- notes:
- 1) 2000 Naples, Marco Island, Everglades City, Unincorporated County and County-wide totals are estimates from the U.S. Census Bureau, Census 2000 Redistricting Data (Public Law 94-171).
  - 2) 2000 Planning Community estimates are based upon County Planning staff review of 2000 Census maps and population data.
  - 3) 2001, 2003, 2004, 2005, 2006, 2007 and 2009 Naples, Marco Island, Everglades City, Unincorporated County and County-wide totals are estimates from BEBR (Bureau of Economic and Business Research) at the University of Florida.
  - 4) 2002 and 2008 Naples, Everglades City, and County-wide totals are estimates from BEBR.
  - 5) Due to dispute by City of Marco Island over the 2002 estimate provided by BEBR, the 2002 Marco Island estimate is from the City of Marco Island (midpoint between 2001 and 2003 estimates). The unincorporated BEBR estimate is reduced by the amount of the Marco Island increase over the BEBR estimate (407 persons).
  - 6) Due to disagreement by City of Marco Island with the 2008 estimate provided by BEBR, the 2008 Marco Island estimate is from the City of Marco Island. The unincorporated BEBR estimate is increased by the amount of the Marco Island decrease from the BEBR estimate (138 persons).
  - 7) 2001-2009 Planning Community estimates were prepared by County Planning staff using Certificate of Occupancy data & persons per dwelling unit ratios derived from 2000 Census.
  - 8) Marco Island projections were provided by the city's Planning staff, in 5-year increments. In-between years are straightline projections prepared by County Planning staff.
  - 9) Naples projections were prepared by County staff based upon 2030 projection provided by the city's Planning staff in 2004.
  - 10) Everglades City projections were prepared by County Planning staff.
  - 11) 2010 - 2021 County-wide totals are projections based upon BEBR Medium Range growth rates between 2010-2015, 2015-2020, and 2020-2025, per BEBR Bulletin #156, March 2010.
  - 12) Planning Community projections were prepared by County Planning staff using Certificate of Occupancy data & persons per dwelling unit ratios derived from 2000 Census.
  - 13) Planning Community projections do not reflect projected buildout population figures, as prepared in 1994 and 2005.
  - 14) Some of the Totals may not equal the sum of the individual figures due to rounding.

Prepared by Collier County Comprehensive Planning Section June 11, 2010.

notes:

- 1) Estimates and projections are derived from data obtained from: 2000 Census; Bureau of Economic and Business Research (BEBR) population bulletins; Collier County Comprehensive Planning Staff; and, Planning staff from Naples and Marco Island.
- 2) Peak Season population is derived by increasing each year's October 1 permanent population by 20% (.20).
- 3) Based upon BEBR Medium Range growth rate projections.
- 4) Northeast 2 Sewer District reaches possible buildout, as reflected above.

Prepared by Collier County Comprehensive Planning Section June 11, 2010.
