Be Healthy, Active & Playful This Summer @ Collier County Parks & Recreation!

Parks & Recreation "The Benefits Are Endless..."

Parks & Recreation - "The Benefits Are Endless..." Did you know community recreation, social programs, and services are very important to our community? They provide identity for citizens and are a major factor in the perception of quality of life in a given community. Parks and recreation services are often cited as one of the most important factors in a community. Parks provide gathering places for families and social groups, as well as for individuals of all ages and economic status.

Summer camps, open gyms and afterschool programs that are offered at our Community Parks are an effective and essential human service. Doesn't it make more sense to be proactive rather than reactive, especially when study after study bear out the importance of afterschool care? Community recreation programs provide a social outlet and a way to connect people. Community recreation programs and parks also provide for social equity, ensuring that all citizens have access and opportunity to benefit from parks and recreation services.

Collier County Parks & Recreation Division is uniquely situated to provide crucial benefits to our citizens. Our parks are public commons and are often the glue that brings and holds the community together. Collier County residents love their parks, community centers, beaches, and trails because they bring joy and pleasure to all people. Not only is parks and recreation an essential service but a basic necessity in improving Collier County's quality of life. Please continue to recognize and support our division's effort to make Collier County a great place to live, work and play.
