

Bulletin #11: Reinstatement of Electrical Service

Date: December 28, 2015

Effective Date: December 28, 2015

Amended: April 27, 2023

To: All Staff

From: Fred Clum

Chief Building Official

Subject: Disconnected Electrical Services

In the event that the supplying electric utility company, FPL or LCEC, disconnects electric service to a building, it shall be necessary for a licensed electrical contractor to certify in writing on company letterhead, to include notarized signature of qualifier, that the electric service is code compliant with the National Electrical Code and safe to be energized.

Any necessary repairs or alterations shall require a permit to be issued and inspection(s) performed prior to the Building Department notifying the utility company for re-instatement of electric service.

Previously known as Building Block A-124
