

RECORDED VIDEO INSPECTION GUIDE: RE-ROOF FINAL (170)

Permit Number: _____ Address: _____

NOTICE: These requirements are provided as general guidance for Recorded Video Inspections; the guide is not intended to be comprehensive in nature. Specific work may require additional video documentation to clearly present the scope of work. Inspectors reserve the right to visit any site to verify details. Inspectors have the authority to convert a Recorded Video inspection to an in-person inspection at their sole discretion. All work must demonstrate compliance with current codes and standards.

INTRODUCTION:

All Video Inspections must begin with the following:

- 1. Providing close-up of address numbers
- 2. State your name, company, date & time
- 3. Permit Card
- 4. Approved FL Product Approvals/ Miami-Dade NOA# (Provide close-up, allow device to focus)

FOR ALL RE-ROOFS:

Video must include:

- 1. Verify 169 inspection is passed and all required documents have been submitted.
- 2. Identify if roof-over or replacement as per approved permit.
- 3. Identify the structure to be inspected as per approved permit. Primary home, guesthouse, detached garage, etc. (Each building requires a separate permit and inspection video).
- 4. All roof products installed match current approved FL product approvals or Miami-Dade NOAs. (Change in product requires revision)
- 5. Verify that roof covering is completely installed.
- 6. Verify all rotted fascia board and any additional materials have been replaced.
- 7. Any off-ridge or ridge vents installed (as required).
- 8. Verify hip and ridge caps installed, tile roofs require all motor complete, and any counter flashing installed as required.

I _____ (printed name of submitter), as an authorized person to upload video inspection files in accordance with Collier County Virtual Inspection procedures, have reviewed the video and have verified items above have been checked by the installer prior to uploading to BOX, as required by Collier County requirements.
