Subject: The RLSA Credit System !!!

Dear Kris:

In following up on last evening's Collier RLSA ReStudy Workshop...it was clear to me...that attendees, for the most part...have little understanding of how "the Credit System" works...and how credits are generated, and then used to allow for more densities in the receiving areas!!! Most of the communications from attendees expressed concerns over their perceptions that TOO MANY CREDITS are being generated from the "SSAs" (those HSAs, WRAs and FSAs) to be utilized in the SRAs (receiving areas) and that the CREDITS will allow for MASS Development in the rural parts of Collier County! Please consider having an "in depth" discussion relative to the generation and utilization of "CREDITS" ...to better education participants on this!!! The concept and utilization of the "Credit System" needs to be explained and put into proper perspective!!! Thanks in advance for your attention to this.....

Sincerely;

Ron Hamel
