About The Salvation Army

The Salvation Army, established in London in 1865, has been supporting those in need without discrimination for more than 135 years in the U.S. More than 25 million Americans receive assistance from The Salvation Army each year through a range of social services: food for the hungry, relief for disaster victims, assistance for the disabled, outreach to the elderly and ill, clothing and shelter to the homeless, and opportunities for underprivileged children. The Salvation Army tracks the level of need across the country with the Human Needs Index (HumanNeedsIndex.org). The Salvation Army has served survivors of every major national disaster since 1900. We serve those in need regardless of age, social class, gender identity, sexual preference or nationality.
