

# Water

Affirm  
Conformance  
with  
Lower West  
Water Supply  
Plan

Advocate/  
Encourage  
**Require filter  
marshes before  
any discharge  
into WRAs,  
where appropriate**

If a  
Water Retention  
Area is  
used for a  
CRA it should  
count toward  
SRA acreage  
(does not include down to  
the water table)

SRA approvals  
should stop if  
water  
quality/quantity  
is negatively  
affected

Reduce  
development  
outside  
important  
flowways and  
wetlands

~~Incentive~~  
Explore water  
storage on farm  
lands

Affirm  
Conformance  
with  
Lower West  
Water Supply  
Plan

Advocate/  
Encourage  
**Require filter  
marshes before  
any discharge  
into WRAs,  
where appropriate**

If a  
Water Retention  
Area is  
used for a  
CRA it should  
count toward  
SRA acreage  
(does not include down to  
the water table)

~~Require~~ low  
impact  
development  
practices to  
manage  
stormwater run-  
off where  
appropriate

Add provisions  
to protect water  
supply

3<sup>RD</sup> PARTY  
STUDY OF  
CUMULATIVE  
IMPACTS ON  
WATER QUALITY/  
QUANTITY  
FROM 43,300  
ACRES OF  
DEVELOPMENT

Require more  
stringent water  
management in  
SRAs than  
SFWMD  
requirements

# Agriculture

Create credits to keep Ag in open lands, in perpetuity

Remove <sup>the word</sup> premature conversion from descriptions of agricultural preservation conversion

AG Stewardship Credits:  
Keep 5 yr review recommendation

SUPPORT & INCREASE THE Preservation of agriculture

Agriculture should not be allowed in SSAs

Ag 1 should not be expanded in SSAs, even if 1 escrow

# Taxpayer Impact

All roads within SRAs to be paid for and maintained by SRA

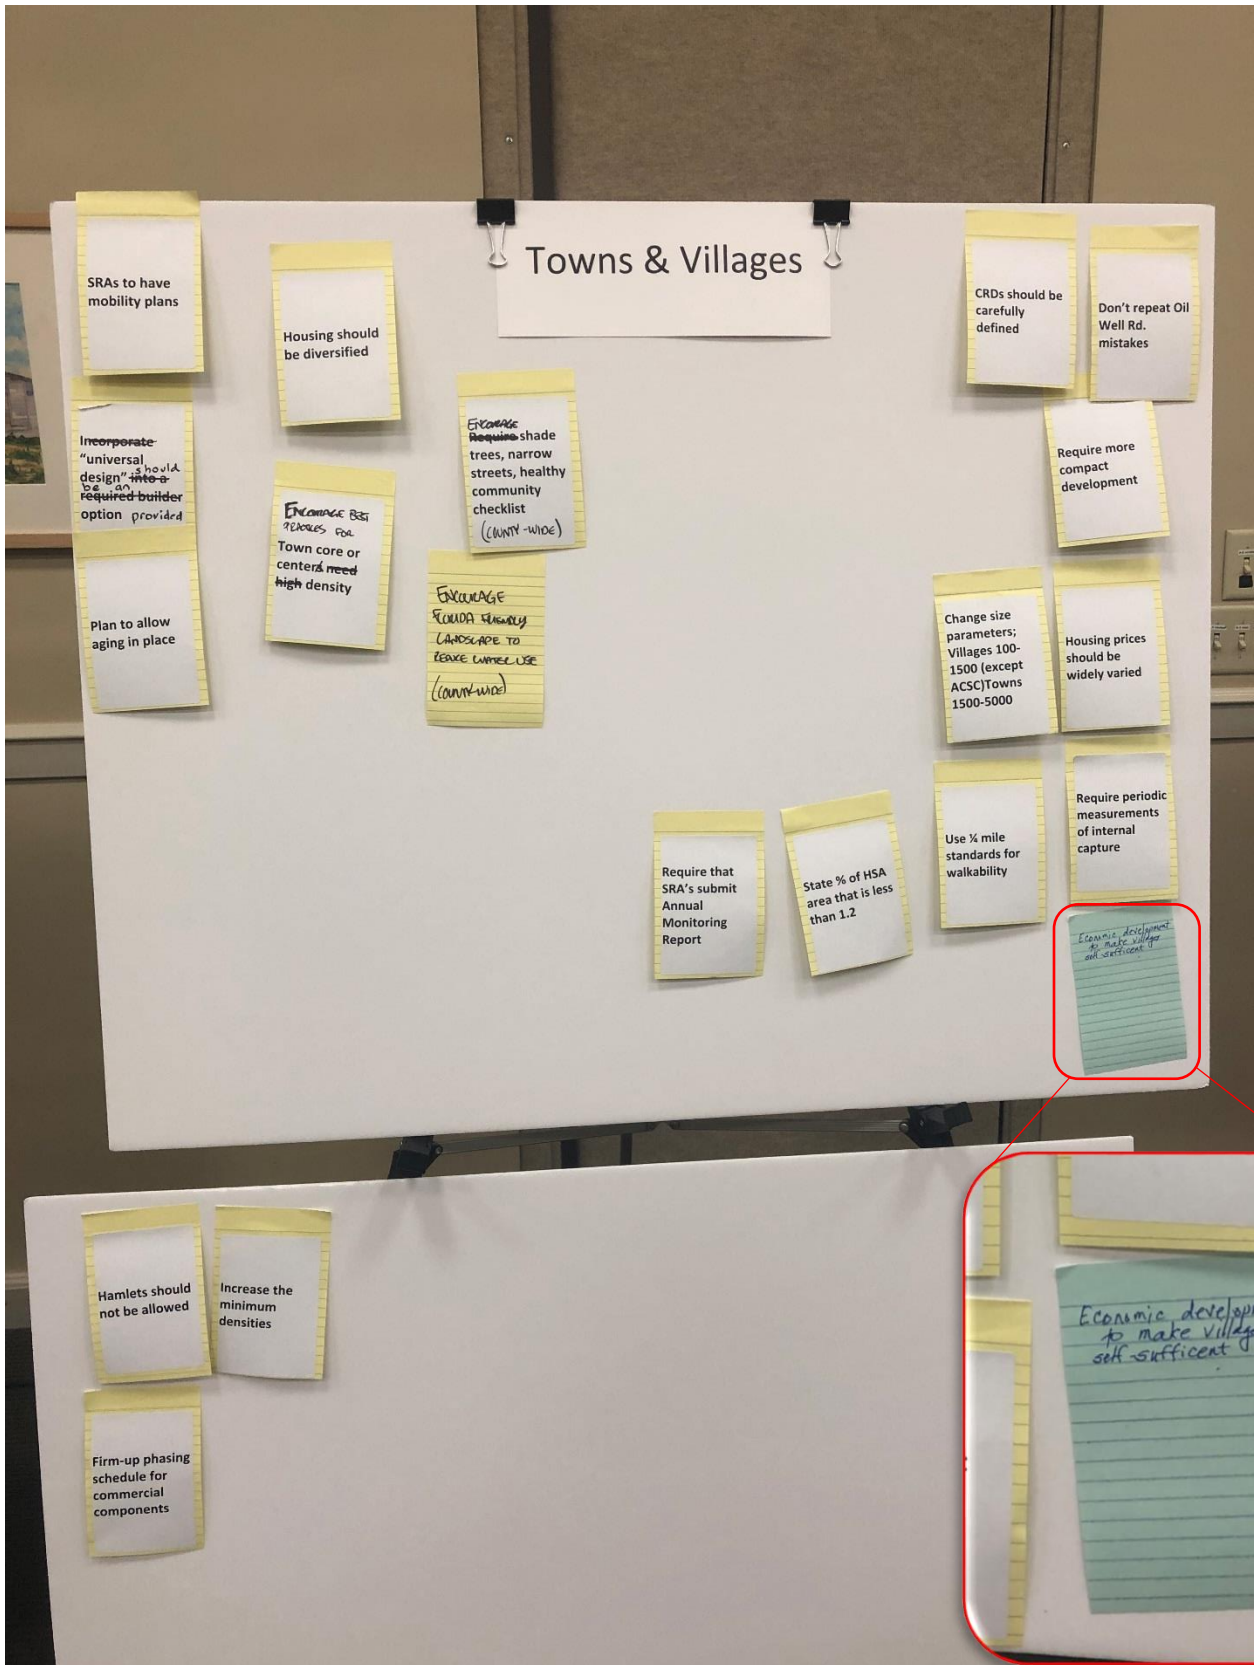

integrate the results of current Countywide Sea level Rise studies in RLSA + other areas

Consider EAC and CCPC comments during 5 year review

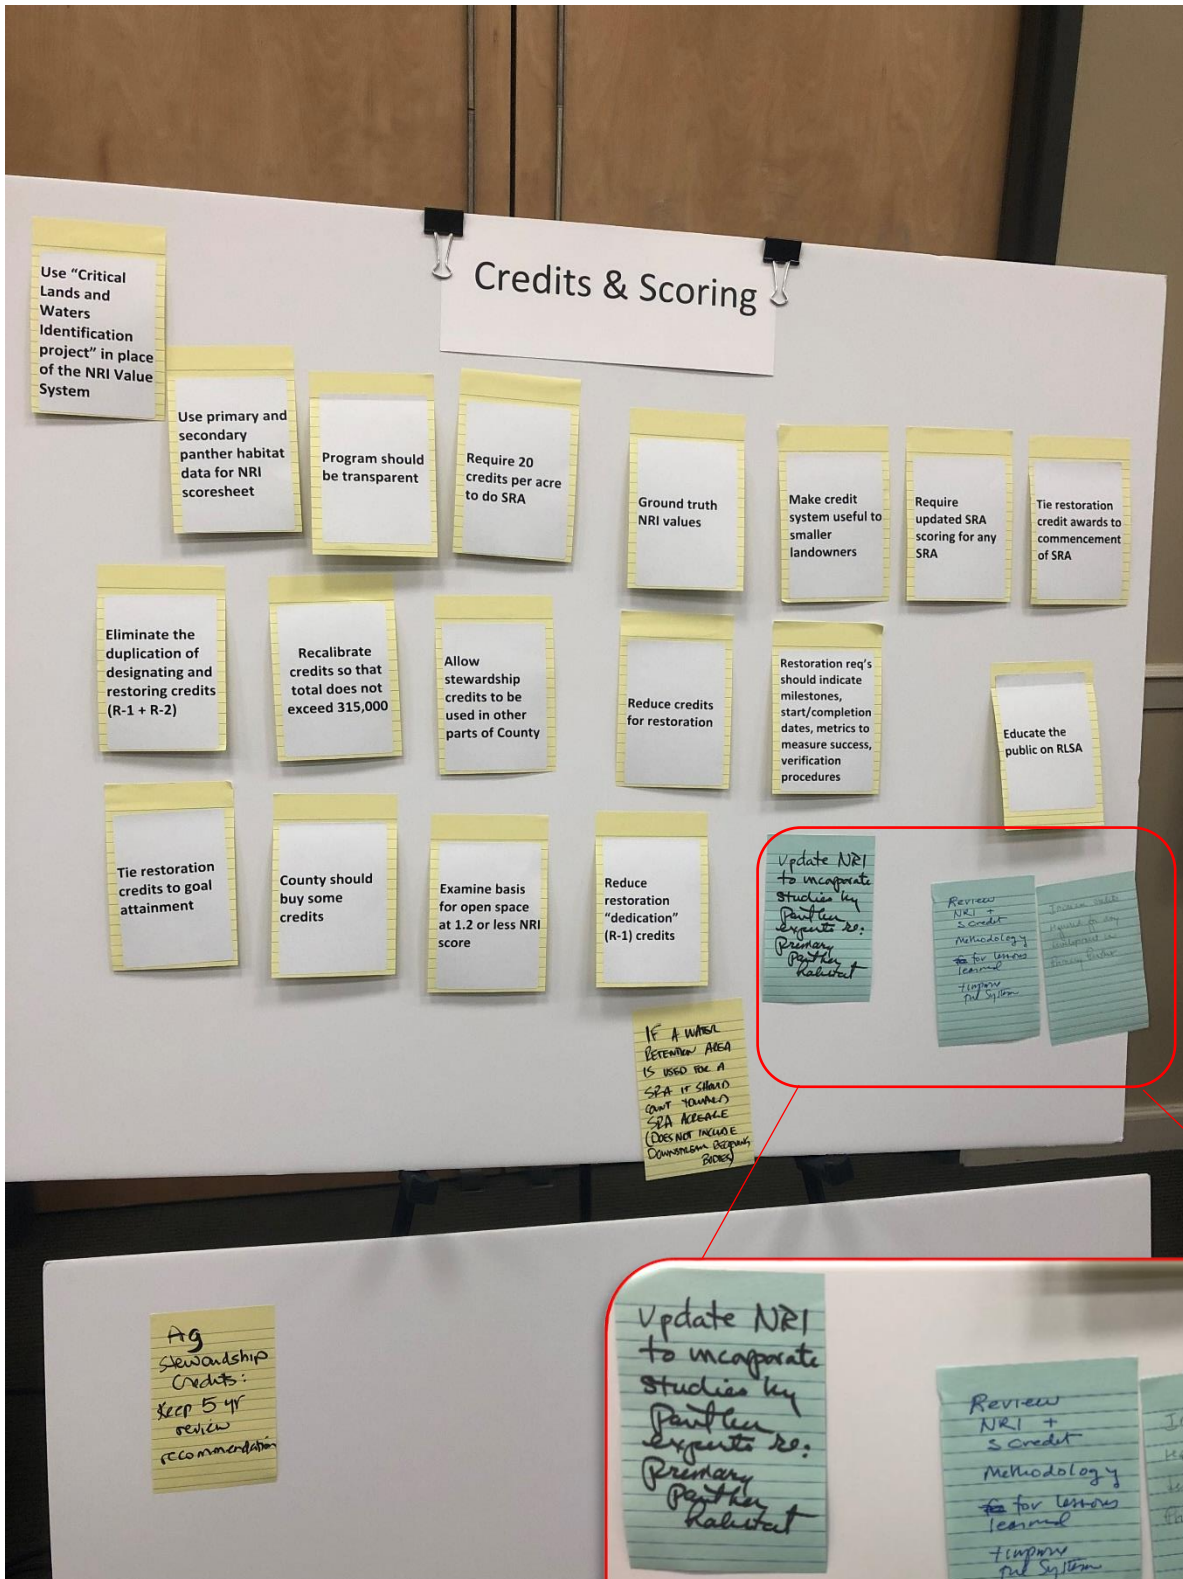

Agencies should NOT BE ALLOWED IN CSA

Calculate infrastructure cost

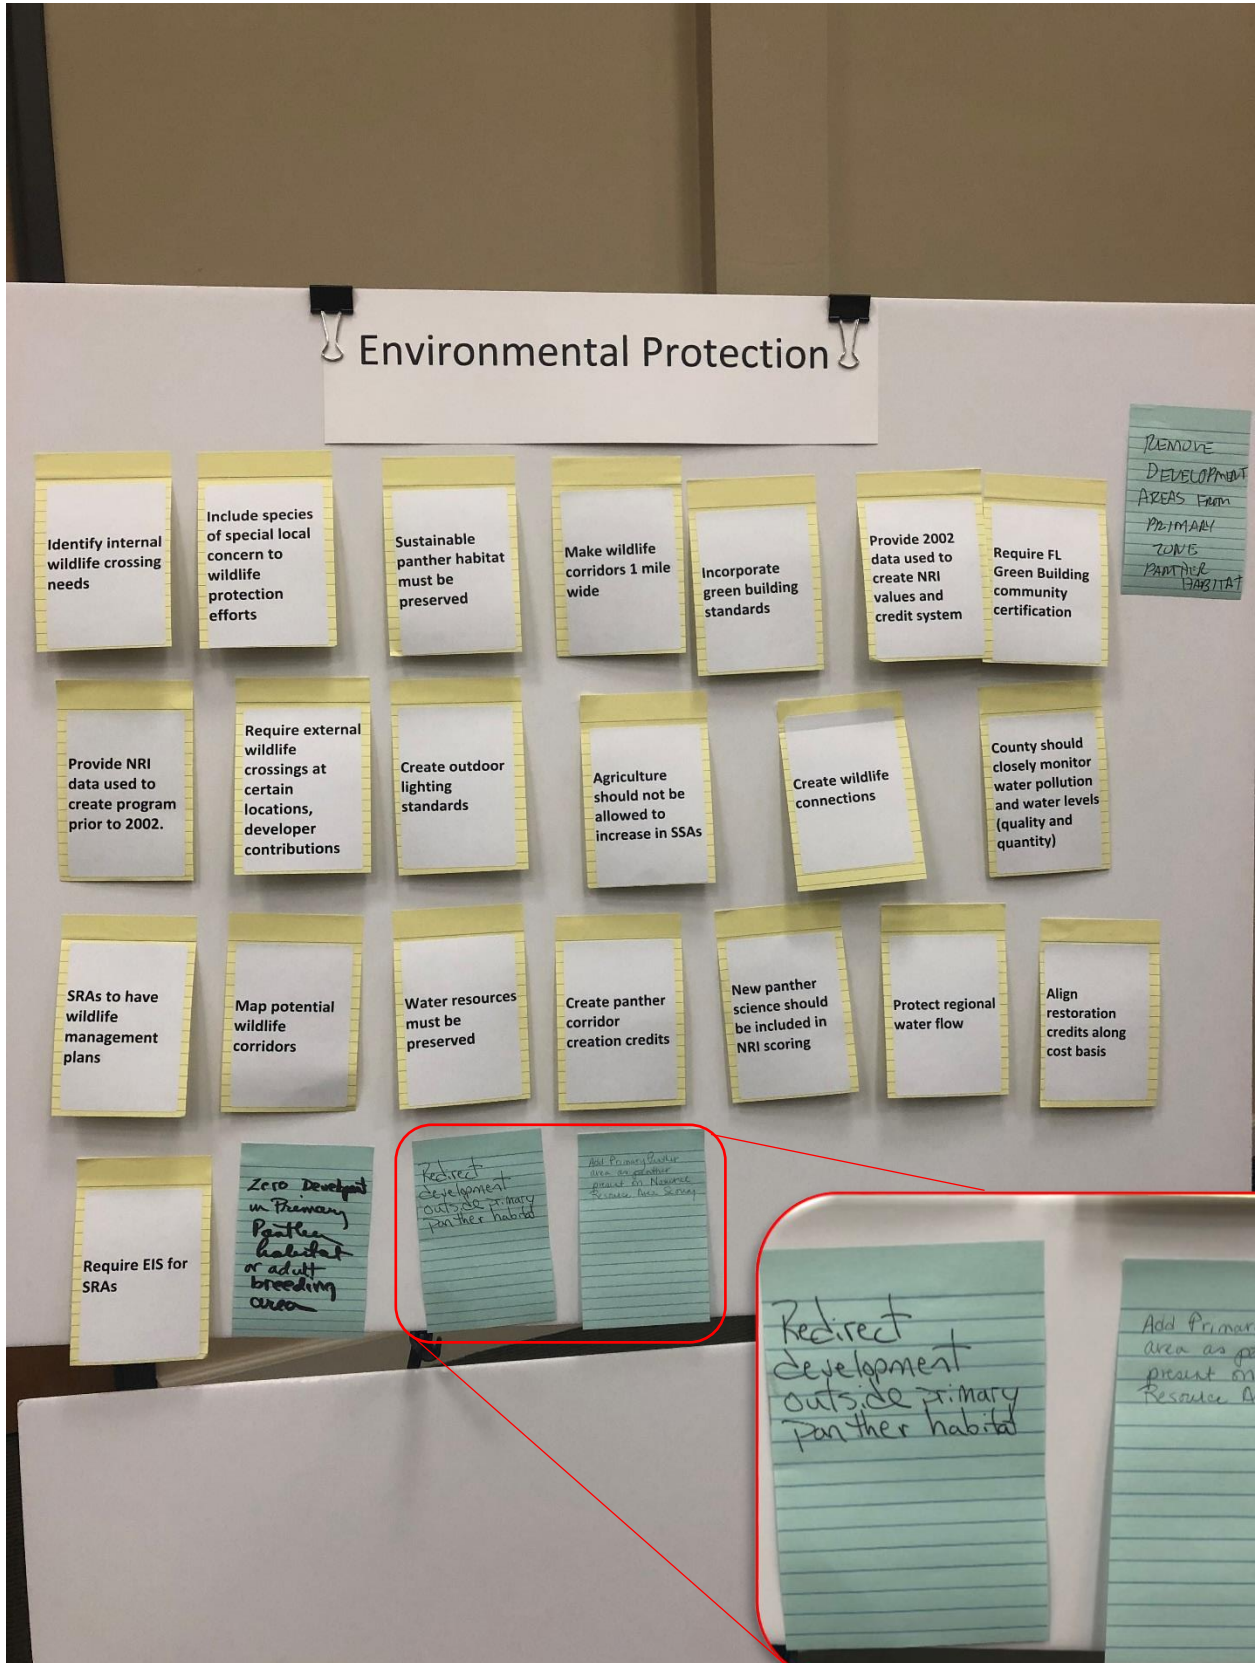

Left side of board was discussed; Right side of board to be discussed in March
