

RADIO ROAD EAST MSTU IRRIGATION PROGRAM

Bubblers are set for Sunday and Wednesday starting at 8:00 am for 7 minutes and run again for 7 minutes at 10 am, two hours later.

Total Run Time 56 minutes

Mist and Stream Rotors are set to run Monday and Thursday starting at 8:30 pm for 10 minutes and start again for a second cycle immediately after the first cycle ends.

Total Run Time 9 hours and 33 minutes.

Of course the programs are set to **Stop** in the event of an ½ inch of rainfall, so it would be safe for you to say they are in **Stop** mode.
