160 Hazardous Materials Technician FSFC 508

Description: The course curriculum is the IAFF Training for Hazardous Materials Response Technician. The course fulfills the function of Haz-Mat Technician in a variety of full scale field scenarios. The scenarios include making entries into a hazardous material scene and determination of the type of incident by observation, monitoring, and research. Students will set up full-size incident command and decontamination facilities and respond to simulated container and vehicle emergencies. The course is approved for the Florida State Hazardous Materials Technician Test.
