II Affinity Mapping

Dr. Amanda Evans, Facilitator, Florida Gulf Coast University

The public, land owners and stakeholders have been providing program improvement ideas through workshops, comment cards and e-mails over the past year. These have been captured and placed in the “Feedback Tracker” on the RLSA public workshop page found at www.colliercountyfl.gov/GMPrestudies. Staff has distilled these concepts into short statements. Dr. Evans will invite broad public participation in grouping these ideas into appropriate categories, clarifying these ideas where necessary, and identifying areas of broad consensus. This effort may carry over to the following workshop date.
