

## **CLYDE BUTCHER PHOTOGRAPH EXHIBIT**

The Museum of the Everglades is proud to present a captivating photography exhibit by well known artist Clyde Butcher.

*Visions of the Big Cypress National Preserve* is a photographic collection by Butcher focusing on the rarely seen areas within the Big Cypress National Preserve. Butcher has opened the eyes of millions to the wonderful eco-system in the preserve.

Butcher states on his website that there are two important keys to taking photographs that make an impression. Those keys are seeing an image with your heart and then understanding the mechanics of the camera so that you may capture that feeling within the photograph.
