CONDITIONAL ACCEPTANCE FOR OUTSIDE ROUTING OF INCOMPLETE PRIVATE PROVIDER APPLICATION

For Project _____

With Private Provider _____

Florida Statute 553.791(1)(h) 4 defines a Private Provider permit application as “complete” when it includes written approval from review agencies outside of Building Department as required by the local building official. No outside agency approvals are included in the application identified above, so the application is deemed to be incomplete. But the Building Department hereby accepts the incomplete application and will route it for approval of involved outside agencies with the stipulation that the 30 business days of 553.791(7)(2) for governmental building plan review shall not begin until after the application becomes “complete” via Building Department receipt of all outside agency approvals.

Should this stipulation be unacceptable to the Owner or to the Private Provider at any time prior to permit issuance, the application documents shall be returned to the applicant for acquisition of written approval of agencies outside the Building Department and resubmitted when “complete”.

Acceptance by Applicant or Courier _____

Witness for Collier County _____ on ___/___/___

(Note: Two copies to Applicant or Courier after this form is witnessed.)
