

City of Everglades Flood Hazard Areas

Legend

Flood Zone

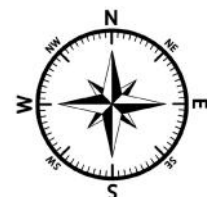

-  AE
-  VE
-  X500

Flood Zones Defined

Zone AE: Areas subject to inundation by the 1% annual chance flood event determined by detailed methods. Base Flood Elevations are shown on the FIRM.

Zone VE: Areas subject to inundation by the 1% annual chance flood event with additional hazards due to storm induced velocity wave action. Based Flood Elevations are shown on the FIRM.

Zone X500: An area of moderate flood hazard that is determined to be outside of the Special Hazard Area between the limits of the base flood and 0.2% (500 year) floodplain.
