervisor Of Elections Supervisor Of Elections - Admin (080/0080)

#### **Mission Statement**

#### **ENSURE THE INTEGRITY OF THE ELECTORAL PROCESS**

**Total Funding** 

4,307,100

The Supervisor of Elections is responsible for the administration of the single permanent registration system for Collier County residents in the most efficient and economical method possible. This includes being responsible for registering voters, maintaining voter rolls, conducting elections, reporting financial disclosure forms, reporting campaign financing, and all candidate filings. In addition, current lists of registered voters, demographic statistics, and voter turnout are provided to candidates under Florida Election law.

| Divisional Administration | 24.00     | 3,487,500 | 5,967,100 | -2,479,600 |

Administer the laws governing the registration process equitably and uniformly. Provide clear and concise training for the staff, as well as the public. Conduct voter education in all assisted living centers, universities, colleges and high schools. Administer the Financial Disclosure Program, processing more than 350 Financial Disclosure Form 1's, in accordance with the requirements of the Florida Ethics Commission. Assist candidates with the qualifying process.

#### Notes:

The Board of County Commissioners is required to pay for insurance, information technology, and some utilities for the Supervisor of Elections. These costs are included here.

#### Forecast FY 2023:

Forecast operating expenditures are generally consistent with the adopted budget.

#### Current FY 2024:

The increase in operating expenses is due to Info-Tech automation allocation, and general insurance.

### **Elected Officials-Constitutional Officer**

# Supervisor Of Elections Supervisor of Elections-Elections (080/0080)

#### **Mission Statement**

#### **ENSURE THE INTEGRITY OF THE ELECTORAL PROCESS**

Plan, coordinate, and conduct all elections by the laws of the State of Florida. Solicit, audit, and select all polling sites. Appoint and train all election workers. Notify citizens of upcoming elections and maintain precinct boundaries. Prepare ballot layout and maintain all voting equipment for each voting cycle. Perform the tabulation of election results and certification of the results to appropriate jurisdictions.

| Program Summary  | FY 2024<br>Total FTE | FY 2024<br>Budget | FY 2024<br>Revenues | FY 2024<br>Net Cost |

#### Notes:

The Supervisor of Elections "Elections" cost center is affected by fluctuations in the number of elections conducted each fiscal year.

### Current FY 2024:

In FY 2024, Elections Personal Services is funding the election worker payroll for the March Presidential Preference Primary Election and the August Primary Election. Operating expenses increased due to funding two countywide elections, rather than one, which resulted in increased mailings, postage, ballots, and other associated costs.

## **Elected Officials-Constitutional Officer**

# Supervisor Of Elections Supervisor of Elections Grants (081/1800)

### **Mission Statement**

To account for the funds received from federal and state grants.

FY 2024

FY 2024

FY 2024

### **Elected Officials-Constitutional Officer**

# Clerk Of Courts Clerk to The Board (011/0011)

#### Notes:

This budget includes Finance, Operations, Inspector General, and Minutes and Records Divisions.

#### Forecast FY 2023:

Expenditures are forecast to be \$491,100 more than appropriated. This variance is primarily attributed to temporarily unfilled vacancies in the Operations and Finance departments.

#### Current FY 2024:

The FY 2024 budget reflects an increase of \$1,196,700. This increase in personnel services of \$1,171,900 is due to the changes in the wage plan to remain consistent with the Board of County Commissioners implemented plan. Operating costs increased by \$24,800 due primarily to an increase in software and other resources for audit.

### **Elected Officials-Constitutional Officer**

# Clerk Of Courts Clerk to The Circuit Court (011/0011)

#### **Mission Statement**

To perform the constitutional and statutory duties of the Clerk of the Circuit Court in maintaining Court Records and in providing responsible service to the judiciary, legal community, and public.

#### Notes:

This budget reflects the County obligated expenses of Circuit Civil, Felony, Jury, Probate, and Juvenile. Costs are related to telephone and facilities costs for court functions required by the state to be funded locally per F.S. 29.008. This budget also covers 2.5 FTEs for the BOCC's request of court clerks for the hearing officers.

#### Forecast FY 2023:

Based on historical trends and current-year spending patterns, total personal services expenditures are forecast to remain the same. Operating Expenses are forecasted to lower due to the implementation of technologies and cost savings in operations.

#### Current FY 2024:

The FY2024 budget reflects a decrease of \$29,000 in expenditures. The decreases are primarily due to the realignment of funds.

### **Elected Officials-Constitutional Officer**

# Clerk Of Courts Clerk of County Courts (011/0011)

#### **Mission Statement**

To perform the constitutional and statutory duties of the Clerk of the County Court in maintaining Court records and in providing responsible service to the judiciary, the legal community, and the public.

#### Notes:

This budget reflects the County Court - Misdemeanor, County Civil, and County Traffic. Costs are related to telephone and facilities costs for court functions required by the state to be funded locally per Florida Statute 29.008.

#### Forecast FY 2023:

Based on historical trends and current year patterns, total expenditures are forecast to be \$20,700 or 58.93 percent less than budget due to reductions in travel expenditures.

#### Current FY 2024:

The fiscal year 2024 budget reflects a decrease of \$18,300 or 36.31 percent when compared with the fiscal year 2023 budget. The decrease is due to reducing office furniture purchases.

## **Elected Officials-Constitutional Officer**

# Clerk Of Courts Accounting, Recording and Satellites (011/0011)

### **Mission Statement**

To provide a systematic approach to controlling all phases of recording documents, reduce paperwork proliferation, provide efficient access to needed information, dispose of obsolete records, provide documentation of compliance with laws, ordinances, and other regulations, and maintain and archive historical records.

To maintain reporting of relevant financial and performance information to management and the preparation of budgets and financial reports for the Clerk's office.

## **Elected Officials-Constitutional Officer**

# Clerk Of Courts Accounting, Recording and Satellites (011/0011)

#### Notes:

This budget is for the operations of the Clerk's Accounting, Recording, Records Management, and Satellite departments. A reorganization of the departments occurred in FY2022.

#### Forecast FY 2023:

Based on historical trends and current year spending patterns, total expenditures are forecast to increase \$317,600 of the total budget. This is due largely to reduced personnel costs due to vacancies from retirements within the current fiscal year.

#### Current FY 2024:

The cost for current services increased by \$490,500 when compared to the prior year's appropriation. The increase is due to increased salaries to follow the BOCC-recommended pay structure instituted in 2023. The Recording Department is self-funded and does not require any funding from the Board. Additional revenues offset costs to the Board. Clerk's Accounting is funded 54 percent by the BOCC with the remaining balance funded through court revenues. Records Management is funded 80 percent by the BOCC with the remaining funding from court revenues. The Satellite offices are funded 60 percent by the BOCC with the remaining balance funded through court revenues.

# **Elected Officials-Constitutional Officer**

# Clerk Of Courts Administration (011/0011)

## **Mission Statement**

To efficiently and effectively manage and direct the performance of the Clerk to the Board and the Clerk to the Court's legal and constitutional duties.

## **Elected Officials-Constitutional Officer**

# Clerk Of Courts Administration (011/0011)

#### Notes:

This budget includes the Administrative Offices of the Clerk's operations including the Administration and Human Resources departments. Costs are allocated between the court and non-court funding sources based on FTEs served. For FY2024 only 54% is Board funded for Administration and Human Resources with the remaining funding provided by court funds.

#### Forecast FY 2023:

The forecast expenditures for the FY2023 year are expected to be approximately \$139,100 less than the 2023 budget. Personnel services are forecasted to be \$164,600 less than the budget due to temporary vacancies. There is an introduction of capital outlay for \$29,900.

### Current FY 2024:

The FY2024 budget in total reflects a decrease of \$111,400 when compared to the FY2023 budget and includes changes for personnel services pay plan maintenance, and re-allocations based on FTEs served between court and non-court and mid-year personnel additions.

## **Elected Officials-Constitutional Officer**

# Clerk Of Courts Management Information Systems MIS (011/0011)

### **Mission Statement**

To provide data processing software, hardware, and administrative support to the Board of County Commissioners and its staff, the Clerk of the Circuit Court, and the Supervisor of Elections for SAP financial systems and other processes integrated into SAP.

### Forecast FY 2023:

Based on historical trends and current year spending patterns, total expenditures are forecast to be \$25,300 less than budget.

### Current FY 2024:

The cost for personal services is budgeted to increase by \$322,900 when compared to the prior year's appropriation as a result of the payroll implementation offset by the shared costs for software and hardware purchases that will be made in conjunction with our cyber security compliance.

### Forecast FY 2023:

Forecast operating expenditures are generally consistent with the adopted budget.

#### Current FY 2024:

The increase in operating expenses is due to Info-Tech automation allocation, general insurance, and reinsurance premiums.

## **Elected Officials-Constitutional Officer**

# Sheriff Law Enforcement (040/0040)

### **Mission Statement**

To provide efficient and effective law enforcement services to all of Collier County. To keep the crime rate low, preserving the quality of life we currently enjoy. To continue innovative management methods, including flexible staffing and focused tactics through intelligence gathering and analysis. To provide professional law enforcement services while keeping costs low. Provide ethical, professional, and proactive services to Collier County effectively and efficiently. Promote the efficient acquisition and application of appropriate financial and human resources. Utilize technology to its fullest advantage to ensure the CCSO is an intelligent, rapid, proactive, and results-oriented agency.

### **Elected Officials-Constitutional Officer**

# Sheriff Law Enforcement (040/0040)

#### Forecast FY 2023:

Personal Services forecast is lower than the adopted budget due to challenges in filling vacant funded positions.

Operating Expense forecast is lower than the adopted budget due to lower than anticipated vehicle fuel and R&M costs, a delay in the rollout of uniform standardization, and credits/savings realized in telecommunication base cost.

Capital Outlay is higher than the adopted budget due to continued purchases and backfilling of capital needs including upgrade and replacement of radios and telecommunication equipment, purchase of vehicles following replacement schedules and expanding data storage and security needs.

#### Current FY 2024:

Personal Services for the FY24 budget are higher due to filling current vacancies, increased retirement rates and pay plan maintenance.

Operating Expense for the FY24 budget is higher due to uniform standardization roll-out, continued of radio capability, necessary change in phone landlines, normalization of telecommunications base cost, and building repair and maintenance.

Capital Outlay for the FY24 budget is for vehicles, patrol boats, specialized law enforcement vehicles, and computer hardware.

# **Elected Officials-Constitutional Officer**

# Sheriff Law Enforcement-Expenses Pd By BCC (001/0011)

#### Forecast FY 2023:

Forecast operating expenditures are generally consistent with the adopted budget.

#### Current FY 2024:

The increase in operating expenses is due to property insurance increase.

#### Revenues:

The revenues are from various charges, fines, and forfeitures charged by the Law Enforcement and Correctional operations of the Sheriff and serve to offset the General Fund contribution.

## **Elected Officials-Constitutional Officer**

# Sheriff Detention & Correction (040/0040)

### **Mission Statement**

Provide detention and corrections facilities for the incarceration of inmates. Provide and maintain security for sentenced and non-sentenced county, state, and federal inmates. Maintain a staffing level to monitor, classify, and provide mandated care to inmates. Transport inmates to and from state and federal institutions as required.

| Program Summary   | FY 2024<br>Total FTE | FY 2024<br>Budget | FY 2024<br>Revenues | FY 2024<br>Net Cost |

#### Forecast FY 2023:

Personal Services forecast is higher due to a lower-than-anticipated vacancy rate.

#### Current FY 2024:

Personal Services for the FY24 budget are higher due to filling current vacancies, increased retirement rates and pay plan maintenance.

# Sheriff Confiscated Property Trust Fund (602/1068)

### **Mission Statement**

According to Florida Statutes 932.7055, the proceeds from confiscated property shall be used for school resource officers, crime prevention, safe neighborhood, drug abuse education, and prevention programs, or other law enforcement purposes, which include defraying the cost of protracted or complex investigations, providing additional equipment or expertise, purchasing automated external defibrillators for use in law enforcement vehicles, and providing matching funds to obtain federal grants.

#### Notes:

A remittance budget is provided to reimburse the Sheriff's Office for any allowable expenses including donations to various organizations and the use of confiscated Trust Funds to match grant funds where permissible.

#### Current FY 2024:

The Remittances to the Sheriff's Office of \$11,500 includes anticipated donations to the following organizations:

- Boy Scouts of America
- Project Graduation
- Florida Missing Children Foundation

The budgeted Transfer to the Sheriff's Grant Fund (115/1801) will be processed once new grants are presented to the Board of County Commissioners for approval.

## **Elected Officials-Constitutional Officer**

# Sheriff Crime Prevention (603/1070)

### **Mission Statement**

Pursuant to Florida Statute 775.083, court costs shall be assessed and collected in each instance a defendant pleads nolo contendere to or is convicted of, or adjudicated delinquent for, a felony, a misdemeanor, or a criminal traffic offense under state law, or a violation of any municipal or county ordinance if the violation constitutes a misdemeanor under state law. The court costs imposed are \$50 for a felony and \$20 for any other offense. The county, in consultation with the sheriff, must expend such funds for crime prevention programs in the county, including safe neighborhood programs under ss. 163.501-163.523 F.S.

## **Elected Officials-Constitutional Officer**

## Sheriff Crime Prevention (603/1070)

#### Notes:

A budget is provided to reimburse the Sheriff's Office for any allowable expenses for crime prevention programs, including safe neighborhood programs. The Sheriff's Office is active in Positive Outreach Programs like Deputy Clubs, County Fair, Junior Deputy Camp, Youth Leadership Academy, Adult and Youth Citizens Academy programs, Teen Driver Challenge Program, Traffic Safety Academy, Boating Safety Academy, Gun Safety Program, Civil Citation Program, etc.

#### Current FY 2024:

Remittances to the Sheriff of \$450,000 are to reimburse the Sheriff's Office for Personal Service (\$150,000), Operation (\$200,000), and Capital Outlay (\$100,000) expenditures.

Any Transfer to the Sheriff's Grant Fund (115/1801) will be processed once new grants are presented to the Board of County Commissioners for approval.

The objective of Crime Prevention funds is to support equipment costs for crime prevention programs, including safe neighborhood programs, in Collier County.

#### Revenues:

Budgeted revenues assume \$6,275 in monthly collections totaling \$75,300.

# **Elected Officials-Constitutional Officer**

# Sheriff Second Dollar Training (608/1071)

### **Mission Statement**

Pursuant to Florida Statutes 318.18(11)(d), a two-dollar court cost is assessed for each infraction which can be used for criminal justice advanced and specialized training and criminal justice training school enhancements as provided under Florida Statutes 938.15.

# Sheriff Domestic Violence Trust Fund (609/1072)

### **Mission Statement**

Pursuant to Florida Statute 938.08, In addition to any sanction imposed for a violation of s. 784.011, s. 784.021, s. 784.03, s. 784.041, s. 784.045, s. 784.048, s. 784.048, s. 784.081, s. 784.082, s. 784.083, s. 784.085, s. 794.011, or for any offense of domestic violence described in s. 741.28, the court shall impose a surcharge. Payment of the surcharge shall be a condition of probation, community control, or any other court-ordered supervision. A portion of the surcharge shall be deposited into this trust fund and must be used only to defray the costs of incarcerating persons sentenced under s. 741.283 and provide additional training to law enforcement personnel in combating domestic violence.

#### Current FY 2024:

A budget is provided to reimburse the Sheriff's Office in the event a request is made for training needs in domestic violence.

# **Elected Officials-Constitutional Officer**

# Sheriff Juvenile Cyber Safety (618/1069)

### **Mission Statement**

Under Section 847.0141(6) Florida Statutes, a civil penalty is assessed to minors if they commit the offense of sexting. Eighty (80%) percent of the civil penalty received by a juvenile court according to this section shall be remitted by the Clerk of the Court to the County Commission to provide training on cyber-safety for minors.

## **Elected Officials-Constitutional Officer**

# Tax Collector Tax Collector Fund (070/0070)

#### Notes:

The Tax Collector's annual budget request is submitted on August 1 of each year per Florida Statutes.

The FY24 adopted budget was amended and approved by the state as a result of adjustments to the millage rates made at the FY24 Final Budget Public Hearing on September 21st, 2023. These adjustments resulted in a decrease in charges for services of \$1,272,700 and a corresponding reduction of the distribution of excess fees to government agencies.

#### Current FY 2024:

Personal Services include Collier County pay increase, 457 contributions, planned retirement, and vacation sell-back.

Operating Expenses include all requested items, contracts, leases, operating furniture and equipment, and temporary office space necessary during the Immokalee Government Center renovation.

Capital Outlay includes typical asset acquisitions, plus an Airport office generator and an initial Immokalee Government Center construction renovation project starting FY2023-2024.

### Forecast FY 2023:

Forecast operating expenditures are generally consistent with the adopted budget.

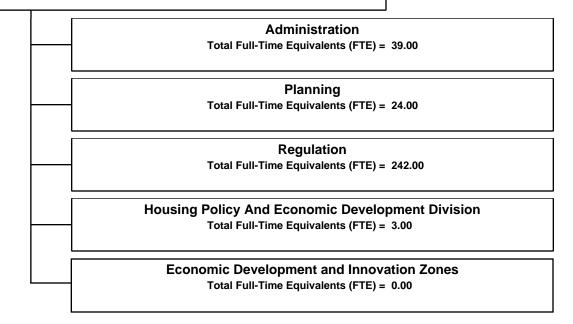

### Current FY 2024:

The increase in operating expenses is due to the cost of utilities, inflation, and general insurance.

## **Growth Management Community Development Department**

### **Jamie French**

As Collier County's population and service expectations rise, the Growth Management Community Development Department (GMCD) continues to leverage technologies and best practices to balance livability, economic vitality, and environmental sensitivity through sustainable planning and regulation programs.

GMCD is currently comprised of seven divisions: Building Plan Review and Inspections, Code Enforcement, Community Planning & Resiliency, Development Review, Housing Policy & Economic Development, Operations Support & Regulatory Management, and Planning & Zoning. The GMCD budget is approximately \$96 million, primarily from enterprise-based funds, with limited dependence on General Fund contributions. Those sections funded by the General Fund have met the budget guidance outlined by the County Manager's Office and the Board of County Commissioners (Board). Reserves in the GMCD enterprise funds are accounted for market fluctuations and regulatory requirements. They include appropriate allowances for fees prepaid for future services owed to the client.

GMCD's primary operations are located at the 2800 North Horseshoe Drive office with four satellite locations (Orange Blossom, Heritage Bay, Immokalee, and Everglades City) that each provides support to walk-in customers while performing all necessary permitting and plan review activities. GMCD provides a full suite of online offerings, providing approximately 90% of our activities. The department continues to leverage a combination of customer, staff, advisory committee, and vendor feedback to plan, implement, and evaluate initiatives to improve the client experience through the GMCD Public Portal.

By way of continuing to improve online services that best process State and local required services, GMCD has balanced increased complexities and demand while minimizing fee increases since 2010. As a result, staff-initiated fee decreases have been passed along to clients when savings are realized. This has resulted in greater than \$8 million in total savings to our clients or lower costs for an improved experience.

Much like the industry served, GMCD is anticipating further challenges in FY 2024, including increased costs in available skilled labor. Staff continuously monitors costs and uses this data to strategically budget resources throughout the fiscal year. Along with County staff labor costs, the availability of qualified contract staff remains a challenge, as other local governments and private industry have copied the GMCD model (2010), increasing and lowering contract staff with demand fluctuations.

Our colleagues remain dedicated to complying with the minimum State Laws and County Ordinances while promoting the client's ability to seek the highest and best use for their property without unnecessary delay. To best consider potential natural disaster response and recovery, GMCD remains a model community with expedited assessments, responsible build-back, and long-term planning efforts that conform with State Law with a focus on maintaining our local economy.

With more than two-thirds of the County designated as a Special Flood Hazard Area (SFHA), the County's voluntary participation in the National Flood Insurance Policy (NFIP) - Community Rating System (CRS) has resulted in a Class 5 rating. This rating was recently reestablished after a 3-year audit, resulting in a 25% discount to flood insurance policyholders. These savings translate into over \$8 million amongst more than 70,000 flood insurance policies. Collier County is second only to Miami-Dade County for the number of most active flood insurance policies in the state of Florida.

New to GMCD in mid-FY2023, the Housing Policy & Economic Development Division focuses on designing Board and County Manager directed policies and programs that prioritize affordable housing opportunities while promoting strategic business partnerships and economic growth. The division collaborates with the Public Services Department, Community Housing Services, affordable housing developers, advisory boards, and the business community. In addition to bringing forward the Board adopted affordable housing sur-tax program, the division has begun to advance collaboration with the Greater Naples Chamber of Commerce, Immokalee Chamber of Commerce, and numerous new and established businesses.

Under the leadership of a new Division Director, the Code Enforcement Division remains focused on everchanging community demands while balancing community character, safety, and personal property rights. Agency-led education and outreach programs assist communities and homeowner associations with preventing blight and decreased property values. In accordance with Florida Statue 162, community members are welcome to report violations; whereas staff-discovered life and safety violations are addressed in short order.

In coordination with the community, we appreciate the continued support of the Board and the Manager's Office. Our commitment to delivering high-quality and best-value services is within everything we do.

### **Growth Management Community Development Department**

## Administration Planning & Regulatory Administration (113/1013)

#### **Mission Statement**

The primary function of this section is to provide executive level management, financial support, and policy development to all the divisions within the planning and regulatory element of the Growth Management Department (GMD). This section also provides planning and regulatory administrative support to the BCC, County Manager's Office, advisory boards, and other constitutional agencies.

| This section includes the funding for the Department Head who provides administrative oversight to the divisions within the Growth Management Department, and all divisional overhead costs including indirect cost allocation, IT direct billing hours, insurance, utilities and building repair & maintenance.  | 94,100<br>60,100    | 20,861,700          | 2,760,100         |

#### Forecast FY 2023:

Personal Services are forecast to be slightly lower than the FY 2023 adopted budget due to organizational changes made within the year.

Operating Expenses are forecast to be lower due to other contractual and temporary labor services being less than anticipated.

Capital Outlay is forecast to be lower due to the deferral of site improvements, renovation of bathrooms, and other required building maintenance and replacement items identified by Facilities Management.

#### Current FY 2024:

This budget includes all direct, indirect, and other major capital expenses associated with Fund (113/1013) operations, including funding to support CityView maintenance and development and contracted professional services to meet permitting and inspection-related activities.

Personal Services are budgeted to be higher due to the transfer of two (2) positions from Corporate Business Operations (001/0001), one (1) from Addressing and GIS (113/1013), a general wage adjustment, and the implementation of a merit-based incentive program.

Operating Expenses are anticipated to be lower primarily due to conservative measures taken by reductions in other contractual services and temporary labor to account for a projected decrease in building permits. This section includes the budget for required building maintenance, digital record conversion of permits and plans, and external vendor support for further enhancements to the CityView software.

#### Revenues:

Revenue is budgeted to decrease in FY 2024 due to a decline in building and permit activity. Staff recognizes the fluctuations within development industry activities and continues to focus on capturing efficiencies while maintaining a conservative approach to business operations and revenue forecasting.

## **Growth Management Community Development Department**

# Administration Planning & Regulatory Administration (131/1014)

#### **Mission Statement**

The principal function is to provide executive level management to all the divisions within the planning and regulatory element of the Growth Management Department (GMD).

### **Growth Management Community Development Department**

# Administration Planning & Regulatory Administration (131/1014)

#### Forecast FY 2023:

Operating Expenses are forecast to be lower due to the professional service vendor not being able to provide adequate resources.

#### Current FY 2024:

Operating Expenses are budgeted to be higher due to higher rates associated with professional services vendors, the replacement of computers, and an interdepartmental expense for rent being reimbursed through an Intergovernmental Charge (IGC) instead of a transfer.

#### Revenues:

Revenue is projected to increase due to the number of growth management plan amendment petitions and Intergovernmental Charge (IGC) instead of a transfer.

### **Growth Management Community Development Department**

## Administration Planning & Regulatory Admin/FEMA Expenses (111/1011)

#### **Mission Statement**

To collaborate with FEMA representatives addressing County objections to the revised FEMA flood insurance rate maps and more importantly to obtain the needed engineering, scientific and topographic data to improve the accuracy of the flood maps for the residents and property owners of Collier County and to implement the County's floodplain management plan and oversee the Community Rating system.

### **Growth Management Community Development Department**

## Administration Planning & Regulatory Admin/FEMA Expenses (111/1011)

#### Notes:

This section assists with maintaining the Community Rating System (CRS) program, contract expenses related to the continuation of Physical Map Revisions 1 and 2, FEMA's Southwest Florida Coastal Flood Study, and responding to comments from FEMA.

This budget also provides funding for the update to the Floodplain Management Plan, which is a requirement of the CRS program and needs to be done every five years. The spending in this budget depends on FEMA's ability to complete their reviews submitted by County staff for the Physical Map Revisions and the Coastal Flood Study.

#### Forecast FY 2023:

Personal Services are forecast to be lower than the FY 2023 budget due to the replacement of a position at a lower salary.

Operating Expenses are budgeted to be higher due to scheduled computer replacements.

#### Current FY 2024:

Personal Services are budgeted to be higher due to a general wage adjustment and implementation of a merit-based incentive program.

Operating Expenses are anticipated to be slightly higher than the adopted FY 2023 budget primarily due to an increase in temporary labor.

## **Growth Management Community Development Department**

## Administration Records Management (113/1013)

#### **Mission Statement**

This section primarily supports the Growth Management Department (GMD) with adhering to the storage and retrieval requirements of the Florida Department of State and Chapter 119 of the Florida Statutes, and provides for secure digital conversion of hard copied blueprints, development plans, documents, and photographs into indexed digital images for systematic storage and recovery to citizens, developers, property owners, and other agencies.

### **Growth Management Community Development Department**

# Administration Records Management (113/1013)

#### Forecast FY 2023:

Personal Services are forecast to be lower due to an employee vacancy.

Operating Expenses are forecast to be on track for the data conversion project.

#### Current FY 2024:

Personal Services are budgeted to be higher due to a general wage adjustment and implementation of a merit-based incentive program.

Operating Expenses are budgeted to be lower due to anticipated Fund (113/1013) revenue decreases due to a decline in building and permit activity.

### **Growth Management Community Development Department**

## Administration Addressing and GIS (113/1013)

#### **Mission Statement**

To provide addressing, GIS, and CAD mapping support services to the general public as well as local, state, and federal agencies. Provide project management and technical support to the Growth Management Department; and on a contract basis, provide GIS and/or CAD mapping services to other County divisions, and/or other government agencies.

#### Forecast FY 2023:

Personal Services are forecast to be lower due to the midyear transfer of one (1) position to Planning & Regulatory Administration (113/1013) and employee vacancies.

Operating Expenses are forecast to be lower due to computer software expenses being less than anticipated.

#### Current FY 2024:

Personal Services are budgeted to be lower due to the transfer of one (1) position to Planning & Regulatory Administration (113/1013).

Operating Expenses are budgeted to be higher due to scheduled computer replacements.

#### Forecast FY 2023:

Personal Services are forecast to be lower than the adopted FY 2023 budget due to a number of vacancies throughout the year. Organizational changes during the year include the transfer in of one (1) position from the Land Use Hearing Officer (131/1014), one (1) from the Library (001/0001), and one (1) from Building Review & Permitting (113/1013).

Operating Expenses are forecast to be higher than the adopted FY 2023 budget due to an increase in professional services used to complete planning projects and studies.

Revenue forecast remains consistent with the FY 2023 budget for the collection of fees for Stewardship Receiving Area (SRA) and Financial Impact Analysis Model (FIAM) reviews.

#### Current FY 2024:

Personal Services are budgeted to be lower than the adopted FY 2023 budget due to the transfer of four (4) positions from General Planning Services (111/1011) to Community Planning & Resiliency (111/1011). The positions are Division Director - Community Planning and Resiliency, Manager – Engineering, Planner III, and Site Plans Reviewer III.

Operating Expenses are budgeted to be higher due to professional services used to complete planning projects and studies.

#### Revenues:

Revenue is projected to remain consistent in FY 2024 for the collection of fees for Stewardship Receiving Area (SRA) and Financial Impact Analysis Model (FIAM) reviews.

# Planning Community Planning & Resiliency (001/0001)

#### **Mission Statement**

The Community Planning & Resiliency Division's mission is to lead Collier County to a resilient and environmentally sustainable future by identifying vulnerabilities, coordinating stakeholders and facilitating innovative solutions. The Community Planning & Resiliency Division works to ensure that Collier County remains a great place to live, work, and play while addressing the physical and economic challenges of balancing community growth and a changing environment.

# Planning Community Planning & Resiliency (001/0001)

|  | FY 2024   | FY 2024 | FY 2024  | FY 2024  |
|--|-----------|---------|----------|----------|
| Program Enhancements                                     | Total FTE | Budget  | Revenues | Net Cost |
| Operational Expenses for Community Planning & Resiliency |           | 470 500 |          | 470 500  |

Repetitive Loss Area Analysis - A repetitive loss area analysis (RLAA) is a mitigation plan for areas that have or are expected to experience repeated losses from flooding. During this analysis, detailed building information is collected through field visits to develop an understanding of the exact causes of repetitive flood damage at those sites. This study is a prerequisite for the County to maintain its Class 5 rating.

Floodplain Management Plan Update - The Floodplain Management Plan promotes awareness of the floodplain, assesses flooding issues and sets goals to make the community more resistant to flooding. Required by the CRS program to be updated every 5 years.

FDEP Resilient Florida Comprehensive Vulnerability Assessment - The County is working directly with FDEP and WSP consultants to develop a vulnerability assessment. This vulnerability assessment takes into consideration all of the natural perils that pose a threat to local infrastructure, private, commercial, and public properties. The vulnerability assessment is required as a prerequisite for the County to receive further grant funding for resilience studies from FDEP.

Floodproofing Study - Over the coming years or decades, most buildings in the coastal areas will need to be substantially rehabilitated/reconstructed to provide necessary resiliency to rising waters and more frequent storms. Often it is not feasible to elevate buildings and structures as mitigation action. In order to reduce damages and financial losses, we would like to study the impact or benefits of exploration into potential solutions, including but not limited to raised structures and utilities, floodproofing, and building retrofitting/ adaptation to differentiate between cyclical and storm surge events anticipating much larger quantities of water than expected under FEMA's current Base Flood Elevation (BFE). Since implementing the National Flood Insurance Program (NFIP), FEMA has released publications about retrofitting and floodproofing. Staff would like to expand the information provided to FEMA to create a design aid locally focused. Wet Floodproofing Measures, including elevating building utilities, floodproofing building utilities, and using flood damage-resistant materials, can moderately reduce flood risk and damage to utilities, floors, walls, and other areas subject to flooding. Dry Floodproofing Measures can significantly reduce flood risk in areas subject to flooding. A primary goal of this project is to understand better and effectively communicate the relationship between resiliency practices and building preservation.

#### Forecast FY 2023:

This is a new division. There were no Personal Services or Operating Expenses in FY 2023.

#### Current FY 2024:

Personal Services are budgeted for four (4) positions moving from General Planning Services (111/1011) to Community Planning & Resiliency (001/0001). These positions are Division Director – Community Planning and Resiliency, Manager – Engineering, Planner III, and Site Plans Reviewer III.

Operating Expenses are budgeted in professional services and will be used to complete planning projects and studies, including the Board-directed Army Corps of Engineers program.

**Zoning & Land Development Review (111/1011)** 

#### **Mission Statement**

The purpose of this section is to provide accurate, expeditious, and courteous service to the general public regarding land planning issues and general questions, issuance of various plan approvals and permits, and assistance to the Growth Management Department (GMD) Business Center. This section also provides the necessary oversight to amendments to the Land Development Code (LDC) to ensure compliance with State Statutes and the Florida Comprehensive Planning Regulations and to protect the welfare of the general public and the resources of Collier County.

# Planning Zoning & Land Development Review (111/1011)

Forecast FY 2023:

Personal Services and Operating Expenses are forecast to remain consistent with the adopted FY 2023 budget.

Current FY 2024:

Personal Services are budgeted to be higher due to a general wage adjustment and implementation of a merit-based incentive program.

Operating Expenses are budgeted higher due to an increase in other contractual services.

### **Planning**

**Zoning & Land Development Review (131/1014)** 

#### **Mission Statement**

The mission of this section is to review and provide recommendations for all land use petitions such as rezones, PUDs and conditional uses consistent with the Land Development Code (LDC) and Growth Management Plan (GMP) and as required by Chapter 163, Part II, Florida Statutes, and to ensure proper public input through the BCC, the Collier County Planning Commission (CCPC) and other BCC-appointed advisory committees.

#### Forecast FY 2023:

Personal Services are forecast to be lower due to employee vacancies.

Operating Expenses are forecast to be higher due to an anticipated increase in consulting services.

Revenue is forecast to be lower in FY 2023 due to the removal of Development of Regional Impact (DRI) review fees approved at the April 11, 2023, BCC Meeting and lower than anticipated conceptual development plan approval fees.

#### Current FY 2024:

Personal Services are budgeted to be higher due to a general wage adjustment and implementation of a merit-based incentive program.

Operating Expenses are budgeted to be higher due to increases in consulting services costs.

#### Revenues:

Revenue budgeted to be lower in FY 2024 due to the removal of Development of Regional Impact (DRI) review fees approved at the April 11, 2023, BCC Meeting and lower than anticipated conceptual development plan approval fees.

### **Growth Management Community Development Department**

# Planning Land Use Hearing Officer (131/1014)

#### Notes:

The Chief Hearing Examiner contract was approved by the Board on May 28, 2013.

The Hearing Examiner position was switched from employing a full-time County employee Hearing Examiner to a contracted vendor Hearing Examiner beginning July 14, 2021.

#### Forecast FY 2023:

Personal Services are forecast to be lower due to a midyear transfer of one (1) FTE to General Planning Services (111/1011).

Operating Expenses are forecast to be lower than the FY 2023 adopted budget due to a decrease in legal advertising costs.

#### Current FY 2024:

Personal Services are budgeted lower than the FY 2023 adopted budget due to the transfer of one (1) FTE to General Planning Services (111/1011).

Operating Expenses are budgeted to be higher due to increases in other contractual services.

### **Growth Management Community Development Department**

# Regulation Building Review & Permitting (113/1013)

#### Forecast FY 2023:

Personal Services are forecast to be lower than the adopted FY 2023 budget due to a mid-year transfer of an FTE and employee vacancies, mostly Building Inspectors and Plans Reviewers.

Operating Expenses are forecast to be lower than the FY 2023 adopted budget due to lower fuel and other contractual services expenses.

Capital Outlay forecast is to cover the expense of vehicles for Building Inspector positions added midyear in FY 2022 and a replacement vehicle.

#### Current FY 2024:

Personal Services are budgeted to be higher due to the approved staff career ladder program, a general wage adjustment, and the implementation of a merit-based incentive program. This increase is partially offset by one (1) position (Site Plans Reviewer III) being transferred to Community Planning & Resiliency (001/0001).

Operating Expenses are budgeted to be slightly higher due to scheduled computer replacements and the purchase of building code change books.

## **Growth Management Community Development Department**

# Regulation Code Enforcement (111/1011)

#### **Mission Statement**

To protect the health, safety and welfare of Collier County residents and visitors through education, cooperation, and compliance.

## Regulation Code Enforcement (111/1011)

#### Notes:

Code Enforcement is a community health, safety, and welfare-focused function that is not intended to perform as a revenue-centric business model. Revenues from fines and forfeitures are shown as part of the Code Enforcement budget but are not primarily intended to support the Division's operational costs. Charges for abatement activities and fees for lien searches are assessed to recover incurred costs.

#### Forecast FY 2023:

Personal Services and Operating Expenses are forecast to be in line with FY 2023 budget.

Revenue is forecast to be higher than the adopted FY 2023 budget and is derived from fees, fines, citations, Code Enforcement Board actions, and Special Magistrate-assessed judgments.

#### Current FY 2024:

Personal Services are budgeted to be higher due to a general wage adjustment and implementation of a merit-based incentive program.

Operating Expenses are budgeted to be lower than the FY 2023 adopted budget due to a decrease in temporary labor.

#### Revenues:

Revenue is budgeted to be lower than the adopted FY 2023 budget and is derived from fees, fines, citations, Code Enforcement Board actions, and Special Magistrate-assessed judgments.

# Regulation Right-of-way Permit & Inspections (131/1014)

#### **Mission Statement**

To provide a fast, efficient process for the review, issuance and inspection of infrastructure of right-of-way permits in compliance with Florida Administrative Code, regulations and codes, adopted by the Board of County Commissioners as set forth in governing ordinances.

# Regulation Right-of-way Permit & Inspections (131/1014)

#### Forecast FY 2023:

Personal Services and Operating Expenses are forecast to be in line with the FY 2023 adopted budget.

Revenue is forecast to be slightly lower due to less demand for right-of-way permits and inspections.

#### Current FY 2024:

Personal Services are budgeted to be higher due to a general wage adjustment and implementation of a merit-based incentive program.

Operating Expenses are budgeted to be lower with the adopted FY 2023 budget due to a decrease in fleet maintenance.

#### Revenues:

Revenue is budgeted to be in line with the adopted FY 2023 budget for right-of-way permits and inspections.

## **Growth Management Community Development Department**

# Regulation Business Franchise Administration Element (111/1011)

#### **Mission Statement**

To administer telecommunications licenses to cable franchises, monitor and procure associated fees, enforce customer service standards as they relate to franchise terms.

### **Growth Management Community Development Department**

## Regulation Business Franchise Administration Element (111/1011)

#### Forecast FY 2023:

Personal Services are forecast to be lower due to overtime being less than budget.

Operating Expenses are forecast to be higher than the adopted FY 2023 budget due to an increase in other contractual services.

Revenue forecast for radio tower leases is lower than the adopted FY 2023 budget.

#### Current FY 2024:

Personal Services are budgeted to be higher due to a general wage adjustment and implementation of a merit-based incentive program.

Operating Expenses are budgeted to be higher than the FY 2023 adopted budget due to intergovernmental expenses between areas being reimbursed via Intergovernmental charge (IGC) in FY 2024 rather than a transfer between funds. This change to reimburse intergovernmental expenses by IGC rather than a transfer provides greater accountability and is a best practice.

#### Revenues:

Revenue is budgeted to be higher than the FY 2023 adopted budget based on historical payments from the communication tower lease.

#### Forecast FY 2023:

Personal Services are forecast to decrease due to employee vacancies.

Operating Expenses are forecast to be lower due to contractor expenses for rate cases being less than anticipated.

Revenue is forecast to be higher than the FY 2023 adopted budget due to a one-off Ave Maria Utility Company application fee for their proposed territory expansion and continued growth in its customer base.

#### Current FY 2024:

Personal Services are budgeted to be higher due to a general wage adjustment and implementation of a merit-based incentive program.

Operating Expenses are budgeted to be slightly higher than the FY 2023 adopted budget due to incremental cost increases including IT services.

#### Revenues:

Revenue is budgeted to be higher due to the growth in Ave Maria Utility Company's customer base. Franchise fees are collected for regulatory duties and administrative work performed by County staff for the two remaining utilities regulated by this section which include Ave Maria Utility Company and North Marco Utility Company.

# Regulation Engineering Services (131/1014)

### **Mission Statement**

The purpose of the Engineering Services section is to oversee the implementation of the Land Development Code (LDC), ensure that the Subdivision Regulations and land development activities conform to the Growth Management Plan (GMP) and LDC, including the review and approval of subdivisions and other site development permits and provide inspection services of infrastructure construction to assure compliance with County Standards.

### Forecast FY 2023:

Personal Services are forecast to decrease due to employee vacancies.

Operating Expenses are forecast to decrease due to the transfer of temporary contracted staff.

Capital Outlay is forecast to cover the expense of one replacement vehicle for a Senior Field Inspector position.

### Current FY 2024:

Personal Services are budgeted to be higher due to a general wage adjustment and implementation of a merit-based incentive program.

Operating Expenses are budgeted to be higher due to an increase in fleet charges.

### Revenues:

Revenue is budgeted to be lower in FY 2024 due to a decrease in subdivision and utility permit and inspection activity.

## **Growth Management Community Development Department**

# Regulation Environmental Services (111/1011)

### **Mission Statement**

The purpose of this section is to provide for the development of various environmental planning efforts and regulations associated with the Growth Management Plan (GMP) and other BCC directed activities such as waterway and artificial reef monitoring.

### Forecast FY 2023:

Personal Services and Operating Expenses are forecast to be in line with the FY 2023 adopted budget.

### Current FY 2024:

Personal Services are budgeted to be higher due to a general wage adjustment and implementation of a merit-based incentive program.

Operating Expenses are budgeted to be higher than the FY 2023 adopted budget due to increases in other contractual services, replacement computers and Interdepartmental costs.

## **Growth Management Community Development Department**

## Regulation Planning / Environmental Services (131/1014)

#### Forecast FY 2023:

Personal Services are forecast to be in line with the FY 2023 adopted budget.

Operating Expenses are forecast to be lower due to a decrease in the use of other contractual services.

Revenue is forecast to be lower than the FY 2023 adopted budget due to less than anticipated collection of permit fees for various beach events.

### Current FY 2024:

Personal Services are budgeted to be higher primarily due to a general wage adjustment and implementation of a merit-based incentive program.

Operating Expenses are budgeted to be higher due to increases in safety equipment and IT charges.

### Revenues:

Revenue is budgeted to be higher than the FY 2023 adopted budget based on an increase in environment impact state revenues.

## Housing Policy And Economic Development Division Housing Policy & Economic Development (001/0001)

### **Mission Statement**

The recently created Housing Policy and Economic Development Division (HED) focuses on the Board's priorities of housing affordability and diversification of the local economy. HED works to implement the Board's economic development policy and functions as the primary County interface for economic development including effective management of related programs and incentives.

## **Growth Management Community Development Department**

## Housing Policy And Economic Development Division Housing Policy & Economic Development (001/0001)

#### Notes:

The Office of Business & Economic Development, the creation of which was approved by the Board on June 26, 2012, works in conjunction with other local and state economic development organizations to assist businesses to expand or relocate to Collier County. Activities consist of incentive policy development and administration, and business concierge services including facilitating regulatory assistance and promoting an improved business climate in Collier County.

The Housing Policy & Economic Development Division accomplishes Board directed policy and the design of programs to incentivize the establishment and availability of affordable housing through the promotion of strategic community partnerships. The division collaborates both internally with the Public Services Department and externally with residents, advisory boards, non-profit organizations, governmental agencies, and public-private partnerships to support quality of life and contributions to a healthy local economy aligned with the Growth Management Plan. In addition, the County has established the 20 million dollar surtax land trust fund to hold land in perpetuity and incentivize the construction of homes for workforce housing, seniors, and people with disabilities.

#### Forecast FY 2023:

Personal Services are forecast to be higher than the FY 2023 adopted budget due to a mid-year transfer of (.95) of a position from the Wastewater Division of the Public Utilities Department to increase the FTE from .05 to 1.0.

Operating Expenses are forecast to be lower than the FY 2023 adopted budget primarily due to a decrease in other contractual services and operating supplies.

### Current FY 2024:

Personal Services are budgeted to be higher due to a mid-year transfer of (.95) of a position from the Wastewater Division, a general wage adjustment, and the implementation of a merit-based incentive program.

Operating Expenses are budgeted to be lower due to an increase in other contractual services.

#### Notes:

This budget provides for economic development partnership and incentive payments including an allowance for new incentives. Because economic development incentive payments are subject to attaining certain milestones, the planned payments described below will be made only upon meeting established conditions.

Economic development incentive payments: Early Learning Coalition - \$75,000 Incentive allowance - \$250,000 Arthrex QACF - \$276,000 Arthrex QTI - \$45,000 Summit BIGPI - \$37,500

Total: \$683,500

Forecast FY 2023:

Operating Expenses are forecast to be in line with the FY 2023 adopted budget.

Remittances are forecast to be in line with the FY 2023 adopted budget.

Current FY 2024:

Operating Expenses are budgeted to be in line with the FY 2023 adopted budget.

Remittances are budgeted to be higher due to approved Board of County Commissioners economic incentive agreements.

## **Growth Management Community Development Department**

Grants and Aid (PILT) are forecast to be higher to due carryforward of funding related to the career pathways learning lab.

### Current FY 2024:

Personal Services are budgeted to be higher than the FY 2023 adopted budget due to the reserve for salary adjustments being budgeted at the fund level in FY 2023, a general wage adjustment, and the implementation of a merit-based incentive program.

Operating Expenses are budgeted to be higher than the FY 2023 adopted budget due to an increase in temporary labor.

Indirect Cost Reimbursements and Remittances are budgeted to be lower than the FY 2023 adopted budget.

### Revenues:

A payment of \$306,074 was received in June 2023 for the 3% distribution according to Section 285.701(9) and (10), Florida Statutes, which is a result of the Compact between the Seminole Tribe and the State of Florida. This distribution is for the payment period of October 1, 2021 - June 30, 2022. The Office of Economic and Demographic Research did not forecast FY 2024 Compact revenue, as it is currently unknown when or if payments will resume. Therefore, gaming proceeds were not budgeted for FY24.

Historical gaming receipts:

FY 12 - \$265,088

FY 13 - \$313,631

FY 14 - \$491,171

FY 15 - \$504,510

FY 16 - \$582,788

FY 17 - \$510,122

FY 18 - \$890,584

FY 19 - \$879,700

FY 20 - \$635,490

FY 21 - \$0

FY 22 - \$0

FY 23 - \$306,074

Total - \$5,379,158

On April 7, 2010, Florida's Governor and the Seminole Tribe of Florida executed a gaming compact, which was subsequently ratified by the Legislature and later approved by the U.S. Secretary of the Interior. The compact allows for select gaming activity in tribal facilities and requires the Tribe to make payments to the State for the privilege of conducting gaming activity in seven facilities located in Broward, Collier, Glades, Hendry, and Hillsborough counties. Three percent of the monies paid by the Tribe to the State are designated as the local government share and distributed to select county and municipal governments in those counties where the tribal gaming facilities are located.

The 2010 gaming compact expired, and the Tribe ceased revenue sharing with the state after making its April 2020 payment.

A new gaming compact, executed by the Governor and the Tribe on April 23, 2021, as amended on May 17, 2021, was ratified by the Legislature and later approved by the U.S. Department of the Interior. The new compact was struck down in federal court in November 2021. The Seminole Tribe is currently appealing the decision and has reverted back to the 2010 gaming compact. All monies paid by the Tribe to the State are deposited into the State General Revenue Fund, with three percent of those monies designated as the local government share, Collier's share is split between the Immokalee Fire District receiving 25% and the Board received 75% derived from the Seminole Indian Casino in Immokalee.

### Notes:

On April 20, 2010, the Deepwater Horizon offshore oil rig had an explosion. The resulting fire could not be extinguished and, on April 22, 2010, Deepwater Horizon sank, leaving the well gushing oil until July 15 when it was finally capped, causing the largest oil spill in U.S. waters. In accordance with Section 377.43 Florida Statutes, the Deepwater Horizon Oil Spill Settlement may be spent on the following:

Scientific research into the impact of the oil spill on fisheries and coastal wildlife and vegetation along any of the state's shoreline and the development of strategies to implement restoration measures suggested by such research; Environmental restoration of coastal areas damaged by the oil spill; Economic incentives; and Initiative to expand and diversify the economy of the Collier County.

The Department of Environmental Protection is the lead agency for expending the funds designated for environmental restoration efforts. The Department of Economic Opportunity is the lead agency for expending the funds designated for economic incentives and diversification efforts.

House Bill 7077 (Chapter 2017-63 Laws of FL) repealed Section 377.43, F.S., relating to the disbursement of funds received for damages caused by the Deepwater Horizon oil spill. Now the spending provisions are under Section 288.80 F.S.

## Economic Development and Innovation Zones Ave Maria Innovation Zone (182/1030)

#### Notes:

The Ave Maria Innovation Zone was established on June 23, 2015, by Resolution 2015-133 pursuant to Collier County Innovation Zone Ordinance 2010-20. Trust funds generated under the tax increment financing plan may be utilized in any lawful manner including infrastructure required to serve a new targeted business or the expansion of an existing targeted business; payment of County Impact Fees to be paid by targeted new or existing business; and payment of building permit or other County fees related to the construction of structures to serve targeted business. Resolution 2015-133 puts restrictions on the amount of tax increment revenue deposited. Up to five percent (5%) of the deposit shall be reserved as an administrative fee for the County. All payments must be approved in advance by the Board.

### Current FY 2024:

A modest operating expense allowance is provided for administrative and other services as needed. The reserve for unfunded requests can only be disbursed upon Board approval consistent with the Economic Development Plan.

#### Revenues:

Primary revenue sources are Tax Increment Financing (TIF) derived from the Innovation Zone's tax increment and fund carryforward. The taxable value within the Innovation Zone is \$71,392,224, a 15.36% increase, and the related tax increment value by which the tax increment revenue is derived is \$44,745,005. The TIF transfers from the General Fund and the Unincorporated Area General Fund represent 95% of the increment total of \$136,300 and \$31,000 respectively. Year over year TIF revenue increased by \$20,800 or 14.2% to \$167,300.

## Economic Development and Innovation Zones Golden Gate City Economic Development Zone (782/1032)

#### Notes:

The Golden Gate City Innovation Zone was established on November 13, 2018, by Ordinance 2018-56 pursuant to Collier County Innovation Zone Ordinance 2010-20. Trust funds generated under the tax increment financing plan may be utilized in any lawful manner including infrastructure required to serve a new targeted business or the expansion of an existing targeted business; payment of County Impact Fees to be paid by targeted new or existing business; payment of building permit or other County fees related to construction of structures to serve targeted business; and in any lawful manner which the Board of County Commissioners determines fosters economic development. Resolution 2015-133 puts restrictions on the amount of tax increment revenue deposited. Up to five percent (5%) of the deposit shall be reserved as an administrative fee for the County. All payments must be approved in advance by the Board.

### Current FY 2024:

The tax increment payment is subject to annual appropriation by the Board and all payments must be approved in advance by the Board.

Remittances include a reimbursement of \$788,900 to PFPI OZ, LLC, (Pikus) for sanitary sewer, drainage, impact fees, and building permit fees to construct its corporate headquarters within the Golden Gate Economic Development Zone. In addition, a modest operating expense allowance is provided for administrative and other services as needed. The reserve for unfunded requests totals \$8,353,600 and can only be disbursed upon Board approval consistent with the Economic Development Plan. A modest operating expense allowance is provided for administrative and other services as needed. The reserve for unfunded requests can only be disbursed upon Board approval consistent with the Economic Development Plan.

### Revenues:

Primary revenue sources are Tax Increment Financing (TIF) derived from the Innovation Zone's tax increment and fund carryforward. The taxable value within the Innovation Zone is \$1,222,715,121, an 11.79% increase, and the related tax increment value by which the tax increment revenue is derived is \$677,761,583. The TIF transfers from the General Fund and the Unincorporated Area General Fund represent 95% of the increment total of \$2,063,200 and \$468,800 respectively. Year over year TIF revenue increased by \$241,600 or 10.5% to \$2,532,000.

## Economic Development and Innovation Zones I-75 & Collier Blvd Innovation Zone (783/1031)

#### Notes:

The Interchange Activity Center No. 9 Innovation Zone was established on July 10, 2018, by Ordinance 2018-39 pursuant to Collier County Innovation Zone Ordinance 2010-20. Trust funds generated under the tax increment financing plan may be utilized in any lawful manner including infrastructure required to serve a new targeted business or the expansion of an existing targeted business; payment of County Impact Fees to be paid by targeted new or existing business; payment of building permit or other County fees related to construction of structures to serve targeted business; and in any lawful manner which the Board of County Commissioners determines fosters economic development. Ordinance 2018-39 puts restrictions on the amount of tax increment revenue deposited. Up to five percent (5%) of the deposit shall be reserved as an administrative fee for the County All payments must be approved in advance by the Board.

### Current FY 2024:

Operating expense includes a modest allowance for administrative services and funding. The reserve for unfunded requests can only be disbursed upon Board approval consistent with the Economic Development Plan.

The \$7,000,000 remittances includes the payment to the Great Wolf Lodge Water Park; at a 50% project completion, \$3,000,000 will be disbursed and when the certificate of occupancy is issued, the remaining \$4,000,000 will be disbursed.

### Revenues:

Primary revenue sources are from Tax Increment Financing (TIF) derived from the Innovation Zone's tax increment and fund carryforward. The taxable value within the Innovation Zone is \$343,505,929, a 9.66% increase, and the related tax increment value by which the tax increment revenue is derived is \$154,456,284. The TIF transfers from the General Fund and the Unincorporated Area General Fund represent 95% of the increment total of \$470,200 and \$106,900 respectively. Year over year TIF revenue increased by \$62,800 or 12.2% to \$577,100.

Fiscal Year 2024 4 - 1 Court Related Agencies

## **Court Related Agencies**

The Court Related Agencies include divisions that provide judicial operations for both Circuit and County Courts and Programs. The divisions include Court Administration, Probation, facility and operation costs for the State Attorney's Office, Public Defender, Guardian Ad Litem, Electronic Court Reporter, and Circuit and County Judges. Also included are the Public Guardianship Program, the Drug Abuse Trust Fund, and the Teen Court Program. The total appropriation for FY 2024 including transfers and reserves, is \$7,133,200.

Court costs are funded with a general fund transfer, court fees, surcharges on traffic violations, and probation fees. The County is mandated by Section 14 of Article V of the State Constitution to fund the following costs of the circuit and county courts, public defender's offices, state attorney's offices, guardian ad litem offices, and the offices of the clerk of the circuit and county courts performing court-related functions:

- 1. Facilities construction, lease, maintenance, and security of buildings and office space, appurtenant equipment and furnishings, structures, real estate, easements, and parking facilities.
- 2. Utilities electricity, gas, water and wastewater services, and systems, storm water services and systems, sewer services and systems, all associated costs and fees, and mitigation of environmental impacts.
- 3. Communication services telephone system infrastructure, maintenance, facsimile equipment, wireless communications, cellular telephones, pagers, video teleconferencing equipment and line charges, local carrier service, and local and long-distance toll charges.
- 4. Computer network systems and equipment computer hardware and software, modems, printers, wiring, network connections, maintenance, support staff or services, training, supplies, and line charges.
- 5. Courier messenger and subpoena services.
- 6. Auxiliary aids and services are necessary to ensure access to the courts for qualified individuals with a disability.

Ordinance 09-41 adopted by the Board of County Commissioners on July 28, 2009, as authorized by s. 318.18(13)(a) F.S., provides for a \$30 surcharge for those non-criminal traffic infractions outlined in Chapter 318, Florida Statutes, and certain criminal violations enumerated in Section 318.17, Florida Statutes, will provide the County with an estimated \$900,000 in revenue for FY 2024. This revenue is designated for capital improvements to Courthouse buildings and facilities.

Ordinance 04-42, adopted by the Board of County Commissioners on June 22, 2004, as authorized by s. 939.185 F.S., provides for a \$65 court cost fee when a person pleads guilty or nolo contendere to or found guilty of, any felony, misdemeanor, or criminal traffic offense under the laws of the State of Florida, will provide the County with an estimated \$160,000 in revenue for FY 2024. This revenue will be divided equally among four (4) court related programs: Innovative Court Programs, Teen Court, Law Library, and Legal Aid.

The Court Related Technology Fund (178/1054) receives a \$2 per page service charge collected for recording documents or instruments as listed in s.28.222 F.S. These funds are used to support court-related technology throughout the various entities of the Court. The FY 2024 budget is anticipated to provide \$800.000 in revenues.

Fiscal Year 2024 4 - 6 Court Related Agencies

## **Court Related Agencies**

# Court Administration Court Operations (681/1051)

### Forecast FY 2023:

Court Administration has been providing financial support to Teen Court, the Public Guardianship Program, and the Law Library. All planned transfers will proceed as budgeted.

### Current FY 2024:

Personal Service increase is due to a general wage adjustment and implementation of a merit-based incentive program.

The Operating Expense increased due to other contractual services and postage.

Transfer to (171/1132) Teen Court for \$11,300 and a Transfer to (192/1050) Court Innovations for \$145,800 cover the shortfall in funding due to continued insufficient receipts of the \$65 (Article V) revenues. Law Library Fund (640/1145) will receive a transfer of \$64,400 during the current year to aid in their operations.

### Revenues:

The General Fund (001/0001) transfer decreased (13.6%) and is a result of a slight rise in revenue due to the number of arrests and court filings in Collier County.

Fiscal Year 2024 4 - 7 Court Related Agencies

## **Court Related Agencies**

# Court Administration Parole & Probation (681/1051)

### **Mission Statement**

To provide quality rehabilitative supervision and direction to all defendants placed on probation verifying that they comply with court-imposed sanctions and conform to social norms, to effectively maintain a large caseload and serve the judiciary and abiding by established case law and Florida Statutes in the performance of duties.

Fiscal Year 2024 4 - 8 Court Related Agencies

## **Court Related Agencies**

# Court Administration Parole & Probation (681/1051)

### Forecast FY 2023:

Personal Services decrease is due to the freeze on new hires and implementation of new technologies allowing to achieve the same level of service without the impact on personal services.

### Current FY 2024:

Personal Services increase is due to a general wage adjustment and implementation of a merit-based incentive program.

Operating Expense has decreased due to IT charges, Fleet Maintenance and Fuel.

### Revenues:

Revenue has increased due to more arrests; more people being placed on probation and cases getting resolved from backlog due to the pandemic.

## Court Administration Court Innovations (192/1050)

#### Notes:

This revenue source was created effective July 1, 2004 when the Board of County Commissioners adopted Ordinance 04-42 pursuant to s. 939.185 F.S., which was part of the revision to Article V of the State Constitution. The source of this revenue is an additional court cost of \$65 when a person pleads guilty or no contest or is found guilty of any felony, misdemeanor, or criminal traffic offense in Florida. Twenty-five percent (25%) of this amount is allocated to fund innovative court programs.

Collier County funds the management of 80 wards per month with this program, directly to the local Guardianship Office. This is not a mandated program; however, the Chief Judge has determined this program to be a necessity to our Community.

### Forecast FY 2023:

Revenue is based upon actual collections received through April 2023.

Per County Ordinance 04-42, any funds remaining in Teen Court (171/1132), Law Library (640/1145), and the Legal Aid Society (652/1146) are to be returned to the Court Innovations Fund (192/1050). There are no planned residual transfers from any of these funds, as current revenues are not sufficient to support the ongoing level of service.

### Current FY 2024:

Funding for the Public Guardianship program has been consistent with prior years, as the program serves a fixed number of clients.

### Revenues:

Collections of the \$65 fee that supports this program have been insufficient since FY 2007 due to the continued decline in revenues. To offset this decrease, a transfer to cover the shortage is budgeted for \$145,800 from the Court Administration Fund (681). Funding is from Probation fees (681/1051) and the balance is from the General Fund (001/0001).

## Court Administration Teen Court Fund (171/1132)

#### Notes:

This revenue source was created effective July 1, 2004, when the Board of County Commissioners adopted Ordinance 04-42 under s. 939.185 F.S., which was part of the revision to Article V of the State Constitution. This revenue is an additional court cost of \$65 when a person pleads guilty or no contest or is found guilty of any felony, misdemeanor, or criminal traffic offense in Florida. Twenty-five percent (25%) of this amount is allocated to fund juvenile programs. In the past, Teen Court and Juvenile Assessment Centers were allocated twelve and a half percent (12.5%) each. On June 22, 2010, via Board Agenda Item 16J5, Teen Court will receive the full twenty-five percent (25%).

### Forecast FY 2023:

Revenue is based upon actual collections received through April 2023.

Personal Services decreased due to the implementation of more efficient processes within the teen court.

### Current FY 2024:

Personal Services increase is due to a general wage adjustment and implementation of a merit-based incentive program.

Operating Expense includes funding for the Teen Court coordinator, minimal operating costs for maintenance of the program, and three \$1,000 Scholarships to be awarded to program participants.

#### Revenues:

The current revenue budget is a full 25% of the \$65 Fee with a supplemental transfer from Court Administration (681/1051) for \$11,300 to keep the program active. Court Administration funding is from Probation Fees (681/1051) and the balance is from the General Fund (001/0001).

### **Court Related Agencies**

### Court Administration Law Library Fund (640/1145)

#### Notes:

This revenue source was created effective July 1, 2004 when the Board of County Commissioners adopted Ordinance 04-42 pursuant to s. 939.185 F.S., which was part of the revision to Article V of the State Constitution. The Law Library receives one-quarter of this fine to fund their operations.

#### Forecast FY 2023:

Revenues from the \$65 court cost fee are based upon actual collections received through April 2023.

#### Current FY 2024:

The request from the Law Library for operating costs of \$111,600 will be fully funded as the Court Administration will provide a transfer for \$64,400 to supplement the \$65 court cost fee that supports this function.

The costs include funding for staff, books, utilities, and electronic Westlaw access. The Law Library expanded its collection of legal resources and databases as well as subscriptions to legal databases and online services.

#### Revenues:

Article V revenues have been insufficient since FY 2007 due to the continued decline in this revenue source. To off-set this decrease, a transfer from Court Administration Fund (681/1051) for \$64,400 is budgeted. Court Administration funding is from Probation Fees (681) and the balance is from a General Fund (001/0001) transfer.

#### Current FY 2024:

Operating Expenses for the County Court Judges include minor operating items split among the various judges.

All other costs such as office space, utilities, communication services, and security are paid for by the Collier County Facilities Management Division.

#### Notes:

Under the revisions to Article V, as of July 1, 2004, the County is responsible for funding the following operating expenses for the Public Defender: facility construction/lease, facility maintenance and security, utilities, communication services, data processing equipment and software, and other local operating requirements.

#### Current FY 2024:

A large portion of the budget is fixed costs which the Public Defender has no control over, such as water, electricity, building repairs and maintenance, etc. The remaining budget is for two Attorneys, one Support Staff Position, and one Specialty Courts Coordinator. The Public Defender is fully utilizing these positions to provide early representation of clients to move their cases efficiently and effectively through the judicial system in Collier County. This fiscal year includes a pay adjustment for the recruitment of an additional 1 FTE and retention after remaining flat for many years.

#### Notes:

Under the revisions to Article V, as of July 1, 2004, the County is responsible for funding the following operating expenses for the State Attorney: facility construction/lease, facility maintenance and security, utilities, communication services, data processing equipment, software and technical support, and other local operating requirements. In 2023 the State Attorney's offfice joined forces with local law enforcement to Create a task force that will combat human trafficking in the region.

#### Current FY 2024:

This funding is for operating expenses for the State Attorney's Office located in Collier County and includes funding for five jail reduction personnel dedicated to Collier, they consist of an Assistant State Attorney, a Paralegal, a Clerk, one Specialty Courts Coordinator, and one Prosecutor working with Specialty Courts. This fiscal year includes a pay adjustment for recruitment and retention after remaining flat for many years, an increase in the electricity and water & sewer, and an increase in other contractual services.

#### Notes:

Under the revisions to Article V, as of July 1, 2004, the County is responsible for funding the following operating expenses for the Guardian Ad Litem: facility construction/lease, facility maintenance and security, utilities, communication services, data processing equipment and software, and other local operating requirements.

#### Current FY 2024:

Rent, utilities, security, and facility maintenance are paid for Guardian Ad Litem by the Facilities Management Division, which is funded by the General Fund (001/0001). Technology needs are paid for by the Court IT Fee Fund (178/1054).

This budget contains funding for storage fees and a minimal allocation for office supplies and minor operating equipment.

#### Notes:

Revenues reflect collections of \$2 per page of a \$4 per page service charge assessed for recording documents or instruments as listed in s. 28.24 F.S. These revenues are dedicated to the technology needs of the Courts and Court Related Agencies.

#### Forecast FY 2023:

Personal Services decreased due to a more conservative approach to staffing.

Revenues are based upon actual collections through April 2023.

#### Current FY 2024:

Personal Service increase is a general wage adjustment and implementation of a merit-based incentive program.

Operating Expenses have increased due to Information Technology allocations and other contractual services.

Capital Outlay has increased due to the purchase of switches that should last 5-7 years and it is not a recurring expense.

Reserves have decreased due to a decrease in revenue.

#### Revenues:

ICDTF collections, which are funds received from a portion of various fees and fines, are down. They used to be steady, before COVID. The decline seems to be flattening.

### Office of the County Manager

#### **Management Offices**

The Executive Management Offices consist of the Administrative Office of the County Manager, the Corporate Compliance & Internal Review Section, the Office of Management and Budget, the Grants Compliance Section and the Impact Fee Administration. In addition, Pelican Bay Services, Tourism, Economic Development and Community Redevelopment Agencies (CRA) report directly to the County Manager's Office.

To reach this office, please call 252-8383 - County Manager's Office

#### Office of Management and Budget

The Office of Management and Budget oversees the development, implementation, and monitoring of Collier County budgets, ensuring funding is available to safeguard public services and protect community assets. They set the budget policy each year to promote fiscal stewardship over taxpayer funds. To reach the Office of Management and Budget, please call 252-8973.

#### Communications. Government & Public Affairs

The Division of Communications, Government & Public Affairs is the public's direct access to open government. We provide information on County services, facilities, projects, meetings and events, and programs. We facilitate public record transparency and provide access for the public to review records at their request. We operate Collier 311 for non-emergency service requests from residents and visitors. We also coordinate state and federal legislative efforts to maximize County project funding and to educate legislators on County processes and programs that could be impacted by changes in state and federal law, rule and regulation. For more information on the Communications, Government & Public Affairs Division, please call 252-8999.

#### **Pelican Bay Services**

Services are provided to residents of Pelican Bay through the Pelican Bay Municipal Services Taxing and Benefit Unit (MSTBU). Services include Water Management, Community Beautification, Street Lighting, Security Operations, Clam Bay Restoration, and a capital improvement program. Funding is provided by special assessments levied on residents of Pelican Bay as well as an ad valorem levy for district lighting and lighting system improvements. Aligning with County Managers office strategic objectives division will preserve and enhance the character of Pelican Bay Community. Protecting natural resources in the Clam Bay NRPA. Utilize partnerships to ensure that government facilities meet Pelican Bay expectations. Encourage active community engagement and participation with the Pelican Bay services board. For more information on Pelican Bay Services, please call 252-1355.

#### **Corporate Compliance and Continuous Improvement Division**

Provides responsible governance for county-wide operations through leading by example for compliance with policies, procedures, and requirements. Additionally, proactive recommendations are made in order to help facilitate change to remain compliant with all types of requirements. Completion of analysis to support recommendations are completed through research, exploratory data analysis, red flag reviews, statistical comparisons, trending analysis, data analytics, investigation, and reviews to ensure that all potential analysis is supported and has proper documentation to safeguard the taxpayers dollars.

#### **Tourism**

The Naples, Marco Island, Everglades Convention & Visitors Bureau (CVB) is the official source for area travel and tourism information about Florida's Paradise Coast. Through its efforts globally, the CVB promotes Collier County as an exceptional vacation and meeting tourism destination by highlighting key assets of the County including 30 miles of white sand beaches, eco-adventures, shopping, arts and culture offerings, world renown dining plus exceptional sporting activities and venues. Funding for the Naples, Marco Island, Everglades Paradise Coast Convention and Visitors Bureau is generated from the 5% tourist tax (TDT) levied on hotel rooms and short-term rentals in Collier County. The TDT is reinvested within the County's core tourism assets ensuring and enhancing the quality of place for both residents and visitors alike. For more information on Tourism, please call 239-252-6292.

#### **Sports & Special Events Complex**

The Paradise Coast Sports Complex, a 180 acre state-of-the-art sports and entertainment facility, features professional-level synthetic turf fields, as well as on-site recreation and entertainment options. This world-class facility allows Collier County to promote the region as an exceptional sports tourism destination attracting athletes and attendees from across the globe while at the same time providing an incredible recreational amenity for the enjoyment and use by local residents. The complex is a newly aligned business focus within the Tourism Division and yet another testament to the quality of place that sets Collier County apart for residents and visitors alike.

For more information, please call 239-252-4386

Community Redevelopment Agency In accordance with Chapter 163, Part III, Florida Statutes, the Community Redevelopment Agency carries out the redevelopment of two Community Redevelopment Areas (Immokalee and the Bayshore/Gateway Triangle) pursuant to an

### Office of the County Manager

adopted Community Redevelopment Plan ("the Plan"). The primary source of funding for the implementation of the Plan is tax increment revenue deposited into a Redevelopment Trust Fund.

The County's redevelopment efforts are led by a Board (the BCC sitting in a separate legal capacity), informed by Local Redevelopment Advisory Boards served by citizen volunteers appointed by the BCC, and administered by professional staff led by the County Manager, all of whom work together with each other and with the private sector, other public sector institutions, citizens, and all interested stakeholders to implement the Plan.

While the Plan authorizes many projects and programs for each of the Community Redevelopment Areas, and Florida Statutes authorize many more, the Plan prioritizes public safety, infrastructure, economic development, and housing. As a result, the Plan is very closely aligned with the Collier County Strategic Plan 2023. In fact, the Community Redevelopment Agency is a champion for the County's values, vision, mission, objectives, and priorities within the Community Redevelopment Areas and is proud to be focused on the following Collier County Strategic Plan Priorities in FY 2024: Transportation Improvements; Water, Wastewater, and Stormwater Improvements and Partnerships; Affordable Housing; Strategic Real Estate Management; Parks Improvements; and Communication Initiatives.

For more information about Collier County's Community Redevelopment Agency, please call (239) 252-8844.

#### Fleet Management

Division is responsible for the complete life cycle asset management for over 3800 pieces of equipment. This includes purchasing, in-servicing, preventative, predictive, emergency maintenance, and repairs. The services we perform adds to the quality of place supporting other agencies so they can provide robust services; to include safety sensitive emergency services and community development in CAT transportation services. The Fleet Management Division incorporates data driven decision making, with measurable key performance indicators which helps the division operate efficiently and effectively which is responsible governance. To reach the Fleet Management Division, please call 252-2277.

#### **Human Resources**

The Human Resources Division (HR) is comprised of a number of organizational components, which include Administration, Labor and Employee Relations, Operations, Talent Acquisition, Talent Development, and Total Rewards. Each specialized area provides a variety of services to the County's constituency as well as to the County's employee population. This is accomplished by supporting the organization with team-building efforts in the areas of compensation, retention, employee recognition, employee relations, performance management, motivation, development, and training.

To meet the Board strategic priority of positioning Collier County as an employer of choice, HR will continue to design and deliver strategies to recruit, develop, assess, and retain a high-quality workforce. These efforts include the development of a branded recruitment program along with on-boarding processes that reflect a positive, quality experience for new employees. Additionally, HR will design, communicate, implement, and administer an integrated, comprehensive approach to compensation that management can use to attract and retain employees and drive performance that exceeds expectations, and provide professional development programs and opportunities to meet the employees' needs. To reach the Human Resources Division, please Call 252-8460.

#### Information Technology

The Information Technology Division provides efficient, reliable, and secure customer-oriented information technology services for Collier County Government, which include the agency's data network, telephone system, software applications, and data.

As a County Manager priority, providing cybersecurity in today's environment is imperative. Deploying an immutable back-up system provides enhanced and longer archived backs-ups and will aid in the recovery in the event of a cyberattack. Several layers of security will be added to the existing security infrastructure. Implementing a Security Operations Center piece to the cybersecurity apparatus, along with extended monitoring, will add to the existing layers already provided. Additionally, IT will be working towards a "Zero Trust" environment.

Developing an IT Master Plan is another priority of the County Manager. As technology initiatives advance throughout the County, IT is working to provide a more cutting-edge and nimble infrastructure. IT will be working on moving to cloud applications where it is deemed a good fit, upgrading/refreshing older technology to faster and "smarter" equipment, providing project support for Departments and Divisions in the County through collaboration software, and providing longer support hours. To reach the Information Technology Division, please call 252-8794.

#### **Procurement**

The Procurement Services Division is a strategic partner that ensures proper safeguards are in place to maintain a procurement system of quality and integrity which protects taxpayer money by promoting fiscal stewardship and sound budget oversight. The Division procures goods and services through a variety of procurement methods and services and is responsible for managing the County's purchasing card program (p-card) and the transfer and disposal of surplus property, which includes various public auctions and other sales events. The main objectives are strategic planning for County

### Office of the County Manager

purchases, supporting business needs throughout the agency, educating customers and the vendor community, ensuring fair, transparent, and ethical competitive purchasing processes, and ensuring adherence to federal, state, and local laws. Upcoming initiatives that align with the County's strategic plan include replacing the bidding platform, increasing vendor outreach, and automating more processes through software implementation. To reach the Procurement Services Division, please call 252-8407.

#### **Risk Management**

The Risk Management Division is a strategic partner that strives to continuously develop, manage, and improve the County's finance risk, group insurance, and safety and occupational health programs to provide quality, cost-effective support to County employees and to protect the County interests against frequent and catastrophic loss, and to ensure that the County's employees are safe at their jobs.

Through responsible governance, Risk strives to identify, manage, mitigate, and finance risks; seeks to reduce the frequency, severity, and associated costs of claims; and serves as a resource for the health, safety, and well-being of Collier County employees by offering continuous education, expert advice, and communication efficiently and properly. To reach the Risk Management Division, please call 252-8461.

#### Our primary and essential services include:

• Emergency Management that provides a centralized incident command and effective response in preparation for, during and after a major disaster

252-3600 Emergency Management & 800 MHz Radio

#### **Emergency Medical Services**

Collier County Emergency Medical Service provides pre-hospital advanced life support 911 response to the citizens and visitors of Collier County. EMS covers over 2,000 square miles with 26 ambulances and one trauma helicopter, strategically placed throughout Collier County to provide care and rapid response. In 2022 Collier County Emergency Medical Services responded to a little over 48,000 calls for service and transported nearly 33,000 patients to area hospitals. In addition to responding to calls, EMS provides public outreach and education within the community.

Collier County Emergency Medical Services is dedicated to providing quality care to the community by providing rapid response and transport. The EMS budget includes funding to maintain response times, staffing, infrastructure and equipment needed to meet the demands of the public we serve and meet our overall county response time goal of 8 minutes or less 90% of the time. Funding for the EMS system maintains robust public safety services and provides quality of place by contributing to the safety and welfare of the community.

252-3740 Emergency Medical Services

#### **Emergency Management**

The Division of Emergency Management works to protect and manage consequences for the citizens, visitors, local agencies, businesses, and organizations from the effects of natural, technological, public health, community crisis, and terrorism disasters or emergencies under the guidance of the County Manager. The Division receives program guidance and mandates from the Department of Homeland Security, the Federal Emergency Management Agency, and the State's Division of Emergency Management under the Office of the Governor. The Division works to maintain a vision of a vibrant, integrated, and progressive disaster-resistant community. Programming and work by the Division include planning for, responding to, recovering, and mitigating the impacts of major disaster events or localized emergencies 24 hours a day, 7 days a week. Staff and volunteers work to develop capabilities, strategies, and programs to minimize the effects and streamline the recovery from a disaster or community emergency. The Division provides on-scene technical support to public safety organizations, hurricane protection project management, community and crisis education and planning, comprehensive disaster, nursing home, and critical infrastructure review, preparedness planning, evacuation coordination, emergency public information and warning, meteorological services, hazardous materials storage analysis, field exercise and training resources, and statemandated registration and case-need evaluation for persons with special needs. The office of the Medical Examiner and the County 800mhz Public Safety Communications unit are supported under the Emergency Management Division.

## Office of the County Manager

# County Manager Operations County Manager (001/0001)

#### Forecast FY 2023:

Personal service forecast is higher than the adopted budget due to the transfer of two (2) FTEs, one from Public Services Operations and one from Public Services Admin, offset by vacancies throughout the year. Operating expenditures are forecast slightly higher than the adopted budget.

#### Current FY 2024:

Personal services are budgeted higher due to the aforementioned addition of two (2) FTEs as well as the general wage adjustment and implementation of a merit-based incentive program. Operating expenditures are generally consistent with budget policy.

Fiscal Year 2024 5 - 12 Office of the County Manager

## Office of the County Manager

# County Manager Operations County Manager-Board Related Costs (001/0001)

#### **Mission Statement**

This budget provides miscellaneous Board directed activities such as lobbyist activities and the citizen survey.

### Office of the County Manager

# Office of Management & Budget Office of Management & Budget (001/0001)

#### **Mission Statement**

The purpose of the Office of Management and Budget is to assist in the development, implementation, and monitoring of the operating and capital budgets; to offer technical support to divisions and agencies within the Collier County Government structure; to assist the general public, the Board of County Commissioners, and citizen groups with information requests; and to provide staff support to assigned Advisory Boards.

#### Forecast FY 2023:

Personal Service expense is forecast lower than the adopted budget due to vacancies throughout the year offset by the transfer and reclass of one (1) FTE from grants. Operating expense is forecast higher due to increases in minor operating equipment and legal advertising.

#### Current FY 2024:

Personal services are budgeted higher due to the aforementioned transfer reclass of (1) FTE, a general wage adjustment and the implementation of a merit-based incentive program. Operating expenses are in line with the previous year.

Fiscal Year 2024 5 - 16 Office of the County Manager

### Office of the County Manager

# Office of Management & Budget Grant Compliance (001/0001)

#### **Mission Statement**

To reduce the cost of providing the public with services, facilities and infrastructure by maximizing the use of federal, state and local grants. To track, monitor, assist with administrative compliance, and coordinate all grants applied for, received and managed by Collier County.

|  | FY 2024   | FY 2024 | FY 2024  | FY 2024  |

| Grant Coordination and Compliance - RG | 4.00      | 589,500 | _        | 589,500  |

To plan, implement and manage a centralized administrative grants compliance program for Collier County. Provides oversight and assistance to Divisions with emphasis in single audit and fiscal management to improve accountability and audit review success. Develop agency wide protocols and internal controls for post compliance. Coordinate, develop, and monitor corrective action plans for audit findings. Serve as liaison between the Clerk and independent auditors. Serve as technical advisor to Divisions including Purchasing in procurement of grant funds goods, service and capital projects. Develop training orientation program for County staff managing grants. Ensure proper stewardship of public funds awarded through cataloged state and federal grant programs. Continue to provide support services in grant acquisition to ensure proper Board approvals and assess Division resources for successful management.

Fiscal Year 2024 5 - 17 Office of the County Manager

### Office of the County Manager

# Office of Management & Budget Grant Compliance (001/0001)

#### Notes:

Effective February 1, 2012, Grants Management was reorganized under the Office of Management and Budget (OMB) to centralize all administrative grant compliance functions at the corporate level. The Grants Compliance Office (GCO) provides oversight and technical support to Divisions with a focus on single audit and fiscal management. The development and implementation of agency wide internal controls and protocols will support successful single audit reviews. Key areas such as procurement, draw requests, report submission, and revenue to expenditure reconciliations will be under the purview of OMB as technical assistance to Divisions.

#### Forecast FY 2023:

Personal service forecast is lower due to vacancies throughout the year and the reclass and transfer of one (1) FTE to budget.

#### Current FY 2024:

Personal services are budgeted slightly lower than FY 2023 due to the transfer of one (1) FTE offset slightly by the general wage adjustment and implementation of a merit-based incentive program.

Fiscal Year 2024 5 - 18 Office of the County Manager

## Office of the County Manager

# Office of Management & Budget Impact Fee Administration (107/1015)

#### **Mission Statement**

Ensure the fair and equitable administration of the Collier County Impact Fee Program, in accordance with Chapter 74 of the Collier County Code of Laws and Ordinances, which is the Collier County Consolidated Impact Fee Ordinance.

#### Notes:

In order to efficiently account for and manage those sources and uses of funds associated with impact fee operations, this fund was created in FY 2010. The fund is supported by reimbursements from Impact Fee Trust Funds and Certificate of Public Facility Adequacy Fees (COA fees).

#### Forecast FY 2023:

Personal services forecast reflects savings from a vacancy within the division. Operating expense increases are a result of professional service fees that rolled from the prior fiscal year.

#### Current FY 2024:

Increase in personal services is the result of a general wage adjustment and the implementation of a merit-based incentive program. Operating expense increased as a result of additional funding for professional services.

Reserves in this fund are primarily designed to insure sufficient cash flow to cover operations during the first quarter of the fiscal year until operating and transfer revenue is received. Additionally, funding has been set aside to specifically address future office space planning, should the need arise.

#### Notes:

The Affordable Housing Impact Fee Deferrals for Water and Sewer Program was adopted by the Board on July 26, 2005 in Ordinance 2005-40. Once a homebuyer qualifies for the deferral, this program uses an alternate funding source to pay the water and sewer impact fees to ensure that the District's capital infrastructure will not be impacted by the deferral. For five years, the General Fund funded the program in an amount of the built-in 3% cap, not to exceed \$750,000 per year. The program was developed with the limitation that the aggregate amount of deferred fees per fiscal year would in all cases be limited to no more than 3% of the total impact fee collections of the previous fiscal year. After the fifth year, the lien repayments will be used to repay the General Fund.

#### Forecast FY 2023:

On September 30, 2021, the audited balance of outstanding Impact Fee Deferrals was \$1,492,848.60. This represents 247 owner occupied dwellings made up of 228 condo units and 19 single family homes that are still in the program.

For owner occupied units, the deferred impact fees shall become due and payable when the dwelling is sold, refinanced, or the owner loses the homestead exemption. This program also was offered to rental dwelling units; however deferred impact fees had to be paid off 6-years and 9-months after the execution of the impact fee deferral agreement by the County. There are no outstanding rental dwelling unit impact fee deferrals remaining in the program.

#### Current FY 2024:

The General Fund transfer reflects the anticipated fund balance at year ending September 30, 2023. No deferral income or interest income is budgeted. Instead, actual program revenue and corresponding expense is accounted for in the succeeding fiscal years forecast as fund balance.

#### Notes:

A change to the Land Development Code was approved on September 25, 2012, which created a process to make minor text changes to PUDs (Planned Urban Developments), Development Agreements and Settlement Agreements to remove the Affordable Housing Contribution commitments. Subsequently, on March 12, 2013 (Item 16F4) the Board directed the County Manager, or his designee, to proceed with an outlined plan to refund previously paid Affordable Housing Contributions upon the approval of minor changes to PUDs to remove the Affordable Housing Contribution commitments, and approve any budget amendments that may be required to facilitate this action.

#### Forecast FY 2023:

Decrease in Personal expenses is due to vacancies from staff retirement, partially offset by a new position being hired mid-year - Legislative Affairs Coordinator. Operating expenses is lower due to savings in other contractual, printing, marketing & promotional, copying charges and minor office furniture.

### Current FY 2024:

Personal services budget increased as a result of the transfer of one (1) FTE from Public Services Operations along with the general wage adjustment and implementation of a merit-based incentive program. Operating expense increases are related to other contractual services and minor operating equipment. Capital Outlay budget is to replace equipment in the BCC meeting room.

## Office of the County Manager

# Pelican Bay Services Division Pelican Bay Water Management (109/1007)

### **Mission Statement**

To provide for the efficient and timely delivery of Water Management services to the Pelican Bay Community through necessary maintenance of the community's storm water system to ensure its efficient operation in the transporting and treatment of the storm water. In addition, the Division strives to maintain the highest aesthetic appearance while maintaining the delicate balance of the ecosystem.

### Office of the County Manager

# Pelican Bay Services Division Pelican Bay Water Management (109/1007)

#### Forecast FY 2023:

Personal Services are forecasted to be higher, but this increase is offset by a reserve of \$162,500 for salary increases at the fund level in FY 2023.

Operating Expense forecast is lower than budget primarily due to tree trimming and chemicals being less than anticipated. The negative variance is partially offset by swale maintenance being higher than forecast.

#### Current FY 2024:

Personal Services are budgeted to be higher due to the aforementioned salary reserve at the Fund level in FY 2023 and the FY 2024 general wage adjustment.

Operating Expenses are lower than FY 2023 primarily due to decreases in swale maintenance, chemicals, and tree trimming charges.

Capital Outlay consists of replacement of CC2-1232 Ford Explorer per Fleet recommendation.

#### Revenues:

Special assessment revenue funding water management activities decreased from \$186.84 to \$185.79 per equivalent which will raise \$1,423,100. There are 7,659.9 total equivalent residential units in FY24.

Miscellaneous revenues include sublease revenue from the Pelican Bay Foundation.

## Office of the County Manager

# Pelican Bay Services Division Pelican Bay Community Beautification (109/1007)

### **Mission Statement**

The Division strives to maintain the highest aesthetic appearance, while responsibly maintaining the delicate balance of the ecosystem. This includes mowing, trimming, plantings, seasonal flowers and holiday decorations.

Fiscal Year 2024 5 - 30 Office of the County Manager

### Office of the County Manager

# Pelican Bay Services Division Pelican Bay Community Beautification (109/1007)

#### Forecast FY 2023:

Personal Services are forecasted slightly higher, but this is offset by by a reserve for salary increases at the fund level in FY 2023.

Operating Expenses are forecasted to be higher primarily due to increases in costs for goods and services and inflation. Damage caused by Hurricane Ian also contributed to higher expenditures.

Capital Outlay is forecasted higher due to a delay in purchases that were anticipated in FY 2022 but will be purchased in FY 2023.

#### Current FY 2024:

Personal Services are higher due to the aforementioned reserve for salaries at the fund level in FY 2023, the general wage adjustment for FY 2024, increases in health insurance and overtime. In addition, the estimated salary increases related to some of the various pay grades in the FY 2023 pay study were slightly higher than estimated.

Operating Expenses are budgeted higher due to anticipated increases in fleet charges, IT charges, maintenance landscaping, chemicals, and flood control water usage charges related to inflation and increases in the costs of goods and services. Operating expenses for landscape materials are budgeted higher due to damage from Hurricane lan. In addition, a reimbursement to the public utilities department which was previously reimbursed via transfer will be completed by interdepartmental payment in FY 2024.

Capital outlay for FY 2024 includes the replacement of a utility vehicle, two 52" riding mowers, a pull-behind aerial lift, Ventrax mower attachments, and a solar-powered arrow board. This Division is not part of the motor pool capital program and equipment is budgeted on a cash and carry basis based upon Fleet Management Division's recommendations of replacement.

#### Revenues:

Special assessment revenue funding for community beautification increased from \$453.30 to \$495.11 which raises \$3,792,500. There are 7,659.9 equivalent residential units (ERUs) in FY 2024.

Miscellaneous revenues include office space sublease revenue from the Pelican Bay Foundation.

Overall, special assessment revenue budgeted within this Fund increased from \$640.14 to \$680.90 per equivalent residential unit. Available fund reserves increased in FY 2024 from \$1,394,000 to \$1,488,500 (does not include salary adjustment or attrition reserves). The Division budgeted cash flow reserves to cover 4-5 weeks of estimated expenses, as assessment revenues do not begin to flow in until November 2023.

#### Forecast FY 2023:

Personal Services are forecasted to be higher, but this increase is offset by a reserve of \$11,400 for salary increases at the fund level.

Operating Expenses are forecasted lower than the FY 2023 Budget primarily due to electrical contractor expenses being lower than anticipated.

Capital Outlay is forecasted higher due to a delay in purchases that were anticipated in FY 2022 but will be purchased in FY 2023.

#### Current FY 2024:

Personal Services are budgeted to be higher due to the aforementioned salary reserve at the Fund level in FY 2023 and the FY 2024 general wage adjustment.

Operating Expenses are budgeted slightly higher than FY 2023 due to increased costs of goods and services. Excess dollars are transferred to the Capital Project Fund (322/3041) to fund various projects. The street lights have LED bulbs which require less frequent maintenance and replacement.

#### Revenues:

This fund had a millage rate of .0857 in FY 2023 and the rate remains unchanged for FY 2024 in accordance with the advisory committee recommendation. The estimated taxable value for this district totals \$9,335,517,497 which represents a 7.72% increase over last year. Property taxes total \$800,000.

Miscellaneous revenues include office space sublease revenue from the Pelican Bay Foundation.

#### Notes:

Beginning mid-year FY 2015, a separate cost center was created and funds were appropriated by budget amendment to assist with the management of the Clam Bay Estuary. Previously budgeted as a transfer from the Unincorporated Area General Fund (111/1011) to Pelican Bay Capital Fund (320/3040), funds to assist with the management of the Clam Bay Estuary are now directly budgeted in a separate cost center within Fund (111/1011) with direct signature authority by Pelican Bay MSTBU management.

#### Current FY 2024:

In FY 2024 hand-dug channels are budgeted which will commence and continue over several years.

#### Forecast FY 2023:

Personal services is forecast lower due to the midyear transfers of an Accountant II and Operations Support Analyst II (2.0 FTEs) to Growth Management - Community Development, an Operations Support Specialist I (1.0 FTE) to Tourism, a Management Analyst I (1.0 FTE) to Facilities, and an Accountant II (1.0 FTE) to the Paradise Coast Sports Complex. Operating expense forecast savings are due to a reduction in out of county travel and training.

#### Current FY 2024:

The Corporate Business Operations personal services are budgeted lower than the prior year due to the aforementioned transfers to other divisions. Operating expenses are lower due to decreased IT costs.

#### Revenues:

Divisions supported by Corporate Business Operations that have dedicated revenue sources provide funding support through transfers into the General Fund.

Fiscal Year 2024 5 - 40 Office of the County Manager

## Office of the County Manager

# Dori Slosberg Driver Education Driver Education Grant Fund (173/1133)

#### Forecast FY 2023:

The forecast remittance of \$175,800 is to the Collier County School District for Driver Education programs. Forecast revenue is based on the previous 12-month average collections.

#### Current FY 2024:

All funds collected will be used for the direct expenses of driver education programs in Collier County schools. In addition, there is an indirect service charge payment of \$1,000 to the General Fund (001/0001). Historically, the disbursement of funds takes place at the beginning of the School District fiscal year (July 1st); given the difference from the County fiscal year, reserves are maintained in order to carry funds from the prior fiscal year until such time as the disbursement takes place.

#### Revenues:

Pursuant to F.S. S 318.1215, a \$5 surcharge shall be added by Collier County Court against every person who pleads guilty or nolo contendere to, or is convicted of, regardless of adjudication, a moving or non-moving civil traffic violation. Total revenue in this budget is based on a 12-month average monthly collection.

#### Forecast FY 2023:

Forecast personnel services decreased as a result of interim position assignments in other divisions. This decrease is partially offset by a mid-year transfer of 1.0 FTE from Public Utilities. Operating expense is forecast to be fully utilized.

#### Current FY 2024:

Personal services increase is due to a transfer of 1.0 FTE from Public Utilities to realign functions, the proposed FY24 general wage adjustment and the implementation of a merit-based incentive program. FY 2024 operating expenses are higher due to additional certifications and licensures being requested of staff.

### Revenues:

A portion of staff salaries are being funded by Utilities via an interdepartmental reimbursement.

#### Notes:

Budgets for grants are entered at the time the grant is awarded and accepted by the Board of County Commissioners.

#### Forecast FY 2023:

Because grant funds utilize an automatic budget roll mechanism, the standard budget procedure is to forecast the entire existing budget. The forecast is a mechanical balancing of the budget not a spending plan.

### Notes:

Once the Board declares a State of Emergency, budget amendments will be prepared for all of the Departments so that all the Divisions within the Departments have funding to prepare for the event and make necessary repairs.

#### Forecast FY 2023:

Because capital funds utilize an automatic budget roll mechanism, the standard budget procedure is to forecast the entire existing budget. The forecast reflects the amended budget of \$60,500,000.

#### Notes:

The Board of County Commissioners authorized collection of an additional one (1) percent Tourist Development Tax (TDT) - fourth percent - on July 26, 2005. Proceeds from this fourth penny are devoted exclusively to tourism marketing and promotion. Pursuant to terms contained within ordinance 2005-43, collections began on October 1, 2005. This ordinance provided that the existing 23.236% of the first two (2) percent collected will be allocated to Fund (194/1104) providing for TDC administrative and overhead expenses; replenishing the Disaster Recovery Fund (196/1106); and providing supplemental dollars to Beach Renourishment/Pass Maintenance (Fund 195/1105) and Beach Park Facility (Fund 183/1100) initiatives. With passage of Ordinance 2011-02 on January 25, 2011, the distribution requirements changed with all year ending proceeds within Fund 194/1104 swept to Disaster Recovery Fund (196/1106) in an amount sufficient to achieve a \$1,000,000 cash balance. Thereafter, Marketing and Promotion Fund (184/1101) will receive all remaining swept dollars.

Fiscal Year 2024 5 - 48 Office of the County Manager

### Office of the County Manager

On April 23, 2013 the Board authorized amendments to the Ordinance that increased the overall distribution of Tourist Development Taxes (TDT) to Category B (Promotion) from 36.7% to 46.7% of total TDT collections, decreased County Museum operations distribution from 11% to 9.6%, decreased Category A (Beach Park Facilities portion only) from 50% to 41.2% of total collections and reduced the required Disaster Recovery fund balance from \$1,000,000 to \$500,000. The change to Disaster Recovery administration also included making the General Fund responsible for maintaining the required fund balance. These changes were reflected in the various TDC funded FY 2014 budgets.

On February 26, 2013, the Board authorized the addition of three positions in the areas of direct sales, sports marketing, and digital and social media marketing bringing the authorized number of positions to ten. In the FY 2016 budget, the Board authorized the addition of an Event Sales and Marketing position and a fiscal position bringing the authorized position count to 11.75. In FY 2017, the Board authorized the addition of a Deputy Director of Tourism and Sports Marketing bringing the authorized position count to 12.75. In FY 2020 1.75 positions were transferred to the Corporate Business Operations Division revising the position count to 11.00 FTE. In FY 2021 1 position, a Tourism Sales Specialist f was realigned midyear to the Communications and Customer Relations Division bringing the position count to 10.00.

On July 11, 2017, with the adoption of Ordinance 2017-35 the Board of County Commissioners authorized collection of an additional one (1) percent tourist tax - a fifth percent. The increase was effective on September 1, 2017. Also authorized were amendments that made the overall distribution of Tourist Taxes to Tourism Promotion 33.57%, capped County Museum distribution at \$2,000,000, added a 14.28% distribution for an Amateur Sports Complex and increased Beach Renourishment to 39.98% of total collections. The percentage of overall TDT collections distribution to Beach Park Facilities Fund (183/1100) became 3.58%. And the distribution to non-County Museum Fund (193/1103) became 1.91%.

#### Forecast FY 2023:

Personal Services are forecast slightly lower than the adopted budget due to vacancies throughout the year offset slightly by the mid-year transfer of two (2) FTE's from Corporate Business Operations. Operating expenses are forecast to be in line with the adopted budget.

#### Current FY 2024:

Personal Services increases reflect FY24 salary adjustments along with the position increases outlined above. Budgeted tourism promotion management & administrative costs total \$1,986,200 representing approximately 16% of budgeted TDT destination promotion collections of \$12,221,500. Ordinance 2005- 43 as amended, limits tourism promotion management & administrative costs to 32% of the amount collected each fiscal year for promotion uses.

#### Revenues:

Tourist Development Taxes earmarked for tourism promotion are deposited into Tourism Promotion Fund (184/1101). A transfer of \$2,022,300 from fund (184/1101) to support fund (194/1104) is provided. The overall FY 2023 Tourist Development Tax revenue budget is \$34.5 million, approximately 5% above the prior year's budget.

Budgeted Tourist Development Tax (TDT) Collections Beach Park Facilities Fund 183/1100 - \$1,234,300 Tourism Promotion Fund 184/1101 - \$12,221,500 TDC Museums Fund 193/1103 - \$658,500 Beach Renourishment Fund 195/1105 - \$13,438,900 County Museums Fund 198/1107 - \$2,000,000 Tourism Capital Projects Fund 758/1108 - \$4,923,200 Total TDT Revenue - \$34,476,400

### Office of the County Manager

# Tourism Development Council (TDC) TDC Category B Tourism Promotion - Fund (184/1101)

#### Notes:

The Board of County Commissioners authorized collection of an additional one percent tourist tax - fourth penny - on July 26, 2005. Proceeds from this fourth penny are devoted exclusively to marketing and promotion. Pursuant to terms contained within Ordinance 2005-43, collections began on October 1, 2005. Further regulation on the distribution of swept proceeds from Administrative and Overhead Fund (194/1104) into TDC Tourism Promotion Fund (184/1101) is contained within Ordinance 2011-02.

On April 23, 2013, the Board authorized amendments to the Ordinance that, among other things, increased the overall distribution of tourist taxes to Promotion Category B from 36.7% to 46.7%. This change went into effect in June 2013.

On July 11, 2017, the Board approved increasing the Tourist Development Tax from 4% to 5% and distribution adjustments among Tourist Tax supported funds. The increase was effective September 1, 2017. Also authorized were amendments to the Ordinance that made the overall distribution of Tourist Taxes to Tourism Promotion 33.57%, capped County Museum distribution at \$2,000,000, added a 14.28% distribution for an Amateur Sports Complex and increased Beach Renourishment to 39.98% of total collections. The percentage of overall TDT collections distribution to Beach Park Facilities Fund (183/1100) became 3.58%. And the distribution to non-County Museum Fund (193/1103) became 1.91%. These changes were incorporated into the FY 2018 budget.

### Forecast FY 2023:

Forecast expenditures are projected lower than budget reflecting some marketing and promotion savings. Forecast transfers:

- \$ 360,500 to Tax Collector
- \$1,784,400 to Fund (194/1104) supports TDC Management and Administration
- \$ 478,100 to Fund (759/1109) supports Sports & Special Events Complex management and promotion

#### Current FY 2024:

The promotion budget is established 18.8% higher than last year's budget. The increase is supported by funds carried forward that were generated by better than expected TDT collections in FY 2021, FY 2022 and FY 2023. Marketing Grants to Non-Profits include: Florida Stone Crabbers Association \$25,000, Gulfshore Opera \$10,000, Marco Island Historical Society \$45,000 and The Naples Players \$20,000.

#### **Budgeted transfers:**

- \$ 366,700 to Tax Collector
- \$2,022,300 to Fund (194/1104) supports TDC Management and Administration
- \$ 498,400 to Fund (759/1109) supports Sports & Special Events Complex management and promotion

A contingency reserve of \$250,000 is programmed.

#### Revenues:

The portion of TDT revenue allocated to Tourism Promotion is \$12,221,500. This amount is approximately 5.9% above the prior year budget. This revenue source supports both Tourism Promotion Fund (184/1101) and the TDC Management & Administration Fund (194/1104).

### Office of the County Manager

# Tourism Development Council (TDC) TDC Category B Promotion Reserve & Projects - Fund (196/1106)

#### Notes:

Reserves within this fund are available to provide funding for emergency promotional campaigns or other efforts to promptly respond to any disaster - natural or economic - which adversely impact tourism in Collier County. Pursuant to Ordinance 2005-43, Tourism Disaster Recovery Fund (196/1106) received \$500,000 per year as a transfer from Tourism Administration and Overhead Fund (194/1104) beginning in FY 06 and this transfer amount (or some lesser amount) continued for three (3) years until reserves in Fund (196/1106) reached \$1,500,000. Reserves reached \$1,500,000 at fiscal year ending 2008. With passage of Ordinance 2011-02, the required fund balance ceiling within the disaster recovery fund was dropped to \$1,000,000. Consistent with Ordinance changes approved on April 23, 2013, the reserve level in Disaster Recovery Fund (196) was reduced to \$500,000. Ordinance 2017-35, approved on July 7, 2017, eliminated reference to a specific dollar value for the Disaster Recovery Reserve. Subsequently, as part of the FY 2018 budget process, the TDC recommended that the Disaster Recovery Reserve be established at \$1,500,000 with the recommendation being approved by the Board as part of the FY 2018 adopted budget. Emergency spending for Hurricane Ian recovery is being requested in the FY 2024 budget.

Expenditure History: In March 2005, the Board of County Commissioners approved - based on an emergency designation - the expenditure of up to an additional \$500,000 for use in promoting Collier County as a tourist destination in the wake of four (4) hurricanes during 2004. Similarly, the BCC during FY 2009 approved an emergency advertising stimulus package responding to the economic recession and its negative effects upon tourism travel and leisure spending. The use of emergency advertising dollars totaling \$1,066,000 continued in FY 2010 under Board authorization recognizing the global economic slowdown. In FY 2011, \$500,000 of emergency reserves was once again dedicated to marketing the destination in anticipation of building tourism visitation in the wake of a stagnate economy. These funds were designated to promote the Group Meetings Market. In September of 2016, the Board authorized use of approximately \$98,000 to be used for design and permitting of the East Naples Pickleball Court Shade Structure and an Amateur Sports Tourism Complex feasibility study. Following Hurricane Irma in September 2017, the Board authorized the expenditure of \$250,000 to expedite tourism and economic recovery. In FY 2019, \$250,000 was authorized to assist in tourism recovery after the red tide crisis.

#### Forecast FY 2023:

Forecast expenditures included \$500,000 for an emergency promotional campaign to expedite tourism recovery.

#### Current FY 2024:

The FY 2024 budget has been prepared with a \$559,300 appropriation for ongoing Hurricane Ian related tourism recovery efforts and a reserve budget of \$1,500,000.

## Office of the County Manager

# Tourism Development Council (TDC) TDC Category C Non County Museum - Fund (193/1103)

#### Notes:

During FY 05, the administration of Museum Category "C" funding was amended to provide for direct deposit of Tourist Development Tax proceeds into Fund (198/1107) in lieu of the previous method that deposited all Museum proceeds into Fund (193/1103) and transferred a portion out to County Museums Fund (198/1107). On July 11, 2017, the Board approved increasing the Tourist Development Tax from 4% to 5% as well as distribution adjustments among TDT supported funds. The increase was effective September 1, 2017. Non-County Owned Museum TDT revenues represent approximately 1.91% of the Tourist Development Tax revenue budget.

Forecast FY 2023:

The forecast includes grant awards of \$1,095,400

Current FY 2024:

The proposed grant award budget is \$850,000. Approved grants have yet to be awarded. A reserve for unfunded requests of \$1,081,400 has been established for FY 2024.

#### Revenues:

The estimated TDT revenue allocation to Non-County Museum Grants Fund (193/1103) is \$658,500 approximately 5% above the prior year budget.

## Office of the County Manager

# Sports & Special Events Complex Sports & Events Complex (759/1109)

#### Forecast FY 2023:

Forecast expenditures reflect expected facility management, operations & maintenance expenses as well as acquisition of fixtures and equipment.

#### Current FY 2024:

The budget includes funding for management, operations and athletic field maintenance through a contractual arrangement as well as county staffing to provide general facility maintenance. Also provided in the budget is funding carry forward for fixtures and equipment acquisition.

#### Revenues:

Funding is provided through operational and event revenues, ongoing operational transfers from the General Fund (001/0001), and from the Tourist Development Tax Promotion Fund (184/1101).

Fiscal Year 2024 5 - 60 Office of the County Manager

## Office of the County Manager

# Bayshore Community Redevelopment Agency (CRA) Bayshore/Gateway Triangle Redevelopment (CRA) (187/1020)

### **Mission Statement**

To support the efforts of the Board of County Commissioners which established itself as the Community Redevelopment Agency (CRA) and made a finding of necessity and of blight conditions in the Bayshore/Gateway Triangle Component Redevelopment Area by adopting Resolution 2000-82 on March 14, 2000, and to implement the Bayshore Gateway Triangle Component Section of the Collier County Community Redevelopment Plan adopted by the CRA as amended in 2022.

| Program Summary   | FY 2024<br>Total FTE | FY 2024<br>Budget | FY 2024<br>Revenues | FY 2024<br>Net Cost |
|---|----------------------|-------------------|---------------------|---------------------|

#### Notes:

On July 26, 2006, the CRA entered into a loan agreement with Wachovia Bank under which a line of credit was secured for \$7,000,000. Of this amount, \$5,901,000 was drawn to purchase and assemble commercial property within the Gateway Triangle catalyst project area as an incentive to attract private development interest. On July 28, 2009, a \$13,500,000 term loan was secured through Fifth/Third Bank which paid off the earlier Wachovia line of credit and provided additional dollars for strategic property acquisition. The term of this note was five (5) years with a final maturity date of September 1, 2014. The note was restructured in May 2013 into the Fifth Third Bank Note Series 2013. On March 2, 2017, the debt was again restructured. The restructured note, TD Bank, N.A. Series 2017, provided proceeds of \$5,293,293 which were used to pay off the Fifth Third Bank Note. The term of the TD Bank Note was ten (10) years with a final maturity of March 1, 2027. In November 2020 the Mini-Triangle property was sold and approximately \$3,071,500 of the proceeds were used to pay off the remaining loan balance.

### Forecast FY 2023:

The personal services forecast reflects modest savings from a position vacancy. Expenditure forecast is lower than the adopted budget as the CRA moves towards funding more projects out of its capital fund (787/1021). The CRA will transfer \$3,745,600 to 787/1021 in FY23.

#### Current FY 2024:

Personal services budget increase is a result of projected Countywide salary adjustments. The increase in operating expense is largely due to a change in how the County will budget transfers between funds in FY24, resulting in \$62,200 moving from transfers to operating. That amount is sent to the General Fund to support the Corporate Financial & Management Services Division. Transfers include a transfer to Fund 787/1021 in the amount of \$2,647,500.

### Revenues:

Primary revenue sources are Tax Increment Financing (TIF) derived from the CRA's property tax increment and fund carryforward. Taxable value within the Bayshore CRA is \$1,247,465,721 and the related tax increment value by which the tax increment revenue is derived is \$959,384,615. The TIF transfers from the General Fund and Unincorporated Area General Fund, representing 95% of the increment are \$2,920,500 and \$663,600 respectively. Year over year TIF revenue is increased by \$235,200 or 7% to \$3,584,100.

### Office of the County Manager

# Bayshore Community Redevelopment Agency (CRA) Bayshore Beautification MSTU (163/1630)

#### Notes:

Budget guidance specified that MSTU's without advisory board oversight would be limited to a rolled back millage rate (tax neutral) unless staff presents a compelling reason for additional funds. MSTU's with advisory board oversight will be allowed to consider tax rates ranging from tax neutral (rolled back rate) to millage neutral depending upon program requirements and taxable values upon advisory board recommendation.

#### Forecast FY 2023:

Forecast expenses are modestly under budget. The transfer to Bayshore Beautification MSTU Project Fund (160/1627) provides funding for Bayshore Beautification projects.

#### Current FY 2024:

The increase in operating expense is largely due to a change in how the County will budget transfers between funds in FY24, resulting in \$125,500 moving from transfers to operating via an Intergovernmental Charge (ICG). The transfer to Bayshore Beautification MSTU Project Fund (160/1627) provides funding for Bayshore Beautification projects in the amount of \$977,000.

#### Revenues:

Taxable value is \$835,722,300, an increase of 15.77% over last year. The rolled back rate for this district was 2.0971 per \$1,000 of taxable value. Ordinance 97-82 places a cap on the millage rate at 3.0000 per \$1,000 of taxable value. The advisory committee recommends a rate to 2.1104 which would generate \$1,763,700 in property taxes.

Fiscal Year 2024 5 - 65 Office of the County Manager

## Office of the County Manager

# Bayshore Community Redevelopment Agency (CRA) Bayshore Beautification MSTU Capital (160/1627)

### **Mission Statement**

The Bayshore Beautification MSTU was created for the purpose of providing curbing, irrigation, plantings and maintenance of the roadway medians within the MSTU; providing traffic calming improvements, street lighting, and sidewalks within the MSTU; and providing beautification and maintenance of other public areas within the MSTU as recommended by the Advisory Committee.

Fiscal Year 2024 5 - 66 Office of the County Manager

## Office of the County Manager

# Bayshore Community Redevelopment Agency (CRA) Bayshore Beautification MSTU Capital (160/1627)

#### Notes:

Fund 160 provides for capital project budgeting of the Bayshore Beautification MSTU.

#### Forecast FY 2023:

The forecast budget includes funding for the following projects:

\$149,375 - Hamilton Ave Parkin (50171) \$54,325 - Thomasson Drive Landscape (50172) \$66,600 - Bayshore S Landscape (50173) \$840,000 - Bayshore N Landscape (50174) \$1,110,300

### Current FY 2024:

The budget includes funding for the following projects:

50174 - Bayshore N Landscape - \$2,234,200

#### Revenues:

Funding for the projects included in this fund are supported by a transfer from Bayshore Beautification Fund (163/1630). This year that amount is estimated at \$977,000.

### Office of the County Manager

# Bayshore Community Redevelopment Agency (CRA) Haldeman Creek MSTU (164/1631)

#### Notes:

The Haldeman Creek Maintenance Dredging MSTU was created pursuant to Ordinance 2006-60. The last dredge project was conducted in 2006 at a cost of \$2,599,250. The committee's plan is to set aside reserves to provide some portion of a major dredge project or to be available for modest maintenance or emergency dredge efforts. Administration and project management services are provided by Bayshore Gateway Triangle CRA staff.

#### Forecast FY 2023:

Forecast expenses includes consulting services to assesses future dredging needs.

#### Current FY 2024:

The increase in operating expense is largely due to a change in how the County will budget transfers between funds in FY24, resulting in \$11,300 moving from transfers to operating via an Intergovernmental Charge (ICG). This amount supports project management provided by Bayshore CRA staff. Capital reserves are accumulated to maintain the navigability of the waterway and fund dredge activities in the future. Under this budget the capital reserve will increase to \$1,188,800.

#### Revenues:

Projected taxable value is \$207,503,446, an increase of 10.08% over last year. The rolled back rate for this district is 0.8996 per \$1,000 of taxable value. Ordinance 06-60 places a cap on the millage rate at 3.0000 per \$1,000 of taxable value. The advisory committee recommends a millage neutral rate of 1.0000 which will generate \$207,500 in property taxes.

## Office of the County Manager

# Immokalee Community Redevelopment Agency (CRA) Immokalee Community Redevelopment Agency (CRA) (186/1025)

### **Mission Statement**

To support the efforts of the Board of County Commissioners (BCC), which established itself as the Community Redevelopment Agency (CRA) and made a finding of necessity and of blight conditions in the Immokalee Component Redevelopment Area by adopting Resolution 2000-82 on March 14, 2000, and to implement the Immokalee Component Section of the Collier County Community Redevelopment Plan adopted by the CRA and as amended in 2022.

### Office of the County Manager

# Immokalee Community Redevelopment Agency (CRA) Immokalee Community Redevelopment Agency (CRA) (186/1025)

#### Notes:

The BCC approved the establishment of an Immokalee CRA office with an Executive Director and two support staff on April 24, 2007. On March 9, 2010 the BCC established the Immokalee Business Development Center. The Business Development Center program was phased out in 2015. On October 1, 2012, the Board added management of the Immokalee Beautification MSTU to the CRA's responsibilities and authorized the addition of a project manager position. In FY 2013, the BCC moved roadway landscape maintenance of a section of Immokalee Road and SR 29 to the CRA. The CRA fund is compensated for management responsibilities from the Immokalee Beautification MSTU.

#### Forecast FY 2023:

Forecast expense is lower than adopted budget as the CRA moves towards funding more projects out of its capital fund (786/1026). The 786/1026 fund was established by the BCC on September 14, 2021 to properly account for capital projects and distinct programs undertaken by the CRA. A transfer of \$1,076,700 from 186/1025 to 786/1026 is forecast for FY23.

#### Current FY 2024:

Personal services budget increases are a result of projected Countywide salary adjustments. The increase in operating expense is largely due to a change in how the County will budget transfers between funds in FY24, resulting in \$158,000 moving from transfers to operating via an Intergovernmental Charge (ICG). This includes General Fund support provided by the Corporate Financial & Management Services Division and allocating the cost of personnel shared between the two CRA operations (Bayshore CRA Fund (187/1020) and Immokalee CRA (186/1025). The FY24 transfer to Immokalee CRA Capital Fund (786/1026) is programed at \$542,700.

#### Revenues:

Primary revenue sources are Tax Increment Financing (TIF) derived from the CRA's property tax increment. Taxable value within the Immokalee CRA is \$474,825,109 and the related tax increment value by which the tax increment revenue is derived is \$326,179,519. The TIF transfers from the General Fund and Unincorporated Area General Fund, representing 95% of the increment, total \$993,000 and \$225,400 respectively. Year over year TIF revenue is increased by \$10,600 or 0.9% to \$1,218,400.

## Office of the County Manager

# Immokalee Community Redevelopment Agency (CRA) Immokalee Beautification MSTU (162/1629)

### **Mission Statement**

The MSTU was created for the purpose of providing pavement, curbing, sidewalks, irrigation, stormwater and drainage and related amenities connected with landscape beautification and maintenance beautifying and maintaining the median areas of SR 29 and Immokalee Road (CR 846), and certain other public areas within the Immokalee Beautification Municipal Service Taxing Unit. The primary objective is to enhance landscape and hardscape to provide safe access to pedestrians, bicyclists, and vehicles within in the district, consistent with the goals and objectives of the redevelopment plan in coordination with FDOT and County Departments.

Fiscal Year 2024 5 - 75 Office of the County Manager

### Office of the County Manager

# Immokalee Community Redevelopment Agency (CRA) Immokalee Beautification MSTU (162/1629)

#### Notes:

On October 25, 2011, the Board added management of the Immokalee Beautification MSTU to the CRA's responsibilities and authorized the addition of a project manager position.

#### Forecast FY 2023:

Forecast operating expense is higher than adopted budget due to the carryforward of POs that continued from the previous year.

#### Current FY 2024:

The budget provides for ongoing management and maintenance. The increase in operating expense is largely due to a change in how the County will budget transfers between funds in FY24, resulting in \$92,800 moving from transfers to operating. This amount supports project management provided by Immokalee CRA staff. This amount was moved from transfers to operating in FY24 A capital reserve of \$874,200 is provided.

#### Revenues:

Estimated taxable value is \$565,143,962, an increase of 9.76% over last year's final taxable value. The rolled back rate for this district is 0.9613 per \$1,000 of taxable value. Ordinance 92-40 places a cap on the millage rate at 1.0000 per \$1,000 of taxable value. Consistent with the advisory board's recommendation, this budget is sized around the maximum millage rate which will generate \$565,100 in property tax revenue.

#### Notes:

In mid FY 2012, the Board transferred management of the Immokalee Beautification MSTU to the Immokalee CRA and approved the addition of a CRA project manager position. The Board also approved the concept of using this position to manage all landscaped and improved road right-of-way in the Immokalee area. In FY 2013, the median and roadside maintenance budget for Immokalee Road and SR 29 was moved under Immokalee CRA management.

#### Forecast FY 2023:

Forecast maintenance expenditures include contractual maintenance services, electricity and water.

### Current FY 2024:

Planned maintenance expenditure increases are within the recommended budget policy rate of 4.25%.

### Office of the County Manager

## Fleet Management Division Fleet Management (521/5021)

#### Forecast FY 2023:

Annual personnel costs have increased by 2% compared to FY2023 Adopted Budget due to the addition of one (1) Board approved mid-year FTE. The budgeted amount for fuel in FY2023 was \$4.13 per gallon; however, with the unstableness of the market fuel prices have been difficult to predict. We are estimating fuel prices to average \$3.60 through the last half of the current fiscal year. US Energy Information is projecting a slight increase in prices summer 2023. The costs of parts are forecast to be approximately \$179,200 more than budgeted in both expenses and revenues due to inflation and increased stock orders to counter anticipated shortages caused by the circumstances of supplier shortages. Revenues from motor pool rentals are forecast to be approximately \$95,500

#### Current FY 2024:

Fleet Management's FY 2024 budgeted operating expenditures will increase over FY2023 with major outliers being increases in fuel costs, repair parts costs, and personnel costs. The budget includes shop equipment maintenance and replacement due to age and normal wear. Budget also includes funding to migrate the Fleet Management software (FASTER) to a cloud-based version.

The fuel budget contains \$100,000 for fuel system maintenance and \$26,000 for maintenance and support of the FuelMaster fuel control system.

#### FY2024 Capital Outlay

- Replace 3 sedans & 1 pickup (\$200,000).
- Replace shop lifts & equipment (\$155,000).

#### Service Level:

With implementation of the vehicle and equipment replacement program, Fleet Management has seen shorter downtimes; however, since FY2016, over 1,200 equipment items have been added to Fleet Management's workload. This number does not include small handheld items such as chainsaws. To date, while being short staffed, with extensive use of overtime and prudent use of outside vendors, we have been able to maintain an overall 86% availability rate. As the fleet continues to grow more personnel will be required to maintain satisfactory availability.

#### Revenues:

Labor revenue is based on \$102.00 per hour for all equipment repairs. Parts revenue assumes \$3,181,000 in sales which includes a 28.2% markup to cover overhead costs. Sublet revenue assumes \$490,000 reimbursement including a 18.2% markup for overhead, plus County car wash revenues. Motor Pool mileage revenue is estimated at \$100,000. Fuel sale revenue is based on 1,464,363 gallons at \$4.63 per gallon (includes a \$0.13 per gallon markup) and 148,889 gallons at \$4.50 per gallon for outside agency agreements.

1,464,363 gallons at \$4.63 per gallon=\$6,780,000.00

148,889 gallons at \$4.50 per gallon=\$670,000.00

#### Notes:

The Division of Human Resources (HR) is comprised of a number of organizational components, which include Administration, Labor and Employee Relations, Operations, Talent Acquisition, Talent Development, and Total Rewards. Each specialized area provides a variety of services to the County's constituency as well as to the County's employee population. This is accomplished by supporting the organization with team-building efforts in the areas of compensation, retention, employee recognition, employee relations, performance management, motivation, development, and training.

The Human Resources team continues to adapt operational processes and practices to make sure the needs of the organization are supported. The County's continuing and crucial objectives of attracting, retaining, and developing a highly skilled workforce are a key focus for the division.

In Talent Development, New Employee Orientation (NEO) continues in an online format, and we are working to transition to a hybrid model during the summer of 2023 that would combine a classroom-based component with an assigned curriculum through our Performance and Learning Management/Collier University LMS. Between April 2022 and March 2023, over 350 new and returning employees completed the online NEO curriculum at the start of their employment with the County.

The County's web-based learning and performance management system, branded as PALM (Performance and Learning Management), offers nearly 2,300 virtual professional development and technical courses that build the knowledge, skills, and abilities of employees to accomplish their work and achieve their potential. The Performance Management side of the portal has automated the new hire and annual evaluation processes, and efforts are underway to update the format of the evaluation to make it more user-friendly. The first full performance cycle for the entire organization with the new layout is anticipated to be completed at the end of 2023.

With openings resulting from attrition and retirements, employees in the Talent Acquisition section coordinated the recruitment for 550 vacancies that occurred between April 2022 and March 2023, which is nearly equal to the previous year's postings, working with hiring divisions to select candidates to fill the openings. The number of applicants increased slightly from the same period as the previous year, at around 9,500 compared with just over 9,100 applications for posted positions. Job seekers have many options available to them in the current labor market. Coupled with the lack of affordable local housing, filling some positions in the agency continues to be challenging.

Fiscal Year 2024 5 - 84 Office of the County Manager

### Office of the County Manager

At the direction of the County Manager, with the support of the Board of County Commissioners, the Total Rewards team implemented the final phase of the Pay & Classification Study at the start of FY 2023, which took effect October 8, 2022. Approval was granted to implement the new pay plan, adjust each employee's salary to the minimum of their new pay grade and then provide a cost-of-living adjustment (COLA). In consideration of the national CPI reported at 8.5%, the consultant's recommendation of a 5% COLA (plus range penetration), and local area employer increases, the County developed a sliding scale to provide adjustments. Employees below the Division Director level received an 8% COLA; Division Directors received a 6.5% COLA; and Department Heads and Deputy County Managers received a 5% COLA. As included in the consultant's final report, regular maintenance and updates to the pay plan and compensation systems are necessary. The Human Resources Total Rewards team will continue working to establish and maintain sound pay practices that will allow the County to maintain a successful, market-based compensation structure for future years.

The County's Service Award choice program recognizes actively working team members, as well as those who are retiring from service. Employee recognition continues to be complemented by the Values In Practice (VIP) awards program. We have successfully returned to in-person recognition events for years of service awards.

#### Forecast FY 2023:

Personal services are forecast to decrease due to vacancies in the Division during the current fiscal year.

Operating expenses are forecast to decrease due to savings in professional services, training, educational expenditures, and food operating supplies.

#### Current FY 2024:

N/A

Personal services are anticipated to increase due to planned compensation adjustments and merit pay that will be applied to employees across the organization.

Operating expenses are expected to decrease slightly due to reductions in Information Technology capital allocation and automation cost increases, less funding allocated to costs for external training, and lower expenditures for professional and contractual services.

Revenues:

#### Notes:

The IT Division operates under an internal service philosophy. BCC Divisions and outside agencies budget IT service costs based on their service demand. Shared IT services are funded through consumption-based unit costs. Specialty professional services for each Division are funded directly. IT funding policies balance the service demands of our various businesses (type of services offered and service levels) with agency financial constraints.

#### Forecast FY 2023:

Personal services are forecast to be lower due to employee vacancies during the fiscal year, offset slightly by midyear salary adjustments.

Operating expenses are forecast to decrease due to savings in training, temporary labor, postage, out-of-county travel, and office supplies.

### Current FY 2024:

Personal services are anticipated to increase due to planned compensation adjustments and merit pay that will be applied to employees across the organization.

Operating expenses are expected to increase and include data processing equipment repair & maintenance, including APC Symetra, Cisco Smartnet, Enterprise Vault, Hyland & Sire software, MESA Enterprise, MESA Office 365, MESA Windows E3, NetApp – SAN Maintenance, Net Brain Maintenance, SIEM, Symantec MSS, VMware Enterprise, VSAN Disks, Zoom, and Zscaler.

Fiscal Year 2024 5 - 90 Office of the County Manager

## Office of the County Manager

# Information Technology Division Information Technology Capital (506/5006)

### **Mission Statement**

To fund the replacement and/or enhancements of existing IT capital infrastructure, servers, computers and to fund the infrastructure to accommodate new requirements and services.

## Office of the County Manager

## Information Technology Division Information Technology Capital (506/5006)

#### Forecast FY 2023:

The IT Division has, among others, the following capital outlay projects underway: New Smart and immutable backup system, NetApp Snap shot immutable backups, Cisco DnA and ISE Deployment, APC AC Units, New Disk Shelfs, Agency Network Edge replacements, Jira implementation, Zscaler upgrade, SIEM implementation, Cisco Phone Project completion and full migration of Exchange services.

Operating expenses are forecast to be higher due to Cyber Security initiatives that need to take place due to the current Cyber environment to combat Malware and Ransomware attacks.

Capital expenses are forecast to be higher due to purchased equipment that is being installed, e.g., the Immutable Backup System and the Identity Services Engine.

#### Current FY 2024:

Operating expenses include APC Symetra Data Center UPS, AC Equipment and Data Center battery replacement, APC Warranty Extension - Monitors, Fiber MAN Locates, Change Auditor/Workstation auditing, Cisco Smartnet, Crowd Strike Falcon subscription/identity protections, Conduits Installation, IBM MAAS 360, KnowBe4, NNT, Password Management, Security Pen test, Two-Factor Authentication, Veritas Net Backup maintenance, and Zscaler.

Capital outlay includes the following projects:

\$50,000 50028 - OTDR

\$50,000 50089 - SAN Storage

\$50,000 50089 - Virtual Servers Host

\$60,000 50089 - Cloud Extending

\$90,000 50089 - NetBackup

\$90,000 50079 - PC Replacement

\$100,000 50085 - Veritas BU Shelves

\$100,000 50089 - NetOps Professional Services

\$100,000 50089 - New Disk Shelfs

\$150,000 50028 - Conduit /Fiber Installation

\$150,000 50268 - Cybersecurity Incident Response

\$160,000 50089 - Contract Net Admin - 1 year

\$175,000 50268 - Cloud Access Security Broker (CASB)

\$175,000 50268 - Cybersecurity Professional Services

\$175,000 50268 - Cybersecurity Zero Trust Assessment \$200,000 50090 - VSAN Hosts (2)

\$250,000 50085 - NetBackup

\$300,000 50089 - Hosting Outsourcing Monitoring

\$300,000 50089 - Network Edge replacements

\$300,000 50090 - Patch Management as a Service (PMaaS)

\$300,000 50268 - Next Generation Firewalls (NGFW)

\$500,000 50091 - County Manager Initiatives

\$700,000 50085 - VSAN PAAS

\$4,525,000 Total

### Forecast FY 2023:

Personal services are forecast to decrease due to vacancies in the Division during the current fiscal year.

Operating expenses are forecast to decrease slightly due to savings in external training.

### Current FY 2024:

Personal services are anticipated to increase due to planned compensation adjustments and merit pay that will be applied to employees across the organization.

Operating expenses are expected to decrease due to reductions in Information Technology allocations, legal fees, external training, and contractual services.

The capital expense budget is for data processing equipment.

### Revenues:

The transfer from the Property & Casualty Insurance Fund (516/5016) for \$76,600 is budgeted to fund the management of the certificate of insurance tracking system as an internal control measure to ensure compliance by vendors with contractual insurance requirements.

### Office of the County Manager

# Risk Management Division Property & Casualty Insurance Fund (516/5016)

### **Mission Statement**

The mission of the Risk Management Division is to continuously develop, manage, and improve the County's risk finance, group insurance, safety, and occupational health programs in order to provide quality, cost-effective support to our customers; to protect the County's financial interests against frequent and/or catastrophic loss; and to assure that the County's employees go home safely each day.

### Forecast FY 2023:

Personal services are forecast to be in line with the FY 2023 adopted budget.

Operating expenses are forecast to be significantly higher due to an unprecedented increase in reinsurance premiums due to Hurricane Ian.

#### Current FY 2024:

Personal services are anticipated to increase due to planned compensation adjustments and merit pay that will be applied to employees across the organization.

Operating expenses are budgeted to be significantly higher due to an unprecedented increase in reinsurance premiums due to Hurricane Ian.

### Revenues:

Allocated property and casualty premiums are budgeted to increase significantly due to expected growth in ratable exposures and potential rate increases in all insurance coverage lines.

Carryforward is significantly lower due to a substantial increase in property insurance premiums. Recoveries from reinsurance are expected to decrease due to changes in policy terms.

### Forecast FY 2023:

Personal services are forecast to be higher due to a termination payout that was not previously budgeted.

Operating expenses are forecast to decrease due to lower-than-anticipated insurance claims.

### Current FY 2024:

Personal services are anticipated to increase due to planned compensation adjustments and merit pay that will be applied to employees across the organization.

Operating expenses are budgeted to increase due to an increase in expected health claims costs and changes for reinsurance premiums due to a reduction in retention levels from \$1M to \$750K, as recommended by the County's actuarial firm.

#### Revenues:

Revenues from premiums for Group Health Billings are budgeted to increase, reflecting a 5% increase in premiums for both the employee and employer portion of the Health Plan for FY 2024. The County's actuarial firm recommended this increase to stabilize declining reserves.

Allocated premium rates across the organization for Health and Dental insurance remain unchanged in FY 2023. Life Insurance, Long Term Disability, and Short Term Disability rates reflect the results of program marketing that occurred in FY 2021 and are expected to increase from 7.2% to 9.3% due to increases in the rate and increased ratable payroll in FY 2024.

Carryforward is expected to increase slightly due to three one-time events that resulted in unexpected recoveries to the plan in the current fiscal year.

## Office of the County Manager

# Risk Management Division Worker's Compensation Fund (518/5018)

### **Mission Statement**

**Program Summary** 

The mission of the Risk Management Division is to continuously develop, manage, and improve the County's risk finance, group insurance, safety, and occupational health programs in order to provide quality, cost-effective support to our customers; to protect the County's financial interests against frequent and/or catastrophic loss; and to assure that the County's employees go home safely each day.

### Forecast FY 2023:

Personal services are forecast to be in line with the FY 2023 adopted budget.

Operating expenses are forecast to decrease due to fewer workers' compensation claims than expected.

### Current FY 2024:

Personal services are anticipated to increase due to planned compensation adjustments and merit pay that will be applied to employees across the organization.

Operating expenses are expected to increase due to higher ratable payroll resulting in a moderate increase in reinsurance premiums.

### Revenues:

Workers' compensation billings are budgeted to increase due to higher reinsurance costs resulting in higher ratable payroll. Premiums reflect an experience modification rate of .65, which is 35% below manual rates, including overhead.

## Office of the County Manager

# **Bureau Of Emergency Services Division Emergency Management Operating (001/0001)**

### **Mission Statement**

The Collier County Division of Emergency Management works to protect and manage consequences for the citizens, visitors, local agencies, businesses, and organizations from the effects of natural, technological, public health, community crisis, and terrorism disasters or emergencies under the guidance of the County Manager. The Division receives program guidance and mandates from the Department of Homeland Security, the Federal Emergency Management Agency, and the State's Division of Emergency Management under the Office of the Governor. The Division maintains a vision of a vibrant, integrated, and progressive disaster-resistant community. Programming and work by the Division includes planning for and responding to major disaster events or localized emergencies 24 hours a day, 7 days a week. Staff and volunteers work to develop capabilities, strategies, and programs to minimize the effects and streamline the recovery from a disaster or community emergency. The Division provides on-scene technical support to public safety organizations, hurricane protection project management, community and crisis education and planning, comprehensive disaster, nursing home, and other critical infrastructure review, preparedness planning, evacuation coordination, emergency public information and warning, meteorological services, hazardous materials storage analysis, field exercise, and training resources, and state-mandated registration and case-need evaluation for persons with special needs.

| Program Summary   | FY 2024<br>Total FTE | FY 2024<br>Budget | FY 2024<br>Revenues | FY 2024<br>Net Cost |
|---|----------------------|-------------------|---------------------|---------------------|
| Divisional Administration/Overhead - RG   | 3.00                 | 1,179,300         | 1,500               | 1,177,800           |
| Manage all facets of emergency preparedness programming, function a the administrative office for the divisions including Collier County Emergency Medical Services, Med-Flight, and staff liaison to the Distric 20 Medical Examiner.  |                      |                   |                     |                     |

| As mandated by the State of Florida, provide and maintain a listing and case needs assessment of special needs citizens that may require additional assistance during times of emergency or evacuation. Facilities such as nursing homes, rest homes, and congregate care facilities require their disaster plans to be reviewed annually for compliance.   | es                   |                   |                     |                     |
| Emergency Operations and Planning - RG  | 7.00                 | 1,453,300         | -                   | 1,453,300           |
| Emergency Management must maintain a 24-hour, 7-day a week multi-<br>hazard Homeland Security response and consequence management<br>capability. This effort includes ensuring the reliability and capability of the<br>emergency operations center, mobile command vehicle, various<br>communication sets, and other field deployable assets to be ready at all<br>times to respond, protect, and mitigate the effects to the community price<br>to, during, and after a natural, technological, terrorist, pandemic, or<br>community crisis event. The Division provides technical assistance and<br>hosts numerous multi-agency training forums and exercises in a multi-<br>hazard environment to ensure that all efforts to prepare for, respond to,<br>recover, and mitigate from the effects of a disaster or local emergency<br>are efficient and effective. The Emergency Management Division active<br>seeks grant opportunities to acquire funds to help mitigate against future<br>emergencies, build local capability with supplies and equipment, and<br>support a broad range of public safety and public health concerns and<br>agencies. | r                    |                   |                     |                     |

### Notes:

The Division of Emergency Management relies upon the efforts of each staff member for their respective program expertise to protect and serve the citizens of Collier County from the effects of local emergencies and regional and national threats. The program is established with the following functions similar to the National Response Plan and State statute guidance: Human Services, Planning and Mitigation, Hazardous Materials, Homeland Security and Training, Logistics, Public Assistance Coordination, and Administration. Emergency Management staff has also been tasked with grant research, project formulation, and grant management, working toward strengthening disaster resistance via mitigation efforts.

### Forecast FY 2023:

Costs for personal services are higher than the total adopted budget due to Board-approved midyear Forecast salary increases and Hurricane lan recovery efforts.

Operating expenses are higher due to temporary storage rental costs.

### Current FY 2024:

Personal services budget increases reflect the FY2024 salary adjustments.

Operating expenses are higher due to Info Tech automation allocation, electricity, temporary storage rental, expected building repairs, and replacement of minor office furniture, and scheduled replacement of end-of-life audio visual equipment.

### Current FY 2024:

\$109,900 is appropriated to enable a quick response time for the procurement of generator equipment and supplies in an emergency and will only be used in the event of an impending emergency. All unspent funds will remain in reserves for contingencies in the Emergency Disaster Fund (003/0003). Reserves for Catastrophic events were increased due to the transfer from the General Fund (001/0001).

In the event an expenditure is made and is reimbursable by FEMA, advance funding expenditures will be submitted for reimbursement and any amounts refunded will be returned to this fund.

# Office of the County Manager

## Bureau Of Emergency Services Division 800 MHz Radio System Fund (188/1060)

### **Mission Statement**

To provide funding for operation and maintenance of the 800 MHz Inter-government Radio System. The system provides interoperable radio communications for law enforcement, EMS, fire service, and local government including the Collier County Public Schools operating a total of 6,000 radios.

Fiscal Year 2024 5 - 107 Office of the County Manager

## Office of the County Manager

## Bureau Of Emergency Services Division 800 MHz Radio System Fund (188/1060)

#### Forecast FY 2023:

Radio system maintenance costs reflect the expiration of the final warranty phases for the P25 system upgrade and the addition of enhanced 24/7/365 system monitoring and service assurance by the system vendor.

Tower lease payments increase annually based on lease terms.

Electricity costs reflect the announced 10% rate increase that started mid-FY 2023.

Personal services forecast reflects annual county-wide general wage adjustment.

Capital outlay reflects replacing ancillary radio system infrastructure related to power hardening and climate control, which was not included in the P25 upgrade.

### Current FY 2024:

Personal services budget reflects two FTEs- one FTE that started in Q3 of FY2022 and a new position with an employee starting in Q1 FY2023.

FY 2023 P25 system maintenance expenses reflect costs outlined in contract 15-6409 approved in 2015 for the P25 system. The contract included 10 years of warranty/maintenance cover for core system components. Expenses for maintenance services provided to divisions for terminal equipment (mobile and portable radios) are offset with revenue from divisions and external agencies on the system Tower lease payments increase annually based on lease terms.

Capital outlay reflects replacing ancillary radio system components not included in the P25 upgrade.

### Revenues:

Service charges include \$38,600 for mobile and portable radio maintenance provided to non-BCC customers, and \$270,000 in proceeds from a \$12.50 surcharge on traffic moving violation fines.

Miscellaneous revenue consists of income from radio tower lease agreements and reimbursements from divisions for radio mobile and portable radio equipment maintenance.

Tower lease revenue includes an annual payment of \$85,600 for shared use of County sites for the State of Florida radio system. The lease agreement with L3 Harris expired in March 2022. The Florida Department of Management Services has assumed responsibility for this lease agreement.

Transfer from the General Fund (001/0001) is to support the 800 MHz Radio System Fund (188/1060).

## Office of the County Manager

# Bureau Of Emergency Services Division Division of Forestry Services (111/1011)

### **Mission Statement**

Pursuant to Florida Statute 125.27, the Division of Forestry contracts with each County Board of Commissioners to provide countywide forest fire protection. In fulfilling the provisions of this law, each district/center manager will perform the following two functions: 1) Provide a Protected Acreage Review. 2) File an annual report with the Collier County Board of County Commissioners.

### Office of the County Manager

## Bureau Of Emergency Services Division Medical Examiner (001/0001)

#### Notes:

The Board of County Commissioners, pursuant to Section 406 of Florida Statutes, provides the funds for the provision of Medical Examiner Services through a contractual service agreement with the Florida District 20 Medical Examiner. In many circumstances involving the death of a human being, per Florida Statutes 406.11, the medical examiner of the district in which the death occurred or the body was found shall determine the cause of death and shall, for that purpose, make or have performed such examinations, investigations, and autopsies as he or she shall deem necessary or as shall be requested by the state attorney. Further, the Medical Examiner must comply with a variety of reporting and record-keeping requirements as mandated by state law.

### Forecast FY 2023:

The Medical Examiner's Office investigated 5,504 cases in the 2022 calendar year which represented a 3% increase over that of 2021.

Cost increases due to supply shortages and the price of fuel have driven up the prices of PPE and autopsy supplies significantly, from over 25% to more than 150%. Lab costs continue to rise due to additional testing requirements from synthetic opioid analogs and drug use patterns. The number of cases requiring toxicology testing is anticipated to continue to increase. Toxicology tests are required by Florida law in all cases of violent deaths, suspected drug intoxications, homicide, suicide, deaths involving children, drowning, motor vehicle, and other accidental deaths, deaths from unknown causes, in all unidentified individuals, and certain natural deaths.

Services and costs of operational and administrative services and supplies, costs associated with the performance of autopsies and cause of death determinations, and all other costs and fees are continuously negotiated to achieve cost reductions while maintaining or improving standards.

#### Current FY 2024:

The proposed budget reflects a 4.6% increase from the 2022-2023 fiscal year budget which includes the following Operating Expenses: \$2,091,900 in medical examiner costs, toxicology tests, lab costs, hardware/software replacement, FPL and other utilities, morgue supplies and services, consultant fees, recurring building expenses. Additionally, \$11,300 is allocated for info tech automation and billable hours, and \$60,600 for insurance – general, property, and liability insurance. Total - \$2,163,800.

The Medical Examiner's office is constantly scrutinizing services, policies, procedures statutory-mandated operational duties, autopsy and administrative supplies, costs, and fees and continues to negotiate reductions in costs wherever possible.

### Office of the County Manager

# **Emergency Services & Fire District Grants Administrative Services Grants (703-704 / 1833-1834)**

### **Mission Statement**

To provide enhancements to the minimum standards required of counties by the State of Florida and the Department of Homeland Security in support of local emergency management programming. Functions include service delivery, equipment, supplies, training development and delivery, Special Needs program and special planning projects. Grants from this fund come from the Emergency Management Preparedness Enhancement Trust Fund as mandated by the State of Florida and the Federal Emergency Management Agency.

### Office of the County Manager

# Emergency Services & Fire District Grants Administrative Services Grants (703-704 / 1833-1834)

#### Notes:

Budgets for grants are no longer prepared in advance of the actual acceptance of the grants. Any grant received will be brought to the Board of County Commissioners for approval and acceptance along with budget amendments to recognize and appropriate funds at the time they are received.

### Forecast FY 2023:

Currently the Department of Emergency Management executes a grants awarded by the State of Florida Division of Emergency Management (FDEM). These grants have a specific purpose toward improving communication interoperability, data and media transfer, disaster planning, training, building disaster resilience and other homeland security and natural hazard related matters. All of the grants are recurring, non-competitive grants. State and FEMA pass through funds for both the Emergency Management Performance Grant (EMPG) and Emergency Management Preparedness and Assistance Program Base Grant (EMPA) will require local funding thresholds to be maintained at certain levels or risk proportionate share of grant reductions.

All of the grants have contract periods that overlap fiscal years. This list represents active grant award balances during FY 2023: \$105,806 EMPA 2022-2023 A0246- 33819 \$109,275 EMPG 2022-2023 G0380 - 33820 \$ 3,469 EMPG Match 2022-2023 G0380 - 33820

Grand Total: \$218,550

### Revenues:

A General Fund (001) transfer of \$3,469 has been budgeted to meet the required local share of EMPG 2022-2023 which is set at 100%. The State EMPA program is used as match to the Federal EMPG program.

# Office of the County Manager

# Emergency Medical Services (EMS) Emergency Medical Services (EMS)(490/4050)

### **Mission Statement**

The Division of Emergency Medical Services is a single consolidated division that provides emergency medical care for Collier County under the direction of the Board of County Commissioners and in compliance with Florida Statutes, Chapter 401. The EMS Division's mission is to provide competent, consistent, county-wide patient care and service to the community efficiently and cost-effectively.

#### Forecast FY 2023:

The division was fortunate to receive funding from the Florida Department of Health EMS Grant to upgrade audio-visual equipment for four EMS training rooms. This grant allowed the division's operating expenses to be used elsewhere. These rooms are utilized for teaching a variety of classes that include our quarterly Medical Director's in-services for 200-300 EMS and fire personnel, hosting the Phoenix Awards Ceremonies, promotional ceremonies, and several meetings with outside agencies.

An increase in call volume and the implementation of an effective inventory system are creating increased work and the division will be hiring temporary labor to handle the heavy workload in the EMS supply warehouse.

Increases in utilities are anticipated and unavoidable. Trash and garbage along with water and sewer costs have been impacted significantly due to price increases. These services have also been updated to better accommodate the division's needs, such as larger receptacles to keep up with increased amounts of trash.

Previously, janitorial supplies were being recorded under other operating expenses and this adjustment has been made to reflect the appropriate line item. Janitorial expenses are significant but necessary to maintain the cleanliness and sanitation of both EMS ambulances as well as stations.

Costs for legal services have increased due to using outside counsel for union-related matters this year more than in previous years when the County Attorney staff was utilized.

### Current FY 2024:

EMS stations have been evaluated and areas needing upgrades and/or necessary repairs have been identified. The EMS stations are utilized for housing EMTs and paramedics while working shifts, so the division continues to make these repairs for a continued pleasant work environment as well as extending the shelf life of the equipment and overall good appearance of our stations.

Contractual services remain one of the higher budgeted commitments to run our operations smoothly. Regarding utilities, the increase is unavoidable. To date, electricity estimates have fallen within budget. Per Procurement guidelines, the division has estimated an additional 10-20% for FPL.

A great part of the departmental success is taking into consideration feedback from the EMS professionals themselves. To maintain a sleek professional appearance, the division is looking into weather-appropriate uniforms to include updated winter clothing as well as rain gear. Input from our Database Administrator recommends replacement of our Mobile Data Terminal tablets for use out in the field which provides dispatch information and mapping for crews responding to calls.

EMS will be hosting onsite paramedic courses in hopes of increasing new hires and training and retaining employees. This goes hand in hand with our social media marketing team actively promoting our division and seeking new hires via creative marketing.

Another major expense but of great value to the community, is our agreement with Stryker which covers stretchers and chest compression systems. Globally, EMS systems have opted to continue their line of work through the use of Stryker power load stretchers that assist in lowering the risk of harming the patient and employee during transfer. This equipment has significantly reduced the risk of back injuries for employees consequently extending their medical careers.

Fiscal Year 2024 5 - 117 Office of the County Manager

### Office of the County Manager

Historically, and in line with previous years, pharmaceuticals and expendables medical supplies continue to increase. Aside from inflation, expendable items such as medical gloves have increased in price. In addition, Collier County population growth results in an increase in call volume for EMS which results in the need for increased inventory. Collier County EMS experienced a nearly 11% increase in call volume from 2021-2022 and a nearly 9% increase in patient transports to the hospital.

Other budget items for FY24 include EMS renewal for CAAS accreditation. The division also anticipates a continued need for legal services surrounding general employment matters and negotiating the Collective Bargaining Agreement.

### Revenues:

Collections are anticipated to be higher than in FY 2023. Medicare pays 80% of the Urban Base Rate and Mileage. Medicare payments are not based on charged rates, but rather 80% of what the Centers for Medicare and Medicaid Services (CMS) determines to be allowable. Medicaid pays a flat rate based on the level of service. Because nearly 60% of our charges are Medicare patients and 10% are Medicaid patients, there would be no impact on collections for 70% of our charges. As the population in Collier County continues to grow so does the need for emergency medical services. To date, in comparison to last fiscal year, our call volume has increased by 19% and our revenue thus far into FY23 is up by 2.3%

Collier EMS has been selected and required to collect and report data for the Medicare Ground Ambulance Data Collection System (GADCS). The report will include recommendations to Congress that can benefit the division's Medicare collections in years to come

Fiscal Year 2024 5 - 119 Office of the County Manager

### Office of the County Manager

## Emergency Medical Services (EMS) Helicopter Operations (490/4050)

#### Forecast FY 2023:

The personal services forecast reflects savings from vacancies offset slightly by Board-approved midyear salary increases.

Operating Expenses are expected to be within budget.

### Current FY 2024:

Personal services budget increases reflect the aforementioned midyear salary increases and FY2024 salary adjustments.

Due to a rise in inflation MedFlight is now experiencing an increase in overall costs associated with maintaining the aircraft. In addition, MedFlight has experienced an increase in the number of patients flown each year for the past several years. Services for parts and labor have all increased over the past several fiscal years. The proposed budget reflects these changes.

It must be noted that helicopter maintenance is a constant expenditure that continues to grow with the age of the original aircraft and the addition of the new aircraft. This budget includes funding for scheduled, routine maintenance, however, should a major unfunded repair be needed, the Board will be asked to utilize General Fund (001) reserves for funding.

The maintenance department has added a new FTE mechanic. Our long standing Director of Maintenance will be retiring in FY23, a replacement will be necessary and will require training. Federal Aviation Administration and CAMTS requires all mechanics to attend factory training on the aircraft, engines, night vision equipment, and Human Factors training. The added expense for travel related items as well as tuition is reflected in the FY24 budget.

## Office of the County Manager

## Emergency Medical Services (EMS) EMS Grant Trust Fund (493-494 / 4053-4054)

#### Notes:

This fund is used for annual and discretionary EMS grant programs as well as one-time purchases approved by the Board. At such time notifications are received from the grantor agency indicating the grant award amount, the grant will be brought to the Board for approval and acceptance along with a budget amendment to recognize and appropriate the funds. Any other approved projects or one-time purchases will be approved and budgets entered as needed.

### Forecast FY 2023:

All of the grants have contract periods that overlap fiscal years. This forecast includes the following grant award from the Florida Department of Health:

\$218,000 EMS Cnty Grant Pgrm – 33655 \$718,800 FDOT Fire Station - 33356 Grand Total - \$936,800

### Current FY 2024:

FDOT successfully executed an interlocal (funding) agreement with GNFD. At which point Collier County continues to provide EMS services associated with the mile marker 63 fire station and is reimbursed for associated costs through coordination with GNFD henceforth the need to budget personal services and misc. revenue to segregate costs.

#### Revenues:

Transfer from Fund 490 EMS is for the 10% local match required by Florida Statute Section 338.26(3), Chapter 2019-153 for EMS services associated with Mile Marker 63.

### Office of the County Manager

# Fire Districts Ochopee Fire Control District MSTU (146/1040)

#### Notes:

It remains the intent of the Board of County Commissioners (BCC) and the Greater Naples Fire Rescue District (GNFRD) to consolidate the Ochopee Fire Control MSTU into Greater Naples and this process is governed by an intergovernmental management agreement which the BCC originally adopted on 9/13/16 Item 11B effective 11/1/16. This original management agreement was extended through 9/30/19. Primarily due to challenges in securing a permanent funding source for Station 63 the Greater Naples and Ochopee Fire District did not consolidate by 09/30/19. The BCC adopted on 03/24/20 Item 16.E.3 a new agreement effective 03/10/20. Greater Naples agrees to initiate legislation to expand the Greater Naples' boundaries to include the Ochopee Fire Control District ("consolidation") no later than the 2022 Florida legislative session. In FY 2022 Greater Naples attempted to take legislation to expand the Greater Naples boundaries to include the Ochopee Fire Control District (consolidation) but it did not pass.

Currently, discussions are ongoing between the parties to revise the legislative timelines because an annexation and consolidation bill was not introduced in the 2021 legislative session and was attempted in the 2022 legislative session but failed to pass.

Further changes to the management agreement covering service were adopted by the BCC on 4/11/2023 Item 11.D. This agreement is good through 09/30/2032.

#### Forecast FY 2023:

Increases to forecast are a result of the new management agreement approved by the Board on 4/11/2023.

### Current FY 2024:

Remittances are budgeted to include quarterly payments to the Greater Naples Fire Rescue District along with the 5% management fee. The reserve for contingency is established per contract at 10% of the total guarterly payments.

Capital Outlay includes the replacement of one Class-A fire apparatus.

### Revenues:

Budgeted ad valorem tax revenue is based on the Ochopee Fire Control District taxable value of \$454,935,430 which represents a 15.25% increase from FY 2023. A 4.0000 mill tax levy is proposed and the will provide an estimated \$1,819,700 in tax revenues. The rolled-back rate is a millage of 3.5359

Transfers from the General Fund and the Unincorporated General Fund of \$955,200 and \$2,338,500, respectively are necessary to fulfill this agreement.

### Office of the County Manager

# Fire Districts Goodland Fire District (149/1041)

### **Mission Statement**

To provide basic fire protection to the residents of Goodland.

Fiscal Year 2024 6 - 1 Public Services Department

### **Public Services Department**

### **Tanya Williams**

The Public Services Department provides the citizens of Collier County with a wide variety of public amenities, recreational opportunities, natural resource management, and access to health, wellness, and human services preserving and enhancing the primary Strategic Focus Area-Quality of Place throughout the community. The Department includes a small administrative staff, and the following Divisions: Department Administration, Community & Human Services, Domestic Animal Services, Library, Museums, Operations & Veteran Services, Parks & Recreation, and University Extension Services. Through contractual arrangements, the Public Services Department has oversight responsibilities for the Florida Department of Health in Collier County. The goal of each Division is to exceed our customers' expectations in providing high-quality, cost-effective services. The total budget appropriation in FY 2024 (including expanded requests, transfers, and reserves) is \$186.00 million. The number of authorized permanent Full-Time Equivalent (FTE) positions in the Department for FY 24 is 490.30

### **Department Administration**

The Public Services Department Administration ensures all four County Strategic Plan Focus Areas are implemented throughout each Division by providing management, policy oversight, and enhanced strategic planning guidance for the programs, services, operations, and capital improvement projects of the Department. The Administration Division coordinates directly with the County Manager's Office and other County Departments in support of the County's Strategic Plan as they relate to providing premier services and sustainable amenities through responsible governance for the enjoyment and use of the public. The Division has a staff of 1 budgeted FTE's for FY 2024 with a net operating budget of \$304,100.

### **Community and Human Services Division**

The Community and Human Services Division in direct correlation to the Strategic Focus Areas of Quality of Place and Responsible Governance is dedicated to improving the wellbeing, financial security, and critical needs of the Collier County community through collaborative partnerships and direct services. The Division is made up of four operational units: Housing Program Administration, Social Services, Aging & Adult Services and Grant Services. The Division has been creating solutions for a stronger community by serving those most in need, particularly those low-income families, with a network of partner agencies and managing over 100 contracts and 25 unique grants. The Division is responsible for grant administration of all grants awarded to the Public Services Department. Community and Human Services helps Collier County residents obtain access to medical and pharmacy care, energy assistance, housing, and food services. The Division helps to connect residents to community resources and provide grant assistance to those agencies who assist those experiencing homelessness, or need housing, seniors, and victims of violence. The Division is successfully continuing to manage the pandemic response grants for the County and is anticipated to assist more than 3,000 individuals and businesses. The Division's mission is "One Project, One Home and One Person at a Time". The Division administers over \$200M in grant funding with 61.8 FTE's, and a net operating budget of \$13.11 million.

#### **Domestic Animal Services Division**

The Domestic Animal Services Division in direct alignment with the Strategic Focus Areas of Quality of Place and Responsible Governance protects the citizens and animals of Collier County by keeping the area free of strays and complying with state and local ordinances and regulations through education and enforcement, ensures public and animal health and safety by investigating animal-related complaints, including animal-related injuries and diseases, increases public awareness, and promotes responsible pet ownership and humane treatment of animals. Annually, the Division typically takes in and cares for over 5,000 animals. In FY 2024, the Division will continue to maintain a live release rate in excess of 95%, by adhering to evolving best practices in the animal welfare field and implementing programs and services, available to the public, to enhance and preserve the human animal bond. To assist in achieving its mission, the Division calls upon many dedicated volunteers, and operates an active animal fostering program. The Division has a staff of 36 budgeted FTE's for FY 2024 with a net operating budget of \$5.25 million.

### **Library Division**

The Library Division hits all four Strategic Focus Areas of Quality of Place, Infrastructure and Asset Management, Community Development, and Responsible Governance by providing annually over 24,700 operational hours across 10 libraries with access to relevant, high-quality materials, and resources to meet the varied informational and recreational needs of Collier County residents and visitors. The Library system serves nearly 800,000 visitors who check out both physical and electronic library items at a rate of over 1.7 million annually. The Division actively addresses the broadening need for digital access by providing citizens high-speed internet through WiFi and library computer options. The Division's mission is to provide educational environments, facilitate community engagement, and cultivate life-long learning to maintain a thriving Collier County. To fulfill this mission, in FY 2024 citizens have access to essential Division programs including a managed collection of over 670,000 print and electronic materials, 200 computers and iPads, over 2,500 virtual and in-person program offerings, interlibrary loan services, and homebound services through the Mail-A-Book Program. Additionally, grant-funded homework centers operate in qualified census tracts (QCTs) which support the Division's educational component. The Division has a staff of 85 budgeted FTEs for FY 2024 with a net operating budget of \$10.06 million.

Fiscal Year 2024 6 - 2 Public Services Department

### **Public Services Department**

#### **Museum Division**

The Museum Division, through the Strategic Focus Areas of Quality of Place, Infrastructure and Asset Management, and Responsible Governance, is dedicated to providing residents and visitors an enjoyable informal education on the natural and human history of Collier County. The Museum system consists of five museum locations, one historic cemetery, and in total, cares for 19 historic buildings, 13 historic structures, more than twelve non-historic buildings and structures, and over 21 acres of land. Two locations are designated as locally historically significant by the Board of County Commissioners and three locations are on the National Register of Historic Places. Each Museum brings a unique aspect of Collier County's history to life through permanent exhibits, temporary exhibitions, programs, lectures, and special events. The museum collection contains tens of thousands of documents, photographs, and artifacts.

The Museums received 93,909 visitors in 2019. The Key Marco Cat is currently on loan from the Smithsonian Institution at the Marco Island Historical Museum through 2026. The Division has a staff of 16 budgeted FTEs for FY 2024 with a net operating budget of \$2.78 million.

### **Operations and Veteran Services Division**

The Operations and Veteran Services Division provides a wide variety of services to achieve professional financial and operational management of the entire Public Services Department through the Strategic Focus Areas of Quality of Place and Responsible Governance. The Division provides guidance, support, and operational oversight to all Divisions within Public Services to include the development of annual operating and capital budgets; oversight of procurement and contractual management; financial management and analysis of revenues, expenses and projects; financial planning and modeling; and the maintenance of long range capital plans. This Division is also focused on department wide technology planning and oversight, internal controls, and advancement of business processes and reporting capabilities. In these roles, the Division works collaboratively with internal and external stakeholders and decisions are driven by community needs. The Veteran Services team adds an additional layer to the Division's implementation of Strategic Focus Area-Quality of Place by providing advocacy and support services to over 3,000 veterans per year and is committed to serving all the nearly 30,000 veterans and their families that call Collier County home. Collier County Veteran Services prides itself on commitment to Veterans who have sacrificed for the safety of our nation and is committed to assisting them with claims for earned benefits and many other services. The Veteran Services unit includes three certified Veteran Services Officers to assist veterans and their dependents filing for disability compensation; non-service-connected pensions; appeals burial benefits, education benefits, health benefits, survivor's benefits, and other support; and to provide outreach services to inform veterans of potential benefits.

The Division has a staff of 27 budgeted FTE's for FY 2024 with a net operating budget of \$3.19 million.

### **Parks and Recreation Division**

The Parks and Recreation Division through all four Strategic Focus Areas of Quality of Place; Infrastructure and Asset Management; Community Development; and Responsible Governance maintains a high level of service at 28 regional, 18 community and 18 neighborhood parks throughout Collier County. The Parks and Recreation Division is a nationally accredited agency and has held accreditation through the Commission for Accreditation of Parks and Recreation Agencies (CAPRA) for the last 18 years.

Collier Parks are diverse in location and amenities offered with something for everyone. The Division's parks and amenities provide for both passive and active recreation opportunities by which leisure and recreation experiences, nestled within the various unique environments, enhance the well-being and quality of life for participants. A multitude of opportunities are available to enjoy the incredible beauty of southwest Florida's natural resources including beaches, preserves, lakes, greenways, blue ways, and gulf access for boating. Recreation facilities are equally diverse and include community centers, sports fields, special event areas, fitness centers, playgrounds, gymnasiums, aquatic centers, dog parks, hockey rink, skate parks, BMX bike track, and a pickleball complex that is home to the annual U.S. Open Pickleball Championships. In addition, a wide array of recreational programs is offered in a variety of categories; arts & culture, athletics & sports, adaptive-inclusive recreation, aquatics & water sports, childcare & camps, environmental education, fitness & exercise, and social events. Over 250 different programs are offered by the Division each year for families, youth, adults, and seniors. Park visitation is expected to exceed 2.6 million visitors this year. The Division maintains a rigorous capital projects portfolio to ensure that these wonderful community assets are well maintained. The FY 2024 capital project plan focuses on execution of repairs and upgrades at existing community and regional parks with an emphasis on continued restoration of aquatic facilities and athletic fields, including expenditure of \$20 million of previously budgeted bond funding to continue investment in our Parks system. In 2024, the Division will see two new facilities in their first full year of operation: Big Corkscrew Island Regional Park located in Golden Gate Estates and the Caxambas Community Center located in Marco Island. These new additions will increase the Division's overall staffing to 253.5 FTE's with a net operating budget of \$84.82 million.

#### **Public Health Division**

The Florida Department of Health in Collier County (DOH-Collier) enhances the Public Services Department's ability to meet the Strategic Focus Areas of Quality of Place and Responsible Governance through their continuation to coordinate programming efforts with the Board of County Commissioners to provide public health programs and services focused on preventing communicable, infectious, and chronic diseases as we work to ensure the safety of our residents and visitors alike. DOH-Collier provides essential public health services to more than 390,912 residents and approximately 1.67 million visitors to our County annually. The main service offerings include infectious disease prevention and control, immunizations, immigrant, and refugee health, dental, family planning, WIC, Healthy Start, community health planning, wellness programs,

Fiscal Year 2024 6 - 3 Public Services Department

## **Public Services Department**

vital statistics, and environmental health services. This past year the health department provided 421,064 individual public health services. The main facility is located at the Government Complex in Naples with a satellite office located in Immokalee. The Florida Department of Health in Collier County has a staff of 150 FTEs with a net operating budget of \$12 million which includes contributions from State, Federal, and County sources. DOH-Collier is supported by Collier County in FY 2024 through a net operating budget of \$1.89 million.

#### **University of Florida Extension Services Division**

The University Extension Services Division, also known as "UF/IFAS Extension Collier County", through the Strategic Focus Areas of Quality of Place and Responsible Governance, provides research-based educational programs; a wide array of resources; and specialized training to residents of Collier County. Program areas include: Agriculture (Sustainable Food Systems); Marine Sciences and Natural Resources (Sea Grant); Residential Horticulture (including Florida Friendly Landscaping, Master Gardener Volunteers, and plant clinics); Commercial Horticulture (including specialized landscape professional training and plant/pest identification); Community Resources Development; and 4-H Youth Development where youth "learn by doing". UES provides virtual, in person, and hybrid learning opportunities for the community. Over 80,000 participants are impacted annually at learning events. Hundreds of field and office consultations are conducted for residents by our subject matter experts/extension agents each year. The Cooperative Extension is a county, state, and federal partnership legislated in 1914. The Division has a staff of 10 budgeted FTE's (including 5 shared County/UF agents) for FY 2024 through a County net operating budget of \$1.01 million.

#### Forecast FY 2023:

The personal services forecast decrease reflects the shifting of a position from Public Services Administration to the County Managers Office and the transition to the current Public Services Department Head.

### Current FY 2024:

The decrease to the personal services budget for FY24 reflects the shifting of a position to the County Managers Office, FY2024 salary adjustments and the appointment of a new Public Services administrator. Operating expense increases reflect information technology related expenditures. Current budget includes an expanded vehicle for PSD Department Head in the amount of \$45,000.

### Forecast FY 2023:

The personal services forecast is trending below FY23 budgeted amounts due to vacant staff positions. The operating expense forecast will closely approximate the adopted FY23 budget.

#### Current FY 2024:

The personal services budget increase reflects the proposed salary adjustment for FY24. The operating expenses for FY24 have increased; the increase is primarily due to an increase of funding to support the keystaff positions and information technology costs.

## Forecast FY 2023:

The personal services forecast is trending in line with the FY23 budget. The operating expense forecast is trending lower of adopted FY23 budget currently.

### Current FY 2024:

The personal services budget increase of 8.1% reflects the proposed salary adjustment for FY24. Operating expenses have decreased by 8.6% which reflects reductions to Information Technology and increases to Fleet expenditures.

Fiscal Year 2024 6 - 12 Public Services Department

# **Public Services Department**

# Domestic Animal Services Division Domestic Animal Control (001/0001)

### **Mission Statement**

To ensure compliance with local and State animal-related laws; to return strays to their owners and promote adoption of homeless animals to new families; and to work toward ending the community problem of pet overpopulation.

| Program Summary   | FY 2024<br>Total FTE | FY 2024<br>Budget | FY 2024<br>Revenues | FY 2024<br>Net Cost |
|---|----------------------|-------------------|---------------------|---------------------|
| Divisional Administration/Overhead - RG   | 2.00                 | 879,800           | _                   | 879,800             |
| Funding for Divisional administration and fixed divisional overhead expenses. Oversee operations including employees, contracts, projects fiscal and resource management, internal controls, public record requests, and coordinates the Animal Services Advisory Board meetings. The DAS administrative coordination, community collaboration and oversight of all operations has led to a 97% Live Release Rate in FY202  | S.                   |                   |                     |                     |
| Enforcement - QP, CD, RG  | 13.00                | 1,568,600         | 404,300             | 1,164,300           |
| Prioritize, dispatch, and investigate animal-related complaints, including but not limited to aggressive animals and animal bites, dangerous dog investigations, animal cruelty and neglect, and nuisance complaints involving animals at-large, barking, and sanitary nuisance. Impound injured, neglected, and animals found at-large. Investigate and inspect animal-related businesses, animal-related organizations, and breeders, and issue annual operational permits. Verify compliance with requirements to license and vaccinate for rabies prevention. Issue appropriate penalties for violations; process and coordinate Division's citations for payment, appeals, and record liens and orders with Collier County Clerk of Circuit Court. Responded to 11,621 animal related service calls in FY2021.   |                      |                   |                     |                     |
| Animal Care - QP, RG  | 14.00                | 1,618,800         | 33,900              | 1,584,900           |
| Maintain the well-being of impounded animals including livestock by executing cleaning and sanitization protocols and administering preventatives and vaccines to control disease while working towards positive outcomes to include adoptions, rescue networking, return-to-home, and return to owner services. Process adoption requests and provide adoption counseling, assist pet owners in the reunification of the lost pets, provide education to the public about responsible pet ownersh and animal-related laws. Accept incoming animals through the Admissions Center, as allowed in Collier County Animal Control Ordinance, by impounding stray animals, scheduling, and admitting owner surrender and owner request euthanasia appointments; evaluate animals for best individual outcome. The shelter admitted 5,341 animals during FY2021. | ip                   |                   |                     |                     |
| Community Outreach - QP, RG   | 3.00                 | 335,000           | 59,500              | 275,500             |
| Recruit, manage and train volunteers. Increase Division visibility in the community by promoting programs and services through social and other media platforms and marketing campaigns. Leverage social media presence to publicize lost pets and increase number of animals reunited with their owner. Promote special needs adoptions to save the lives of hard-to-place animals. Announce adoption promotions, upcoming events and press releases. Facilitate animal foster program, by maintaining ope communication with foster families, scheduling needed medical care with clinic operations, and coordinating with potential adopters. Community outreach in FY21 allowed 1443 animals to be adopted into new homes and reunited 710 animals with their owner's during FY21.  | s,<br>en             |                   |                     |                     |

Fiscal Year 2024 6 - 14 Public Services Department

## **Public Services Department**

## Domestic Animal Services Division Domestic Animal Control (001/0001)

#### Notes:

Domestic Animal Services transitioned to a new animal license program vendor in FY23. The fee policy has maintained the current licensing fee of 15.00 with a three-year licensing option. Domestic Animal Services continues to offer adoption promotions and specials regularly to generate excitement within the community at the recommendation of the University of Florida Maddie's Shelter Medicine Program, pursuant to Resolution No. 2018-106, which allows for reduced adoption fees and two-for-the-price-of-one cat adoptions. The Division has implemented a citation collection/compliance program by scheduling all unpaid citations to go before the Special Magistrate and create a mechanism to record unpaid citations as liens.

#### Forecast FY 2023:

Forecast expenditures for personal services are lower than budgeted levels due vacant positions throughout the year. Operating expenses are forecast to be significantly above budgeted levels due to increases in temporary labor, electricity, building maintenance and animal food. Funds will be shifting within the Public Services Department to cover the shortfall. Revenue projections are slightly below budgeted levels due to reduced animal populations.

#### Current FY 2024:

The increase to personal services in FY24 is due to a general wage adjustment and implementation of a merit-based incentive program, as well as the addition of one FTE in FY23 (Program Coordinator). The budget for operating expenses in FY24 increased due to increases for temporary labor, utilities, fees for professional services, advertisements/marketing, personal safety equipment, and training for Animal Control Officers.

The Collier County Sheriff's Office work program returned to DAS in FY23. The Sherriff's Office is providing limiting staffing for approximately one day per week. Domestic Animal Services has continued to rely heavily on temporary labor to properly clean and sanitize animal holding areas per current ASV Standards and the Current Animal Control Ordinance.

#### Revenues:

Increased enforcement prioritization in FY23 has led to higher-than-expected fines and forfeiture revenues. Simultaneously license and permit funding is expected to decrease.

Fiscal Year 2024 6 - 15 Public Services Department

## **Public Services Department**

## Domestic Animal Services Division Neutered/Spay Trust Fund (610/1139)

### **Mission Statement**

To sterilize all dogs and cats released from Domestic Animal Services as required by F.S. 823.15 and Collier County Animal Control Ordinance Chapter 14, Article II, section 14-41 and to provide low-cost spay and neuter services for the public for breeds and types of animals most often relinquished to Domestic Animal Services.

## **Public Services Department**

## Domestic Animal Services Division Neutered/Spay Trust Fund (610/1139)

#### Notes:

This fund collects a specified allocation for each license purchased for non-neutered/spayed animals, impound fees paid for animals reclaimed unsterilized, and the spay/neuter fees from animals sterilized prior to reclaim by their owners. The Division is working with local non-profit groups to provide low-cost spay and neuter for the public and for community cat caregivers. The Divisions' goal is to provide free and/or low cost spay and neuter for breeds and types of animals most often relinquished to Domestic Animal Services.

#### Forecast FY 2023:

The shelter veterinarian position is currently vacant. To ensure compliance with F.S. 823.15 and Collier County Animal Control Ordinance Chapter 14, Article II, section 14-41; animal sterilizations are currently being performed by private sector veterinarians. The expenses caused by the vacancy required a Board approved mid-year budget adjustment to shift funding from reserves to operations. The forecast reflects these increased costs.

#### Current FY 2024:

Fund (610/1139) operating budget pays relief veterinarians and outside veterinarians to spay and/or neuter animals prior to their adoption or owner reclamation. Operating funds are expended when the DAS clinic cannot accommodate the day's total surgery load, or when the Shelter Veterinarian is unable to perform surgeries in-house. The operating budget may also be used to pay veterinarians to perform low-cost surgeries for pet owners in the community who own breeds and types of animals most often relinquished to Domestic Animal Services. Funding in FY24 has been reduced to reflect overall reduction in reserves/carry forward.

#### Revenues:

The Division will continue to offer low cost spay and neuter for the public to aid in their mission to work toward ending the community problem of domestic animal overpopulation. Spay and neuter surgeries are specified by species and sex of an animal and are in compliance with Resolution No. 2017-104 and Resolution No. 2018-106. The revenue budget is lower in FY24 to better reflect current trends.

Fiscal Year 2024 6 - 18 Public Services Department

## **Public Services Department**

# Domestic Animal Services Division Domestic Animal Services Donations (180/1135)

#### Forecast FY 2023:

The shelter veterinarian position is currently vacant. The expenses caused by the vacancy required a Board approved mid-year budget adjustment to shift funding from reserves to operations. The forecast reflects these increased costs. Operating expenses will continue in compliance with Resolution No. 2006-026. Forecast revenues represent funds raised from donation and special events.

#### Current FY 2024:

Operating expense is budgeted at \$256k and will be expended in compliance with Resolution No. 2006-026 for animals in DAS custody.

#### Revenues:

The revenue budget reflects estimated funds raised from special events and general donations as well as fund balance carry forward and is adjusted upward to reflect historical actuals. The FY24 increase of 72.7% in miscellaneous revenues reflects current trends as well as expected revenues from upcoming donations and events. The reduction in carry forward is due to the continued outsourcing of veterinary care for shelter animals.

Fiscal Year 2024 6 - 21 Public Services Department

## **Public Services Department**

## **Community and Human Services Division** Social Services Program (001/0001)

### **Mission Statement**

Our professional staff provides a range of medical, pharmacy and emergency energy assistance-case management services to eligible citizens of Collier County as required by Florida Statutes 125.01, 409.915, 154.301, 406.50, and 39.304 (5). These services are either state mandated, emergency/short-term medical, or general assistance that support community members in restoring self-sufficiency, providing rehabilitation, and returning them to their previously achieved levels of productivity. These services seek to meet the minimum needs required for health and decency, according to available funding and Board of County Commissioners' policy and philosophy.

#### Forecast FY 2023:

Forecast costs for personal services are trending lower due to vacancies during the year.

#### Current FY 2024:

Personal Services are budgeted to be higher in FY 2024 due to a general wage adjustment and implementation of a merit-based incentive program, it also reflected the reclassification of the Sr, Grant Coordinator position from 1011 to 0001.

The County's estimated Medicaid payment allocation accounts for \$3,975,000 of operating budget which is an increase of more than 20% from last year. This payment increase represents approximately 75% of the YOY funding increase requested by CHS for the 2024 budget of this fund. This Medicaid payment goes directly to meet community healthcare needs.

Achieving compliance with budget guidance necessitated reductions to earmarks for certain programs. Accordingly, on an ongoing basis staff will evaluate the need to realign available resources to appropriately support the Hospitalization, Pharmacy Services and Shelter Welfare programs.

Fiscal Year 2024 6 - 24 Public Services Department

## **Public Services Department**

# Community and Human Services Division Community Mental Health & LIP Support (001/0001)

#### Notes:

This budget accounts for both the contract payment to the David Lawrence Center (DLC) and NAMI Collier County, for mental health and substance abuse services and County participation in the Medicaid Low Income Pool (LIP) Program through the Agency for Health Care Administration (AHCA) and pursuant to Florida Statute, Section 394.76(9) (a) and (b). The LIP program leverages local funds to obtain federal matching monies that are used to provide additional healthcare services for low-income individuals in Collier County.

#### Forecast FY 2023:

\$2,336,000 is provided by contract directly to the David Lawrence Center and NAMI Collier County for mental health and substance abuse services. The outcome from LIP participation is a \$723,500 pool of funding is expected to be generated and utilized to support healthcare services.

#### Current FY 2024:

The proposed budget of \$2,505,200 includes a LIP match of \$754,300. The LIP match is used to participate in the Medicaid Low Income Pool (LIP) Program through the Agency for Health Care Administration (AHCA). Pursuant to Florida Statute, Section 394.76 (9) (a) and (b), under contract with Collier County the David Lawrence Center is anticipated to receive a total of \$1,750,900 for mental health and substance abuse services.

# Community and Human Services Division Affordable Housing (116/1077)

### **Mission Statement**

The mission of Collier County Community and Human Service's Division's grants and affordable housing programs are to meet community needs to further affordable housing in Collier County. New initiatives for the affordable housing program are to increase the supply of affordable housing through a collaboration with Growth Management Community Development to assist with impact fee deferrals, tracking developer commitments and providing research and information on housing inventory. Activities also include the management of the Local Housing Trust Fund and providing grant agreements to for profit and not for profit agencies further the affordable housing mission.

Fiscal Year 2024 6 - 26 Public Services Department

# **Public Services Department**

# Community and Human Services Division Affordable Housing (116/1077)

#### Forecast FY 2023:

Forecast costs for personal services is trending lower due to vacancies.

Operating costs include consulting services for a marketing and public relations campaign.

#### Current FY 2024:

Personal services budget reflects a decreased as the Housing Manager was reclassed to the Growth Management Department.

Operating expense increase is primarily due to other contractual services. Grants and Aid increased with program assistance for FY 2024 for the Local Housing Trust Fund for the Land Trust.

#### Revenues:

The core operating budget is supported by carryforward and a transfer from the General Fund. The current FY 2024 budget includes a revenue of \$17,400 associated with Impact Fee Deferral Applications.

Fiscal Year 2024 6 - 28 Public Services Department

## **Public Services Department**

## Community and Human Services Division Grant Program Support (123/1806)

#### Notes:

The budget illustrated on this page provides funding for two separate programs. The first program, un-reimbursed grant-related costs, utilizes monies provided from the General Fund to support otherwise un-reimbursed personnel, health insurance and operating costs incurred on grant related activities for which grant funds are exhausted, underfunded or unallowable. The second program, Senior Choice Reinvestment, reinvests excess Services for Seniors program revenues to support otherwise underfunded grant related Services for Seniors staffing and operational costs.

#### Forecast FY 2023:

The forecast includes anticipated expenditures for un-reimbursed grant-related costs and the Senior Choice Reinvestment program and CARES Act eligible operating expenditures.

#### Current FY 2024:

This current budget includes a General Fund supported budget of \$827,500 to fund otherwise un-reimbursed grant related payroll, health & other related costs. This allowance supports costs incurred on grant activities for which grant funding is exhausted, insufficient or unallowable. Also, provided are anticipated Senior Choice expenditures.

The budget represents the salary equivalent of approximately 6 FTEs and Health insurance costs for 27 FTEs. The total operating expense for FY 2024 budget is \$64,300 which provides insurance general costs, info tech automatization and respite services for seniors.

Senior Choice Federal Grants funded trough Area Agency on Aging for Southwest Florida:

Older American Act (OAA)

- --Title III-B: Supportive Services and Senior Centers
- --Title III-C-1: Congregate Nutrition Services
- --Title III-C-2: Home-Delivered Nutrition Services
- --Title III-E: National Family Caregiver Support Program

United States Department of Agriculture (USDA)

--Nutrition Service Incentives Program (NSIP)

Seniors Choice State Grants funded trough Area Agency on Aging for Southwest Florida: Community Care of the Elderly (CCE)
Home Care for the Elderly (HCE)
Alzheimer's Disease Initiative (ADI)
EHEAP

#### Revenues:

Transfer of excess program revenue from the Human Services grant Fund (707/1837 and 708/1838) supports the Senior Choice Reinvestment program budget. A transfer from the General Fund supports un-reimbursed grant related payroll expenses.

Fiscal Year 2024 6 - 29 Public Services Department

## **Public Services Department**

## **Community and Human Services Division** Community Develop Block Grant & Home Invest (121/1805)

### **Mission Statement**

The mission of the Collier County Community and Human Services Division's grants and affordable housing programs is to meet the community needs by facilitating the creation of affordable housing opportunities, the improvement of communities, and the sustainability of neighborhoods. These goals and objectives will be met by working collaboratively with non-profit groups, governmental agencies, and public/private coalitions to coordinate activities and effectively leverage the resources available to the entire county.

#### Forecast FY 2023:

Carry Forward

The forecast expenses reflect the continuation of some older, multi-year grants. Staff is working to close these out as soon as it is possible to do so. Grants beginning in FY 2012 and forward associated with CDBG have been processed in the Grants Management System and shown in the Housing Grants Funds (705/1835 and 706/1836).

Fiscal Year 2024 6 - 31 Public Services Department

## **Public Services Department**

# Community and Human Services Division State Housing Incentive Partnership SHIP (791/1053)

#### Notes:

State Statutes require this fund be maintained separately from all others until all program and/or prior grant dollars are spent.

#### Forecast FY 2023:

On May 9, 2023, MT item # 25094, the Board approved 2 FTE's due to a new award State Housing Initiative Partnership Hurricane Housing Recovery Program. 1 Grant Support Specialist II and 1 Accounting Technician II

#### Current FY 2024:

The budget for this program is established by the existing SHIP related grant budget rolling forward or with new grants by Board of County Commissioners grant and budget amendment approval.

Fiscal Year 2024 6 - 32 Public Services Department

## **Public Services Department**

# Community and Human Services Division Operational Support & Housing (111/1011)

### **Mission Statement**

The mission of the Collier County Community and Human Services Division's grants and affordable housing programs is to meet community needs by facilitating the creation of affordable housing opportunities, the improvement of communities, and the sustainability of neighborhoods. These goals and objectives will be met by working collaboratively with non-profit groups, governmental agencies, and public/private coalitions to coordinate activities and effectively leverage the resources available to the entire county.

Fiscal Year 2024 6 - 34 Public Services Department

## **Public Services Department**

## Community and Human Services Division Local Provider Participation (169/1130)

#### Notes:

On June 22, 2021, the Board adopted Ordinance No. 2021-23 which enables the County to levy a uniform non-ad valorem special assessment in compliance with 42 C.F.R. 433.68(d). The assessment shall be fairly and reasonably apportioned among each of the Hospital's properties within the County limits. The Board shall set the Assessment in amounts that in the aggregate will generate sufficient revenue to fund the non-federal share of Medicaid payments associated with Local Services to be funded by the Assessment. The County established a system of funding to support the non-federal share of Medicaid payments that will directly benefit the Hospital properties. The assessment shall constitute a lien upon the assessed properties. The proposed assessment is held in a separate account called the local provider participation fund (LPPF). Total non-ad valorem special assessment collected for fiscal year 2022 from the Affected Properties is \$9,327,900 and \$5,578,000 for fiscal year 2023.

Forecast FY 2023:

Operating Expenses and remittances are in line with the amendment budget.

Current FY 2024:

\$2,065,400 has been budgeted this year for payments to the Agency for Health Care Administration for Medicaid payments.

Revenues:

Non-ad valorem special assessment in compliance with 42 C.F.R. 433.68(d)

## Community and Human Services Division Housing Grants (705-706 / 1835-1836)

### **Mission Statement**

The mission of the Community and Human Services Division's grants and affordable housing programs is to meet community needs by facilitating the creation of affordable housing opportunities, the improvement of communities and the sustainability of neighborhoods. Community grants promote overall economic development, public service including wellness through volunteerism, and mental health/substance abuse services. Housing grants promote the construction, acquisition, rehabilitation, and preservation of housing. While other grant projects promote infrastructure and public facility improvements. These goals and objectives will be met by working collaboratively with non-profit groups, governmental agencies, and public/private coalitions to coordinate activities and effectively leverage the resources available to the entire county.

#### Notes:

Grants will be presented to the Board of County Commissioners for approval and budget amendments will allocate the grant funds and expenditures at that time.

#### Forecast FY 2023:

Forecast activity represent grants received during the current fiscal year as well as the continuation of prior year grants.

#### Current FY 2024:

Grant funded positions are allocated to grants throughout the Division to align positions and costs with specific grant activities.

#### Revenues:

A transfer in the amount of \$125,000 from Fund 001/0001 to Fund 706/1836 is needed to cover the ESG & RSVP grant match.

#### Notes:

All new grants for Services for Seniors. Grants will be presented to the Board of County Commissioners for approval and budget amendments will allocate the grant funds and expenditures at that time. Required match for established grants will be budgeted in this fund in the future, along with their associated program expenses.

#### Forecast FY 2023:

Forecast activity represent grants received during the current fiscal year as well as the continuation of prior year grants.

#### Current FY 2024:

Grant funded positions are allocated to grants throughout the Division to align positions and costs with specific grant activities. Several Service for Seniors grant programs require local match in the range of 10 to 30 percent.

### Revenues:

Excess program revenue in the amount of \$330,000 is budgeted to carry forward. This carry-forward is programmed to fund a transfer to Fund (123/1806), in the amount of \$185,000 to support administrative and program staffing that is either unfunded or underfunded within individual senior grant programs as well as a budgeted reserve of \$145,000 for FY 2023 program match requirements.

Anticipated FY 2023 funding: The Services for Seniors Grant Program is funded through the Area Agency on Aging of Southwest Florida, Inc.

| Library Administration - QP, IAM, RG  | 15.00                | 2,987,688         | 227,000             | 2,760,688           |
| The Administration program for the Collier County Public Library System is located in the Headquarters Regional Library. This program consists seven components: General Supervision and Budget Management, Acquisitions, Technical Services, Data Management, Public Relations, Courier, and Training services for all 10 libraries in our county. Interlibration, Mail-A-Book services to homebound patrons, Marketing and Outreach, eBook platforms, and streaming services operate within Administration. The public internet server is also housed within Library Administration and is maintained by our Applications Analyst. In FY202'eBook and streaming services plus telephone renewals, accounted for over 40% of total physical and electronic circulation. The Technical Services Department processed 45,000 items purchased and donated titles for the Library's physical collection. Upgrades to Public Computers hardware was initiated this fiscal year, along with Windows 11 upgrade for public computers. Self-Checks now accept credit card payments. Virtual programming for all patrons, youth, teen, and adults are available on the library's website. | of<br>ary<br>1,      |                   |                     |                     |

#### Notes:

A significant portion of current service level expectations are reached from the use of donations and grant funds. Library donation and grants funds are collected in Fund(s) 129/1810, 612/1140, and 709/1839. Non-General Fund sources by their very nature are inherently unpredictable. The support donations and grants funds provide enable the Library Division to purchase core services, desired programming, and mandatory IT/facility maintenance. The use of non-general fund sources to meet current operational expenses will not be possible once those funds are exhausted.

#### Forecast FY 2023:

Personal services include Evergreen salary adjustments in Q1 and the appointment of a new division director in Q2. Newsbank, Brainfuse, NoveList, and CollectionHQ databases—totaling \$145,000 annually—were discontinued at the start of the fiscal year to bridge budget shortfalls. Utilities increased over 10% at several locations during the fiscal year. Funding for print, DVD's and CD's will continue as provided by County Wide Capital Fund (301). E-books are limited to funding through Library Donation Fund (129), Library Trust Fund (612/1140), and State Aid to Libraries Grant Fund (709/1839). Budget amendment in progress to shift capital funds to operating funds to facilitate the purchase of additional E-books up to the amount of \$100,000.

#### Current FY 2024:

Personal services increased for FY24 to accommodate proposed salary increases; while the Library Division FTE count was reduced by 1. The operating expense budget increased by for FY24 with the largest increases being requested for an Integrated Library System (ILS), digital materials and utilities. Budget commitment items were realigned between cost centers to more appropriately reflect branch and division-wide expenditures. The realignment included adjustments to compensate for expected increases in utility costs during FY24. Core services (eg. Integrated library system) have been prioritized in the operating expense budget in General Fund (001/0001).

#### Revenues:

Revenues for the FY24 budget have shown modest improvement (14.8% for charges for services and 5.6% for fines and forfeitures). However despite this short-term improvement for the FY24 budget, revenues from library fines and fees are expected to continue to decline in the long-term as technology enables patrons to be alerted to checkout due dates and renewal opportunities. New cloud-based software facilitates advance notice of due dates and multiple methods to renew: via phone, circulation desk, and self-checks in-branch. Booksale revenue is also declining 15% per year due to lower demand in used media such as CDs and DVDs. Room rental income will continue to be determined by the macroeconomic climate and will continue to decrease as more meetings are conducted online.

Fiscal Year 2024 6 - 45 Public Services Department

## **Public Services Department**

# Library Division Library Donation - Project Fund (129/1810)

#### Notes:

State Aid to Library Grant Funds are budgeted in Fund 709. Monies received as restricted donations are assigned a grant number., appropriation and/or allocation of grant funding will be presented to the Board of County Commissioners for approval and budget amendments will allocate the grant funds into expenditure budgets at that time. State Aid to Library Grant Funds FY 2022-2023 is a restricted donation, Project # 23-ST-08, to be awarded \$165,389 by the State late FY 2023 or early FY 2024.

#### Forecast FY 2023:

Remaining funds associated with unspent dollars in various projects and programs.

129

Program 31129 \$387,400 Operating

Program 44039 \$10,000 William G. Hendrickson Trust-Youth Education

Program 44048 \$500 Library LEAP

Program 44049 \$134,400 Franz Pschibul Trust Naples Regional

Program 44058 \$9,200 Children's Learning

Program 46044 \$9,200 Lustigman Headquarters Library Improvements

Program 46045 \$15,000 East Naples Flooring Program 46046 \$24,800 Marco Lib Donations Program 46047 \$493,100 Shreve Trust

Program 46048 \$55,500 eBooks Donation

Total forecast of carry forward in 129 \$1,139,100

#### Current FY 2024:

The Shreve Trust will continue to be utilized to meet current service level expectations. Trust funds will be used in FY24 to reconcile current service level expectations and General Fund (001/0001) compliance. All funds in Shreve will be planned for expenditure by the end of FY 2024. Funds will need to be used for Naples Regional landscaping project which began in FY 2022 and was delayed due to Hurricane Ian. Quotes show that approximately \$40,000 will be expended in FY 2023. Funds will also be used for Naples Regional public restrooms and foyer repair which began in FY 2023 and is targeted for completion in FY 2024. The Friends of the Library donated \$100,000 in FY 2023 for eBook collection purchases. This donation will be split between fiscal year 2023 and 2024 due to announcement that \$100,000 will not be donated in FY 2024. Hendrickson funds--\$10,000--have been allocated for children's creative play and learning centers that will launch at five library locations in summer 2023 with educational games and learning activities chosen specifically to encourage early literacy skills, social and emotional development, and family engagement.

#### Revenues:

Reserves and miscellaneous revenue not allocated to specific programs will carry forward and be budgeted in reserves. New grants will be presented to the Board of County Commissioners for approval, and budget amendments will allocate grant funds and expenditures at that time.

Fiscal Year 2024 6 - 47 Public Services Department

## **Public Services Department**

# Library Division Library Trust Fund (612/1140)

#### Notes:

Revenue from the sale of used and donated materials is deposited into Fund 612/1140. The revenues continue to decrease between 10% and 20% per year as sales of used CDs and DVDs decline.

#### Forecast FY 2023:

Fund 612/1140 is dedicated to Summer Reading Program and division-wide programming such as Harry Potter, Start Your Engines, Lego and STEM, and teen activities at Naples Regional Library. Funds are also used for children's iPad replacement. Residual funds--\$81,600--from Rose Hall construction at Marco Island Library reside in this Fund and are at the discretion of the Marco Friends group to expend; Budget Amendment is in planning stage to create dedicated project for these funds in Fund 129/1810.

#### Current FY 2024:

Funds will continue to be directed to division-wide programming and branch enhancements. Expenditures have been reduced by 28.4% in FY24 due to reduction in carryfoward.

#### Revenues:

Revenues come from private party donations for the enhancement of our public library and from the sales of used and donated materials. Revenues from book sales continue to decline. Revenues are expected to decline by 28.4% in FY24.

#### Notes:

On July 11, 2017, the Board approved increasing the Tourist Development Tax from 4% to 5% and distribution adjustments among Tourist Tax supported funds. Part of the Board's action was to limit County Museum Tourist Development Tax (TDT) funding at \$2,000,000 per year. The Museum Division garners additional revenue through its fundraising partners and grants. However, due to the continuing increase in the cost of doing business, a General Fund transfer remains necessary.

#### Forecast FY 2023:

Personal services and operating expenses forecast are in line with the adopted budget.

#### Current FY 2024:

Personal services budget increases in the division budget reflect a 9.4% increase and are being driven by the proposed salary increase. Operating expense increase of 4.0% only reflects increases in utilities and property insurance. To achieve budget compliance for FY24 various museum events and programs will be elimated. These programs include the cattle drive and museum days. Additional impacts for FY24 include the elimination of 314/3026 Museum Capital.

#### Revenues:

The principal source of revenue to support County Museums is Tourist Development Taxes (TDT). Estimated FY 2024 TDT allocation to Museums is anticipated to be \$2,000,000. The transfer from the General Fund into Museum Fund (198/1107) is \$567,800. Modest revenues are budgeted for reproductions, tours, rentals, special events and special events.

#### Notes:

The Parks Division continues to support Tourist Development in hosting sports tourism events at County sports venues such as North Collier Regional Park and Sugden Park. The provision of Park and Recreation regional services are complemented by the dedicated service of volunteers who assist at the Beaches and the Regional Parks. These volunteers provide valuable service hours to regional parks totaling up to thousands of service hours.

#### Forecast FY 2023:

The personal service expense forecast is lower due to attrition savings. This is even with the addition of four (4) FTE positions including the transfer of (1) FTE to NCRP Water Park from Parks & Recreation (111/1011), and the transfer of (1) FTE to Park Maintenance from Stormwater Aquatic (103/1005) and the Board-approved addition of two (2) full-time Lifeguards for NCRP Water Park on June 14, 2022. Operating expenditures may exceed budgeted levels due to inflationary pressures and utility cost increases. Revenues are forecast higher reflecting the new Board approved parking and boat launch fee increase.

Revenues for Beaches are expected to be significantly lower than expected, but approach the approved FY23 budget target.

#### Current FY 2024:

The 9.1% increase in personal services for FY24 reflects the proposed salary adjustments. Operating expenses increased by 21.8% in FY24 with the majority of the funding being allocated to utilities and maintenance. The remittance budget of \$500,000 is a portion of the annual \$1,500,000 payment to the City of Naples for reciprocal beach parking and recreational services pursuant to the 2008 Interlocal Agreement as amended on November 14, 2017.

#### Revenues:

The FY24 revenue budget is 18.8% higher than in FY23. The main driver of the increase is an 19.6% increase in Charges for Services, which were approved as part of Resolution 2021-263 in December of 2021. The increased revenues from the update to the Parks Fee Policy are now budgeted in full as part of the FY24 budget.

#### Notes:

The provision of Park and Recreation services is complemented by the dedicated service of volunteers assisting at community parks. These volunteers provide thousands of service hours.

#### Forecast FY 2023:

The Parks (111/1011) position count is reduced by one (1) as a result of a position transfer to Parks & Recreation (001) and Public Services Operations (001/0001) offset by the Board-approved addition of one (1) FTE, a Lifeguard, on June 14, 2022. Personal service expense forecast decrease is due attrition savings. The operating expenses is higher than the adopted budget due to the Board-approved FY 2022 investment in maintenance along with increases in electricity, temporary labor, supplies, and other operating expenses to keep the satisfactory level of services to the community.

#### Current FY 2024:

The personal services increase of 8.3% reflects the approval of proposed pay adjustment as well as the addition of the expanded service request for a regional manager. The operating expense increase of 24.1% reflects significant increases to utility and maintenance expenses as well as the expanded service request for a regional manager vehicle. Overall, the Parks (111/1011) budget reflects a 13.7% increase in operating expenses. Fund (111/1011) at the Department level met budget compliance of 4.25%.

#### Revenues:

20.2% increase in charges for services which reflect revenue increases at various community parks.

Fiscal Year 2024 6 - 60 Public Services Department

## **Public Services Department**

# Parks & Recreation Division Golden Gate Community Center (130/1605)

#### **Mission Statement**

Influenced and supported by the MSTU Advisory Board to maintain a diverse community center, which includes an auditorium, indoor gymnasium, amphitheater, childcare facility, BMX and Skateboard Park and community garden that promote healthy lifestyles, extreme sports, and sports tourism. These programs strengthen our community and enriches our economy through partnerships with community stakeholder involvement. These services provide diverse recreational opportunities and greenspace for the visitors and residents of Collier County.

Fiscal Year 2024 6 - 62 Public Services Department

## **Public Services Department**

# Parks & Recreation Division Golden Gate Community Center (130/1605)

#### Notes:

The provision of Park and Recreation services is complemented by the dedicated service of volunteers assisting at community parks. These volunteers provide thousands of service hours.

#### Forecast FY 2023:

Personal service expense forecast is lower due to vacancies throughout the year. Operating expenses is slightly lower. Program revenue is forecast slightly lower reflecting recent revenue trends.

#### Current FY 2024:

The FY24 personal services budget increased by 8.4%; the increase directly reflects the proposed salary adjustment. Operating expenses in FY24 have increased by 32.8%; which consists of funding to cover expected temporary staff, and utilities.

#### Revenues:

Ad Valorem Tax revenues are expected to increase by 11%% over last year. The rolled back rate for this district is 0.1682 per \$1,000 of taxable value. Ordinance 75-04 places a cap on the millage rate at 0.9000 per \$1,000 of taxable value. Golden Gate Community Center Fund (130/1605) budget is sized around the millage neutral tax rate of 0.1862 which will generate \$665,300 in property tax revenue. A transfer of \$612,600 from the Unincorporated Area General Fund (111) also provides funding for Golden Gate Community Center operations.

Fiscal Year 2024 6 - 63 Public Services Department

## **Public Services Department**

## Parks & Recreation Division Sea Turtle Monitoring (119/1804)

#### **Mission Statement**

To protect nests and collect data on sea turtle nesting and hatching activities, in order to fulfill permit requirements for beach raking and beach renourishment. Protecting sea turtle nests also allows beachfront property owners to obtain permits for certain activities seaward of the State Coastal Construction Control Line (CCCL).

## Parks & Recreation Division Sea Turtle Monitoring (119/1804)

#### Notes:

Fund (119/1804) will remit a payment of \$18,000 in FY24 to Fund (111/1011) to offset Parks Administration expenses.

#### Forecast FY 2023:

Forecast costs for personal services are less than the total adopted budget due to attrition savings. Operating expenses are forecast to be lower due to a variety of factors within the sea turtle fund.

#### Current FY 2024:

The FY 24 personal budget increased by 18.1% as a result of the proposed salary adjustment. Operating expenses in FY24 are expected to increase by 323.4% to permit the hiring of temporary employees and the purchase of equipment for those employees. Any unspent funds are retained within Fund (119/1804).

#### Revenues:

Sea Turtle Monitoring is supported by a grant from TDC Beach Re-nourishment Fund (195/1105) with a total amount of \$171,700 and a transfer from the General Fund (001/0001) with a total amount of \$138,700.

# Parks & Recreation Division Parks & Recreation Donations (607/1138)

| ı | N | 0+00 |  |
|---|---|------|--|
| ı | N | ores |  |

This fund was established to account for donations from private parties and fund raising activities.

#### Forecast FY 2023:

Forecast expenditures are supported primarily by prior year contributions brought forward. Planned expenditures support camp and recreation scholarships for eligible children and equipment purchases pursuant to donation conditions.

#### Current FY 2024:

Expenses represent scholarships for eligible children as well as donations for child-based activities. There is no change in expenditures for FY24.

#### Revenues:

Revenue budget represents a slight decrease in budgeted contributions totaling \$11,000.

Fiscal Year 2024 6 - 68 Public Services Department

## **Public Services Department**

# Parks & Recreation Division Conservation Collier Fund (172/1061)

#### Notes:

In accordance with Ordinance No. 2002-63, as amended, the Conservation Collier Program (Program) is responsible for implementing the mandate of the electorate of Collier County as provided by public referendum votes in November 2002 and November 2006 confirming that mandate, to levy a 0.25 mill ad valorem property tax for a period not to exceed 10 years for acquisition. Once acquired, protection, restoration, and management of environmentally sensitive lands in Collier County for the benefit of present and future generations. Most recently, on November 3, 2020, the electorate voted to implement another ad valorem tax for 10 years. Specifically, the voters were asked to approve or disapprove reestablishing a county-wide millage rate not to exceed \$.2500 mills for ten (10) years to fund Conservation Collier's acquisition and management of environmentally sensitive lands. On November 3, 2020, the Collier County electors approved the Conservation Collier Reestablishment referendum with a 76.5% majority.

The implementation of this ad valorem started in FY 2022 (October 2022). The FY 2024 budget has been developed to include the rolled back millage rate of .2242 mil which is anticipated to generate property taxes of \$31,089,400.

#### Forecast FY 2023:

Personal services are expected to be in line with FY 2023 budget and operating expenses below budget. Capital outlay is utilized to acquire properties from BCC approved cycles.

#### Current FY 2024:

The budget provides \$26,986,600 in capital outlay which consists of \$26,849,400 in land acquisition and \$59,200 in equipment. Further, consistent with Ordinance 2002-63 as amended, 25% of the revenues collected or \$7,383,700 will be deposited, via transfer, into the Conservation Collier Management Trust Fund (174/1061) to provide for long-term management of lands acquired through or managed by the Conservation Collier Program. The Board of County Commissioners authorized an 11th Acquisition Cycle in January 2022. Cycle 11 properties were ranked by the Board in December 2022 and February 2023 for acquisition. Additional cycles will be acquired as directed by the Board.

Per Board direction, funds of \$8,560,600 and \$6,416,300 will be transferred from the Conservation Acquisition Fund (172/1061) to the General Fund (001/0001) and Unincorporated General Fund (111/10111) respectively.

#### Revenues:

A referendum on the Conservation Collier Program was included on the November 3, 2020 ballot. The result was a 76.5% majority in favor of re-establishing a county-wide millage rate not to exceed \$0.2500 mills for ten (10) years for the Conservation Collier Program. The rolled back millage tax rate of 0.2242 per \$1,000 of taxable value which will generate property taxes of approximately \$31.089.000.

#### Forecast FY 2023:

Both personal and operating expense forecasts are expected to be marginally lower than the adopted budget due to attrition savings and operating efficiencies.

#### Current FY 2024:

Personal expenses for FY 2024 are expected to increase by 8.2% due to the proposed salary increase. Operating expenses are expected to increase by 9.1% due to the additional of lands that will need to be maintained in FY 2024.

Per Board direction, funds of \$38,150,200 and \$395,200 will be transferred to the General Fund (001/0001) and Pollution Control Fund (114/1017), respectively.

#### Revenues:

The most significant source of funding is carry-forward of Conservation Collier Management Trust Fund (174/1062) with a total amount of \$41,753,700, followed by the transfer of \$7,383,700 from Conservation Collier Land Acquisition Fund (172/1061) representing twenty-five percent (25%) of annual gross tax receipts as required by Conservation Collier Ordinance 2002-63 as amended for long term management of lands acquired through or managed by the Conservation Collier Program.

Fiscal Year 2024 6 - 72 Public Services Department

## **Public Services Department**

# Parks & Recreation Division Conservation Collier Projects (179/1063)

#### Notes:

The Conservation Collier Capital Projects Fund (179/1063) is utilized to account for capital improvements at Conservation Collier Preserves.

#### Forecast FY 2023:

Significant carry forward is anticipated due to project savings during FY23.

#### Current FY 2024:

The capital budget increased by 114.3% to account for the execution of anticipated capital projects during FY24.

#### Revenues:

The most significant funding source is a \$675,000 transfer from Conservation Collier Acquisition Fund (172/1061). Other sources include a modest carry forward.

Fiscal Year 2024 6 - 73 Public Services Department

## **Public Services Department**

# Parks & Recreation Division Pepper Ranch Conservation Bank (673/0673)

#### **Mission Statement**

To provide funds for the perpetual maintenance of the Pepper Ranch Preserve Conservation Bank as required by agreement with the US Fish and Wildlife Service for panther habitat mitigation for various County development projects.

Fiscal Year 2024 6 - 74 Public Services Department

## **Public Services Department**

# Parks & Recreation Division Pepper Ranch Conservation Bank (673/0673)

#### Notes:

Pepper Ranch Conservation Bank Fund (673/0673) is utilized to maintain this preserve under its Conservation Bank status. The US Fish and Wildlife Service Pepper Ranch Preserve Conservation Bank Agreement requires Collier County to establish and maintain a dedicated perpetual management account with a principal balance of \$3,940,000.

#### Forecast FY 2023:

Planned operating expenditures are expected to meet the adopted budget level during the second half of the fiscal year.

#### Current FY 2024:

The FY24 operating expense budget reflects planned management activities. There was no change in planned expenses between FY23/FY24.

#### Revenues:

This fund is supported by endowment funds with a total of \$4,089,800 carryforward which is supplemented by \$76,900 of interest earned on those funds as well as \$41,200 of cattle lease revenue.

Fiscal Year 2024 6 - 75 Public Services Department

## **Public Services Department**

# Parks & Recreation Division Caracara Prairie Management Fund (674/0674)

### **Mission Statement**

To provide funds for the perpetual maintenance of Caracara Prairie Preserve as required by agreement with the US Fish and Wildlife Service for panther habitat mitigation for the Collier County Resource Recovery Park.

# Parks & Recreation Division Caracara Prairie Management Fund (674/0674)

#### Notes:

Caracara Prairie Fund (674/0674) is utilized to maintain this preserve under its Conservation Bank status. Escrow funding was deposited into the Caracara Prairie Trust Fund (674/0674) prior to release of Panther Habitat Units (PHUs) in FY 2015. The PHUs are being used for the Resource Recovery Park being developed by the Solid Waste Division. US Fish and Wildlife Service Biological Opinion Letter requires that the Grantor establish the Resource Recovery Park Compensation Parcel Endowment Fund Trust (the "Trust"), which shall be comprised of a non-wasting management fund (the "Endowment Fund") solely used to defray costs associated with the maintenance and management of the Compensation Parcel in perpetuity. The required one-time management fund deposit was established by agreement at \$1,582,800. This amount is the principal of the fund and expenses cannot cause the fund to dip below this amount.

### Forecast FY 2023:

The forecast budget reflects planned management activities.

#### Current FY 2024:

The operating expense budget for FY24 reflects planned management activities. Operating expenses were accordingly reduced by 15.9% for FY24. Reserves are programed at \$1,786,100.

#### Revenues:

This fund is supported by endowment funds with a total of \$1,786,100 carryforward with \$34,200 interest earned on those funds and \$8,200 of cattle lease revenue.

## **Public Services Department**

# Public Health Division Public Health Department (001/0001)

### **Mission Statement**

As a county health department within the integrated system of the Florida Department of Health, the Department of Health in Collier County provides public health programs and services focused on preventing communicable, infectious, and chronic diseases as we work to promote and protect the health of our community. DOH-Collier provides essential public health services to more than 390,912 residents and approximately 1.67 million visitors to our county annually. The main service offerings include infectious disease prevention and control, immunizations, immigrant, and refugee health, dental, family planning, WIC, Healthy Start, community health planning, wellness programs, vital statistics, and environmental health services. This past year the health department provided 421,064 individual public health services. The main facility is located at the government complex in Naples with a satellite office located in Immokalee. The Florida Department of Health in Collier County has a staff of 150 FTEs and a net operating budget of \$12 million which includes contributions from State, Federal, and County sources. DOH-Collier is supported by Collier County in FY 2024 with a net operating budget of \$1.89 million

Notes:

The Health Department cost center only consists of operating expenses. No personal expenses or revenues are utilized.

Forecast FY 2023:

Operating expenditures are expected to approximate adopted budget levels.

Current FY 2024:

County supported operating expenses increased by 8% in FY24. Reductions to IT and Fleet costs were exceeded by electricity increases. The County's agreement with the Health Department is maintained at the prior year funding level. The Health Department reflects a 1.6% increase.

Revenues:

No revenues.

### Notes:

UES has ten (10) employees with all or partial county salary contributions. Five (5) employees are 100% Collier County paid and five (5) are shared positions with University of Florida.

#### Forecast FY 2023:

Personal service are forecast to be below adopted budget levels due to attrition savings. Operating expenses are expected to close at close to adopted budget levels.

### Current FY 2024:

The personal services budget in FY24 is expected to increase by 6.4%. This proposed increase is due to the salary increase. The operating expense budget for FY24 was reduced by 4.7% which was a result of reductions to IT and Fleet expenses.

### Revenues:

Revenues are increasing in FY24, mainly in the charges for services category. This fund is mainly supported by the General Fund.

Fiscal Year 2024 6 - 84 Public Services Department

## **Public Services Department**

# University Extension Service Division University Extension Trust Fund (604/1055)

Notes:

All expenses and revenues within Fund 604 are balanced with all outstanding balances compensated for by adjusting carryforward.

Forecast FY 2023:

Expenses are forecasted to be less than expected in FY24. Some majors events will not occurred due to damage from Hurricane IAN and COVID

Current FY 2024:

Operating expenses were reduced by 9.7% for FY24 as the result of previous fiscal years revenue reductions.

Revenues:

Revenues are expected to be slightly higher in FY24 due to an increase in charges for services.

## **Public Services Department**

# Public Services Grants Public Services Grants (709-710 / 1839-1840)

#### Notes:

Upon receipt, new grant programs are brought before the Board of County Commissioners for approval and acceptance. At that time, budgets are added to the financial accounting and grant management system.

### Forecast FY 2023:

The forecast represents new and ongoing grant programs associated with the unspent dollars in various grant projects and programs.

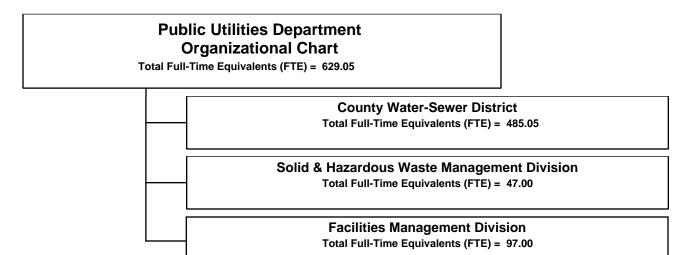

33360 Library SAL Interest \$86,310
33608 4H Reinvestment \$43,200
33609 DONOR BCCF \$1,300
33697 USFWS McIlvane Marsh \$25,000
33670 FY19/20 State Aid \$1,200
33721 FY20/21 State Aid \$140,900
33802 FY21/22 State Aid \$166,300
33805 CHS ARP21-12 \$1,719,200
33809 CHS Mus ARP21-04 \$561,400
33813 CDBG-MIT I0164 IMM L \$767,500
33814 CDBG-MIT I0165 ISC \$2,123,100
33816 CHS UE ARP21-17 \$1,542,500
50219 GG Senior Center Rehab \$2,819,100
80322 MarGood Cottage \$256,436
91839 Fund 709 Res/Xfers \$2,400

#### Current FY 2024:

Existing Grant budgets will roll forward and new budgets will be established by executive summary and budget amendment.

Fiscal Year 2024 6 - 88 Public Services Department

## **Public Utilities Department**

## **Public Utilities Department**

### Dr. George Yilmaz

The mission of the Public Utilities Department (Department) is to deliver best value, high quality, sustainable services that meet the expectations of our customers, citizens, and visitors in an operationally excellent environment. The Department is composed of two enterprise funds, including the Collier County Water-Sewer District (CCWSD) and Solid and Hazardous Waste Management, as well as the Facilities Management Division which is funded through ad valorem taxes. To meet the requirements of providing both demand and compliance driven essential services, the Department must maintain an appropriate level of both physical and financial resources. The Department prioritizes resource requirements through a unified focus on revenue-centric, risk-based decision making to ensure the most critical infrastructure receives the rehabilitation and maintenance necessary to meet operational and compliance requirements.

The Department is comprised of eight Divisions: Department Administration, Financial and Operations Support, Utilities Engineering and Project Management, Technical Support and Logistics, Water, Wastewater, Sub-Regional Utilities (collectively the CCWSD), Solid and Hazardous Waste Management and Facilities Management.

#### **Collier County Water-Sewer District**

The Collier County Water-Sewer District (CCWSD) is an independent special district created by the Florida Legislature, with the Board of County Commissioners (Board) serving as Ex-officio the Governing Board of the Collier County Water-Sewer District. Charges for services received for potable drinking water production and distribution, wastewater collection and treatment and Irrigation Quality (IQ) water provide the sole financial resources required to pay for operational and maintenance expenses, renewal and replacement of existing infrastructure via the capital improvement program (CIP), meet debt service requirements and bond covenants, and sustain compliance with stringent environmental and public health regulations. Growth in the CCWSD infrastructure conveyed by developers has continued at a rapid pace in FY 2022 and FY 2023 and is expected to continue into FY 2024 in addition to anticipated development in the northeast area of the County. Continuation of these trends will place additional compliance and service demands on resources.

The Board approved formal User Rate Study conducted with Raftelis, Inc. included FY 2024 rate increase of 7.07% for Water, Wastewater, and IQ Water. These rates were utilized to set the revenue budget to provide sufficient funding for the operating, capital, debt service and reserves in this revenue centric enterprise fund. Additional rate adjustments will help keep pace with inflation. There is no income from taxpayer general revenues. The CCWSD delivers basic, indispensable life-sustaining services on demand 24 hours a day, 365 days a year, including holidays. Appropriate resourcing of the Department's mission ensures services are delivered timely, at a level that meets consumer demand, and in compliance with permit requirements and the collective mandates of various federal, state, and local regulations (e.g., the Clean Water Act, the Safe Drinking Water Act, Department of Homeland Security, etc.).

The CCWSD is assessed a revenue-based, industry standard Payment in Lieu of Property Taxes (PILT) transfer to the General Fund of approximately \$10.6 million and Indirect Charges for services provided by support organizations (e.g., County Attorney's Office, Procurement Services, Human Resources, Fleet Maintenance, and other general local government services) of \$4.0 million. Information Technology and Fleet direct allocations total \$6.9 million. Budgeted intergovernmental charges for direct support for Impact Fee administration and Corporate Compliance services are \$0.5 million. Combined, the CCWSD contributes \$22.0 million to the General Fund.

The District has five Senior Liens and one Subordinate Lien outstanding with approximately \$25.2 million in debt service due in FY 2024. Fitch currently maintains its AAA bond rating, and Moody's maintains the District's credit rating of Aaa, both the highest rating possible, keeping debt service costs low.

The CCWSD FY 2024 Proposed Budget is revenue centric and meets the Board approved FY 2024 Budget Policy guidelines. The total Proposed Budget of \$243.4 million funds 485.05 FTEs, the Capital Improvement Program of \$61.6 million to address water and wastewater rehabilitation and renewal projects with the highest risk assessment and most critical needs, debt service of \$25.2 million and \$33.3 million in unrestricted reserves which meet approved budget policy guidelines.

### **Department Administration**

This Division provides management, policy oversight, administrative and process improvement to the operations and capital improvement programs of the Department. The Administration Division works in concert with the County Manager's Office and other Departments in support of the county's strategic goals as they relate to revising the Growth Management Plan and Land Development Code to improve the county's ability to manage and control the rate and quality of future development. The Division is home to the Public Utilities Department Head with an operating budget of \$0.42 million.

### **Financial and Operations Support Division**

This Division provides sound fiscal and administrative management to Department's operations, debt and capital expenditure programs, maintains internal controls, manages centralized Department inventory, bills and manages Department accounts

Fiscal Year 2024 7 - 2 Public Utilities Department

## **Public Utilities Department**

receivables, manages the Meter Services section serving as the utility's cash registers, supports the utility's critical infrastructure security in accordance with the Department of Homeland Security guidelines, provides public information coordination and processes vendor payments associated with the compliant operations of the Department's enterprise entities. The Division also provides call center customer service for all water-sewer utility customers and solid waste residential curbside customers to meet the demands of customer quality assurance / quality control initiatives. The Division has a staff of 105 budgeted FTEs for FY 2024. The net operating budget is \$36.7 million including CCWSD PILT and Indirect Cost Allocations.

#### **Utilities Engineering and Project Management**

This Division provides proactive and efficient planning and project management of the CCWSD's capital improvement program and supports the county's strategic goal of developing reliable public infrastructure and asset management processes. In addition, the Division provides underground utility locating services and technical support for applications specific to utility operations. The Division has a staff of 50 budgeted FTEs for FY 2024 to manage \$61.6 million in new utility infrastructure capital improvements and continue multi-year project execution in support of more than \$1.7 billion in gross assets. The net operating budget is \$7.9 million.

#### **PUD Technical Support and Logistics**

This Division provides integrated Geographic Information Systems (GIS) based support for the Department's asset management system and infrastructure related services for manned and unmanned structures with a staff of 17 FTEs for FY 2024 and a \$3.6 million net operating budget.

#### **Water Treatment and Distribution**

This Division provides compliant potable (drinking) water treatment and distribution services to approximately 84,700 potable water connections within the CCWSD. The Division currently operates two regulatory compliant regional water treatment facilities with a combined constructed capacity to treat and deliver 52.0 million gallons of water per day to efficiently meet an anticipated service level demand of approximately 10.4 billion gallons in FY 2024. Efficient wellfield management provides the necessary source water to meet production demand. The Division utilizes a proactive maintenance program to ensure regular repair and rehabilitation to the mechanical, electrical, instrumentation, telemetry and Supervisory Control and Data Acquisition (SCADA) systems. Valve and hydrant maintenance and regulatory water quality monitoring and compliance are essential Division programs to maintain the reliability of the public water supply. The Division has a staff of 139 budgeted FTEs for FY 2024 with a net operating budget of \$47.8 million.

### Wastewater Collections, Treatment, and IQ Water Delivery

This Division provides effective management, operation, and maintenance of the Collier County wastewater system to ensure all facilities operate in regulatory compliance, provide a safe work environment, and efficiently meet service level demands. The Division currently operates two regional water reclamation facilities and two sub-regional facilities with a combined constructed capacity to treat approximately 42.35 million gallons of wastewater per day (mgd), plus an additional 1.5 mgd per day at the new North East plant coming online in FY 2024. The Division delivers approximately 5.66 billion gallons of irrigation quality water per year to the community for beneficial reuse while treating approximately 8.25 billion gallons of wastewater. The Division has a staff of 173.05 budgeted FTEs for FY 2024 with a net operating budget of \$58.7 million.

### **Solid and Hazardous Waste Management Division**

This Division is comprised of two enterprise funds, the Solid and Hazardous Waste Disposal Fund (4070) and the Mandatory Solid Waste Collections Fund (4073) which is composed of two MSBU's. No external debt is anticipated in FY 2024 as the enterprise operation remains cash and carry. As an enterprise fund that charges fees for services, the Division is revenue centric in FY 2024 and meets budget guidelines.

The FY 2024 Proposed Budget for Solid and Hazardous Waste revenue includes an 8.0 percent rate adjustment to both residential and commercial tipping fee rates to generate revenues sufficient to fund essential operations, planned capital investment activities, and build reserves sufficient to support debris management for natural disasters. The annual assessment for curbside collection in District 1 will increase 8.0 percent from \$230.82 to \$249.29, \$1.54 per month. The annual assessment for curbside collection in District 2 will increase 9.3 percent from \$228.09 to \$249.29, \$1.77 per month. Payments received in November receive a 4 percent discount. The Division funds 47 FTEs in FY 2024 with a net operating budget of \$64.3 million, including a PILT payment and Indirect Cost Allocations to the general fund. This enterprise operation is funded through landfill tipping fees, recycling drop-off center fees, residential curbside collection assessments, franchise fees and state grants.

This Division provides an efficient and economical balance of public and private services to meet federal, state, and local requirements for solid waste management and disposal, including environmental compliance for hazardous materials

Fiscal Year 2024 7 - 3 Public Utilities Department

## **Public Utilities Department**

disposal and a petroleum storage tanks compliance program. The Division ensures public health, safety, and preservation of natural resources by utilizing a customer centric, environmentally sound, and cost-effective operational approach that provides best value services.

The Division is responsible for the administration of the board-approved Integrated Solid Waste Management Strategy and associated solid waste master planning, including the operation of four major recycling drop-off and hazardous waste material collection centers that are open 6 days each week, serve more than 98,200 visitors, and properly dispose of over 2 million pounds of household hazardous materials. The Division's other essential functions include the operation of two scale houses, administration of solid waste collection and disposal contracts, and management of a capital program to ensure facilities are maintained and solid waste services are aligned with the County's needs and growth. The Division is responsible for the County's debris recovery mission in the event of a disaster, and programs that support the Integrated Solid Waste Management Strategy initiatives for waste recycling and reduction to extend the life of the landfill and meet the state recycling goal.

The Division manages two solid waste collection contracts that include proper collection of solid waste, providing residents with twice a week collection of waste and once a week recycling, yard waste, and bulky items to more than 145,600 residential accounts. The Division also manages a design/build/operate landfill contract, that provides compliant disposal services for over 348,400 revenue generating tons expected in FY 2024, including transfer station operations that divert 34,800 tons to an out of county landfill. The public-private partnership, with a combined workforce of approximately 400 contract employees, continues to support the Integrated Solid Waste Management Strategy initiatives to increase recycling and preserve Collier County Landfill airspace.

#### **CCWSD Reserves**

Unrestricted reserves for the CCWSD and the Solid and Hazardous Waste Enterprise operations are funded in accordance with the FY 2024 Budget Policy Guidelines adopted by the Board on March 14, 2023, including the Board-approved Reserve Policy. The management of reserves across multiple funds enables the CCWSD to maintain the highest available investment credit rating with Fitch (AAA) and Moody's (Aaa) rating agencies.

CCWSD unrestricted reserves in FY 2024 total \$33.3 million, a \$3.4 million increase over the prior year. The CCWSD unrestricted reserve balance represents 54 days of operating and capital, within the adopted budget policy guidelines of 45 to 90 days.

Restricted reserves for the CCWSD total \$45.3 million, including the water impact fee fund reserves of \$4.9 million, wastewater impact fee fund reserves of \$11.6 million, and debt reserves of \$28.8 million in accordance with all bond covenants.

Solid Waste unrestricted reserves of \$15.6 million in FY 2024 represent 79 days of operating and capital, in compliance with the budget guidelines of 45 to 90 days. Hurricane Irma and Hurricane Ian brought home the need for dedicated restricted reserves necessary to fund the debris recovery mission. As such, the Division has budgeted \$1.5 million of restricted reserves in the FY 2024 budget to restart building the reserve balances over the next several years necessary to fund major storm related recovery missions.

### **Facilities Management Division**

The Facilities Management Division Fiscal Year 2024 budget is prepared in alignment with the Collier County Strategic Plan particularly the focus areas of Infrastructure and Asset Management, Quality of Place and Responsible Governance. Facilities Management also has responsibility for several Strategic Plan Board and County Manager Priorities. The Division's proposed budget is consistent with the Board of County Commissioners Budget Policy and guidance.

The Division provides secure, clean, and comfortable facilities for our citizens, visitors, and staff. All buildings, offices, grounds, and property acquisitions are managed and maintained to the highest standards through operational excellence and preventative and predictive maintenance. Regular maintenance functions include electrical, plumbing, heating, ventilation and air conditioning, structural repairs, physical energy plant, fire systems compliance, pest control, and landscaping for the County's 956 structures with an estimated value of \$945 million in vertical assets. The Division maintains a total of 4,900,000 square feet of building space while completing approximately 26,000 work orders per year.

The Division's Government Security section protects the assets, both physical and human, at posts throughout the County. Security provides the necessary resources to detect contraband entering secured locations, a physical security presence, and overall employee/official protection services.

The Facilities Management Division also provides for the capital maintenance, construction, and renovation for the County's facilities and structures including three Government Services Centers, Collier County Sheriff's Office (CCSO) substations, two Jail Detention Centers, the Emergency Services Center, two Courthouses, EMS Stations, Parks facilities, museums,

## **Public Utilities Department**

libraries, and general office space for the Board of County Commissioners, Judiciary, and the Constitutional Officers.

Board Strategic Priority Projects managed by Facilities Management project delivery team include:

- Mental Health Central Receiving Facility (Quality of Place, Responsible Governance, Infrastructure and Asset Management, Responsible Governance): This facility, located near the David Lawrence Center Complex on Golden Gate Parkway, will increase crisis support and will function as the Central Receiving Center for those receiving services under both the Baker and the Marchman Acts.
- CCSO Forensic Building (Quality of Place, Responsible Governance, Infrastructure and Asset Management, Responsible Governance): This facility will house crime scene, evidence and technical services bureau and include storage for evidence, vehicles as well as large equipment. The facility is designed to accommodate the relocation of Sheriff's CID operations currently located on Horseshoe Drive.
- Master Space Planning and Utilization, County Facility Master Planning, and Asset Management and Preventative Maintenance Planning and Integration (Infrastructure and Asset Management, Responsible Governance, Quality of Place): Conduct strategic government facility planning updates, timely stand-alone planning efforts and integration and continued development of systematic asset management and maintenance.

The Facilities Management Division is dedicated to providing secure, clean and comfortable facilities for our citizens, visitors and staff. The Division looks forward to successfully meeting those requirements and the other important objectives embodied in the Strategic Plan.

Fiscal Year 2024 7 - 9 Public Utilities Department

## **Public Utilities Department**

# County Water-Sewer District Public Utilities Administration (408/4008)

### **Mission Statement**

The mission of the Public Utilities Department (Department) is to deliver best value, high quality, and sustainable services that meet customers' expectations in an operationally excellent environment. Public Utilities Administration provides policy oversight to the operations and capital improvement programs of the Department, including Utilities Engineering & Project Management; Wastewater Division; Water Division; Solid and Hazardous Waste Management Division; Facilities Management Division; and Financial and Operations Support, including Utility Billing and Customer Service. Public Utilities Administration facilitates efforts to operate in regulatory compliance, efficiently meet demand levels, build and empower the workforce, and provide services that meet customers' expectations.

Fiscal Year 2024 7 - 10 Public Utilities Department

## **Public Utilities Department**

# County Water-Sewer District Public Utilities Administration (408/4008)

#### Forecast FY 2023:

The personal services are forecasted to be lower than the adopted budget due to the salary increases being lower than anticipated for Executive level management related to the Evergreen Compensation and Classification Study.

Operating expenses are lower than the forecast because less funds are being spent to preserve funds for FY 2024 operations.

### Current FY 2024:

Personal services are budgeted higher to reflect the Adopted FY 2024 budget policy increase to base wage and merit-based incentive program.

Operating expenses are forecasted to be in line with the prior FY 2023 adopted budget.

#### Revenues:

Revenues in FY 2024 are reflected as part of the intergovernmental reimbursement for services to Solid Waste, which was previously treated as a transfer. This is to more accurately allocate costs for time to support Solid Waste operations

Fiscal Year 2024 7 - 11 Public Utilities Department

## **Public Utilities Department**

# County Water-Sewer District Public Utilities Operations Support Division (408/4008)

### **Mission Statement**

The Financial and Operations Support Division provides sound financial analysis, assessment, and management to the operations and capital expenditure programs of the two enterprise entities in the Public Utilities Department (PUD), the Collier County Water-Sewer District (CCWSD) and Solid and Hazardous Waste Management, and to Facilities Management. This Division must ensure optimal internal and external financing is available to support department wide funding needs, while supporting the county's strategic goal of improving financial planning, management, reporting, and internal controls processes.

| This program provides financial planning, management, and oversight the Public Utilities Department (PUD) financial operations.  Responsibilities include policy and management oversight for utility billiand accounts receivable, solid and hazardous waste disposal and mandatory collections revenues, the county's estoppel program, fiscal payables, capital and debt expenditures, water-sewer user and impact for rate setting, controllized department materials programment and |                      |                   |                     |                     |  |  |

and accounts receivable, solid and hazardous waste disposal and mandatory collections revenues, the county's estoppel program, fiscal payables, capital and debt expenditures, water-sewer user and impact fee rate setting, centralized department materials procurement and inventory management, and internal controls. Additional responsibilities include cash planning and management, identifying and securing optimal funding sources, administration of external financing for the PUD including compliance with bond covenants and Florida Department of Environmental Protection agreements, and development of the financial feasibility portion of the Annual Update and Inventory Report. Other program functions include development of inter-agency agreements, ordinance development, contract administration (including the solid waste franchise hauler contract), financial and management reporting, department budgeting and forecasting, and fiscal and technical oversight for five full scale implementation projects under the PUD's Enterprise

#### Public Utilities Department Fiscal Support - IAM, RG

Asset management program.

This program provides fiscal guidance, analysis, and payables functions for the Public Utilities Department (PUD) enterprise operations. Functions include materials and services requisition review, purchase order tracking, invoice audit, payment approval, purchase card transactions, travel request packages, as well as coordination between divisions, the Procurement Services Division, Clerk's Finance, and vendors for resolution of payment issues. Reporting functions ensure payables are processed accurately, efficiently, and timely in compliance with the Prompt Payment Act, and enforce consistency of practice and process controls across the PUD.

#### Collier County Water - Sewer District Inventory Mgmt. - IAM, RG

This program provides management and control of centralized parts inventory for the Collier County Water-Sewer District (CCWSD). Responsibilities include utility parts contract administration, materials procurement and management, parts receiving/stocking/picking in multiple warehouse facilities, mobile truck inventories, and quarterly physical inventory counts. This program is responsible for the implementation of the City Works Store Rooms software application as an integrated element of the Public Utilities Division's Enterprise Asset Management program.

Fiscal Year 2024 7 - 14 Public Utilities Department

## **Public Utilities Department**

# County Water-Sewer District Public Utilities Operations Support Division (408/4008)

#### Forecast FY 2023:

Personal services are forecasted to be lower than the adopted budget due to the mid-year transfer of two (2) FTEs to the Corporate Compliance and Continuous Improvement Division, multiple employees turning over, and there being vacancies within the division throughout the year while the division tried to hire new employees.

Operating expenses are forecasted less than the adopted budget for FY 2023 because there was lower utilization of security related contractual services, reduction in computer software costs, lower public information and audit needs, and decrease in credit card use (bank fees).

Capital Outlay Items increased due to a mid-year additional vehicle being purchased for Critical Infrastructure group.

#### Current FY 2024:

Personal services are budgeted higher to reflect the Adopted FY 2024 budget policy increase to base wage and merit-based incentive program. Partially offsetting this positive variance, personnel services decreased due to the Internal Controls Manager and Management Analyst I PUD dedicated internal control positions being moved to the Corporate Compliance and Continuous Improvement Division to better account for actual hours dedicated.

Operating expenses are budgeted higher due to increased Indirect Costs, Payment in Lieu of Taxes (PILT) and Intergovernmental expenses. The PILT payment is increased in proportion to growth in audited CCWSD revenue at 6%. Intergovernmental expenses between areas are being reimbursed via Intergovernmental Charge (IGC) in FY 2024 rather than a transfer between funds. This change to reimburse intergovernmental expenses by ICG rather than a transfer provides greater accountability and is a best practice.

There are no planned capital outlays for FY 2024 budget year. The purchase of replacement vehicles is budgeted in the Water/Sewer Motor Pool Fund (409).

#### Revenues:

Revenues from charges for services is budgeted to decrease by 16.7% in FY 2024 as a result of anticipated decrease in connection fees, utility cutoff billing, and meter tapping charges. The water meter shut offs have been less and the costs have increased which ultimately leads to reduced revenue in these categories. FY 2024 miscellaneous revenues are budgeted lower to better align with actual revenues.

Additionally, revenues in FY 2024 include the intergovernmental reimbursement for services to Solid Waste, which was previously treated as a transfer. This is to more accurately allocate costs for time to support Solid Waste operations.

Fiscal Year 2024 7 - 15 Public Utilities Department

## **Public Utilities Department**

# County Water-Sewer District Public Utilities Engineering & Project Management Division (408/4008)

### **Mission Statement**

To deliver projects that meet requirements on-time, on-budget, at best-value to the satisfaction of Water and Wastewater Operations. To sustain regulatory compliance and mechanical/structural integrity through implementation of the Capital Improvement Program throughout the installed base of approximately \$1.8 billion of assets. To support Operations in the treatment plants and in the field to achieve their mission 24/7/365.

|--|----------------------|-------------------|---------------------|---------------------|
| CCWSD Mgmt., Planning, & Quality Assurance - QP, CD, IAM, RG   | 10.00                | 1,708,300         | _                   | 1,708,300           |
| This program is responsible for the management, control, and oversight of planning and project management functions for the Water and Wastewater Divisions of the Collier County Water-Sewer District (CCWSD). Responsibilities include updates to the Master Plan, the Annual Update and Inventory Report, and other long-term planning initiatives as well as tracking capacity, analyzing trends, and reviewing new development plans to ensure concurrency and master plan compliance. Core functions are defined by the Project Management Institute and implemented through Project Management Professional training and internal standard operating procedures. Quality assurance quality control services are provided for projects within all operating divisions.  |                      |                   |                     |                     |

| This program provides project and program management services for planning, designing, and implementing projects that meet the demand of the all-encompassing utility capital improvements as related to the Water and Wastewater Divisions of the Collier County Water-Sewer District (CCWSD). This includes wellfields, regional water plants, the potable water distribution system, collections system, regional wastewater plants and the irrigation quality reuse water distribution system.   | er                   |                   |                     |                     |

| This program develops systems that ensure sustainable business processes, provides project and program management for supervisory control and data acquisition (SCADA) projects, and is responsible for implementing the Enterprise Asset Management program for the Collier County Water-Sewer District (CCWSD) that will result in more efficient and effective use of funds. The goal of this program is to achieve optim balance of operational and capital costs relative to defined levels of service, operating risks, and compliance requirements.   |                      |                   |                     |                     |
| Technical Support - Utility Locates - QP, IAM, RG  | 13.00                | 1,684,600         | -                   | 1,684,600           |
| Provides responsive and accurate location services for the water-sewer district in compliance with the two-day response time mandated by Florida State Statute 556, the Underground Damage Prevention and Safety Act. This service is critical to protect utility infrastructure in the ground and protect the well being of excavation crews working near buried utilities. Locate Services provides education and damage prevention coordination in alignment with Sunshine 811 and actively promotes the call-before-you-dig campaign throughout the district. This program has expanded its scope to include project data management with a focus on centralized repository of critical project documentation and an electronic utility print room available in the field or office as a reference for operations and engineering staff. |                      |                   |                     |                     |

Fiscal Year 2024 7 - 17 Public Utilities Department

## **Public Utilities Department**

# County Water-Sewer District Public Utilities Engineering & Project Management Division (408/4008)

#### Forecast FY 2023:

Personal services are forecasted to be lower than the adopted budget due to multiple employees turning over and there being vacancies within the division throughout the year while the division tried to hire new employees.

Operating expenditures are forecasted slightly lower than the adopted budget due to anticipated savings in training.

### Current FY 2024:

Personal services are budgeted higher to reflect the Adopted FY 2024 budget policy increase to base wage and merit-based incentive program. Additionally, personnel services are budgeted higher to reflect the increase for reclassed positions into higher pay classes within cost centers.

Operating expenses are budgeted slightly higher due to increased costs from fuel and lube, plus an increase in the motor pool capital recovery charge.

Capital outlay is budgeted for replacement of aging ground penetrating devices. The purchase of replacement vehicles is budgeted in the Water/Sewer Motor Pool Fund (409).

Fiscal Year 2024 7 - 18 Public Utilities Department

## **Public Utilities Department**

# County Water-Sewer District Technical Support, Logistics and Operations (408/4008)

### **Mission Statement**

Provide management oversight and technical and operational services that support sustainability and compliance of the Water-Sewer District operations. These services include dedicated support of the Public Utilities Department's (PUD's) Geographic Information System (GIS)-centric asset management program and the GIS data repository of assets, dedicated technical services for PUD-specific applications and databases, planning services, and infrastructure rehabilitation and enhancement projects for the PUD manned and unmanned structures.

| Provides infrastructure-related services for manned and unmanned structures operated 24/7/365 including office space for employees that directly support the water-sewer district operations responsible for potable water production and distribution, compliant sanitary sewer collection and treatment, and reuse water distribution. This program ensures that the core facilities that support these public facing products are secure and well maintained structures. The program provides infrastructure short- and long-range planning, physical site assessments planned maintenance and rehabilitation of structures, inspections, and project management.                                  | ,                    |                   |                     |                     |

#### Forecast FY 2023:

Personal services are forecasted to be lower than the adopted budget due to multiple employees turning over and there being vacancies within the division throughout the year while the division tried to hire new employees.

Operating expenses are forecast lower due to reductions in temporary labor and computer software expenses.

### Current FY 2024:

Personal services are budgeted higher to reflect the Adopted FY 2024 budget policy increase to base wage and merit-based incentive program.

Operating expenses are budgeted slightly higher due to increased electricity, trash and garbage, and property insurance costs, which are partially offset by the IT billing hour costs decrease. Additionally, the interdepartmental payment increased due to anticipated reimbursement for services, which was previously treated as a transfer.

There are no planned capital outlays this budget year.

### Revenues:

Revenues in FY 2024 are reflected as part of the intergovernmental reimbursement for services to Solid Waste, which was previously treated as a transfer. This change to reimburse intergovernmental expenses by IGC rather than a transfer provides greater accountability and is a best practice.

## **Public Utilities Department**

## County Water-Sewer District Water Division (408/4008)

#### Forecast FY 2023:

Personal services are forecasted to be lower than the adopted budget due to employee turnover over and vacancies within the division throughout the year. Additionally, one (1) FTE was moved mid-year to Wastewater division.

Operating costs are projected to be lower than the adopted budget primarily due to decreases in other contractual services due to deferrals in planned projects. This is partially offset by increases in bulk water, chemicals, emergency repairs, and utility parts.

Capital is increased due to truck purchases that rolled over from FY 2022. Additionally, large equipment purchase was deferred due to supply chain issues and replaced with other equipment purchases which were available.

### Current FY 2024:

Personal services are budgeted higher to reflect the Adopted FY 2024 budget policy increase to base wage and merit-based incentive program. This increase is partially offset by the transfer of one (1) FTE to the Wastewater division.

Operating expenses are budgeted higher due to significant cost increases in chemicals, electricity, bulk water, utility parts, property insurance, fuel, emergency repairs, and other contractual services.

Capital Outlay is increased due to the deferral from FY 2023 purchases which were not available for purchase due to supply chain issues in addition to current equipment scheduled for replacement.

#### Capital outlay Items:

\$100,000 - 1 Replacement Mini-Excavator (deferred from FY 2023)

\$150,000 - 1 Replacement Trailer Mounted Vacuum Pump (deferred from FY 2023)

\$30,000 - 1 Replacement Automatic Valve Operator (deferred from FY 2023)

\$30,000- 1 Replacement Power Valve Operator (deferred from FY 2023)

\$7,000 - 1 Replacement Pneumatic Hydraulic Power Pack

\$7,000 - 1 Replacement Turbidimeter

\$26,000 - 1 Replacement Trailer Mounted Vacuum Pump

\$14,000 - 2 Replacement Towed Concrete Mixer

\$25,000 - 1 Replacement Dump Trailer

\$30,000 - 1 Replacement Drop Deck Side Dump Trailer

\$14,700 - 1 Replacement TransCat Strap-on meter

\$14,000 - 1 Replacement Analytical Balance

\$10,000 - 1 Replacement Top Load Balance

\$457,700 - Total Capital Outlay

The purchase of replacement vehicles is budgeted in the Water/Sewer Motor Pool Fund (409/4009).

#### Revenues:

Forecast FY 2023 water revenue is anticipated at 3.9% over budget and is based on year-to-date actual revenues and the Board approved rate of 7.07% rendered July 1, 2023. Charges for Services revenue is anticipated to be in line with adopted budget.

Budgeted FY 2024 water revenue is 11.7% higher than the FY 2023 budget due to a planned 7.07% rate increase and anticipated customer growth. Charges for Services revenue is budgeted in line with FY 2023 budget.

Provides management of the laboratory certified through the Florida Department of Health and National Environmental Laboratory Accreditation Conference (NELAC) and compliance administration for the wastewater division including the Industrial Pretreatment Program. Provides for regulatory compliance through facility compliance analyses, groundwater sampling, injection and supplemental well monitoring, certification, and Quality Assurance/Quality Control pursuant to Florida Department of Environmental Protection (FDEP) Operating Permits. Performs industrial pretreatment and Fats Oil Grease programs to protect and preserve wastewater assets including transmission systems, lift stations, and treatment plants. Ensures regulatory compliance by performing facility audits pursuant to FDEP Operating Permit Pretreatment requirements.

Fiscal Year 2024 7 - 27 Public Utilities Department

## **Public Utilities Department**

# County Water-Sewer District Wastewater Division (408/4008)

#### Forecast FY 2023:

Personal services are forecast slightly higher than the adopted budget despite temporary vacancies due to the mid-year addition of 12 FTEs for the newly constructed, interim Northeast County Water Reclamation Facility (NECWRF) and 1 FTE reclass from Water Division. Additionally, 0.95 FTE was transferred to the Growth Management Department – Housing Policy & Economic Development Division.

Operating costs are projected higher than adopted budget due to an increase in chemicals, utility parts, electricity, and other contractual services in addition to the mid-year interim NECWRF Plant Board approved expenditures.

Capital is increased due to truck purchases that rolled over from FY 2022 and mid-year addition of vehicles and equipment purchases for the interim NECWRF plant.

#### Current FY 2024:

Personal services are budgeted higher to reflect the Adopted FY 2024 budget policy increase to base wage and merit-based incentive program and the additional 12 FTEs for the interim NECWRF plant and one (1) FTE transfer from Water division. This increase in is partially offset by the transfer of 0.95 FTE to the Growth Management Department - Housing Policy & Economic Development Division.

Operating expenses are higher reflecting upward adjustments for other contractual, chemicals, electricity, utility parts, and electrical supplies. In addition, a full year of expenditures is included in the FY 2024 budget for the recently constructed interim Northeast County Waster-Reclamation facility.

Capital Outlay is budgeted to increase due to the replacement of six (6) portable generators at \$150,000 each in addition to the purchase of equipment which was deferred from FY 2023 due to procurement and shipping delays.

#### Capital Outlay items:

\$40,000 - 2 Replacement Utility Vehicles - Diesel (overage for specialized equipment for vehicles budgeted in Motor Pool Fund 409)

\$130,000 -1 Replacement Man Lift (deferred from FY 2023)

\$35,000 -1 Replacement Training Control Panel

\$10,000 - 1 Replacement Label Maker

\$8,000 - 1 Replacement Fiber Tester

\$7,000 -1 Replacement Infrared Tester/Camera

\$8,100 -1 Replacement Laboratory grade dishwasher

\$20,000 - 1 Replacement Super Cab 4X4 w/Topper

\$20,000 - 1 Replacement Reg. Cab 4X2 w/Util. Body/Crane

\$900,000 - 6 Replacement 100 kw Portable Generators

\$22,000 - 2 Replacement Composite sampler

\$44,000 – 1 Replacement Lt. Tractor w/Front Loader

\$1,224,100 - Total Capital Outlay

The purchase of replacement vehicles is budgeted in the Water/Sewer Motor Pool Fund (409).

#### Revenues:

FY 2023 Forecast wastewater revenue is estimated to be slightly higher (2.4%) than budgeted and effluent revenue remained the same as adopted. Charges for Services are forecasted lower than budget as the landfill leachate deep injection well was put into operation which caused a decrease in flow to Wastewater.

Wastewater and effluent revenue are budgeted for FY 2024 higher than FY 2023 adopted budget by 10% and 7.1% respectively, due to planned 7.07% rate increase, anticipated customer growth in wastewater, and anticipated effluent service level. Charges for Services revenue is budgeted slightly higher than FY 2023 budget due to anticipated increase in Fog Sewer revenue.

# County Water-Sewer District Reserves, Interest, and Transfers (408/4008)

#### Notes:

The Collier County Water-Sewer District manages its debt, reserves and transfers to optimize its cash position. User fees that customers pay for services fund the District's operations (Fund 408), the repair and replacement (R&R) capital improvement projects (Funds 412/4012 and 414/4014), and the debt related to these projects (Fund 410/4010). These user fees are deposited in the Operating Fund (408/4008) and transferred to the other funds based on need and risk. Reserves and transfers for the District therefore must be viewed as a family of funds. The linkage between these funds enables the utility to seek and obtain the best value funding for projects and facilitate a revenue-centric approach to optimize transfers between these funds. A risk-based approach enables the District to defer projects based on measured risk and reduce that risk by executing projects at the appropriate time.

Reserves for the District are categorized as either restricted (can be utilized for specific purposes, including impact fee related growth and to meet bond covenants) or unrestricted (considered discretionary, used only as and when needed). One of the financial metrics rating agencies such as Fitch and Moody's review when determining credit ratings is unrestricted cash and liquidity. Maintaining a good credit rating allows the utility to borrow at favorable interest rates. The District currently has an investment grade of AAA from Fitch and an Aaa rating from Moody's. Unrestricted District reserves have been established based on the FY 2024 adopted reserve policy and on management's perceived risk in operations and the R&R capital improvement projects.

Combined, the Public Utilities Department's proposed FY 2024 budgeted unrestricted reserves reflect management's commitment to ensuring operational continuity and compliance with regulatory agency requirements for unplanned and unanticipated events beyond the control of the Department's enterprise operations.

Operating Fund (408/4008) – contingency reserves are established to meet unanticipated increases in commodity prices essential to the efficient production and delivery of services; cash flow reserves are funded in the event of a disaster that delays the receipt of revenues necessary to fund operations.

Capital R&R Funds (412/4012, 414/4014) – contingency reserves are established in the event that planned, critical project costs exceed budgeted costs in an environment where demand for contractor's services is increasing; capital reserves are established to fund unanticipated projects that result from regulatory agency mandates and/or natural disasters.

The District has approximately \$1.7 billion of gross fixed assets. At the beginning of FY 2024, District principal outstanding debt will be approximately \$307 million (comprised of \$222 million in growth related debt and \$85 million of user fee debt). Total budgeted FY 2024 debt service is \$25.2 million.

Fiscal Year 2024 7 - 32 Public Utilities Department

## **Public Utilities Department**

## Solid & Hazardous Waste Management Division Solid Waste Disposal Fund (470/4070)

#### **Mission Statement**

To provide best value, sustainable solid waste management disposal services that protect the health, safety, and welfare of the public and safeguard environmental resources in accordance with federal, state, and local regulations; increase public awareness related to sustainable solid waste management, recycling, and household hazardous wastes; and adhere to the guiding principles of the board approved integrated solid waste management plan.

| Program Summary   | FY 2024<br>Total FTE | FY 2024<br>Budget | FY 2024<br>Revenues | FY 2024<br>Net Cost |
|---|----------------------|-------------------|---------------------|---------------------|
| Management & Oversight - CD, RG   | 5.00                 | 3,742,000         | 195,700             | 3,546,300           |
| Responsible for the management and implementation of the Board approved Integrated Solid Waste Management Strategy. The core components of this section encompass the program's vision and objectives through the utilization of short- and long-term strategic, financial, and emergency management planning, landfill-gas-to-energy, community development, solid waste capital project management, annupdate and inventory reporting, and environmental compliance of all Scale Hazardous Waste Management Division (SHWMD) programs.  | ıal                  |                   |                     |                     |

| Responsible for the logistical management, environmental permitting, financial compliance, sustainability, and program growth of the Collier County Landfill, Eustis Landfill, Scalehouse, Immokalee Transfer Statio Resource Recovery Business Park and the Naples, Marco Island, North Collier, Tim Nance, and Carnestown Recycling Drop-off Centers. The mission is to provide safe and efficient centralized facilities throughout to community for collection and proper disposal of materials to mitigate the solid waste stream. These collection and disposal facilities maintain compliance with local, state, and federal regulations through scheduled inspection audits that ensure execution of active permits, Florida Department of Environmental Protection (FDEP) regulations, and the Landfill Operating Agreement. | he<br>e              |                   |                     |                     |
| Waste Reduction & Recycling - QP, IAM, RG   | 4.00                 | 1,089,300         | -                   | 1,089,300           |
| Responsible for preserving valuable landfill disposal airspace by developing and implementing innovative waste reduction, reuse, and recycling programs while protecting natural resources at best value. Raises, maintains, and reinforces awareness related to the importance waste reduction, reuse, and recycling through collaborative business partnerships, strategic marketing and advertising campaigns, and educational outreach to businesses, government agencies, schools, single and multi-family residents, and events. Monitors, maintains, and promotes compliance with Recycling Ordinance No. 2009-56 and Florida's 75% recycling goal.  | of                   |                   |                     |                     |
| Environmental Compliance - QP, CD, IAM, RG  | 6.00                 | 2,326,600         | 35,800              | 2,290,800           |
| Provides environmental compliance measures to support and adhere to federal, state, and local regulations for the Hazardous Materials Collection Center and Hazardous Materials Management Program. Ensures the Center and Program are managed properly for compliant and financially efficient hazardous materials transport, storage, and disposal by private disposal contractors. Protects public health, safety, and the environment from improper management of commercially generated hazardous waste through performance of regular Small Quantity Generator compliance assistance verification inspections at county-registered businesses that have the potential to generate, store, transport, or dispose of hazardous materials.   |                      |                   |                     |                     |

| Protects the county's groundwater, surface water, and soils from pollutar releases through regular inspections of state-registered pollutant storag tank facilities under contract with the Florida Department of Environmental Protection (FDEP) Petroleum Storage Tanks Program, and through monitoring of county-owned storage tanks on behalf of the Risk Management Division for the individual county divisions that own the tanks (Interdivisional Tanks Program). Ensures compliance with state and federal regulations and lessens the risk of hazardous releases from both private commercial and county-owned and insured storage tanks. Quantifies the exposure to risk and insurance coverage for county-owned tanks. Verifies and assures, through effective communications and ons inspections, consistent compliance with state law. Educates and trains county team members to maintain compliance. Avoids costly cleanups resulting from preventable releases. | e<br>ne<br>nd<br>n   |                   |                     |                     |

Fiscal Year 2024 7 - 35 Public Utilities Department

### **Public Utilities Department**

## Solid & Hazardous Waste Management Division Solid Waste Disposal Fund (470/4070)

#### Notes:

The FY 2024 solid waste disposal tipping fees include an average 8.0% increase over FY 2023.

#### Forecast FY 2023:

Personal services are in line with the adopted budget.

Operating expenses are forecast higher as a result of contractually required Consumer Price Index (CPI) increases that were higher than budgeted, as well as, the processing of additional Hurricane Ian debris. Those increases were partially offset by reduced water / sewer charges as a result of the early startup of the deep injection well for landfill leachate management and reduced contract staffing costs due to unfilled contract staff positions.

The Capital outlay is forecasted higher due to the purchase of equipment that rolled over from FY 2022.

#### Current FY 2024:

Personal services are budgeted higher to reflect the Adopted FY 2024 budget policy increase to base wage and merit-based incentive program.

Operating expenses are budgeted higher due to an increase in landfill operating contract expense driven by increased volume and large contractual CPI increases in both FY 2023 and FY 2024. Contractual household hazardous waste disposal prices have also increased significantly. Additionally, the interdepartmental payment increased due to anticipated reimbursement for services which was previously treated as a transfer.

#### Capital Outlay items:

\$18,000 – 1 Replacement Hazardous Waste Cargo Trailer \$15,000 – 1 Replacement Ford Explorer - 4 wheel drive adjustment \$8,500 – 1 Replacement 30cy Roll-off Container \$7,500 – 1 Replacement 20cy Roll-off Container \$49,000 – Total Capital Outlay

The purchase of replacement vehicles is budgeted in the Solid Waste Motor Pool Fund (472).

Fund (470) will transfer \$1.5 million to Fund (471/4071) to restart building reserves for the storm debris management mission, and \$4.0 million to Fund (474/4074) for the capital improvement program including Immokalee Transfer location redevelopment, development of the Resource Recovery Business Park, and several smaller capital projects.

#### Revenues:

The budget is primarily supported by landfill tipping fees. Tipping fees are benchmarked annually and are set to support the needs of the Solid Waste enterprise fund. Over the past five years, tipping fees increased on average 3.2%. The budget is based on a tipping fee rate increase of 8.0%.

The Charges for Services category includes landfill tipping fees of \$19,398,900, Landfill Gas-to-Energy Facility revenue of \$366,000, Recycling Drop-off Center fees of \$221,800, and Other Revenue of \$165,500. Reimbursement from Other Departments category consists primarily of \$12,870,500 for the Landfill tipping fee cost for the Mandatory Trash Collection program, \$79,000 in reimbursements from Solid Waste Collections Fund (473/4073) and Water/Sewer Fund (408/4008) and \$99,100 from County-owned tank inspections. The Petroleum Storage Tanks Inspection Program contributes \$94,100 and is included in the Intergovernmental Revenues category.

# Solid & Hazardous Waste Management Division Solid Waste Landfill Closure and Debris Mission Reserves Fund (471/4071)

#### **Mission Statement**

Establish appropriate levels of reserves to fund the upfront costs of a major debris mission and support funding not recovered from State and Federal reimbursements and provide funding to comply with required landfill closure liability requirements.

# Solid & Hazardous Waste Management Division Solid Waste Landfill Closure and Debris Mission Reserves Fund (471/4071)

#### Notes:

In the event of a disaster, such as Hurricane Irma in 2017 with cash flow exposure over \$60 million, and Hurricane Ian in 2022 with cash flow exposure over \$42 million, the Solid and Hazardous Waste Management Division is responsible for the right-of-way disaster debris removal and monitoring mission. Per budget policy, the Division is to establish a restricted cash flow reserve to fund the upfront cash needs that accrue from significant disasters. This amount should at least approximate the Division's potential for cost share that will not be reimbursed by the Federal Emergency Management Agency nor the State of Florida, typically 10% of the debris removal mission cost. Potential cash flow exposure is also a factor in determining the appropriate reserve level.

#### Forecast FY 2023:

All of the debris removal reserves were transferred to Fund (474/4074) for the Hurricane lan debris removal project.

Hurricane Ian debris removal efforts are being funded through a \$42 million project in the Solid Waste Capital Fund (474/4074). The Federal Emergency Management Agency (FEMA) has already provided an expedited reimbursement of \$23.2 million. The \$18.8 million balance of the project is funded with Solid Waste reserves from Funds 470/4070, 471/4071, 473/4073, and 474/4074, and from \$5,000,000 borrowed from another Solid Waste project in Fund 474/4074. Additional reimbursements from FEMA, insurance, and interlocal agreements are expected to be recognized and used to restore deferred projects and reserves when received over the next two (2) - five (5) years. The final value of reimbursements is unknown and will be less than 100%. The total costs of \$42 million are required to be submitted to FEMA with required detailed documentation and evidence, and upon FEMA / Florida Division of Emergency Management audits, actual claimed expenses must be found to be eligible for reimbursement.

#### Current FY 2024:

The budgeted transfer for disaster relief expenditures is \$1.5 million. This budget is established as a mechanism to transfer cash to the Solid Waste Capital Fund (474/4074) in the event a storm makes landfall in Collier County.

#### Revenues:

Solid Waste Disposal Fund (470/4070) is budgeted to contribute \$1.5 million to reestablish debris mission reserves.

Fiscal Year 2024 7 - 38 Public Utilities Department

## **Public Utilities Department**

## Solid & Hazardous Waste Management Division Mandatory Trash Collection Fund (473/4073)

#### **Mission Statement**

To provide best value, sustainable mandatory residential solid waste collection services that protect the health, safety, and welfare of the public and safeguard environmental resources in accordance with federal, state, and local regulations; increase public awareness related to sustainable solid waste management, recycling, and household hazardous wastes; and adhere to the guiding principles of the board approved integrated solid waste management plan.

| This program provides education and compliance activities for all Public Utilities Department (PUD) enterprise-related ordinances through recognition and containment of situations that pose direct threats to pub health and safety. Core functions include education about water-sewer and solid waste disposal and collection ordinances, irrigation regulations on-site response to residential and commercial customer inquiries about solid waste collection and disposal issues, and investigation and resolution of utility ordinance and standards violations including meter tampering and illegal connections to the potable public water supply. This program also includes monitoring the contractors' execution of solid waste collection services in accordance with the Franchise Agreements inspection of franchised hauler vehicles, issuance of exemption certificates and vehicle inspections for self-hauling trash on county roadways, review of site development plans to ensure adequate solid waste collection facilities are included in the design, and unit sweeps to determine the correct number of units per parcel for the residential curbside solid waste assessment rolls. These activities are concentrate in the unincorporated area of Collier County, the City of Marco Island, at Everglades City. | olic<br>s,<br>t<br>d |                   |                     |                     |

Fiscal Year 2024 7 - 40 Public Utilities Department

### **Public Utilities Department**

## Solid & Hazardous Waste Management Division Mandatory Trash Collection Fund (473/4073)

#### Notes:

In FY 2024, the solid waste and recycling curbside collection assessment in District I will increase by 8.0% from \$230.82 to \$249.29, or \$1.54 per unit per month.

In FY 2024, the solid waste and recycling curbside collection assessment in District II will increase by 9.3% from \$228.09 to \$249.29, or \$1.77 per unit per month.

These rates achieve parity for each solid waste municipal service benefit unit with all units receiving the same level of service.

#### Forecast FY 2023:

Personal services were forecasted (0.6%) lower than the adopted budget due to temporary vacancy savings.

Operating expenses were forecasted higher due to additional residential tonnage disposal costs attributable to Hurricane Ian.

#### Current FY 2024:

Personal services are budgeted higher to reflect the Adopted FY 2024 budget policy increase to base wage and merit-based incentive program.

Operating expenses are higher reflecting upward adjustments for mandatory residential collection contract expense which escalates automatically based on the Consumer Price Index (CPI), increased disposal costs, and more housing units. The mandatory collection franchisee contractual CPI increase is budgeted at 5.00%. An estimated 3,500 or an additional 2.5% new residential accounts are anticipated. Additionally, the interdepartmental payment increased due to anticipated reimbursement for services which was previously treated as a transfer.

#### Revenues:

Forecast FY 2023 Mandatory Collection assessment revenue of \$30,921,500 is within 0.03% of budget.

FY 2024 Revenues - To keep pace with contractual CPI increases to collection franchisee contracts, landfill tipping fee increases, and general operational cost increases, the mandatory solid waste residential assessment fee is budgeted to go up by 8.0% in District I and 9.3% in District II. The assessment fee for customers in District I will increase from \$230.82 to \$249.29, \$1.54 per month. The assessment fee for customers in District II will increase from \$228.09 to \$249.29, \$1.77 per month. These assessment fee increases and the addition of an estimated 3,500 customer accounts result in a total budgeted revenue increase of 10.7%.

This budget also supports the overall Public Utilities Ordinance Education & Enforcement function. This function benefits both the Solid Waste Division and the Collier County Water/Sewer District (CCWSD). The CCWSD will pay for its share of education and enforcement through an intergovernmental payment from County Water/Sewer Operating Fund (408/4008) to Mandatory Trash Collection Fund (473/4073).
