

**DEPARTMENT OF THE ARMY PERMIT APPLICATION  
APRIL 2020**

**COLLIER COUNTY  
COMPREHENSIVE WATERSHED IMPROVEMENT PLAN  
COLLIER COUNTY, FLORIDA**

**SUPPLEMENTAL INFORMATION  
ATTACHMENT 3  
AGENCY COORDINATION**

### **Supplemental Information Attachment 3 - Collier County Watershed Improvement Plan Agency Coordination**

Collier County and its Consultant Team has met extensively with all of the local, state, and federal agencies having an interest in this project (some on multiple occasions). A partial listing of meetings held, and general topics discussed, are provided below. Detailed summaries of these meetings including attendee lists are available on request.

- 8/24/18: FWS and Rookery Bay NERR – Project overview, benefits and potential concerns
- 9/07/18: SFWMD Regulatory – Introduction to project
- 10/09/18: SFWMD Big Cypress Basin and PSRP – Introduction to project
- 10/09/18: Florida Forestry Service (FFS) – Project overview, monitoring plan, FFS concerns to be addressed through modeling, analysis and design
- 10/15/18: USACE Regulatory (Muriel Blaisdell) and PSRP PM Tiphonie Mattis – Initial pre-application, introduction to project, USACE regulatory process
- 11/14/18: FFS, FWC, FWS – Coordination for data collection and permitting requirements for listed species, communities, and water quality
- 11/14/18: SFWMD BCB – Introduce BCB staff to project and discuss water availability in Golden Gate Canal
- 1/16/19: FDEP Division of Ecosystem Assessment and Restoration – Water quality expectations and Rookery Bay impaired water status
- 3/13/19: USACE-IMC Modeling Team – Sharing of H&H modeling results and discussion of approach to modeling combined effects of CWIP and PSRP
- 5/21/19: Public Meeting – All potentially affected property owners notified and invited; Discussed project overview – need, benefits, infrastructure, potential flooding impacts, and TDR process to obtain necessary flowage easement over private properties.
- 9/05/19: FFS, FWC, FWS – Proposed conditions hydrology, potential impacts to vegetative communities, listed species concerns
- 10/15/19: SFWMD Big Cypress Basin – Project update focusing on hydrologic and hydraulic modeling completed for the CWIP
- 11/04/19: FDOT District 1 – Project overview, hydrology and hydraulics model results, avoidance of impacts to FDOT roads, use of FDOT right-of-way.
- 11/07/19: USACE Regulatory – Pre-application meeting to discuss project overview, listed species, proposed conditions hydrology, dredge and fill, historical resources, etc.
- 12/05/19: FWS – Listed species (Bonneted Bat, Florida Panther, others)
- 12/16/19: SFWMD Regulatory – Pre-application meeting; content of application
- 1/23/20: FWS – Bonneted bat survey requirements
- Multiple Dates: Participation in PSRP Monthly Team Coordination Meetings
- Multiple Dates: Individual meetings with Private Property Owners
