DISCLAIMER:

This is raw unadjusted field elevation data that is the result of differential leveling by the Florida Department of Environmental Protection, Division of State Lands, Bureau of Surveying and Mapping (BSM) and was established using National Geospatial Survey (NGS) First and Second Order data collection procedures. This information has been submitted to NGS for adjustment and publication. As there is a lag in time between when this data is submitted by BSM to NGS and when it is published by NGS, BSM is temporarily making this information available to the public. However, this data should be used only if published data is not available. This can be ascertained by the user going to NGS's website.

<http://www.ngs.noaa.gov/gip/dn/dn.html> and checking to see if the information has been published. The user should be aware that the raw data can differ from the published data but usually this will be an insignificant difference.

The FDEP and the Florida Resources and Environmental Analysis Center (FREAC) make no warranties, expressed or implied, concerning the accuracy, completeness, reliability, or suitability for any particular purpose of the preliminary data contained herein. Furthermore, FDEP and FREAC assume no liability associated with the use of such data.
