

January 3, 2008

Hello Committee Members,

There are additional hard-copy items that I will be providing to you later as part of your agenda packet. They are:

1. An ICSR for the Naithloriendun property,
2. Applications for 3 Conservation Collier Advisory Committee seats

Staff is still working on the ICSR and the application period for the 3 Committee seats does not close until 5pm on Friday. So as not to make your packets late, we have chosen to forward you what is completed and send the above items next week.

Included in your packet is a "Land and Real Property Transfer Procedure" draft from the Collier Soil and Water Conservation District (CSWCD) and a copy of an e-mail forwarded to me on December 17th of last year, sent by Mr. Vasey to one of our Commissioners. I originally had Mr. Vasey on the January agenda to discuss CSWCD activities with you but have removed the item after speaking with him. He advised he does not have anything to share at this point, other than things he has already told you about, via documents I have forwarded to you, but he said he may have something to share in March. I will mention the items I have forwarded in my "Coordinator Communications" item, and if anyone wants to have discussion, that will be the opportunity.

Cheers!

Alex Sulecki, Coordinator
Conservation Collier Program
