**RE: Forest Lakes MSTU Bond Project F-58 Sidewalk Project Improvements
Status Report**

The following is a brief status report for the Forest Lakes Sidewalk, Lighting and Street Tree Improvement projects:

FOREST LAKES PROJECT F-58 UPDATES:

PHASE 2 and 3 Combined:

- The Combined Ph 2 and Ph 3 VE 100% bid documents package went out to bid last month. Bids are due on August 26 following an extension do to delays from late R.O.W. review comments and contractor question and answer addendums. The board will review and award the bid at the September 2 meeting.

MAINTENANCE SPECIFICATIONS / MANAGEMENT PLAN:

- County staff is revising the combined Ph 1, 2 and 3 maintenance bid documents as per George Fogg's input in preparation to go to bid.

MAINTENANCE SITE REVIEW UPDATE:

- Some trees have been found to be leaning and have needed to be straightened and re-staked from time to time. Lists are compiled and CLM prepares a price to re-set the trees and then does so once authorized.
- A few trees have died and been replaced or are in the process of being replaced some due to vandalism and destruction of form (having the top, central leaders broken off) and some from fatality including (1) Yellow Elder, (1) Golden Shower Tree, (1) Jacaranda and a few White Geigers.
- The white Geiger Trees have recently been diagnosed with Geiger beetles and CLM has been contacted to spray them.
- Suckers and low branches need to be trimmed from the base of some of the street trees.

Please email or call me if you have any questions.

Thanks,
