

EXECUTIVE SUMMARY
Committee Action
Item 5B
Endorsement of the CAT Bus Stop ADA Assessment

Objective:

Endorsement of the CAT Bus stop Americans with Disability Act (ADA) Assessment.

Considerations:

Collier County in coordination with the Collier Metropolitan Planning Organization has completed a study to identify areas to improve the access to and from the bus stops and transfer centers. This study included a comprehensive inventory of the existing bus stop conditions as well as a prioritization of improvements to address accessibility, security, operation and passenger comfort issues. Not only does the placement of bus stops and facilities affect passenger amenities, but service speed and schedule adherence also can be adversely impacted. The assessment outlines the development of the bus stop inventory, the prioritization of bus stop improvements and the phasing plan to implement improvements based on anticipated funding available.

Recommendation:

Endorse the CAT Bus Stop ADA Assessment.
