Lisa,

The following is my suggestion for handling the Clam Bay Subcommittee problem. The Clam Bay Subcommittee served the community well until Clam Bay became a political issue and the county maneuvered to place Pelican Bay residents, who sympathized with the county position, on county committees designed to undermine and replace the Clam Bay Subcommittee. It is true that the committee's reports then began to occupy all of the time of the PBSO meetings. Until this issue is settled we are going to have to accept the fact that Clam Bay will take meeting time. An alternative would be to have the Foundation form the committee and have a PBSO member be a member of this committee and report to the PBSO. As the Foundation's legal control over Clam Bay becomes better defined this could influence how best to monitor Clam Bay. I am out of town until the October meeting and would like to be kept informed. Thanks.

Ted Raia
