INTRODUCTION:

[Revised per DEO Comment, page 1, paragraph 1]

Chapter 163.3177(6)(e), Florida Statutes, requires each local government comprehensive plan to have "a recreation and open space element indicating a comprehensive system of public and private sites for recreation, including, but not limited to, natural reservations, parks and playgrounds, parkways, beaches and public access to beaches, open spaces, and other recreational facilities." ~~However, Chapter 9J-5.014, Florida Administrative Code, which formerly contained the Florida Department of Community Affairs' "Minimum Standards" for review of local Recreation and Open Space Elements, has been deleted. Thus, w~~ While the Recreation and Open Space Element remains a requirement for local comprehensive plans in the State of Florida, the format and contents of such an Element may be tailored to local needs, provided that the intent of the Statute is met. This Recreation and Open Space Element was recently updated, as recommended by the Community Character/ Smart Growth Advisory Committee, by Ordinance No. 2003-67, adopted on December 16, 2003, to further implement the Collier County Community Character Plan and "Smart Growth" principles.
