Debbie, please forward to the Committee.

To Fellow Committee Members:

My apologies for filling your mailbox, however since the minority opinion on N4/Moorings Bay insinuates there are no manatee in MB, I thought the attached picture taken this morning(4/21/16) from the Harbour Drive bridge would provide another perspective. Note the boat scars on the back of this animal(not saying these were inflicted in MB). I will also reiterate that current pictures are at least as valuable as fly over data from ten years ago. Thanks
Cliff
