# FY 2008 Action Plan James V. Mudd, County Manager

As approved by the BCC on September 25, 2007, Item 10A, with 2 changes.

The County Manager is tasked with carrying out the policy direction provided by the Board of County Commissioners. He is by ordinance to provide leadership for the day-to-day operations of the employees of the Board of County Commissioners. The following Action Plan is developed in an effort to provide clear expectations for the County Manager for the period from October 2007 through September 2008. The Action plan is based on the broad areas generally expected to be performed by the Executive Officer, including: communications, leadership, organizational direction, financial oversight, personnel, growth and capital project management. This part of the action plan represents 40% of the annual evaluation weight. Each Goal for the FY will also be evaluated and will represent the remaining 60% of the annual evaluation weight. These areas are further categorized as to their pertinence and support of the FY 08 Strategic Focus Areas (SFA) and their Goals for Collier County that are enumerated below:

It is Collier County's Vision – To Strive to be the Best Community in America to Live, Work, and Play. From this Vision flows the statement of our County's Mission – To Deliver High Quality, Best-Value, Public Services, Programs, and Facilities to Our Residents and Visitors. The County Mission will be accomplished by dedicating its resources and efforts to the following Strategic Focus Areas (SFA) with their corresponding goals:

- **SFA. 1. Neighborhood Preservation & Enhancement** To preserve and enhance the safety, quality, value, character, and heritage of our neighborhoods, communities and region.
- **SFA. 2. Growth Management** To responsibly manage community growth, development and redevelopment, while enhancing the natural environment.
- **SFA. 3. Community Health and Human Services** To Improve the quality of life and promote personal self-reliance and independence through improved access to community health care and human services for those most in need.
- **SFA.** 4. **Mobility** To provide for the various mobility needs of the community and the region while respecting and enhancing the character of our diverse neighborhoods.
- **SFA. 5. Economic Development** To help create a business climate that promotes a diversified, growing economy consistent with the established growth management plans and community desires.
- **SFA.** 6. Local Governance To sustain public trust & confidence in County government through sound public policy decisions, expert professional management and active citizen participation.

At the conclusion of the fiscal year, the Board of County Commissioners will be asked to perform an annual evaluation of the County Manager's performance by rating each of the following performance objectives on a 1 to 3 scale. Individual evaluations will be totaled and averaged to determine the Board's collective position.

The following areas of Communications; Leadership/Organizational Direction; Personnel Management support the Strategic Focus Area 6 - **Local Governance** – To sustain public trust & confidence in County government through sound public policy decisions, expert professional management and active citizen participation.

COMMUNICATIONS	Below Standards	Meets Standards 2	Exceeds Standards
C.1 (Internal) The County Manager will be expected to provide the BCC with timely and accurate responses to requests for information, as well as, coordinating drafts for plans, fees and controversial ordinances with the BCC members before the information goes public.			
C.2 (External) The County Manager will be expected to provide information to the public through a minimum of <u>one speaking engagement per month</u> on average, as well as, developing new means to provide information to the public regarding County information.			
C.3 (External) The County Manager will be expected to ensure that the organization has systems in place to ensure that the general public is responded to in a timely and accurate manner. Also, improve Public Relations by providing more understandable and complete information to the public.

F.1 The County Manager will present an opportunity annually, prior to the development of the annual budget, for the County Commission to have a policy level discussion regarding the next year's annual budget.			
F.2 The County Manager will develop an annual budget that will be presented to the County Commission in workshop format and then again in accordance with statute for public participation through a series of two separate public hearings. Continue to make improvements to the budgeting process.			
F.3 The County Manager will present a budget for FY09 that will not cause the BCC to have to raise the ad valorem millage rate to compensate for a growth slow down in FY08 and a corresponding devaluation of property values.			
F.4 The County Manager will provide annual updates of user fees and other non-Ad Valorem revenue, i.e. impact fees, grants, etc.			
F.5 The County Manager will work cooperatively with the Clerk of Courts on the preparation of the CAFR and respond promptly and thoroughly to any issues raised by the external auditors.			

## **Goals for Fiscal Year 2008:**

I will continue to build on the successes of this year and inculcate many of the changes that have been made. Creating a better work environment, finding the best employees, keeping and improving them, focusing on how to conduct business with better customer service results, making internal changes that result in work being done smarter, faster, more efficiently or effectively. The Manager's agency is changing to a self initiating and correcting organization at all levels. We are making the "routine" truly routine, and we all know that great organizations do routine things routinely! This will require continued improvement in our planning, refining assignments and responsibilities, and establishing/maintaining accountability.

Specific areas of improvement that I propose as part of next year's action plan would include:

1. <u>Following through on the County's 10 Year Strategic Plan.</u> Continue to implement the BCC approved strategic plan and align the organization around that plan by integrating multi-year business plans, annual operational work plans and individual performance goals and objectives.

2. <u>East of CR951 Study.</u> Finalize a long range County plan for infrastructure improvements East of CR 951, along with a solid financial and land use plan that supports it. The East of 951 Study is very important to the County. We need to make sure that the resources, expertise and dedication are applied Countywide to this study to make it a success. Complete the second phase of the East of 951 study.

3. <u>Community Development</u>. We will continue to focus on improving the business processes within the Division and amending the codes to manage growth better and instill smart growth tenets. In addition, conduct at least 2 PUD/IOU workshops; continue to manage the FIRM restudy process as renegotiated with FEMA; implement business process improvements. Prepare for BCC approval to effectively close out at least 50 PUDs.

4. Improved use of technology and web site. Staff continues to look for opportunities to utilize available technology to provide services faster, cheaper and better. Improvements planned for the next year include a new automated BCC agenda system; a new land use and building permitting system with improved reporting capabilities; expanded utilization of the newly upgraded SAP financial management system; continued refinements to the automated budget and project management systems; and initial steps toward an agency-wide electronic document/records management system. Website improvements planned for this year include the implementation of a 'video on demand' feature.

7. Growth Management. Make sure that we stay on top of SB360 and its impact on the County Growth Management Plan. Make the required State deadlines. Work to correct the needed "glitches" to the state's Growth Management Bill. Implement updated Concurrency Management System with Proportionate Share. In conjunction with the Collier County School Board, develop implementation plans to comply with the mandates for school concurrency as defined in the state Growth Management Bill – SB360. Adopt Public Schools Facilities Element with school concurrency component and revised interlocal agreement focused on adoption by BCC and School Board prior to March 1, 2008. Analyze financially feasible capital plans to ensure consistency with the State mandated changes to the Growth Management Plan.
